P&G

shuffles personnel

The Procter & Gamble Company has announced a number of elections and appointments. Donald I. Lowry, currently group vice-president with responsibility for industrial and institutional products, was elected senior vice-president. Albert E. Harris, current vice-president-international, succeeds Lowry as group vice-president in the industrial and institutional products area. Fred M. Wells, currently vice-president-industrial foods division, was elected vice-president-industrial chemicals division. Succeeding Wells as manager of the industrial foods division is Lawrence D. Milligan, current manager of the special products group.

Newly elected group vice-president is Kingston Fletcher, current vice-president-international. He will continue to have responsibility for operations in Canada, Japan and the Philippines. Sanford G. Weiner, currently manager, food products division, was elected vice-president-food products division. Robert T. Blanchard is now manager of the bar soap and household cleaning products division.

In related moves, P&G announced that Harald Einsmann, currently associate division manager-international, will become division manager-international with responsibility for operations in France, Belgium, Holland, Austria and Switzerland. J. Russell Marsden, currently general manager of Procter & Gamble Italia, S.p.A., will become division manager-international with responsibility for company operations in Italy and Spain.

Two newly created P&G positions also were recently filled. R.W.R. Kendall, general manager of the case soap division of Procter & Gamble Inc., P&G's Canadian subsidiary, has been appointed to the new position of division manager-Canada. Frederic H. Kruse, general manager of Procter & Gamble Sunhome Co., Ltd., P&G's Japanese subsidiary, has been appointed to the new position of division manager-Japan. □

Kokini

Kokini appointed at Rutgers

Dr. Jozef L. Kokini has been appointed an assistant professor of food engineering at Rutgers University. Dr. Kokini specializes in textural properties of food and has developed a new concept in correlating physical parametric values with sensory ratings on the texture. He received his doctorate in 1977 from Carnegie-Mellon University. □

Brooker honored

AOCS emeritus member Stanley G. Brooker has been appointed an honorary lecturer in the Department of Chemistry at the University of Auckland in New Zealand. Brooker has been involved in the chemistry/food science industry for more than 40 years and is presently the sole honorary lecturer for the chemistry department (and perhaps, he notes, the first ever for the department). □
