- Richard Earl Berry, Project Manager, Methods and Process Control, Quality Control Department, Armour Grocery Products Co., Montgomery, Ill.
- Carl Malcom Cater, Cottonseed Products Research Laboratory, Associate Director, Texas A & M University, College Station, Texas
- Tan Wee Chong, Research Associate, Biochemistry Department, Indiana University School of Medicine, Indianapolis, Ind.
- Joseph Arvel Cruse, Plant Superintendent, Durkee Famous Foods, Chicago, Ill.
- Pierre Favarger, Director of the Institut de Biochimie médicale, Geneva, Switzerland
- Gerlad Deland Gernon, Food Scientist, R. J. Reynolds Tobacco Co., Winston-Salem, N. C.
- Frank Denby Gunstone, Reader in Chemistry, University of St. Andrews, St. Andrews, Scotland
- Ichiro Hara, Tokyo Medical and Dental University, Tokyo, Japan
- Tetsutaro Hashimoto, Head of First Section (Oil Chemistry), Fifth Division, Government Chemical Industrial Research Institute, Tokyo, Japan
- Charles Edwin Holman, Chemist, Best Foods, Division, Corn Products Co., Chicago, Ill.
- James R. Hunt, Laboratory Director, Seydel-Woolley & Co., Atlanta, Ga.
- Jun'ichi Kawanami, staff member, Shionogi Research Laboratory, Osaka, Japan
- Neva L. Karriek, Assistant Laboratory Director, Bureau of Commercial Fisheries, Food Science Pioneer Research Laboratory, Seattle, Wash.
- Akio Kato, Senior Research Fellow, Government Chemical Industrial Research Institute, Tokyo, Japan
- Mohammed A. Q. Khan, Postdoctoral Fellow, Department of Entomology, North Carolina State University, Raleigh, N. C.
- James Herbert McClare, Assistant Supervisor, Oil Laboratory, Canada Packers, Toronto, Canada
- George W. Panzer, Manager of Product Development, Aleolac Chemical Corp., Baltimore, Md.
- Miguel Victorio Pinasco Limas, Technical Director, Oleotécnica S. A., Lima, Peru
- Edwin Henry Probst, Supervisor of Quality Control, Agway Inc., Buffalo, N. Y.
- Ronald A. Robinson, Chemist, Purex Corporation, Ltd., Wilmington, Calif.
- Herbert George Rodenberg, Chemist, Emery Industries, Inc., Cincinnati, Ohio
- Beverly Jean Rutkowski, Associate Research Chemist, Whirlpool Corporation Research Laboratory, St. Joseph, Mich.
- Thomas Gerald Schoenburg, Junior Chemist, The Richardson Company, Melrose Park, Ill.
- David Sharp, Quality Control Manager, Atlas Chemical Industries, Wilmington, Del.
- James W. Shields, Senior Research Associate, Lever Brothers Research Center, Edgewater, N. J.
- Charles Wilson Thorpe, Research Chemist, US Food and Drug Administration, Washington, D. C.
- John Dean Turner, Assistant Professor of Medicine, Baylor University College of Medicine, Houston, Texas
- Joseph Roy Wynne, Research Supervisor, HumKo Products, Memphis, Tenn.

### Individual Associate

- Donald W. Gaddie, Chemist, Arizona Chemical Co., Panama City, Fla.
- Joseph W. Stice, Jr., Quality Control Supervisor, Quincey Soybean Co., Quincy, Ill.

Established 1904

## HOUSTON LABORATORIES

Analytical and Consulting Chemists

311 Chenevert Street P.O. Box 132 Houston 1, Texas

### Active Junior

- Pramod K. Agarwal, Graduate Student, Department of Biology, Queen's University, Kingston, Ontario, Canada
- Glenn Arthur Corliss, Graduate Assistant, Food Science Department, Michigan State University, East Lansing, Mich.
- Edward Arthur Grellert, Graduate Student, University of California, Los Angeles, Calif.
- Logan Monroe Hill, Graduate Assistant, Department of Dairy and Food Industries, Iowa State University, Ames, Iowa
- Marta S. Hoffman, Graduate Assistant, Department of Biochemistry, University of Florida, College of Medicine, Gainesville, Fla.
- Donald Craig Johnson, Graduate Assistant, Department of Dairy and Food Industries, Iowa State University, Ames, Iowa
- John Frank O'Brien, Graduate Fellow, Kansas State University, Manhattan, Kan.
- Badruddin Siddiqui, Graduate Student, Department of Psychiatry, Ohio State University College of Medicine, Columbus, Ohio
- Joseph Lee Williams, Research Assistant, Burnsides Laboratory, University of Illinois, Urbana, Ill.
- Vernon Carl Witte, Graduate Assistant, University of Missouri, Columbia, Mo.

## PARR STIRRED REACTORS

- 1000 psig. working pressure.
- 350° C. working temperature.
- One and two liter capacities.
- Corrosion resistant construction.

An automatic temperature controller, a new packing gland and other improvements are included in the latest model.

Ask for new Spec. 4500 or phone (309) 762-7716 for details.
