

68th ANNUAL MEETING – NEW YORK CITY, NEW YORK – MAY 8-12, 1977
Americana Hotel

General Chairman – Frank Naughton Technical Chairman – David Berner

This program promises to be interesting! Symposia on varied topics from the processes of fats and oils from natural resources as well as from synthetic origin, palm oil processing and marketing, to food fat processing and marketing will be discussed in detail. As a special feature, we will have symposia on food and diet of humans and its effects on heart disease, obesity, and arteriosclerosis. In another session, analytical methods and instruments will be the topic for discussion. For details, be sure to watch for your next issue of *JAOCS*. Let's all plan for fun and a great meeting at the *BIG APPLE!*
