May 13-16, 1979—Chemical Specialties Manufacturers Association Incorporated, 65th Mid-Year Meeting, The Drake Hotel, Chicago, IL. Contact: Chemical Specialties Manufacturers Association, 1001 Connecticut Ave., NW, Washington, DC 20036.

Dec., 1979—Chemical Specialties Manufacturers Association Incorporated, 66th Annual Meeting, Washington, DC. Contact: Chemical Specialties Manufacturers Association, 1001 Connecticut Ave., NW, Washington, DC 20036. ●

SD&C Industry News

SCC symposium to be Sept. 27

The Fourth Midwest Symposium of the Society of Cosmetic Chemists is to be held Sept. 27, 1978, at the Marriott Hotel, 8535 W. Higgins Rd., Chicago.

Registration fee is \$30 for those who preregister, \$35 at the meeting.

Speakers will be R. Lindsey, Roure Bertrand Dupont Inc., "Problems: The Catalyst to Progress"; H. Maibach, University of California, "Cosmetic Sensitizers: Trick or Treat"; D.C. Steinberg, Miranol, "New Chemicals for the Personal Care Industry"; and W.J. Mergens, Hoffmann-La Roche Inc., "Nitrosamines and Means of Blocking Their Formation"; and M.J. Burke of Consumer Advertising and Promotion Associates, H. Eiermann of the FDA's Division of Cosmetic Technology, and S. McNamara of the CTFA providing an update on regulatory activities.

The symposium will begin at 9 a.m. and will include cocktails and lunch at the hotel's Kona Kai Restaurant. Registrations should be sent to Allan Jacobsen, Stepan Chemical Co., Flavor and Fragrance Division, 500 Academy Drive, Northbrook, IL 60062. ●

Monsanto Co. has published a 16-page technical bulletin describing its ethylene maleic anhydride resins for use in liquid detergents, household products, shampoos, and toiletries. The EMA resins are made by co-polymerization of ethylene and maleic anhydride. Copies of the bulletin are available from Monsanto Industrial Chemicals Co., Dept. 133, 800 N. Lindbergh Blvd; St. Louis, MO 63166. ●

Shiseido Labs of Japan has won the Society of Cosmetic Chemists award for the best paper published in the society's journal during 1977. The \$2,000 award, sponsored by International Flavors and Fragrances Inc., was presented during a spring SCC meeting in Chicago. The paper, "Studies of Water-in-Oil Emulsions Stabilized with Amino Acids or Their Salts," was written by Y. Kumano, S. Nakamura, S. Tahara, and S. Ohta. Judges selecting the paper were Dr. Jerome, Dr. Jungermann, Mr. Silverman, and Mr. S. Sichak. ●

The Richardson Company's Organic Chemicals Division describes its new Richamide Liq as a "90% active, high lauric alkanolamide" that has been synthesized to remain liquid at room temperature, eliminating the need for glycols or other diluents. Richardson also says its new hair conditioning agent, Richquat 150, can be used in smaller amounts than competing substances. It is compatible with glycerol stearate, fatty alcohols, and sorbitan esters, the firm says. ●

PQ Corporation has three new bulletins describing properties and application of sodium silicate liquids, solids, and powders (Bulletin 17-102, 17-103, and 17-104). PQ's anhydrous and pentahydrate metasilicates for detergent formulations and cleaning compounds are described in Bulletin 17-102. All three publications are available from PQ Corporation, PO Box 480, Valley Forge, PA 19482. ●
