

Referee Certificates

Applications for certification or recertification in the AOCS Referee Chemist program must be returned to AOCS Headquarters, 508 S. Sixth St., Champaign, IL 61820, by no later than March 15, 1977, or the applicant will be ineligible to be listed in the 1977-78 official list of Referee Chemists.

Recertification notices have been mailed to last year's participants. New applicants should write to AOCS Headquarters and request application forms. Recertification application fee is \$10; new applicant fee is \$30.

**Referee Chemist deadline is
March 15**

Eastman vs. Instability

Vegetable oil? A few years ago we introduced a new antioxidant, Tenox[®] TBHQ (tertiary butylhydroquinone).

In vegetable oils, particularly the more polyunsaturated oils, TBHQ has proven to be an extremely effective antioxidant.

If you use BHA or BHT in your oil, you might be better off with TBHQ. At least, it may be worthwhile to find out.

If you haven't evaluated TBHQ, we would like to help. Call 800-251-0351 (in Tennessee 800-352-0301) or send us this coupon.

Better Products for Better Food.

Health and Nutrition Division

Eastman Chemical Products, Inc., Kingsport, Tenn. 37662.

Please send me more information on Tenox TBHQ.
