

## • *New Literature*

BARISH PUMP COMPANY, INC., has issued a graphically illustrated Job Story sheet on liquid handling applications for positive displacement rotary pumps. (441 Lexington Ave., New York, N. Y. 10017).

THE PFAUDLER Co. has a new 12-page Buyer's Guide of chemical process equipment and engineering materials (1000 West Ave., Rochester, N. Y. 14603).

WORTHINGTON CORPORATION has released "Portrait" Bulletin on their Multi-Stage WT Centrifugal Pump. The 4-page publication (2134-M1) contains photographs of disassembly stages in changing the Teflon bushing, and demonstrates the easy maintenance of the high pressure service pump. (Harrison, N. J.)

TRI-ROTOR, INC. has available a new brochure entitled, "V-Head Variable Volume Pumps," describing the extensive range of services performed by this mechanism. (36 E. Lawton St., Torrington, Conn., U. S. A.)

THE NATIONAL SOCIETY OF PROFESSIONAL ENGINEERS has published "Opinions of the Board of Ethical Review," a compilation of cases involving ethics and the practice of engineering. The 114-page booklet covers 58 cases. (2029 K Street, N. W., Washington, D. C., 20006. Price, \$1.50; 75¢ to NSPE members.)

E. H. SARGENT & Co., has issued Bulletin SRL-3 featuring Sargent Model SRL Laboratory Recorder for use with spectrophotometers, photometers, densitometers and similar instruments for recording either transmittance or absorbance. (Dept. SRL, 4647 W. Foster Ave., Chicago, Ill., 60630.)

PERKIN-ELMER CORPORATION offers a brochure (D-406) on single and three-reflection attenuated total reflection accessories and their application to several typical infrared analysis problems. (Instrument Division, Main Avenue, Norwalk, Conn.)

ARTHUR H. THOMAS COMPANY has prepared a detailed descriptive bulletin on a new Carbon-hydrogen analyzer, Ingram Micro Type, which utilizes the accepted standard method of rapid combustion of a sample in an excess of oxygen, with gravimetric finish. (Vine St. at 3rd, P. O. Box 779, Philadelphia, Pa. Price, moderate.)

NESTER-FAUST MFG. CORP. has issued a 12-page brochure illustrating and describing its new line of preparatory gas chromatographs, Prepkromatic 850. Details are included on Prepkromatic's automatic programming operation, peak collection, bi-wall column comparison tests, mechanical specifications and accessories. (2401 Ogletown Road, Newark, Delaware.)

ITERG (INSTITUTE OF FATS AND OILS), Paris, France, has published a 56-page manual, in French, entitled "Manual for the Analysis of Animal Fats." (Institut De Corps Gras, 5, Boulevard de Latour-Maubourg, Paris 7<sup>e</sup>eme, France.)

THE US DEPARTMENT OF COMMERCE has prepared an extensive publication on the "Feasibility of Establishing a Fullers Earth Processing Plant in Marshall County, Kentucky." (Superintendent of Documents, US Government Printing Office, Washington, D.C. 20402. Price, sixty cents.)

THE US DEPARTMENT OF COMMERCE has also prepared one of a series of reports presenting preliminary information on industries and products covered in the 1963 Census of Manufacturers. The report, "Soap and Other Detergents," (MC63 (P)28D-1, is for sale by the Bureau of the Census, Washington, DC 20233 and US Department of Commerce Field Offices. Price, ten cents.)

COLEMAN INSTRUMENTS CORPORATION has published a 32-page catalogue, B-298, "Photometric Instrumentation for the Analytical Laboratory." (42 Madison Street, Maywood, Illinois 60154.)

SCIENTIFIC GLASS APPARATUS COMPANY, INC. has issued a 20-page bulletin, describing 30 new items for the laboratory. (Bloomfield, New Jersey.)

LAB-LINE INSTRUMENTS, INC., offers a 250-page free catalogue of information on the newest scientific instruments designed for hospital, clinical chemical, petro-chemical, research, test and control laboratories of all types. (Lab-Line Plaza, 15th and Bloomingdale Aves., Melrose Park, Ill.)

CHROMATOGRAPHY CORPORATION OF AMERICA is offering a new 6-page bulletin fully describing a system of flow connectors, chromatographic columns, reservoirs, needle valves, and tubing for column chromatography. (60 B. East Main St., Carpentersville, Ill.)

HAYES G. SHIMP, INC., offers descriptive literature on the Lovibond 3 Aperture Comparator and standards, which gives rapid and reliable testing and color grading of fats and oils with glass color standards conforming to the FAC color scale (AOCS Official Method Cc-13a). (870 Willis Ave., Albertson, N. Y.)

INFOTRONICS CORP. has issued a 4-page brochure containing detailed information on the firm's line of digital systems for automatic real-time integration of amino acid analysis peaks and digital data collection for computer processing. (7800 Westglen Drive, Houston, Texas)

REEVE ANGEL Catalog 3000 is a compilation of data on filter papers, containing grade listings, folded filter papers, glass fiber papers, lens and bibulous papers, specialty items, and chromatography and electrophoresis paper and accessories. (9 Bridewell Place, Clifton, N. J.)

CHEMICAL SAMPLES COMPANY has issued a catalog listing the various hydrocarbons available, their purities, and prices in milliliter quantities. Prices range from \$2 per ampule up to \$15 for a few of the more rare materials. (4692 Kenney Road, Columbus, Ohio.)

EMERY INDUSTRIES, INC., has published a booklet concerning the packaging, shipping, and handling of its fatty acids products. (Advertising Department, Emery Industries, Carew Tower, Cincinnati, Ohio.)

## REVUE FRANCAISE DES CORPS GRAS

Edited by the Institut des Corps Gras  
(The well-known French Research Center on oils,  
fats and derivatives)

5, bd de Latour-Maubourg, Paris 7<sup>e</sup>eme

Subscription Rate: 60 F (\$12.25)  
for one year.

Specimen available on request at the Institute.

List and prices of the bound lectures of the annual  
"Journées d'Information" (Short Course) are also  
available at the Institute.
