

OLD HAND?

NEW HAND?

You may be a veteran at the business of fortifying margarine with vitamin A, in which case you probably know that our vitamin A is a fine, stable product; that it's available as MYVAPACK® Vitamin A in batch-size cans; that the labels can be color-coded; that we provide fast shipment and help with incorporation problems. If, on the other hand, you are a new arrival on the vitamin A fortification scene, you may want to know the whole story.
