General Chairman

Duke Bryan
Registration and
Reservation Chairman

I. C. Bentz
Hotel Chairman

T. I. Kennedy
Entertainment Chairman

R. S. Watson
Finance Chairman

William Argue
Golf Chairman

With the challenges presented by the recent AOCS-ISF joint meeting in Chicago fresh in their memories, the members of the Planning Committee (identified by the surrounding photographs) are actively engaged in finalizing all facets of the AOCS 1971 Houston Spring Meeting, May 2 through 6, at the Shamrock Hilton.

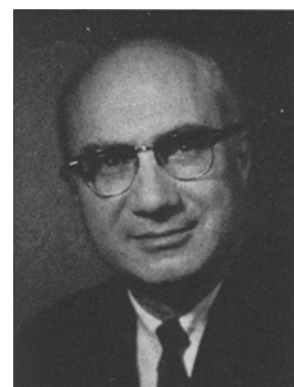

Particular emphasis at present is being given to the technical program by Raymond Reiser, past president of the AOCS, assisted by R. A. Phelps and L. R. Watkins. Their efforts, together with the assistance and guidance provided by K. T. Zileh and other members of the National Program Planning Committee, are resulting in the formation of a technical program that we are confident will have broad appeal to the membership of the AOCS.

A protein symposium headed by Dr. Phelps, Technical Director of Agricultural and Industrial Operation, Anderson Clayton, will feature such prominent personages as: Aaron Altschul, USDA, Washington, D.C.; Charles Feldman, Gulf Oil Corp.; A. D. McGilliard, Iowa State University; Mrs. Wilda Martinez, SURDD, USDA, New Orleans; Harold Wileke, Ralston Purina Co.

The process section will feature a two-part symposium emphasizing environmental control of process waste streams from the crude oil mills, vegetable oil refineries and food plants. This portion of the process technical program is under the direction of J. E. Heilman, Process Engineer, Allied Mills Inc., Chicago, Illinois.

Invitations for the submission of papers for presentation during these sessions have been sent out. In order to properly schedule papers and publish informative abstracts, three copies of a 100-300 word abstract with title, authors and speakers should be sent to Dr. Raymond Reiser, Technical Program Chairman, Texas A&M University, College Station, Texas 77843, before December 1, 1970.

Subsequent issues of the Journal will provide you with further details of what promises to be a most outstanding Spring Meeting. Make your plans now to share in the Texas size hospitality that only Houston can offer.

Raymond Reiser
Technical
Program Chairman

R. H. Hammond
Plant Trips Chairman
