

38th FALL MEETING
EXPOSITION

Oct. 11-14, 1964
Pick-Congress Hotel
Chicago

A "MUST" FOR
REGISTRANTS

TECHNICAL
SALES
and
SERVICE

AMERICAN CHEMICAL SOCIETY, Washington, D.C. (BOOTH 51), will illustrate the activities of its member, professional and Public Relations Divisions. Various publications of the Society will be displayed and information about them available from representatives of the local section.

AMERICAN MINERAL SPIRITS CO., Chicago, Ill. (BOOTHS 19,21), will exhibit miscella charts for Hexane in combination with vegetable oils, featuring an actual gas chromatogram with hydrocarbon isomers identified. They will also display a unit used as part of the manufacturing control of AMSCO Hexane. Representatives: T. Barker, E. W. Brennan, K. W. Keys, R. H. Koehler, R. L. Moore, W. A. Oudshoorn, C. A. Porter and F. Walter. See ad on 2nd Cover.

THE V. D. ANDERSON CO., Cleveland, O. (BOOTH 8), will feature information and literature about their De-watering, Vegetable Oil and Rendering Expellers, Solvent Extraction, Continuous Rendering and Steam Specialties. Attendants: M. A. Williams, S. Baer, R. R. Perry and D. B. Lee. See ad on page 65.

AMERICAN OIL CHEMISTS' SOCIETY, Chicago, Ill. (BOOTH 50), is host exhibitor and will offer complete information on the AOCS, its purposes and functions. *The Journal of the American Oil Chemists' Society* will be a dominant feature, along with latest Official and Tentative Methods, Guide to Authors, and general aid to fall meeting registrants. Non-members are encouraged to visit us.

APPLIED SCIENCE LABORATORIES, INC., State College, Pa. (BOOTHS 37,38), will exhibit GC supplies (solid supports, stationary phases, calibration standards), TLC supplies (ADSORBOSIL powders, decending TL apparatus), high purity lipids (phosphoglycerides, branched

chain fatty acids, cholesteryl esters). In attendance: R. S. Henly, W. R. Supina, Nicholas Peliek, M. E. Miller, Timothy Wilson and F. M. Angeloni. See ad on page 52.

ARTISAN INDUSTRIES, INC., Waltham, Mass. (BOOTH 35) will demonstrate working models of their Evaporator-Stripper and Kontro Turbulent Film Evaporator. J. L. Baird and L. J. Monty will be on hand to tell you about the use of this equipment and Jet-Vac's activities in the vacuum process operation. See ad on page 49.

BLAW-KNOX CO., Pittsburgh, Pa. (BOOTHS 33,34), Food Processing Dept., Chemical Plants Div., will emphasize diversified Process-Ability, supporting technical services and complete plants . . . food processing, extraction plants and those for the fatty acid industry. In attendance: Ken Becker, Bob Good, Reno White and Sam Reed.

THE R. J. BROWN CO., St. Louis, Mo. (BOOTHS 43, 44), will feature a Hospitality Lounge; coffee will be served and E. L. Metcalf, J. M. Baggs, William Such, Bob Brown and E. A. Von Doersten will be on hand to visit with customers and friends. See ad on page 5.

CENTRAL SCIENTIFIC CO., Chicago, Ill. (BOOTH 5), Division of Cenco Instruments Corp., will exhibit pH meters, moisture balance single pan analytical balances, vacuum oven, colorimeter and assorted lab hardware. R. Bilser and R. Stilner will be in attendance.

CUSTOM SERVICE CHEMICALS, INC., Wilmington, Del. (BOOTH 28), will exhibit: TLC plates—pre-coated and ready to use; reverse phase and silver nitrate coatings for separating complex liquids or saturated and unsaturated isomers. Complete thin-layer demonstrations (bring own samples). Personnel: J. W. Holston, Jr., and M. K. Brandt. See ad on page 48.
