Eastman vs. Instability

Vegetable oil? A few years ago we introduced a new antioxidant, Tenox[®] TBHQ (tertiary butylhydroquinone).

In vegetable oils, particularly the more polyunsaturated oils, TBHQ has proven to be an extremely effective antioxidant.

If you use BHA or BHT in your oil, you might be better off with TBHQ. At least, it may be worthwhile to find out.

If you haven't evaluated TBHQ, we would like to help. Call 800-251-0351 (in Tennessee 800-352-0301) or send us this coupon.

Better Products for Better Food.
