

Interest in the 1963 Short Course on "Advances in Soaps and Detergents," scheduled to start on June 23, has been very active and the response gratifying, stated Eric Jungermann, Program Chairman. By June 5, registration had already topped 200. Due to the active registration, and so as not to disappoint Short Course applicants, arrangements are being made to lease additional facilities from the Nassau Inn, which is a short walk from the Princeton Inn. The Nassau Inn is a modern, air-conditioned hotel under the same management as the Princeton Inn, and with equivalent facilities. It is fortunate that arrangements for these additional facilities could be made in time. It has been decided to declare registration closed when the registration tops 160 full time Short Course members, so as not to crowd existing facilities.

The fee of \$95 is payable in advance to the AOCS offices at 35 East Wacker Drive, Chicago 1, Ill. This covers room (double occupancy) and board from Sunday evening through Wednesday luncheon, as well as Plant Trips and Registration fee. Day Registration is also available at \$25 per technical day session; it includes luncheon, but not dinner, and is payable in advance. Day registrants are asked to indicate which day they are planning to attend.

Enrollments received by the Society office before May 15 are as follows:

- W. C. Ault, EURDD, Philadelphia, Pa.
- E. I. Birnbaum, Hart Products Co. of Canada Ltd., Guelph, Ont., Can.
