

Next Stop Chicago!

Committee Chairmen Geared for Action

Make Your Plans Early

With attention now focused on Chicago, scene of the 38th AOCS Fall Meeting, October 11-14, 1964, all of the many able committees (chairmen appeared on page 8 of your April JAOCs) are now preparing to host the record attendance this meeting is expected to attract. Publicity has been broadly based in this country, Canada and the continent—some through the courtesy of other journals in the field of fats and oils.

Activities are being planned in all phases to assure the Chicago Meeting is just the right blend of technical stimulation and unforgettable entertainment—with a ladies' program tailored to their interests.

May is not too soon for you to start planning for Chicago.

Exhibit Area Expanded to Accommodate Increasing Response

Products to be Reviewed in Future Journal

Outstanding exhibit opportunities have been planned for the Chicago Meeting, with headquarters in the Pick-Congress Hotel in the Convention City of the World, according to an announcement by D. P. Arndtsen, chairman.

With an all-time record attendance expected, exhibitors are assured of an overwhelming response to either big or little displays from a select group. Traffic patterns at our Meeting have been studied to give this display area the widest possible access. Registration, social events and meetings all are contained in the area surrounding the booths.

It has been necessary to expand our exhibit facilities nearly 50% in the past two years because of increased interest in this phase of our Fall Meeting. As the *Journal* goes to press, we have sold 44 booths out of a possible 52. Those exhibitors, with booth assignments, are:

- American Mineral Spirits Co., Div. of the Pure Oil Co.—19, 21.
- The V. D. Anderson Company—8.
- Applied Science Laboratories—37, 38.
- Artisan Industries, Inc.—35.
- Balw-Knox Company—33, 34.
- The R. J. Brown Company—43, 44.
- Central Scientific Company—5.
- Chemetron Corporation, Votator Division and Catalyst Department—9, 10.
- The DeLaval Separator Company—45.
- Distillation Products Industries—39.
- Durkee Famous Foods—17.
- Eastman Chemical Company—40.
- Engineering Management, Inc.—20.
- F & M Scientific Corporation—6.
- Gardner Laboratory, Inc.—15.
- Hoffmann-LaRoche, Inc.—24.
- Humble Oil & Refining Company—52.
- Industrial Filter & Pump Manufacturing Company—23.
- Infotronics Corporation—36.
- Mallinckrodt Chemical Works—7.
- G. Mazzoni S.p.A.—26, 27.
- Micro-Tek Instruments, Inc.—14, 16.
- Niagara Filters, a Division of Ametex, Inc.—41, 42.
- Precision Scientific Company—32.
- L. A. Salomon & Brother, Inc.—12.
- Scientific Products—49.
- Signal Oil and Gas Company—48.
- Sparkler Manufacturing Company—3, 4.
- Special Libraries Association Translation Center—25.
- Union Texas Petroleum, a Division of Allied Chemical Corporation—18.
- Waters Associates—1, 2.

Site of the 38th Fall Meeting

Diverse Technical Program With International Overtones Planned

R. A. Reiners, Technical Program chairman, is planning a varied program that reflects the diverse interests of the fats and oils chemists around the world.

A paper describing the determination of *cis-trans* isomerization in dehydrated castor oil derivatives, using gas-liquid chromatography, will be presented by J. W. Breakley of Victor Wolf Limited, Manchester, England. He will also discuss the alkali isomerization of methyl linoleate and compare the GLC method with infrared analysis.

H. Niewiadomski of the Polytechnical Institute of Gdank, Poland, will present a paper on the chlorophylls and carotenes of rapeseed oil.

The effect of wheat lipids in bread doughs will be described by a pioneer in wheat lipid research, J. B. M. Coppock of Spillers Limited, London, England.

This is only a hint of the exciting program being planned. JAOCs will bring you announcements of many more papers from the technological centers of the world as plans firm up.

Abstract Form Available for July 15 Deadline Convenience

Speakers desiring to present papers on any phase of the fats and oils industry are asked to send their titles, authors' names, speakers' names and a 100-300 word abstract to: R. A. Reiners, Corn Products Company, Moffett Technical Center, Box 345, Argo, Ill. 60502.

Even though the deadline is July 15, an early filing of titles and abstracts will greatly facilitate the Program Committee's work. For your convenience, a tearout Abstract Form has been provided to your right. It is designated "a" and "b," and can be removed without changing the page sequence of your May Journal.

Wilkens Instrument & Research, Inc.—22.
Wurster & Sanger, Inc.—11, 13.

If you are planning to be represented in the Chicago Exhibits, the Society recommends that you devote your immediate attention to selecting the required space. Make all contacts to AOCS Headquarters, 35 E. Wacker Dr., Chicago, Ill. 60601.

Enthusiastic Attendance at NE Section 3rd Annual Symposium

Students Guests of Industry

One hundred and fifteen enthusiastic registrants responded to the Northeast Section's 3rd Annual Symposium on "Methodology and New Development," held April 7 at the Hotel Essex House, Newark, N. J.

Much credit for the success of the meeting goes to Chairman M. K. Smith of The Baker Castor Oil Co., and his committee: S. S. Chang, Rutgers, The State University; E. A. Lawrence, Union Carbide Chemicals Co.; Frank Naughton, The Baker Castor Oil Co.; O. J. Ackelsberg, Drew Chemical Corp.; S. N. Milazzo, Cat-Chem Corp.; A. M. Rossetto, Jr., L. A. Salomon & Bro., Inc.; and Stanley Purcell, Standard Brands, Inc.

A feature of the NE Section symposia has always been the invitation to students in local colleges. It not only opens the meetings to a wider audience, but also assists students in their college work and direction for careers. The 12 students attending this year's symposium were guests of The Baker Castor Oil Co., Drew Chemical Corp., Enjay Co., L. A. Salomon & Bro., Inc., and Union Carbide Chemicals Co.

American Oil Chemists' Society

ABSTRACT FORM

For Offering Papers at Official Meetings

(PLEASE REVIEW INSTRUCTIONS AND INFORMATION ON REVERSE SIDE)

TITLE OF PAPER:			
AUTHORS	POSITION OR TITLE	COMPANY OR INSTITUTION	INDICATE SPEAKER WITH A "✓"
Complete Mailing Address for Correspondence with Regard to This Paper and Its Presentation			
Work Done At:			
ABSTRACT: Length 100-300 words. If additional space is required, use plain white paper. The abstract should contain a summary of important findings to be included in the final presentation. Abstract should be typewritten, double-spaced. ONE CARBON COPY ON PLAIN WHITE PAPER SHOULD BE SUBMITTED WITH THIS FORM.			

*Information and Instructions
for
Authors of Papers*

PUBLICATION RIGHTS:

The American Oil Chemists' Society reserves first publication rights on all papers delivered at official AOCS Meetings. A release from the Journal Editor must be obtained by authors wishing to publish elsewhere. Submitting of a paper to another publication before scheduled oral presentation can cause cancellation. Please promptly inform the Journal Editor of other than routine publication plans.

ABSTRACTS:

Abstracts should be 100-300 words long. Utilize the space provided on the reverse side. Please submit ONE CARBON COPY on plain white paper, in addition to the form.

DELIVERY TIME:

The delivery time for the standard paper is 20 minutes, including brief discussion period.

DEADLINE:

Note the deadline for abstracts at bottom of reverse side of form. The program will be arranged immediately thereafter. Please mail your two copies of the abstract in time to allow its arrival before the deadline.

ACCEPTANCE:

The author will be contacted at the earliest possible date with regard to acceptance and scheduling of his paper.

EQUIPMENT AND FACILITIES:

Please advise the Program Chairman if you will require any equipment other than 3¼" x 4" lantern slide projector, blackboard and chalk. The aforementioned items will be available without request.
