

# Obituaries

## H. Dean Bartholomew

H. Dean Bartholomew, a member of AOCS since 1973, died July 1 after a short illness. Mr. Bartholomew was a marketing and sales service executive with Filtrol Corporation. Mr. Bartholomew was a graduate of the University of North Dakota.

## Dr. George Potter

Dr. George C. Potter, a member of AOCS since 1954,

died June 18, 1978, in Manhattan, KS. He was 61. Dr. Potter had retired in 1976 as manager of lipid chemistry at the Quaker Oats Research Laboratory in Barrington, IL.

Dr. Potter received his bachelor and master degrees at Kansas State University and his doctorate at the University of Illinois in 1954. He had been a member of the North Central Section of the AOCS. Dr. Potter also held memberships in the ACS, AAAS, Phi Lamda Upsilon, Gamma Sigma Delta, and Sigma Xi. Survivors include his widow, Maxine; a son, David; two grandchildren; and a sister.

## G.H. Rowland

George H. Rowland, a member of AOCS since 1945, died June 25, 1978 of a heart attack. He was 63. Mr. Rowland was technical sales and special projects manager for the Brookside Division of Safety Stores, Inc., in Denison, TX, and had been with the firm since 1952. Before that he had worked for Best Foods and The Borden Co. Mr. Rowland was a 1937 graduate of Dickinson College where he majored in chemistry. Survivors include his widow, Marjorie, two sons, a daughter, a brother, and two grandchildren.

## OTAI international congress in February

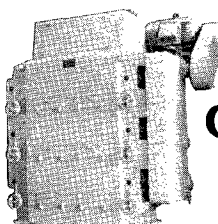

Details of the International Congress on Oilseeds and Oils scheduled for February in New Delhi, India, are expected to be available soon from the Oil Technologists Association of India, organizers of the conference.

Deadline for submission of abstracts was July 31. OTAI is reviewing abstracts to prepare the final program. Persons not already on a mailing list to receive the program may request information from Shri S.C. Singhal, Convener, International Congress on Oilseeds and Oils, DCM Chemical Works, PO Box No. 6219, New Delhi - 110015, India.

Information also will be available from local offices of Air India, official airlines for the conference. Meeting dates are Feb. 9-13, 1979. The program will cover oilseed agronomy; new sources of oils and fats; stability quality control; biosynthesis, metabolism, and nutrition; toxicology; process technology; and appropriate technology for developing countries.

# Unmatched

- Ability to hold precise settings—for long periods of time
- Oil extraction efficiency
- Ruggedness

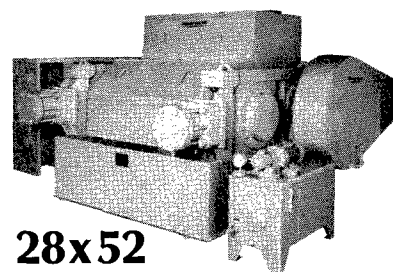

**10x42  
Cracking  
Mill**

The Roskamp-Langhurst Cracking Mill offers consistently higher conversion through uniform particle size reduction and lower fines.

Three-pair high rated at 340 tons per day; two-pair high at 280 tons per day.

Vibratory feeder; highest quality chilled iron rolls.

Write for Bulletin RC-1042.

**28x52  
Flaking Mill**

The extra rugged, extra dependable Roskamp-Langhurst Flaking Mill provides greatest capacity per square foot of floor space.

Five-ton frame — heaviest in the industry; five-ton chilled iron rolls; simple, fingertip operator controls; vibratory feeder.

New 4-color fully-illustrated brochure RL-2852 gives complete details. Write, phone for your copy.
