

Dorothy Rothmann addresses AOCS Northeast Section

The AOCS Northeast Section met at the New York Chemists Club to hear Dorothy M. Rothmann of CPC International talk on "Fat-Controlled Diets in the Prevention of Coronary Heart Disease."

Rothmann addressed a group of 60 persons on the clinical nutrition effect of diets in the incidence and severity of cardiovascular disease. From animal research and epidemiological studies a hypothesis was presented indicating that habitual intake of a diet rich in saturated fats was a causative factor in coronary heart disease. Modifications of diets to lower serum cholesterol levels were indicated to prevent premature heart attacks and strokes. Results from field trials with fat-controlled diets were tabulated and shown on slides and film.

Following a discussion of Rothmann's presentation, election of officers for the forthcoming year was completed; the slate for 1972-73 is as follows: President, Stanley Dominik; Vice-President, Robert Casparian; Secretary, Joyce Kern; and Treasurer, Kak Yuen Tao.

The program for 1972-73 will be initiated at the next Northeast Section meeting, in September. ■

Manny Eijadi, and Marguerite and Farhad Idjadi.

Left to right: Manny Eijadi of PVO International, Dorothy M. Rothmann of Best Foods Div., CPC International Inc., and M. Mattikow, Meetings Chairman.
