## Every VOTATOR/SCHENK Filter has a built-in cleaning crew.

- Fast removal of bleaching clay and hydrogenation catalyst.
- Centrifugal action spin-cleans horizontal filter plates... discharges cake in dry form or slurry. Quick turn-around.
- Batch or continuous operation.
- Minimum operator attention. Can be fully automated.
- Write Votator Division, Chemetron Corporation, P.O. Box 43, Louisville, Kentucky 40201. Or call (502) 491-4310.

SMALLEY

CHECK

SAMPLE

PROGRAM

Interested analysts should write to Smalley Committee, AOCS, 508 S. Sixth St., Champaign, IL 61820, prior to June 14, 1976, for order forms and complete information, which will be distributed before each series begins.

The following Check Sample Series (the number of samples being shown in parentheses) are offered:

|   |                     |                      |
|---|---------------------|----------------------|
| Cottonseed (10)                                 | Oilseed Meals (15)  | Cottonseed Oil (4)   |
| Soybeans (10)                                   | Edible Fats (5)     | Soybean Oil (4)      |
| Peanuts (7)                                     | Drying Oils (6)     | Copra (4)            |
| Safflower Seed (7)                              | Tallow & Grease (5) | NIOP Fats & Oils (5) |
| Gas Chromatography (fatty acid composition) (6) |                     |                      |
| Cellulose Yield (cotton linters) (10)           |                     |                      |
| Aflatoxins (cottonseed products) (6)            |                     |                      |
| Aflatoxins (peanut products) (6)                |                     |                      |

Additional series will be offered should sufficient interest be indicated. Please advise the Smalley Committee of series you feel would be of value.

John E. Williams, Chairman, Smalley Committee
