

# What Durco filters take out of your product is nearly as important as what you put in!

The quality and care that goes into your product is obviously important to you and your customers, but so is filtering out unwanted ingredients. We'd like to show you why a Durco filter system offers superior filter performance over other kinds of filters, dollar for dollar, and space for space, installed. And we give you a choice of many types.

## Tubular

Durco tubular filter/strainers, for everything from straining to fine polish filtering. Available in single, dual or multiple tube systems, with flow rates from 1 to 3100 gpm. Exclusive "Shock Backwash" and completely automated systems available.

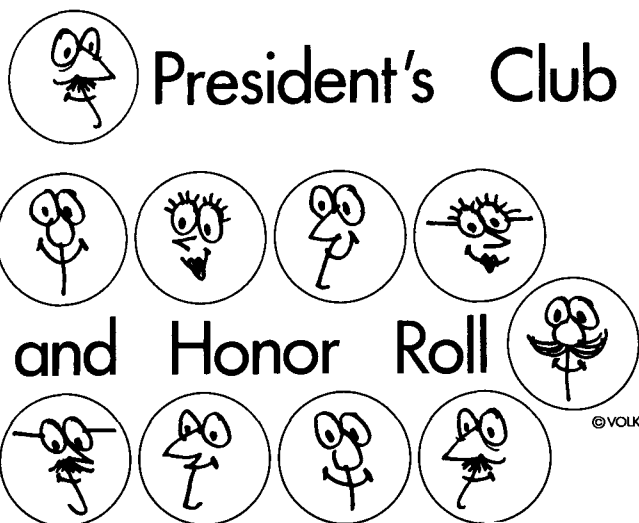

## Vertical & Horizontal

Durco pressure leaf filters, either vertical or horizontal, offering choice of sluicing or dry cake discharge cleaning. Wide range of sizes and flow capacities for even the most demanding applications.

Plus unequalled startup and service help in designing, installing and maintaining your filter system.

For information, call (716) 549-2500 or write.

THE DURIRON COMPANY, INC.  
ANGOLA, NEW YORK 14006

*The members listed here have qualified for either the AOCs President's Club or President's Honor Roll. All current members who successfully recruit at least one new member qualify for Club membership. Successful recruitment of at least three new members is the qualification for the more prestigious Honor Roll. All Club and Honor Roll members will receive further recognition and the opportunity to participate in other special programs and activities. Special forms for use in recruiting new members are available from the AOCs headquarters.*
