

# AOCS Candidates Nominated for Office, 1968-69

The Nominating and Election Committee have announced that the following individuals are candidates for election to AOCS offices for 1968-69.

These candidates have excellent qualifications for the offices for which their names have been proposed, and all have made substantial contributions to the AOCS, its continuing work and its future.

The membership can feel pride in the quality of this

slate, knowing that each individual listed can well fulfill the requirements of the office for which he has been nominated.

Ballots for the election have been mailed, and must be returned to AOCS headquarters on or before March 1. Results of the balloting will be announced at the Annual Spring Meeting in Washington D. C.

## Second Call for Nominations, Fifth AOCS Award in Lipid Chemistry

### Canvassing Committee Named

R. J. VanderWal, Chairman of the Award Nomination Canvassing Committee, has issued the second call for nominations for the Fifth AOCS Award in Lipid Chemistry.

R. J. VanderWal

have presented the results thereof through publication of technical papers of high quality. Preference will be given

Dr. VanderWal, Armour & Co., is working with the following committee members in soliciting nominations for this award: Roslyn B. Alfin-Slater, University of California; Carter Litchfield, Texas A&M University; K. K. Carroll, University of Western Ontario; and Lloyd Horrocks, Cleveland Psychiatric Institute.

The rules prescribe that nominees shall have been responsible for the accomplishment of original research in lipid chemistry and must

to individuals who are actively associated with research in lipid chemistry and who have made fundamental discoveries that affect a large segment of the lipid field.

For award purposes, the term "lipid chemistry" is considered to embrace all aspects of the chemistry and biochemistry of fatty acids, of naturally occurring and synthetic compounds and derivatives of fatty acids, and of compounds that are related to fatty acids metabolically, or occur naturally in close association with fatty acids or derivatives thereof.

The award will be made without regard for national origin, race color, creed or sex.

Letters of nomination, together with supporting documents, must be submitted in octuplicate to R. J. VanderWal, Chairman, AOCS Award Nomination Canvassing Committee, Armour & Co., Research Division, 801 W. 22nd St., Oak Brook, Ill. 60521, before the deadline date of Aug. 1, 1968.

The supporting documents shall consist of professional biographical data, including a summary of the nominee's research accomplishments, a list of his publications, the degrees he holds, together with the names of granting institutions, and the positions held during his professional career. There is no requirement that either the nominator or the nominee be a member of the American Oil Chemists' Society.
