Elsevier International Bulletins has announced two new monthly journals of interest to persons involved with protective coatings. Powder Coatings Bulletin will focus on all-solid systems of coatings. Waterborne and High Solids Coatings Bulletin will cover waterborne coatings and those in which traditional solvent content is reduced. Each journal costs \$95 a year, or \$215 for a three-year subscription. Contact: Graham Jones, Elsevier International Bulletins, Mayfield House, 256 Banbury Road, Oxford OX2 7OH England. ●

NSPA committee to push exports

The National Soybean Processors Association's newly formed Meal Export Development Committee will visit London, Paris, Brussels, and Vienna in May to promote sales of U.S. soybean meal there. Brazilian meal has been displacing U.S. products. The five-member team will talk with Western and Eastern European purchasers of U.S. soybean meal. ●

Milliken hydrogenation unit operating

Milliken Chemical, a division of Milliken & Co., has announced the start-up of a new catalytic hydrogenation facility, available for custom projects or toll synthesis. The unit is equipped with two 2,000 gallon stainless-steel autoclaves operating at 2,000 psig pressure. Information: Milliken Chemical, Inman, SC 29349. ●
