

Inside AOCS

Award of Merit

Nominations are being sought for the 1984 AOCS Award of Merit. The Award of Merit was established in 1967 to recognize current achievements, without regard to age of the nominee, and to serve as a stimulus for those working in various AOCS activities. Types of service to be considered will include active productive leadership in AOCS committee work, marked leadership in technical, administration or special committees or Society activities; outstanding activity of service that has particularly advanced the Society's prestige, standing or interest, any distinguished service to the Society not otherwise specifically provided for. Recipients are presented with the award during the annual meetings. Nominations for the 1984 award should be made to Dr. R. G. Krishnamurthy, Senior Group Leader, Kraft Inc. Research & Development, 801

Waukegan Rd., Glenview, IL 60025. Deadline for nominations to be received is Feb. 28, 1984.

Errata

The September *JA OCS* inadvertently omitted the names of two recipients of "outstanding paper" awards for presentations during the 1983 AOCS annual meeting this past May in Chicago.

The two additional recipients and their presentations:

Edward Selke, USDA Northern Regional Research Center, Peoria, IL, "Volatile Constituents from Glycerol-Tris-*cis*-9, *cis*-15-Octadecadienoic Acid Heated (192 C) in Air."

Brady A. Vick, USDA, North Dakota State University, "The Biosynthesis of Jasmonic Acid: A Physiological Role for Plant Lipxygenase."

**We Are The Professional
Consulting and Design Engineers
Serving the
Grain Handling & Processing Industry**

We take pride in working out innovative solutions to complex problems; solutions which are the most cost effective methods available. Dennis E. Roby & Associate's seasoned professionals are ready to work with your company as a team approaching each project from the standpoint of budget constraints and time limitations. Call today to discuss your needs for tomorrow.

- Retrofit of Existing Facilities
- Bulk Material Handling Systems
- Plant Modernization
- Facility Evaluations
- Project Administration
- Site Locations
- Complete Design of New Facilities
- Load-Out Systems—Rail, Truck, Ship, Barge
- Structural Repair Analysis

**NEW!! REMOVE FFA FROM HOT FOOD OILS!
FREE samples from Star®!**

Carbon Comet™

Now, not only can you prevent formation of free fatty acids with your Star filter, you can remove them! Using our new Carbon Comet filter media, FFA content can be reduced up to 20% with one pass-through. It removes darkened color and odor, too, making your precious oils look and smell like new again! Contact us. We'll be glad to send you test samples so you can see what this amazing new media made of approved materials can do for your oils and other food products you process with plate & frame filtration.

No Star? What a pity! Well, use any filter press.
