Atlanta "New Look" Meeting Schedule Revealed

Board Action Brings Schedule Changes

THE AOC'S GOVERNING BOARD, prompted by growing discussion on the subject, reviewed the problems created by Technical Sessions and Technical Committee Meetings held concurrently during the past Annual Meetings. Several members of the Society have suggested that an attempt be made to separate these two major functions at our National Meetings. The National Program and Planning Committee was instructed by the Governing Board during the Toronto Meeting to explore the practicalities of offering equal opportunities to attend both the Sessions and the Committee Meetings. This effort has resulted in an announcement by the Atlanta Convention Committee that the Spring Meeting schedule will initiate a separation of these two functions. It is anticipated that the plan will be projected to future meeting schedules.

Entertainment

R. L. Moore, Jr.
Registration

Afternoon—
Technical Sessions
Committee Meetings
Evening—
Annual Dinner Dance

WEDNESDAY, APRIL 24

Morning—
Committee Meetings
Technical Sessions

Noon—
Award Luncheon

Afternoon—
Board of Governors
Meeting

It is to be noted that the ladies program will include sightseeing tours, group breakfast, and ample time for shopping and relaxation.

The March issue will carry a complete outline of the technical program, and additional details on the Atlanta Spring Meeting. Complete information on pre-registration will soon be released. Early plans for attendance will insure a most enjoyable as well as educational experience in Atlanta.

Crude Glycerine Production Continues Upward Trend

According to the U.S. Department of Commerce, production of crude glycerine (including synthetic) for the month of November 1962 was 23.4 million lb, up 1.0 million lb from October, but down 0.3 million lb from crude production reported for November 1961.

At the end of October, crude and refined glycerine stocks in the hands of producers totalled 59.5 million lb, up 5.0 million lb from October, but down 6.4 million lb from November last year.

NOVEMBER (Million Pounds)				
Preliminary				
Glycerine 100% Basis	Factory Production		Factory and Ware- house Stocks (Producers)	
	Nov. 1962	% Change from Sept. 1962	End of Nov. 1962	% Change from Sept. 1962
Crude.....	23.4*	+ 4.5	29.0	+ 1.0
Refined, all grades.....	23.0	+15.6	30.5	+18.2
			59.5	+19.2

* Includes synthetic glycerine.

Maximum Oxidative Stability

Griffith's **G-50**

OIL SOLUBLE ANTIOXIDANT

Highly effective in retarding oxidation for long period in low concentration.

Excellent "carry-through" stability after exposure to high (baking) temperatures

Non-toxic

Imparts no flavor, odor, or color

Develops no flavor, odor, or color during its stabilizing life

Doesn't cause metal-reactive discoloration of product

100% Oil-soluble

Reasonable in cost

Packed in convenient non-returnable drums

YES—Contains Propyl Gallate

YES—Contains BHT and BHA

YES

YES

YES

YES—Contains Monoglyceride-Citrate

YES

YES

YES
