Obituaries

Robert A. Duncan

Robert Andrew Duncan, 86, an Emeritus member of ACOS who joined the Society in 1924, died on August 6 of a heart attack.

Duncan retired from Procter & Gamble in 1959 as associate director of the chemical division. Following work at the University of Missouri, he taught chemistry at Oregon State University and then managed phenol production for Monsanto. He joined P & G in 1918 and, in charge of process development from 1923-1937, was involved in the development of milled soap, early spray-drying of soap granules, and continuous soapmaking.

While visiting laboratories in Germany in 1931, he learned of research involving sulfated fatty alcohols and arranged for shipment of 10 kg to Cincinnati for testing. This led to the introduction, in 1933, of Dreft granules and Drene shampoo, which inaugurated the era of curd-free synthetic detergents for home use. ■

Lester P. Hayes

An AOCs member since 1956, Lester P. Hayes died on December 7. He was employed by A.E. Staley Manufacturing Co. in Decatur, IL.

Hayes, who attended Blackburn College and the University of Illinois, worked in the field of fats and oils since 1949. ■

Curtis J. Mantooth

Curtis J. Mantooth, AOCs member since 1973, died June 18, 1976. He was chemist in charge, Oilseed Processing Division, Anderson Clayton, Abilene, TX. ■
