

## Notice of special AOCS business meeting

The Governing Board of the American Oil Chemists' Society gives official notice of a special business meeting of the Society at 8:30 A.M. Monday, September 30, 1974, at the Sheraton Hotel, Philadelphia.

The purpose of the meeting is to consider amendments to Section IX of the Society Bylaws. These changes would change the language of the Bylaws to eliminate references to spring and fall meetings of the Society. The new Bylaws would read:

Section 1. *Meetings.* There shall be at least one general meeting of the Society each year for the presentation of papers and discussion of scientific interest and conduct of business as required by the Articles of Incorporation.

Section 2. *Time and Place of Meetings.* The Governing Board shall decide the time and place of the meeting not later than the time of the previous meet-

ing. The Governing Board may change the time and place of the meeting if in its opinion the change may serve the best interests of the Society or may cancel a meeting in time of emergency.

Section 3. *Notice of Meetings.* No change from present language is proposed in the amendment.

Section 4. *Organization of Meetings.* The Governing Board shall select a general chairman for each meeting. The general chairman, with the approval of the Governing Board, shall establish such committees as he deems appropriate and appoint the chairmen. Tentative budgets shall be submitted to the Governing Board in ample time to allow revision by the Governing Board. The various committees shall be responsible for arranging the place, date, program, entertainment, industrial trips, hotel reservations, meeting room arrangements and other details, all subject to the approval of the Governing Board.

Section 5. *Postponement of Meetings.* No change in the language of this section is proposed in the amendment.

Rules governing the amendments to AOCS Bylaws are contained in Article X of the Bylaws. (See page 98 of the 1973-74 AOCS Directory of Membership.) Comments regarding the proposed amendments can be made in writing to the Executive Director, AOCS, 508 South Sixth Street, Champaign, Ill. 61820. ■

### OIL REFINERY MANAGERS

TO REDUCE OIL REFINERY LOSSES by installing and using the original "Oil Refinery Digital Percent Loss Monitor" (or Efficiency Meter) First on the market. The original 1971 design is now even better, providing Electronic Automatic Temperature Compensation and Automatic Moisture Compensation. Drift free, self proving Digital Electronics have easily adjusted Digital Factoring switches for various fluid coefficients. Low cost options to Elliott Loss Monitor includes a Digital Recorder and Data Collection System to control and reduce losses, to Totalize and keep track of production and to automatically cross calibrate flowmeters. A recommended option is our Digital Blending System to precisely control the ratio of oil, caustic and water for better quality control and to eliminate these variables so that Elliott Loss Monitor only indicates the refining loss and not the pressure and flow volumetric upsets to the ratio controls. Start-up assistance by our staff and by our expert oil refinery consultant will make your Elliott Loss Monitor pay off incredibly fast. The Oil Refinery Digital Percent Loss Monitor is a basic tool in any refinery and with present raw material prices you can not afford to be without it.
