BUNGAY, SUFFOLK.

CONTENTS.

PAPERS COMMUNICATED TO THE CHEMICAL SOCIETY.

	PAGE
I.—Harmine and Harmaline. Part IX. A Synthesis of Harmaline. By RICHARD HELMUTH FRED MANSKE, WILLIAM HENRY PERKIN, jun., and ROBERT ROBINSON	1
II.—Styrylpyrylium Salts. Part VIII. 3-Styryl Derivatives of β -Naphthapyrylium Chloride. By ROBERT DICKINSON and ISIDOR MORRIS HEILBRON	14
III.—3-Nitro-4-amino- and the 3:4-Dihalogenobenzaldehydes. By HERBERT HENRY HODGSON and HERBERT GREENSMITH BEARD	20
IV.—Arylseleninic Acids. By WILLIAM HENRY PORRITT	27
V.—Period of Induction in Chemical Reactions. Interaction of Mercuric Chloride and Sodium Hydrogen Carbonate. By PANCHANAN NEOGI and SUKUMAR NEOGI	30
VI.—The Propagation of Flame in Mixtures of Methane and Air. Part V. The Movement of the Medium in which the Flame Travels. By WILLIAM RONALD CHAPMAN and RICHARD VERNON WHEELER	38
VII.—The Oxidation of Nitrophenylcyanoacetates. By ARTHUR FAIRBOURNE and HAROLD RICHARD FAWSON	46
VIII.—Studies in Optical Superposition. Part VIII. The <i>l</i> -Menthylamine, Brucine, and Strychnine Salts of Mucic and <i>allo</i> Mucic Acid. By THOMAS STEWART PATTERSON and JAMES DAVIDSON FULTON	50
IX.—Optical Activity and the Polarity of Substituent Groups. Part VI. Optically Active Acids and Bases. By HAROLD GORDON RULE	54
X.—The Chemistry of the Glutaconic Acids. Part XXI. Non-formation of Δ^2 -Tetrahydro <i>iso</i> phthalic Acid by Reduction of <i>iso</i> Phthalic Acid. By ERNEST HAROLD FARMER and HENRY LORIMER RICHARDSON	59
XI.—The Rearrangement of the Alkylanilines. By WILFRED JOHN HICKINBOTTOM	64
XII.—Substituted Diaryl Ethers. Part I. Di- <i>p</i> -tolyl Ether. By JOSEPH REILLY, PETER J. DRUMM, and HERBERT S. BOYD BARRETT	67

	PAGE
XIII.—Bromination of Quinol Monomethyl Ether. By FRANK MOUAT IRVINE and JOHN CHARLES SMITH	74
XIV.—The Constitution of the Acid formed by the Action of Sulphuric Acid on Camphorquinone. By MADHAY BALAJI BHAGVAT and JOHN LIONEL SIMONSEN	77
XV.—Substitution Products of 2-Aminodiphenyl. By HAROLD ARCHIBALD SCARBOROUGH and WILLIAM ALEXANDER WATERS	89
XVI.—The Vapour Pressures of Mixtures of (a) Methyl Acetate and Water; (b) Methyl Acetate, Sucrose, and Water. By ANDREW MCKEOWN and FLAXNEY PERCIVAL STOWELL	97
XVII.—Organic Derivatives of Silicon. Part XXXII. The Carbon-Silicon Binding. By FREDERIC STANLEY KIPPING	104
XVIII.—Reactions of Carbohydrazide. Part I. By ANDREW CHARLES BROWN, ERIC CHARLES PICKERING, and FORSYTH JAMES WILSON	107
XIX.—The Vapour Pressure of Water over Sulphuric Acid-Water Mixtures at 25°. By IVAN ROY MCHAFFIE	112
XX.—Cyclic Organo-metallic Compounds. Part III. Nitro- and Amino-derivatives of Phenoxtellurine. By HARRY DUGALD KEITH DREW and REUBEN WILLIAM THOMASON	116
XXI.—Anticathodic Luminescence of some Organic Substances. By JOSEPH KENNETH MARSH	125
XXII.—The Isomerism of Molybdenyl Monochloride. By WILLIAM WARDLAW and ROBERT LOUIS WORMELL	130
XXIII.—The Parachor and Chemical Constitution. Part IV. Three-membered and Four-membered Rings. By SAMUEL SUGDEN and HENRY WILKINS	139
XXIV.—An Electrometric Study of Tungstic Acid. By HUBERT THOMAS STANLEY BRITTON	147
XXV.—Complex Formation amongst the Nitrates. Part I. The Ternary System Copper Nitrate-Cobalt Nitrate-Water. By KATHLEEN WINIFRED WILCOX and CHARLES REYNOLDS BAILEY	150
XXVI.—The Movement of Flame in Closed Vessels: Correlation with Development of Pressure. By OLIVER COLIGNY DE CHAMPFLEUR ELLIS and RICHARD VERNON WHEELER	153
XXVII.—Molecular Structure in Solution. Part I. The Densities and Viscosities of Aqueous Solutions of Cobalt Chloride and Hydrochloric Acid. By OWEN RHYS HOWELL	158
XXVIII.—The Interaction of Potassium <i>m</i> -Tolyloxide with Aliphatic Esters in Aqueous-Alcoholic Solutions. By ERNEST LESTER SMITH	170

	PAGE
XXIX.—Synthetical Experiments on Protopine and Allied Alkaloids. Part I. By THOMAS STEVENS STEVENS	178
XXX.—Investigations on the Dependence of Rotatory Power on Chemical Constitution. Part XXXI. The Resolution of <i>m</i> -Carboxyphenylmethylsulphine- <i>p</i> -toluenesulphonylimine. By SYDNEY GEORGE CLARKE, JOSEPH KENYON, and HENRY PHILLIPS	188
XXXI.—Studies in the Penthian Series. Part I. The Action of Sodium Ethoxide on Ethyl β -Thiodipropionate. By GEORGE MACDONALD BENNETT and LESLIE VIVIAN DONALD SCORAH	194
XXXII.—The Mechanism of the Formation of Citric and Oxalic Acids from Sugars by <i>Aspergillus Niger</i> . Part I. By FREDERICK CHALLENGER, VIRA SUBRAMANIAM, and THOMAS KENNEDY WALKER	200
XXXIII.—Dicyanates and Dibenzoates of Triphenylbismuthine and Triphenylstibine. By FREDERICK CHALLENGER and VERA KATHARINE WILSON	209
XXXIV.—Acid and Salt Effects in Catalysed Reactions. Part IV. Derivation of a General Equation for the Catalytic Activity of Acids. The General Catalytic Catenary. By HARRY MEDFORTH DAWSON	213
XXXV.—The Liesegang Phenomenon and Stratification. By MAURICE COPISAROW [with GEORGE ERNEST WILSON, HUBERT CAWOOD HILLARY and HOWARD BRAITHWAITE STENT]	222
XXXVI.—The Position of the Sugar Nucleus in the <i>Quercetin</i> Glucosides. By GORDON FREDERICK ATTREE and ARTHUR GEORGE PERKIN	234
XXXVII.—The Decomposition of β -3-Indolylpropionic Azide: By RICHARD HELMUTH FRED MANSKE and ROBERT ROBINSON	240
XXXVIII.—Experiments on the Synthesis of Anthocyanins. Part II. The Synthesis of 3- and 7-Glucosidoxyflavylum Salts. By ALEXANDER ROBERTSON and ROBERT ROBINSON	242
XXXIX.—10-Chloro-5 : 10-dihydrophenarsazine and its Derivatives. Part IV. Carboxy-derivatives. By HAROLD BURTON and CHARLES STANLEY GIBSON	247
XL.—The Nature of the Alternating Effect in Carbon Chains. Part X. The Nitration of Some Derivatives of β -Phenylethylamine. By FRANK ROBERT GOSS, WALTHER HANHART, and CHRISTOPHER KELK INGOLD	250

	PAGE
XLI.—The Nature of the Alternating Effect in Carbon Chains. Part XI. Further Evidence on the Substitution of Benzylamine Salts. By JOHN WILLIAM BAKER and CHRISTOPHER KELK INGOLD	261
XLII.—The "Uniform Movement" of Flame in Mixtures of Hydrogen and Air. By ELIZABETH HELEN MACLEOD GEORGESON and FRANCIS JOHN HARTWELL	265
XLIII.—The Normal Oxidation-Reduction Potential of Mercury. By SYDNEY RAYMOND CARTER and ROBERT ROBINSON	267
XLIV.—The Adsorption of Benzene Vapour on the Plane Surfaces of Glass, Fused Quartz, and Platinum. The Isotheric Heat of Adsorption of Benzene on Platinum. By SAM LENHER	272
XLV.—The Density of Boron Trichloride and the Suspected Variation in the Atomic Weight of Boron. By HENRY VINCENT AIRD BRISCOE, PERCY LUCOCK ROBINSON, and HAROLD CECIL SMITH	282
XLVI.—The Ignition of Gases. Part VI. Ignition by Flames. Mixtures of the Paraffins with Air. By NOEL STANLEY WALLS and RICHARD VERNON WHEELER	291
XLVII.—The Combustion of Complex Gaseous Mixtures. Part III. The Inflammation of Mixtures of Carbon Monoxide and Hydrogen with Air in a Closed Vessel. By GEORGE BARTON MAXWELL, WILLIAM PAYMAN, and RICHARD VERNON WHEELER	297
XLVIII.—The Movement of Flame in Closed Vessels: After-Burning. By OLIVER COLIGNY DE CHAMPFLEUR ELLIS and RICHARD VERNON WHEELER	310
XLIX.—The Reduction of <i>o</i> -Nitrophenylsodiazomethanes. By FREDERICK DANIEL CHATTAWAY and ARTHUR JOHN WALKER	323
L.—Contribution to the Physical Chemistry of Complex Salts. Part I. Transport Numbers of Copper Salicylate. By WILLIAM EDWARD HAMER and CHARLES R. BURY	333
LI.—The Ratio of the Heats of Combustion of Benzoic Acid and Salicylic Acid. (A Reply to P. E. Verkade and J. Coops.) By ENDRE BERNER.	338
LII.—The Isomerism of Reduced Derivatives of Quinoxaline. Part II. The Stereoisomeric 2:3-Dimethyl-1:2:3:4-tetrahydroquinoxalines. By CHARLES STANLEY GIBSON	342
LIII.—The Decomposition Products of Menthyl Esters of Sulphonic Acids. By THOMAS STEWART PATTERSON and IRENE MARY MCALPINE	349

- LIV.—The Influence of Solvents on the Rotation of Optically Active Compounds. Part XXIV. Menthyl Benzene-sulphonate, Menthyl Naphthalene- α -sulphonate, and Menthyl Naphthalene- β -sulphonate in Various Solvents. By THOMAS STEWART PATTERSON and IRENE MARY McALPINE 353
- LV.—The Quantitative Estimation of Mixtures of Isomeric Unsaturated Compounds. Part I. A Bromine Addition Method. By REGINALD PATRICK LINSTED 355
- LVI.—The Chemistry of the Three-carbon System. Part XI. The Mechanism of Isomeric Change in Unsaturated Acids. By REGINALD PATRICK LINSTED 362
- LVII.—*iso*Erucic Acid. By TAHILRAM JETHANAND MIRCHANDANI and JOHN LIONEL SIMONSEN 371
- LVIII.—Overpotential at Antimony Cathodes and Electrolytic Stibine Formation. By HENRY J. S. SAND, JULIUS GRANT, and WILLIAM VERNON LLOYD 378
- LIX.—The Constitution of Carnitine. Part I. The Synthesis of α -Hydroxy- γ -butyrotetramethylbetaine. By JOHN WILLIAM CROOM CRAWFORD and JOSEPH KENYON 396
- LX.—Muconic and Hydromuconic Acids. Part IV. Geometrical Form and Reducibility. By ERNEST HAROLD FARMER and WALTER MARK DUFFIN 402
- LXI.—The Reaction between Grignard Reagents and 10-Chlorophenoxarsine or 10-Chloro-5:10-dihydrophenarsazine. By JOHN ALFRED AESCHLIMANN 413
- LXII.—Synthesis of 5:6-Dimethoxyindole and its 2-Carboxylic Acid. By ALBERT EDWARD OXFORD and HENRY STANLEY RAPER 417
- LXIII.—The Soluble Alkaline-Earth Aluminates. By HUBERT THOMAS STANLEY BRITTON 422
- LXIV.—Electrometric Study of the Precipitation of Silicates. By HUBERT THOMAS STANLEY BRITTON 425
- LXV.—The Inhibitory Effect of Substituents in Chemical Reactions. Part I. The Reactivity of the Amino-group in Substituted Arylamines. By GEORGE MALCOLM DYSON, HERBERT JOHN GEORGE, and ROBERT FERGUS HUNTER 436
- LXVI.—Studies on the Walden Inversion. Part XI. Evidence for the Bivalency of Carbon from Some Reactions of α -Chloroethylbenzene. $\alpha\alpha'$ -Diphenyldiethyl Ether. By ALLAN MILES WARD 445

	PAGE
LXVII.—Acid and Salt Effects in Catalysed Reactions. Part VI. The Early Stages of an Auto-catalysed Reaction. Generalised Form of the Simple Autocatalytic Catenary. By HARRY MEDFORTH DAWSON	458
LXVIII.—The Partition of Hydrogen Chloride between Water and Benzene. By RICHARD WINTON KNIGHT and CYRIL NORMAN HINSHELWOOD	466
LXIX.—Benzyl δ -Chlorobutyl Ether : A New Unsymmetrical Derivative of Tetramethylene Glycol. By GEORGE MACDONALD BENNETT and ALFRED LOUIS HOCK	472
LXX.—The Influence of the Sulphur Atom on the Reactivity of Adjacent Atoms or Groups. Part I. A Qualitative Comparison of the Reactivities of Chlorine and Hydroxyl in the α -, β -, γ -, and δ -Positions to a Sulphur Atom. By GEORGE MACDONALD BENNETT and ALFRED LOUIS HOCK	477
LXXI.—The Condensation of Substituted Anilines with <i>cyclo</i> Pentanone Cyanohydrin. Derivatives of 1-Anilino- <i>cyclopentane</i> -1-carboxylic Acid. By STEPHEN HELLICAR OAKESHOTT and SYDNEY GLENN PRESTON PLANT	484
LXXII.—Pseudo-ternary Systems containing Sulphur. Part II. The System Sulphur-Benzoic Acid. By DALZIEL LLEWELLYN HAMMICK and WINSTON E. HOLT	493
LXXIII.—The Effect of Pressure on the Limits for the Propagation of Flame in Ether-Air. By ALBERT GREVILLE WHITE	498
LXXIV.—Aromatic Thionyl and Chlorothionyl Derivatives. Part I. Thionylpyrocatechol and Dichlorothionylquinol. By ALBERT GREEN	500
LXXV.—The Synthesis of <i>meso</i> -Alkyl and <i>meso</i> -Aryl Anthracene Derivatives. Part I. By EDWARD DE BARRY BARNETT, JAMES WILFRED COOK, and IVOR GRAY NIXON	504
LXXVI.—The Complex Chlorides of Tervalent Molybdenum. By WILLIAM RALPH BUCKNALL, SYDNEY RAYMOND CARTER, and WILLIAM WARDLAW	512
LXXVII.—The Reaction between Diazonium Salts and Malonyldiurethane. By MARTHA ANNIE WHITELEY and DOROTHY YAPP	521
NOTES.—A Derivative of $\alpha\alpha'\alpha''$ -Triaminotrimethylamine. By FREDERIC BARRY KIPPING and FREDERICK GEORGE MANN	528
The Action of Nitrous Acid on <i>ar</i> -Tetrahydro- α -naphthol and on 5 : 8- and 5 : 6(or 7 : 8)-Dihydro- α -naphthols. By FREDERICK MAURICE ROWE and ESTHER LEVIN	530

LXXVIII.—Ring-chain Tautomerism. Part XV. The Hydroxy-lactone Type. By EUGENE ROTHSTEIN and CHARLES WILLIAM SHOPPEE	531
LXXIX.—Derivatives of 2-Phenyl-1:3-benzdithiole. By WILLIAM ROBERT HARDY HURTLEY and SAMUEL SMILES	534
LXXX.—The Optical Resolution of Chloroiodoacetic Acid. By ANN MORTIMER McMATH and JOHN READ	537
LXXXI.—The Constitution of the Disaccharides. Part XII. Lactose. By WALTER NORMAN HAWORTH and CHARLES WILLIAM LONG	544
LXXXII.—A New Synthesis of Oxyberberine and a Synthesis of Palmatine. By ROBERT DOWNS HAWORTH, JOSEPH BLAKE KOEPLI, and WILLIAM HENRY PERKIN, jun.	548
LXXXIII.—Aromatic Thionyl and Chlorothionyl Derivatives. Part II. 1:2- and 2:3-Thionyldihydroxyanthracenes. By ALBERT GREEN	554
LXXXIV.—Constitutional Studies in the Monocarboxylic Acids derived from Sugars. Part IV. The Isomeric Lactones obtained from Arabinose. By JOHN PRYDE and ROBERT WILLIAM HUMPHREYS	559
LXXXV.—Nature of the Alternating Effect in Carbon Chains. Part XII. Nitration of some Derivatives of Methyl Benzylaminoformate. By JOHN WILLIAM BAKER	565
LXXXVI.—Elimination of the Amino-group of Tertiary Amino-alcohols. Part IV. The Displacement of the Amino- by the Hydroxy-group. By ALEX. MCKENZIE and ROBERT ROGER	571
LXXXVII.—The Nitration of Benzil. 3:5:3':5'-Tetra-nitrobenzil. By FREDERICK DANIEL CHATTAWAY and EDWARD AUTY COULSON	577
LXXXVIII.—The Influence of Nitro-groups on the Reactivity of Substituents in the Benzene Nucleus. Part IX. 2:3- and 2:5-Dinitro-4-methoxytoluenes. By HERBERT ERIC DADSWELL and JAMES KENNER	580
LXXXIX.—Melezitose and Turanose. By GRACE CUMMING LEITCH	588
XC.—Ring-chain Tautomerism. Part XVI. The Effect of Two Adjacent <i>gem</i> -Dimethyl Groups on the Ease of Formation of the <i>cyclo</i> Pentane Ring. By ISRAEL VOGEL	594
XCI.—The Influence of Groups and Associated Rings on the Stability of Certain Heterocyclic Ring Systems. Part I. The Substituted Glutarimides. By SARBANI SAHAY GUHA SIRCAR	600

	PAGE
XCII.—The Platini-Platino-chloride Electrode. A New Type of Chlorine Electrode. By VIRGINIA F. MILLER and HENRY TERREY	605
XCIII.—The Viscosity of Ether at Low Temperatures. By EBEN HENRY ARCHIBALD and WILLIAM ÜRE	610
XCIV.—Electrometric Study of the Precipitation of Phosphates. By HUBERT THOMAS STANLEY BRITTON	614
XCv.—The Nitration of <i>m</i> -Iodophenol. By HERBERT HENRY HODGSON and FRANCIS HARRY MOORE	630
XCVI.—Solubility Influences. Part IV. The Salting-out of Aniline from Aqueous Solutions. By SAMUEL GLASSSTONE, JOAN BRIDGMAN, and WILLIAM R. P. HODGSON	635
XCvII.—Studies of Electrolytic Polarisation. Part VI. Electro-deposition Potentials of Alloys of Zinc with Iron, Cobalt, and Nickel. By SAMUEL GLASSSTONE	641
XCvIII.—The Molecular Conductivity of Cadmium Iodide in Acetonitrile. By FREDERICK KARL VICTOR KOCH	647
XCIX.—On the Alleged Retardation of Certain Reactions by Light. By ARTHUR JOHN ALLMAND and ROBERT EDWIN WITTON MADDISON	650
C.—The Photodecomposition of Chlorine Water and of Aqueous Hypochlorous Acid Solutions. Part II. By ARTHUR JOHN ALLMAND, PERCY WALMSLEY CUNLIFFE, and ROBERT EDWIN WITTON MADDISON	655
CI.—On Active Nitrogen. Part II. Reactions with Gases. By ERIC JOHN BAXTER WILLEY and ERIC KEIGHTLEY RIDEAL	669
CII.—The Effect of <i>gem</i> -Dialkyl Groups on the Formation and Stability of the Anhydrides of Dicarboxylic Acids. By ERNEST HAROLD FARMER and JACOB KRACOVSKI	680
CIII.—The Condensation of <i>p</i> -Hydroxybenzoic Acid with Chloral. By FREDERICK DANIEL CHATTAWAY and FERNANDO CALVET Y PRATS	685
CIV.—The Mechanism of Reactions induced by Hydrogen Chloride between Aromatic Aldehydes and Aldehyde-cyanohydrins in Solution. By BERTRAM HOBART INGHAM	692
CV.—Studies in the Composition of Coal. The Resolution of Coal by Means of Solvents. By CHARLES COCKRAM and RICHARD VERNON WHEELER	700
CVI.—The Constituents of the Cell-wall of the Flax Fibre. By ALBERT ERIC CASHMORE	718

CVII.—Constituents of <i>Myoporum Laetum</i> , Forst. (The "Ngaio"). Part II. Hydrogenation of Ngaione and NgaioI and Dehydration of NgaioI. By FREDERICK HENRY McDOWALL	731
CVIII.—The Labile Nature of the Halogen Atom in Organic Compounds. Part XIII. By HUGH GRAHAM, ALEXANDER KILLEN MACBETH, and WILFRED BEAUMONT ORR	740
CIX.—The Properties of the Chlorides of Sulphur. Part I. Freezing Points. By THOMAS MARTIN LOWRY, LAURENCE PATRICK MCHATTON, and GRIFFITH GLYN JONES	746
CX.—Acid and Salt Effects in Catalysed Reactions. Part VII. The Tridimensional Co-ordination of Catalytic Variables. Relations between the Data for Pure Acids and the Corresponding Minimum-Velocity Mixtures. By HARRY MEDFORTH DAWSON	756
CXI.—Photochemical Equilibrium in Nitrogen Peroxide. Part I. By RONALD GEORGE WREYFORD NORRISH	761
CXII.—Studies in Polymerisation. Part I. 2:3:4-Trimethyl <i>l</i> -Arabonolactone. By HARRY DUGALD KEITH DREW and WALTER NORMAN HAWORTH	775
CXIII.—The Influence of Different Centres of Absorption on the Spectra of Substances. By JOHN EDWARD PURVIS	780
CXIV.—The Glow of Arsenic. By HARRY JULIUS EMELÉUS	783
CXV.—The Origin of the Ultra-violet Spectrum of the Glow of Phosphorus. By HARRY JULIUS EMELÉUS and RONALD HERBERT PURCELL	788
CXVI.—The Burning of Carbon Disulphide near the Limit for the Propagation of Flame, with some Remarks on the Ignition Point of Sulphur. By ALBERT GREVILLE WHITE	793
CXVII.—The Velocity of Formation of Quaternary Ammonium Salts from Trimethylamine and Benzyl Chloride and the Three Mononitrobenzyl Chlorides. By HAMILTON MCCOMBIE, HAROLD ARCHIBALD SCARBOROUGH, and FREDERICK FRANCIS PERCIVAL SMITH	802
CXVIII.—The Nature of the Alternating Effect in Carbon Chains. Part XIII. The Nitration of Some γ -Phenylpropylamine Derivatives. By CHRISTOPHER KELK INGOLD and IAN STUART WILSON	810
CXIX.—The Nature of the Alternating Effect in Carbon Chains. Part XIV. The Directive Action of Groups of the Form $-\text{CH}_2\cdot\text{SO}_2\cdot\text{R}$ in Aromatic Substitution. By CHRISTOPHER KELK INGOLD, EDITH HILDA INGOLD, and FLORENCE RUTH SHAW	813

	PAGE
CXX.—The Nature of the Alternating Effect in Carbon Chains. Part XV. The Directive Action of Some Groups of the Form $-\text{CR}'\text{R}''\text{COR}$ in Aromatic Substitution. By JOHN WILLIAM BAKER and CHRISTOPHER KELK INGOLD	832
CXXI.—The Nature of the Alternating Effect in Carbon Chains. Part XVI. The Directive Action of Some Groups of the Form $-\text{COR}$ in Aromatic Substitution. By KENNETH ERNEST COOPER and CHRISTOPHER KELK INGOLD	836
CXXII.—The Nature of the Alternating Effect in Carbon Chains. Part XVII. The Directive Action of the Groups $\cdot\text{CH}_2\cdot\text{CH}_2\cdot\text{NO}_2$, $\cdot\text{CH}:\text{CH}\cdot\text{NO}_2$ and $\cdot\text{C}(\text{NO}_2):\text{CHR}$ in Aromatic Substitution. By JOHN WILLIAM BAKER and IAN STUART WILSON	842
CXXIII.—The Determination of Carbonyl in Aldehydes and Ketones. By GEORGE WILLIAM ELLIS	848
CXXIV.—Heterocyclic Compounds containing Arsenic. Part I. The Action of Chloroacetamide on 3 : 4-Diaminophenylarsinic Acid. By ARTHUR JAMES EWINS, GEORGE NEWBERY, and RALPH WILLIAM EWART STICKINGS	851
CXXV.—The Properties of Malonic Anhydride (Carbon Suboxide), C_3O_2 . By MORRIS J. EDWARDS and JOHN M. WILLIAMS	855
CXXVI.—The Decomposition of Carbon Monoxide in the Corona due to Alternating Electric Fields. Part II. By ROBERT WINSTANLEY LUNT and RAMAVENKATASUBBIER VENKATESWARAN	857
CXXVII.—The Vapour Pressure of Intensively Dried Nitrogen Tetroxide. By JOHN WILLIAM SMITH	867
CXXVIII.—The Isomerism of the Oximes. Part XXIX. Isomeric <i>p</i> -Nitrobenzyl and Methyl Ethers of Some Aldoximes. By OSCAR L. BRADY and LOUIS KLEIN	874
CXXIX.—The Isomerism of the Oximes. Part XXX. The Preparation of <i>o</i> -Methoxybenzaldoxime from Bisnitrosyl- <i>o</i> -methoxybenzyl. By OSCAR L. BRADY and CHARLES L. BENNETT	894
CXXX.—The Mechanism of the Reaction between a Carboxylic Ester and a Grignard Reagent. By DAVID RUNCIMANN BOYD and HAROLD HERBERT HATT	898
CXXXI.—The Optically Active Diphenylhydroxyethylamines and <i>iso</i> Hydrobenzoin. Part I. By JOHN READ and CATHERINE CASSELS STEELE	910

CXXXII.—The Interaction of Ethyl Acetoacetate with Distyryl Ketones. Part III. <i>o</i> -Hydroxychlorodistyryl Ketones. By ISIDOR MORRIS HEILBRON and ROWLAND HILL	918
CXXXIII.—1-Methoxydiphenyl-1'-carboxylic Acid and its Demethylation with Thionyl Chloride. By HAROLD GORDON RULE and EGON BRETSCHER	925
NOTES.—The Mechanism of the Reaction between Aluminium, Iodine, Ethyl Alcohol, and Water. The Preparation of Ethyl Iodide. By A. O. JONES and G. MELLING GREEN.	928
New Fluorides of Selenium. By EDMUND BRYDGES RUDHALL PRIDEAUX and CHARLES BERESFORD COX	928
Studies of Precipitated Solids, especially of Strontium and Calcium Sulphates. By PETR P. VON WEIMARN	929
Separation of <i>d</i> -Neobornylamine from <i>d</i> -Bornylamine. By JOHN AUGUSTUS GOODSON	930
ANNUAL GENERAL MEETING	932
PRESIDENTIAL ADDRESS	949
OBITUARY NOTICE	959
CXXXIV.—Studies in the Fenchene Series. Part I. A Synthesis of <i>apo</i> Fenchocamphoric Acid. By WALLACE FRANK SHORT	961
CXXXV.—The Action of Nitric Acid on Acetylene and Ethylene. By PHYLLIS VIOLET MCKIE	962
CXXXVI.—The Production of Fog in the Neutralisation of Alkali with Hydrogen Halides. By HENRY OSCAR ASKEW	966
CXXXVII.—The Purification of Acetic Acid. The Estimation of Acetic Anhydride in Acetic Acid. By KENNEDY JOSEPH PREVITÉ ORTON and ALAN EDWIN BRADFIELD	983
CXXXVIII.—The Chlorination of Anilides. The Directing Influence of the Acylamido-group. By KENNEDY JOSEPH PREVITÉ ORTON and ALAN EDWIN BRADFIELD	986
CXXXIX.—The Nature of the Alternating Effect in Carbon Chains. Part XVIII. Mechanism of Exhaustive Methylation and its Relation to Anomalous Hydrolysis. By WALTHER HANHART and CHRISTOPHER KELK INGOLD	997
CXL.—The Passivity of Metals. Part I. The Isolation of the Protective Film. By ULICK RICHARDSON EVANS	1020
CXLI.—The Structure of Normal Fructose: Crystalline Tetramethyl β -Methylfructoside and Crystalline Tetramethyl Fructose (1:3:4:5). By WALTER NORMAN HAWORTH, EDMUND LANGLEY HIRST, and ABRAHAM LEARNER	1040

	PAGE
CXLII.—Trypanocidal Action and Chemical Constitution. Part VI. Amphoteric <i>s</i> -Carbamidoarylsinic Acids. By HAROLD KING	1049
CXLIII.—The Properties of Conjugated Compounds. Part II. Addition to Butadiene Esters. By ERNEST HAROLD FARMER and ALFRED THOMAS HEALEY	1060
CXLIV.—The Alkaloids of Ipecacuanha. Part IV. By WILLIAM HARRISON BRINDLEY and FRANK LEE PYMAN	1067
CXLV.—The Periodic Electro-deposition of Metals through Secondary Reaction. By ERNEST SYDNEY HEDGES	1077
CXLVI.—Molybdenyl Salts and the Co-ordination Number of Oxygen. By WILLIAM WARDLAW and ROBERT LOUIS WORMELL	1087
CXLVII.—The Crystal Structure of Quinol. Part II. By WILLIAM AUGUSTUS CASPARI	1093
CXLVIII.—A Study of the Chemiluminescence of Phos- phorus Vapour. By EDMUND JOHN BOWEN and EDWARD GEORGE PELLIS	1096
CXLIX.— $\alpha\beta$ -Dichloro- β -bromovinyl Ethyl Ether. By ISOBEL AGNES SMITH	1099
CL.—The Basic Character of the Acetoxylicides and its Influence on the Course of their Substitution. By HERBERT ERIC DADSWELL and JAMES KENNER	1102
CLI.—Jackson and White's Synthesis of Phenanthrene. By JAMES KENNER and JOHN WILSON	1108
CLII.—Piperidine as a General Reagent for the Determi- nation of the Constitution of Halogenonitro-compounds. The Nitration of 4 : 4'-Dihalogeno-diphenylmethane and - <i>s</i> -diphenylethane. By RAYMOND JAMES WOOD LE FÈVRE and EUSTACE EBENEZER TURNER	1113
CLIII.—The Disulphonation of <i>m</i> -Dichlorobenzene and of <i>s</i> -Trichlorobenzene. By WILLIAM DAVIES and HARRY GORDON POOLE	1122
CLIV.—Some Experiments with 1 : 8-Naphthalyl Chloride. By WILLIAM DAVIES and GEOFFREY WINTHROP LEEPER	1124
CLV.—Investigations in the Diphenyl Series. Part V. Derivatives of 4-Amino- and 4-Hydroxy-diphenyl. By FRANK BELL and PERCY HARRY ROBINSON	1127
CLVI.—Higher Substitution Products of 4-Aminodiphenyl. By HAROLD ARCHIBALD SCARBOROUGH and WILLIAM ALEXANDER WATERS	1133

	PAGE
CLVII.—The Iodination of <i>o</i> -Nitrophenol. By HERBERT HENRY HODGSON	1141
CLVIII.—The Action of Caustic Alkalis on the 3-Halogeno-4-nitrosodimethylanilines. By HERBERT HENRY HODGSON and JOHN SAMUEL WIGNALL	1144
CLIX.—Acid and Salt Effects in Catalysed Reactions. Part VIII. The Determination of Hydrolytic Velocity Coefficients from Isocatalytic Data. Reaction Velocities in Buffer Solutions and Compound Catalytic Catenaries. By HARRY MEDFORTH DAWSON	1146
CLX.—The System Calcium Ferrocyanide–Sodium Ferrocyanide–Water. Part II. By MONICA FARROW	1153
CLXI.—The Interaction of Alkali Sulphites with some Halogeno-compounds, and the Optical Resolution of α -Phenylpropanesulphonic Acid. By ERIC BERTRAM EVANS, ERNEST EDWARD MABBOTT, and EUSTACE EBENEZER TURNER	1159
CLXII.—The Scission of Diaryl Ethers and Related Compounds by means of Piperidine. Part I. The Scope of the Method and its Use in determining the Constitution of some Nitro-derivatives. By RAYMOND JAMES WOOD LE FÈVRE, SYDNEY LEONARD MORGAN SAUNDERS, and EUSTACE EBENEZER TURNER	1168
CLXIII.—The Parachor and Chemical Constitution. Part V. Evidence for the Existence of Singlet Linkages in the Pentachlorides of Phosphorus and Antimony. By SAMUEL SUGDEN	1173
CLXIV.—Aminobenzthiazoles. Part VIII. The Effect of Polar Substituents on the Formation and Stability of Nucleus-substituted 1-Aminobenzthiazole Bromides. By GEORGE MALCOLM DYSON, ROBERT FERGUS HUNTER, and RICHARD WILLIAM MORRIS	1186
Kamerlingh Onnes Memorial Lecture. Delivered on February 10th, 1927. By ERNST COHEN, D.Sc., Foreign Member R.S.	1193
CLXV.—Aminobenzthiazoles. Part IX. The Unsaturation of Aminobenzthiazoles containing a Static Triad System, and the Synthesis of some 1-Dimethylamino-benzthiazoles. By ROBERT FERGUS HUNTER and ERIC ROFE STYLES	1209
CLXVI.—The Dicarbazyls. Part II. 9 : 9'-Dicarbazyl and its Halogen Derivatives. By JOHN McLINTOCK and STANLEY HORWOOD TUCKER	1214

	PAGE
CLXVII.—A New Scaly Variety of Aluminium Hydroxide. By PANCHANAN NEOGI and ANIL KRISHNA MITRA	1222
CLXVIII.—Tetrachloro(triaminopropane- γ -monohydrochloride)platinum, an Optically Active Complex Salt of a New Type. By FREDERICK GEORGE MANN	1224
CLXIX.—Sugar Carbonates. Part III. Derivatives of γ -Methylfructoside, γ -Ethylfructoside, and Normal Methylfructoside. By CHARLES FREDERICK ALLPRESS, WALTER NORMAN HAWORTH, and JOHN JAMES INKSTER	1233
CLXX.—The Study of Lactones Derived from Simple Sugars. By HARRY DUGALD KEITH DREW, EDWARD HAGUE GOODYEAR, and WALTER NORMAN HAWORTH	1237
CLXXI.—The Nature of the Alternating Effect in Carbon Chains. Part XIX. The Mechanism of Certain Aromatic Migrations. By CHRISTOPHER KELK INGOLD, ERNEST WALTER SMITH, and CHARLES CYRIL NORREY VASS	1245
CLXXII.—The Alleged Second Isoelectric Point of Gelatin. By BHUPENDRA NATH GHOSH	1250
CLXXIII.—The Influence of Groups and Associated Rings on the Stability of Certain Heterocyclic Systems. Part II. The Substituted Succinimides. By SARBBANI SAHAY GUHA SIRCAR	1252
CLXXIV.—The Influence of Groups and Associated Rings on the Stability of Certain Heterocyclic Systems. Part III. The Substituted Paraconic Acids. By SARBBANI SAHAY GUHA SIRCAR	1257
CLXXV.—Researches on Residual Affinity and Co-ordination. Part XXIX. Cupric Salts Stabilised by Ethylenediamine. By GILBERT T. MORGAN and FRANCIS HERWARD BURSTALL	1259
CLXXVI.—The Recovery of Pinene from its Nitrosochloride. By JOHN CAMPBELL EARL and JAMES KENNER	1269
CLXXVII.—Researches in the Menthone Series. Part IV. <i>iso</i> Menthols and <i>iso</i> Menthones. By JOHN READ, GEORGE JAMES ROBERTSON, and ALISON MARY RITCHIE COOK	1276
CLXXVIII.—A Method for the Estimation of Small Quantities of Water in Alcohol. By ERNEST LESTER SMITH.	1284
CLXXIX.—A Process for the Dehydration of Alcohol. By ERNEST LESTER SMITH	1288
CLXXX.—Acid and Salt Effects in Catalysed Reactions. Part IX. A General Kinetic Method for the Determination of the Degree of Dissociation of Water. By HARRY MEDFORTH DAWSON	1290

CLXXXI.—Reduction Products of the Hydroxyanthraquinones. Part VIII. By EDWIN JOHN CROSS and ARTHUR GEORGE PERKIN	1297
CLXXXII.—Reduction Products of the Hydroxyanthraquinones. Part IX. By ALEXANDER MACMASTER and ARTHUR GEORGE PERKIN	1306
CLXXXIII.—The Reactions of 1-Anilino <i>cyclohexane</i> -1-carboxylic Acid. Synthesis of <i>ψ</i> -Indoxyl <i>spirocyclohexane</i> . By RAYMOND LIVINGSTON BETTS, RUDOLPH MUSPRATT, and SYDNEY GLENN PRESTON PLANT	1310
CLXXXIV.—Substitution in Hexahydrocarbazole Derivatives. By JOHN GURNEY and SYDNEY GLENN PRESTON PLANT	1314
CLXXXV.—The Action of Halogen-substituted Phenylhydrazines upon Dihydroxytartaric Acid. By FREDERICK DANIEL CHATTAWAY and WILLIAM GERALD HUMPHREY	1323
CLXXXVI.—The Solubility of Potassium Ferrocyanide in Water at Temperatures up to 25°. By REECE HENRY VALLANCE	1328
CLXXXVII.—Selective Solvent Action. Part VI. The Effect of Temperature on the Solubilities of Semi-solutes in Aqueous Alcohol. By ROBERT WRIGHT	1334
CLXXXVIII.—The System Lead Chloride–Lead Iodide–Water. By ARTHUR LINDSAY McRAE SOWERBY	1337
CLXXXIX.—The Ternary System Barium Iodide–Iodine–Water and the Formation of Polyiodides. By A. C. D. RIVETT and JOHN PACKER	1342
CXC.—The Union of Benzoylacetonitrile with Organic Bases in the Presence of Salicylaldehyde. Part I. By PANCHAPAKESA KRISHNAMURTI and BIMAN BIHARI DEY	1349
CXCI.—Melting Points and Heats of Crystallisation of Homologous Series. Part III. Myristic Acid Derivatives. By W. E. GARNER and J. E. RUSHBROOKE	1351
Faraday Lecture. (Delivered before the Fellows of the Chemical Society in the Theatre of the Royal Institution on May 18th, 1927.) Problems and Methods in Enzyme Research. By RICHARD WILLSTÄTTER	1359
CXCII.—The Diacyl Derivatives of Benzidine and <i>p</i> -Phenylenediamine. By FRANCIS JOSEPH ANTHONY BROGAN	1381
CXCIII.—Aromatic Sulphonyl Disulphides. By LESLIE GEORGE SCOTT BROOKER, REGINALD CHILD, and SAMUEL SMILES	1384

	PAGE
CXCIV.—The Dicarbazyls. Part III. The Oxidation of Carbazole and <i>N</i> -Alkylcarbazoles in Acid Solution. By PETER MAITLAND and STANLEY HORWOOD TUCKER	1388
CXCV.—Acid Soaps: A Crystalline Potassium Hydrogen Dioleate. By JAMES WILLIAM McBAIN and ALEXANDER STEWART	1392
CXCVI.—The Action of Nitrous Acid on Substituted <i>p</i> -Phenylenediamines. Part I. Benzyl- <i>n</i> -butyl- <i>p</i> -phenylenediamine. By JOSEPH REILLY and PETER J. DRUMM	1395
NOTES.—The Estimation of Potassium in Presence of Iodide. By FRANK SWAIN HAWKINS and JAMES RIDDICK PARTINGTON	1397
<i>o</i> -Nitrobenzylphenyldimethylammonium Chloride. By HLA BAW	1398
A Spectrographic Method for the Determination of Dissociation Constants. By R. A. MORTON and A. H. TIPPING	1398
Reduction Products of Some Nitrodi- <i>p</i> -tolyl Ethers. By JOSEPH REILLY and HERBERT S. BOYD BARRETT	1399
CXCVII.—The Inter-relationships of the Sulphur Acids. By HENRY BASSETT and REGINALD GRAHAM DURRANT	1401
CXCVIII.—The Reaction between Manganese Salts and Sodium Hypochlorite in the Presence of certain other Salts. By BERTRAM EASTWOOD DIXON and JOHN LEDGER WHITE	1469
CXCIX.—The Activation of Wood Charcoal by Progressive Oxidation in Relation to Bulk Density and Iodine Adsorption. By ALBERT BRAMAH PEARCE PAGE	1476
CC.—The Heat of Adsorption of Gases by Charcoal. By SIDNEY JOHN GREGG	1494
CCI.—The Constitution of the Disaccharides. Part XIII. The γ -Fructose Residue in Sucrose. By WALTER NORMAN HAWORTH, EDMUND LANGLEY HIRST, and VINCENT STANLEY NICHOLSON	1513
CCII.—The Constitution of the Disaccharides. Part XIV. Melibiose and its Relationship to Raffinose. By WILLIAM CHARLTON, WALTER NORMAN HAWORTH, and WILFRED JOHN HICKINBOTTOM	1527
CCIII.—The Chemistry of the Three-carbon System. Part XII. The Effect of Positive Substituents in the α -Position on the Tautomerism. By GEORGE ARMAND ROBERT KON and BINDIGAWA VALE TIRUMALACHAR NARAYANAN	1536

CCIV.—The Preparation of Unsaturated Ketones from the Chlorides of Hydroxy-acids. By GEORGE ARMAND ROBERT KON and BINDIGAWA VALE TIRUMALACHAR NARAYANAN	1546
CCV.—The Chemistry of the Three-carbon System. Part XIII. The Effect of Bulky Substituents and of the <i>cyclo</i> Heptane Group on the Tautomerism. By GEORGE ARMAND ROBERT KON and CECIL JOHN MAY	1549
CCVI.—Low Temperature Oxidation of Hydrocarbons. By JOHN STANLEY LEWIS	1555
CCVII.—Striated Photographic Records of Explosion-Waves. By COLIN GAMPBELL and DONALD WHITLEY WOODHEAD	1572
CCVIII.—The Nature of the Sintering of Active Copper Catalysts. By FREDERICK HURN CONSTABLE	1578
CCIX.—The Electroendosmosis of Aqueous Solutions through a Diaphragm of Sintered Glass Powder. By FRED FAIRBROTHER and HAROLD VARLEY	1584
CCX.—Strychnine and Brucine. Part IV. By GEORGE ROGER CLEMO, WILLIAM HENRY PERKIN, junr., and ROBERT ROBINSON	1589
CCXI.—Strychnine and Brucine. Part V. By JOHN MASSON GULLAND, WILLIAM HENRY PERKIN, jun., and ROBERT ROBINSON	1627
CCXII.—A Synthesis of Safrrole and <i>o</i> -Safrrole. By WILLIAM HENRY PERKIN, jun., and VICTOR MARTIN TRIKOJUS	1663
CCXIII.—Monothioethylene Glycol. Part III. Nitrophenyl Thioethers. By GEORGE MACDONALD BENNETT and WILLIAM AMBLER BERRY	1666
CCXIV.—The Influence of the Sulphur Atom on the Reactivity of Adjacent Atoms or Groups. Part II. Comparative Reactivities of Chlorine in some β - and γ -Chloro-sulphides. By GEORGE MACDONALD BENNETT and WILLIAM AMBLER BERRY	1676
CCXV.—The Chemistry of Polycyclic Structures in Relation to their Homocyclic Unsaturated Isomerides. Part VIII. The Differing Effects of the <i>gem</i> -Dimethyl and <i>spirocyclo</i> Hexane Groupings on the Direction of Blocking of an Intra-annular Tautomeric System by Substitution. By CHRISTOPHER KELK INGOLD and ERNEST ARTHUR SEELEY	1684
CCXVI.—The Nature of the Alternating Effect in Carbon Chains. Part XX. The Conditions underlying Vicinal Substitution in <i>o</i> -Substituted Benzenes containing <i>op</i> -Orienting Groups. By CHRISTOPHER KELK INGOLD and ERNEST WALTER SMITH	1690

	PAGE
CCXVII.—Investigations in the Diphenyl Series. Part VI. The Configuration of Diphenyl Derivatives. By FRANK BELL and PERCY HARRY ROBINSON	1695
CCXVIII.—Styrylpyrylium Salts. Part IX. Colour Phenomena associated with Benzonaphtha- and Di- naphtha- <i>spiropyrans</i> . By ROBERT DICKINSON and ISIDOR MORRIS HEILBRON	1699
CCXIX.—The Preparation of 4-Hydroxycoumarin Deriv- atives. By ISIDOR MORRIS HEILBRON and DOUGLAS WILLIAM HILL	1705
CCXX.—A Synthesis of Rutæcarpine. By YASUHIKO ASA- HINA, RICHARD HELMUTH FRED MANSKE, and ROBERT ROBINSON	1708
CCXXI.—Experiments on the Synthesis of Anthocyanins. Part III. By ALEXANDER ROBERTSON and ROBERT ROBINSON	1710
CCXXII.—A New Form of Thermostat and Observation Tubes for Polarimetric Work. By THOMAS STEWART PATTERSON	1717
CCXXIII.—Some Substituted Phenyl Styryl Ketones, with Remarks on the Condensation of Cinnamic Acid with Resorcinol and Pyrogallol. By THOMAS ERIC ELLISON .	1720
CCXXIV.—The Synthesis of <i>meso</i> -Alkyl and <i>meso</i> -Aryl Anthracene Derivatives. Part II. By EDWARD DE BARRY BARNETT, JAMES WILFRED COOK, and JOHN LAURENCE WILTSHIRE	1724
CCXXV.—Studies of Dynamic Isomerism. Part XXIII. Mutarotation in Aqueous Alcohols By EVAN MATTHEW RICHARDS, IRVINE JOHN FAULKNER, and THOMAS MARTIN LOWRY	1733
CCXXVI.—The Reimer-Tiemann Reaction with <i>m</i> -Chloro- phenol. By HERBERT HENRY HODGSON and THOMAS ALFRED JENKINSON	1740
CCXXVII.—Imino-aryl Ethers. Part V. The Effect of Substitution on the Velocity of Molecular Rearrange- ment. By ARTHUR WILLIAM CHAPMAN	1743
CCXXVIII.—The Action of Diazonium Salts on Pyrones and their Parent Substances. Part I. By REGINALD THOMAS MULLEN and WILLIAM HAUGHTON CROWE .	1751
CCXXIX.—Metallic Hydroxy-acid Complexes. Part IV. Complexes formed by Copper with the Monobasic Mono- hydroxy-acids. By IAN WILLIAM WARK	1753

CCXXX.—The System Ferric Oxide–Arsenic Acid–Water at Low Concentrations of Arsenic Acid. By NORMAN HOLT HARTSHORNE	1759
CCXXXI.—The Preparation and Hydrolysis of the Isomeric β -Tolyethyl Bromides. By JOHN BALDWIN SHOESMITH and ROBERT JORDAN CONNOR	1768
CCXXXII.—Reduction of Silver Compounds in Alkaline Solution. By WALTER FARMER and JAMES BRIERLEY FIRTH	1772
CCXXXIII.—Molecular Volumes at Absolute Zero. Part I. Density as a Function of Temperature. By SAMUEL SUGDEN	1780
CCXXXIV.—Molecular Volumes at Absolute Zero. Part II. Zero Volumes and Chemical Composition. By SAMUEL SUGDEN	1786
CCXXXV.— <i>cis-trans</i> -Isomerism of Disulphoxides. By ERNEST VERE BELL and GEORGE MACDONALD BENNETT	1798
CCXXXVI.—Decomposition of some Halogenated Sulphides, and the Nature of the "Polymeric" Ethylene Sulphides. By ERNEST VERE BELL, GEORGE MACDONALD BENNETT, and ALFRED LOUIS HOCK	1803
CCXXXVII.—Colour and Molecular Geometry. Part V. A Search for a Crucial Test of Colour Theories. By JAMES MOIR	1809
CCXXXVIII.—Some Observations on the Determination of Surface Tension by Means of Capillary Rise. The Surface Tension of Water, Ethyl Alcohol, Boron Trichloride, and Silicon Tetrachloride. By HERBERT MILLS and PERCY LUCCOCK ROBINSON	1823
CCXXXIX.—The Factors controlling the Formation of Some Derivatives of Quinoline, and a New Aspect of the Problem of Substitution in the Quinoline Series. By ELWYN ROBERTS and EUSTACE EBENEZER TURNER	1832
CCXL.—Gold and Mercury Derivatives of 2-Thiolglyoxalines. Mechanism of the Oxidation of 2-Thiolglyoxalines to Glyoxalines. By ISIDORE ELKANAH BALABAN and HAROLD KING	1858
CCXLI.—Chemical Action at an Interface: The Production of Acidity in Neutral Salt Solutions. By N. VENKATANARASIMHA ACHAR and FRANCIS L. USHER	1875
CCXLII.—Reactions of Incandescent Tungsten with Nitrogen and with Water Vapour. By COLIN JAMES SMITHELLS and HAROLD PERCY ROOKSBY	1882

	PAGE
CCXLIII.—The Intermolecular Condensation of Styryl Methyl Ketones. Part I. By ROBERT DICKINSON, ISIDOR MORRIS HEILBRON, and FRANCIS IRVING	1888
CCXLIV.—The Oxidation of <i>n</i> -Triacontane. By FRANCIS FRANCIS and NORMAN EDWARD WOOD	1897
CCXLV.—The Isomeric Hydroxybenzyl dimethylamines. By EDGAR STEDMAN	1902
CCXLVI.—The Effect of Hydrochloric Acid on the Electrode Potential between Mercury and Mercurous Chloride. By SYDNEY RAYMOND CARTER, FREDERICK MEASHAM LEA, and ROBERT ANTHONY ROBINSON	1906
CCXLVII.—The Oxidation-Reduction Potentials of Mercurous and Mercuric Chlorides in Hydrochloric Acid Solution. By SYDNEY RAYMOND CARTER and ROBERT ANTHONY ROBINSON	1912
CCXLVIII.—The Decomposition of Nitrous Acid in Aqueous Solution. By THOMAS WESTON JOHNS TAYLOR, ERNEST WILLIAM WIGNALL, and JOHN FREDERICK COWLEY	1923
CCXLIX.—The Action of the Metallic Derivatives of Ethyl Dehydroundecenoate upon Alkyl Halides. By WILLIAM WHALLEY MYDDLETON and RUDOLPH G. BERCHEM	1928
CCL.—Besson's Supposed Phosphorus Suboxide, P ₂ O. By LESLIE JAMES CHALK and JAMES RIDDICK PARTINGTON	1930
CCLI.—Syntheses of Glucosides. Part I. The Synthesis of Indican. By ALEXANDER ROBERTSON	1937
CCLII.—Reactions of Displacement in the Tropic Acid Group. Part II. By CARL ALOYSIUS KERR	1943
CCLIII.—Methylmercuric Halides and Hydroxide. By LEONARD ERIC HINKEL and THOMAS HUBER ANGEL	1948
CCLIV.—The Alkaloids of <i>Picralima Klaineana</i> . By THOMAS ANDERSON HENRY and THOMAS MARVEL SHARP	1950
CCLV.—The Isomerism of the Oximes. Part XXXI. The Furfuraldoximes and 2-Methoxy- and 4-Methoxy-1-naphthaldoximes. By OSCAR LISLE BRADY and RICHARD FRANK GOLDSTEIN	1959
CCLVI.—Nitro-derivatives of the Homopyrocatechol Ethers. By ALBERT EDWARD OXFORD	1964
CCLVII.—Nitration of β -Naphthyltrimethylammonium Nitrate. By BERTRAM HOBART INGHAM	1972
CCLVIII.—A Synthesis of Pyrylium Salts of Anthocyanidin Type. Part XII. By DAVID DOIG PRATT, ALEXANDER ROBERTSON, and ROBERT ROBINSON	1975
CCLIX.—The Constitution of Gentisin. By JUNZO SHINODA	1983

CCLX.—Syntheses of Cyclic Compounds. Part I. Ethyl $\beta\gamma$ -Dimethylbutane- $\alpha\alpha\delta\delta$ -tetracarboxylate and some <i>cyclo</i> Butane Compounds derived therefrom. By ISRAEL VOGEL	1985
CCLXI.—Chlorocamphoranilic Acids and Camphorochlorophenylimides. By MAHAN SINGH and RAM SINGH	1994
CCLXII.— δ - <i>d</i> -Bornylsemicarbazide and δ - <i>d</i> - <i>neo</i> Bornylsemicarbazide. By JOHN AUGUSTUS GOODSON	1997
CCLXIII.—The Absorption Spectrum of Ergosterol in Relation to the Photosynthetic Formation of Vitamin D. By RICHARD ALAN MORTON, ISIDOR MORRIS HEILBRON, and EDWARD DAVID KAMM	2000
CCLXIV.—Studies in the Coumarin Series. Part I. The Action of the Grignard Reagent upon Substituted Coumarins. By ISIDOR MORRIS HEILBRON and DOUGLAS WILLIAM HILL	2005
CCLXV.—The Condensation of Chloral with Phenol. By FREDERICK DANIEL CHATTAWAY and ALEXANDER ALLAN MORRIS	2013
NOTES.—Co-ordination Compounds of Beryllium and <i>m</i> - and <i>p</i> -Nitrobenzoylacetone. By HENRY BURGESS	2017
The Reduction of Arsenic Compounds in Acid and in Alkaline Solution by Sodium Hyposulphite (Hydro-sulphite). Production of Sodium Arseno-hyposulphite. By WALTER FARMER and JAMES BRIERLEY FIRTH	2019
The Displacement of Bromine accompanying the Nitration of 6-Bromohomoveratrole. By TOM HEAP, THOMAS G. H. JONES, and ROBERT ROBINSON	2021
CCLXVI.—The Constitution of Certain Salts and Acids in Solution as determined by Observations of Critical Solution Temperatures. By SYDNEY RAYMOND CARTER and NORMAN JOSEPH LANE MEGSON	2023
CCLXVII.—The Electronic Structure of Atoms. Part I. The Periodic Classification. By J. D. MAIN SMITH	2029
CCLXVIII.—Molecular Structure in Solution. Part II. The Refractive Indices and Surface Tensions of Aqueous Solutions of Cobalt Chloride and Hydrochloric Acid. By OWEN RHYS HOWELL	2039
CCLXIX.—Formation and Decomposition of Ketone Cyanohydrins, with Special Reference to some Compounds recently classified as such. By ARTHUR LAPWORTH, RICHARD HELMUTH FRED MANSKE, and EDWIN BREW ROBINSON	2052
CCLXX.— <i>l</i> -Methylephedrine, an Alkaloid from <i>Ephedra</i> Species. By SYDNEY SMITH	2056

	PAGE
CCLXXI.—The Use of Titanous Chloride in the Volumetric Estimation of Copper and Iron. By WILLIAM GIDLEY EMMETT	2059
CCLXXII.—Studies of Equilibria in the Systems Sodium Chloride–Lead Chloride–Water, Lithium Chloride–Lead Chloride–Water. By GEORGE E. R. DEACON	2063
CCLXXIII.—Ferric Thiocyanate. By KENNETH CLAUDE BAILEY	2065
CCLXXIV.—The Inflammation of Mixtures of the Paraffins and Air in a Closed Spherical Vessel. By GEORGE BARTON MAXWELL and RICHARD VERNON WHEELER	2069
CCLXXV.—The Reduction of Nitro-compounds by Aromatic Ketols. Part I. Some <i>p</i> -Azoxy-compounds. By HUGH BRYAN NISBET	2081
CCLXXVI.—A Synthesis of Pyrylium Salts of Anthocyanidin Type. Part XIII. Some Monohydroxyflavylium Salts. By FRANK MOUATT IRVINE and ROBERT ROBINSON	2086
CCLXXVII.—Experiments on the Synthesis of Brazilin and Hæmatoxylin and their Derivatives. Part II. A Synthesis of Deoxytrimethylbrazilone and of <i>iso</i> Brazilein Ferrichloride Trimethyl Ether. By WILLIAM HENRY PERKIN, jun., JNANENDRA NATH RÂY, and ROBERT ROBINSON	2094
CCLXXVIII.—Esterification in Mixed Solvents. By BALWANT WASUDEO BHIDE and HERBERT EDMESTON WATSON	2101
CCLXXIX.—Acid and Salt Effects in Catalysed Reactions. Part X. The Hydrolysis of Ethyl Acetate with Acetic Acid as Catalyst. By HARRY MEDFORTH DAWSON and WILLIAM LOWSON	2107
CCLXXX.—The Action of Hydrazines on Semicarbazones. Part III. By WILLIAM BAIRD and FORSYTH JAMES WILSON	2114
CCLXXXI.—The Systems $B_2O_3-SO_3-H_2O$ and $B_2O_3-P_2O_5-H_2O$. By MIRIAM LEVI and LIONEL FELIX GILBERT	2117
CCLXXXII.—The Nature of the Alternating Effect in Carbon Chains. Part XXI. The Directive Influence of the Groups $-CH_2\cdot CH(CO_2Me)_2$, $-CH\cdot C(CO_2Me)_2$, $-C(CO_2Me)\cdot CH_2$, and $-CH\cdot CH\cdot CH\cdot C(CO_2Me)_2$ in Aromatic Substitution. By JOHN WILLIAM BAKER and ALFRED ECCLES	2125
CCLXXXIII.—1-Phenyl-4-amino-5-ketopyrazoline-3-carboxylic Acid. By FREDERICK DANIEL CHATTAWAY and WILLIAM GERALD HUMPHREY	2133

CCLXXXIV.—The Action of Hydrogen Iodide on Nitroso-compounds. By JOHN CAMPBELL EARL and JAMES KENNER	2139
CCLXXXV.—Co-ordination Compounds of Quinquevalent Molybdenum. By ROBERT GILBERT JAMES and WILLIAM WARDLAW	2145
CCLXXXVI.—The Routine Preparation of Low-conductivity Water. By GUY D. BENGOUGH, JOHN M. STUART, and ALFRED R. LEE	2156
CCLXXXVII.—The Action of Bromine on Dimethylpyrone. By JOHN NORMAN COLLIE and LOUIS KLEIN	2162
CCLXXXVIII.—The Application of the Hydrogen Electrode to Organic Bases : Piperidine, and its Use as an Alkaline Buffer. By EDMUND B. R. PRIDEAUX and FRANK L. GILBERT	2164
CCLXXXIX.—Researches in the Menthone Series. Part V. <i>d-neois</i> Menthylamine. By JOHN READ and GEORGE JAMES ROBERTSON	2168
CCXC.—Reactions of Sodium Compounds of Aromatic Ketones. Part I. Synthesis of Triarylcarbinols and of Triarylmethane Dyes. By ERNEST HARRY RODD and FRANK WILLIAM LINCH	2174
CCXCI.—Reactions of Sodium Compounds of Aromatic Ketones. Part II. Their Reaction with Methyl and Methylene Groups and their Products of Decomposition. By ERNEST HARRY RODD and FRANK WILLIAM LINCH.	2179
CCXCII.—On Active Nitrogen. Part III. Active Nitrogen and the Metals. By ERIC JOHN BAXTER WILLEY	2188
CCXCIII.—A Synthesis of Pyrylium Salts of Anthocyanidin Type. Part XIV. By ALEXANDER ROBERTSON and ROBERT ROBINSON	2196
CCXCIV.—A New Method of (Absolute) Potentiometric Titration. By BERNARD CAVANAGH	2207
CCXCV.—Nitrosation of Phenols. Part IV. 3 : 5-Dichlorophenol. By HERBERT HENRY HODGSON and JOHN SAMUEL WIGNALL	2216
CCXCVI.—The Abnormal Reaction of Certain Aromatic Aldehydes with Schiff's Reagent. By JOHN BALDWIN SHOESMITH, CHARLES EDWIN SOSSON, and ARTHUR CLEMENT HETHERINGTON	2221
CCXCVII.—The Action of Phosphorus Pentabromide on the Isomeric β -Methoxyphenylethyl Alcohols. By JOHN BALDWIN SHOESMITH and ROBERT JORDAN CONNOR	2230

	PAGE
CCXCVIII.—Investigations in the Diphenyl Series. Part VII. The Relative Stability of Optically Active Diphenic Acids. By FRANK BELL and PERCY HARRY ROBINSON	2234
CCXCIX.—The Relative Directive Powers of Groups of the Forms RO and RR'N in Aromatic Substitution. Part VI. The Nitration of <i>m</i> - and <i>p</i> -Chlorobenzyl Ethers of Guaiacol. By ALBERT EDWARD OXFORD and ROBERT ROBINSON	2239
CCC.—The Thermal Dissociation of Carbonyl Chloride. By HORACE INGLESON	2244
CCCI.—Polynuclear Heterocyclic Aromatic Types. Part III. Pyrroloquinoline Derivatives. By REGINALD CLIFFORD FAWCETT and ROBERT ROBINSON	2254
CCCII.—The Conversion of Palmatine into its Cryptopine Analogue (Cryptopalmatine). By ROBERT DOWNS HAWORTH, JOSEPH BLAKE KOEFFLI, and WILLIAM HENRY PERKIN, jun.	2261
CCCIII.—Synthetical Experiments in the <i>iso</i> Quinoline Group. Part VII. A Synthesis of 3:11-Dimethoxyprotoberberinium Salts. By SATYENDRA NATH CHAKRAVARTI, ROBERT DOWNS HAWORTH, and WILLIAM HENRY PERKIN, jun.	2265
CCCIV.—Synthetical Experiments in the <i>iso</i> Quinoline Group. Part VIII. A Synthesis of Protoberberinium Salts. By SATYENDRA NATH CHAKRAVARTI, ROBERT DOWNS HAWORTH, and WILLIAM HENRY PERKIN, jun..	2275
CCCV.—5:6-Dimethoxy-2-methyl-1:2:3:4-tetrahydro <i>iso</i> quinoline and some Derivatives. By ROBERT DOWNS HAWORTH	2281
CCCVI.—Investigations on the Bivalency of Carbon. Part I. The Displacement of Chlorine from Diphenylchloromethane. <i>s</i> -Tetraphenyldimethyl Ether. By ALLAN MILES WARD	2285
CCCVII.—The Determination of Dissociation Constants of Dihydric Mono- and Di-nitrophenols Electrometrically and Colorimetrically. By FRANK LATHE GILBERT, FRANK C. LAXTON, and EDMUND B. R. PRIDEAUX	2295
CCCVIII.—The Constitution of the Disaccharides. Part XV. Sucrose. By JOHN AVERY, WALTER NORMAN HAWORTH, and EDMUND LANGLEY HIRST	2308
CCCVIX.—The Tautomerism of Amidines. Part VII. Methylation of Benzenyl- <i>p</i> -nitrodiphenylamidine. By CLIFFORD CHEW and FRANK LEE PYMAN	2318

CCCX.—Low-Temperature Oxidation at Charcoal Surfaces. Part IV. The Active Areas for Different Acids and their Relative Rates of Oxidation. By WINIFRED MARY WRIGHT	2323
CCCXI.—Orientation Effects in the Diphenyl Series. Part IV. The Reduction of Bandrowski's and Strakosch's Dinitrobenzidines, and the Condensation of the Products with Benzil. The Nitration of 2-Nitrodiacetylbenzidine and of 4:4'-Dibromodiphenyl. By RAYMOND JAMES WOOD LE FÈVRE, DANIEL DONALD MOIR, and EUSTACE EBENEZER TURNER	2330
CCCXII.—The Preparation of 2:5-Dihydroxybenzaldehyde (Gentisaldehyde). By HERBERT HENRY HODGSON and HERBERT GREENSMITH BEARD	2339
CCCXIII.—The Determination of the Structure of α -Hydroxyanthranols. By ALBERT GREEN	2341
CCCXIV.—Some Derivatives of 2:3:5:6-Dibenzo-1:8-naphthyridine. By ROBERT DOWNS HAWORTH and HERBERT SHEPHERD PINK	2345
CCCXV.—New Reference Compounds in the Sugar Group. The Methylamides of <i>d</i> -, <i>l</i> -, and <i>i</i> -Dimethoxysuccinic Acids and of <i>l</i> -Arabo- and <i>i</i> -Xylo-trimethoxyglutaric Acids. By WALTER NORMAN HAWORTH and DAVID IDRIS JONES	2349
CCCXVI.—The Photochemical Oxidation of Alcohols by the Dichromate Ion. By EDMUND JOHN BOWEN and CHARLES WILLIAM BUNN	2353
CCCXVII.—Equilibrium in the Systems $\text{MnSO}_4\text{-K}_2\text{SO}_4\text{-H}_2\text{O}$ and $\text{MnSO}_4\text{-(NH}_4)_2\text{SO}_4\text{-H}_2\text{O}$ at 0°; also in the System $\text{CuSO}_4\text{-Na}_2\text{SO}_4\text{-H}_2\text{O}$ at 0°, 25°, and 37.5°. By ROBERT MARTIN CAVEN and WILLIAM JOHNSTON	2358
CCCXVIII.—Complex Metallic Ammines. Part IX. The Introduction of Nitrophenol Radicals into Cobalt-ammine Complexes. Distinctive Behaviour of Mononitrophenoxides. By JAMES COOPER DUFF and EDWIN JOHN BILLS	2365
CCCXIX.—The Preparation of some Nitrohydroxybenzaldehydes and the Colour Relationships of their Substituted Phenylhydrazones. By HERBERT HENRY HODGSON and HERBERT GREENSMITH BEARD	2375
NOTES.—The Structure of Quinizarin. By ALBERT GREEN	2384
Solubility of Cupric Sulphide in Alkali Sulphides in Presence of Sulpharsenates. By CHRISTINA DAVIES and ALEXANDER DONALD MONRO	2385

	PAGE
9-Methylcarbazole-3-arsinic Acid and its Reduction Products. By HAROLD BURTON and CHARLES STANLEY GIBSON	2386
Derivatives of <i>o</i> -Aminophenylarsinic Acid. By HAROLD BURTON and CHARLES STANLEY GIBSON	2387
CCCXX.—Strychnine and Brucine. Part VI. The Catalytic Hydrogenation of Strychnine and Some Derivatives. By ALBERT EDWARD OXFORD, WILLIAM HENRY PERKIN, jun., and ROBERT ROBINSON	2389
CCCXXI.—3-Hydroxycyclohexylacetolactone. By ROBERT ROBINSON and AHMAD ZAKI	2411
CCCXXII.—The Relative Directive Powers of Groups of the Forms RO and RR'N in Aromatic Substitution. Part VII. The Nitration of Benzphenetidide and of <i>o</i> -, <i>m</i> -, and <i>p</i> -Nitrobenzphenetidides. By REGINALD C. FAWCETT and ROBERT ROBINSON	2414
CCCXXIII.—Some Sulphur Derivatives of Substituted Benzaldehydes. By HERBERT HENRY HODGSON and HERBERT GREENSMITH BEARD	2423
CCCXXIV.—The Ring Structure in Normal Galactose. Oxidation of Tetramethyl δ -Galactonolactone. By WALTER NORMAN HAWORTH, EDMUND LANGLEY HIRST, and DAVID IDRIS JONES	2428
CCCXXV.—1 : 3 : 4 : 6-Tetramethyl (γ -)Fructose and 2 : 3 : 5-Trimethyl (γ -)Arabinose. Oxidation of <i>d</i> - and <i>l</i> -Trimethyl γ -Arabonolactone. By WALTER NORMAN HAWORTH, EDMUND LANGLEY HIRST, and ABRAHAM LEARNER	2432
CCCXXVI.—The Structure of the Normal and γ -Forms of Tetramethyl Glucose. Oxidation of Tetramethyl δ - and γ -Gluconolactones. By WALTER NORMAN HAWORTH, EDMUND LANGLEY HIRST, and ERNEST JOHN MILLER	2436
CCCXXVII.—Acid and Salt Effects in Catalysed Reactions. Part XI. The Hydrolysis of Ethyl Acetate and the Catalytic Catenary. By HARRY MEDFORTH DAWSON and WILLIAM LOWSON.	2444
CCCXXVIII.—The Heat of Adsorption of Oxygen on Charcoal. Part II. By WILLIAM E. GARNER and DOUGLAS MCKIE	2451
CCCXXIX.—The Interaction of Bromine with Acetic Anhydride. Part II. By KENNEDY JOSEPH PREVITÉ ORTON, HERBERT BEN WATSON, and HUBERT IVOR HUGHES	2458

	PAGE
CCCXXX.—On the Photobromination of <i>cyclo</i> Hexane. By BASIL JOHN WOOD and ERIC KEIGHTLEY RIDEAL.	2466
CCCXXXI.—The Preparation and Properties of <i>dl</i> -Glycer- aldehyde. By H. GORDON REEVES	2477
CCCXXXII.—Examples of Feeble Activation of Certain Extended Conjugated Systems by Doubly Bound Oxygen. By ROBERT ROBINSON and AHMAD ZAKI	2485
CCCXXXIII.—Derivatives of Orcinol. Part I. By ED- MUND LANGLEY HIRST	2490
CCCXXXIV.—The Nature of the Supposed Dimethiodide of Trimethylene Sulphide. By GEORGE MACDONALD BEN- NETT and ALFRED LOUIS HOCK	2496
CCCXXXV.—10-Chloro-5 : 10-dihydrophenarsazine and its Derivatives. Part V. The General Method of Synthesis and Determination of Constitution. By CHARLES STAN- LEY GIBSON and JOHN DOBNEY ANDREW JOHNSON	2499
CCCXXXVI.—A New Isomerism of Halogenohydroxy- benzoyltoluic Acids. By MOSUKE HAYASHI	2516
CCCXXXVII.—Reactions of Thiosemicarbazones. Part III. By WILLIAM BAIRD, ROBERT BURNS, and FORSYTH JAMES WILSON	2527
CCCXXXVIII.—The Atomic Weight of Antimony from Different Sources. By KOLAR RAMAKRISHNAIYER KRISHNASWAMI	2534
CCCXXXIX.—Studies of Dynamic Isomerism. Part XXIV. Neutral-salt Action in Mutarotation. By THOMAS MARTIN LOWRY and GILBERT FREEMAN SMITH	2539
CCCXL.—Studies of Dynamic Isomerism. Part XXV. The Mechanism of Catalysis by Acids and Bases. By THOMAS MARTIN LOWRY	2554
CCCXLI.—The Quantitative Estimation of Mixtures of Isomeric Unsaturated Compounds. Part II. Iodo- metric Methods. By REGINALD PATRICK LINSTEAD and CECIL JOHN MAY	2565
CCCXLII.—The Chemistry of the Three-carbon System. Part XIV. The Effect of Conditions on Isomeric Change in Unsaturated Acids. By REGINALD PATRICK LINSTEAD	2579
CCCXLIII.—The Chemistry of the Three-carbon System. Part XV. Pulegone and <i>iso</i> Pulegone. By WILFRED EYNON HUGH, GEORGE ARMAND ROBERT KON, and REGINALD PATRICK LINSTEAD	2585

	PAGE
CCCXLIV.—The Chemistry of the Three-carbon System. Part XVI. The Effect of some Bridged and Unsaturated Rings on Tautomerism. By WILFRED EYNON HUGH and GEORGE ARMAND ROBERT KON	2594
CCCXLV.—The Constitution of Colloidal Platinum. By STUART W. PENNYCUICK	2600
CCCXLVI.—The Configuration of the Ammonium Ion. Part II. Geometrically Isomeric Quaternary Ammonium Salts derived from 4-Phenyl- and 4-Hydroxy- piperidine. By WILLIAM HOBSON MILLS, JOHN DAVIES PARKIN, and WILLIAM JOSEPH VICTOR WARD	2613
CCCXLVII.—The Electrolysis of Potassium Chloride Solu- tions by Alternating Currents. By ARTHUR JOHN ALL- MAND and HERBERT CHARLES COCKS	2626
CCCXLVIII.—The Formation of the Sulphites of Azo- compounds. By ALBERT THEODORE KING	2639
CCCXLIX.—The Relative Directive Powers of Groups of the Forms RO and RR'N in Aromatic Substitution. Part VIII. The Nitration of 4- <i>n</i> -Butoxyanisole. By JOHN CLARKE, ROBERT ROBINSON, and JOHN CHARLES SMITH	2647
CCCL.—Facile Ring-closure to a Derivative of Dihydroiso- quinoline contrasted with the Difficulty of Analogous Formation of a Derivative of <i>iso</i> Indole. By JACQUES MALAN and ROBERT ROBINSON	2653
CCCLI.—Mercury Derivatives of Acetic Acid. By JAMES ERNEST MARSH and ROBERT DE JERSEY FLEMING STRUTHERS	2658
CCCLII.—The Two <i>o</i> -Cyanocinnamic Acids. By WILLIAM DAVIES and HARRY GORDON POOLE	2661
CCCLIII.—Beryllium Dialkyls. By HENRY GILMAN and F. SCHULZE	2663
CCCLIV.—The Thermal Dissociation of Strontium Carbonate. By EDWARD OSWALD JONES and MAURICE LUND BECKER	2669
CCCLV.—A New Stereoisomeride (<i>trans</i> -) of Hexahydro- carbazole. By JOHN GURNEY, WILLIAM HENRY PERKIN, jun., and SYDNEY GLENN PRESTON PLANT	2676
CCCLVI.—The Hydrolysis of Solutions of Sodium Palmitate as measured by Extraction with <i>p</i> -Xylene. By JAMES WILLIAM MCBAIN and REGINALD BUCKINGHAM	2679
CCCLVII.—The Effect of Electrolytes upon the Viscosity of Solutions of Sodium Palmitate. By JAMES WILLIAM MCBAIN, HERBERT JAMES WILLAVOYS, and HAROLD HEIGHTINGTON	2689

CCCLVIII.—The Composition of Bleaching Powder. Part I. By EDMUND ARTHUR O'CONNOR	2700
CCCLIX.—Some Effects of the Uneven Distribution of Current Density over an Electrode. By ERNEST SYDNEY HEDGES.	2710
CCCLX.—The Sulphonation of Glyoxalines. Part III. By GEORGE REGINALD BARNES and FRANK LEE PYMAN	2711
CCCLXI.—The Absorption Spectra of Various Alkaloids and their Salicylates and of other Derivatives of Salicylic Acid. By JOHN EDWARD PURVIS	2715
CCCLXII.—Organic Derivatives of Silicon. Part XXXIII. An Amorphous Variety of Octaphenylcyclosilicotetrane. By FREDERIC STANLEY KIPPING	2719
CCCLXIII.—Organic Derivatives of Silicon. Part XXXIV. The Action of Sodium on Phenoxydiphenylsilyl Chloride. By FREDERIC STANLEY KIPPING	2728
CCCLXIV.—Organic Derivatives of Silicon. Part XXXV. The Preparation of Diphenylsilicon Dichloride: "Grig- nard" Ether and its Action on Silicon Tetrachloride. By FREDERIC STANLEY KIPPING and ARTHUR GEORGE MURRAY	2734
CCCLXV.—The Condensation of <i>o</i> -Aminothiophenol with $\alpha\beta$ -Unsaturated Acids. By WILLIAM HOBSON MILLS and JAMES BELL WHITWORTH	2738
CCCLXVI.—Organic Compounds of Arsenic. Part III. Tri- <i>o</i> -phenylenediarsine. By NIAL PATRICK MCCLELAND and JAMES BELL WHITWORTH	2753
CCCLXVII.—The Halogenation of Phenols. Part II. Iodination. By FREDERICK GEORGE SOPER and GILBERT FREEMAN SMITH	2757
CCCLXVIII.—The Activity Theory of Reaction Velocity. The Interaction of <i>N</i> -Chloroacetanilide and Hydro- chloric Acid. By FREDERICK GEORGE SOPER and DAVID REGINALD PRYDE	2761
CCCLXIX.—The Orienting Influence of Free and Bound Ionic Charges on Attached Simple or Conjugated Un- saturated Systems. Part II. The Nitration of 1-Benzyl- piperidine and of Some Related Substances. By ALFRED POLLARD and ROBERT ROBINSON	2770
CCCLXX.—The Orienting Influence of Free and Bound Ionic Charges on Attached Simple or Conjugated Unsaturated Systems. Part III. The Nitration of <i>m</i> -Nitrophenyl- benzylsulphone. By BIBHUCHARAN CHATTERJEE and ROBERT ROBINSON	2780

	PAGE
CCCLXXI.—The Orienting Influence of Free and Bound Ionic Charges on Attached Simple or Conjugated Unsaturated Systems. Part IV. The Nitration of Toluene- ω -sulphonic Acid and of Toluene- ω -sulphonyl Chloride. By ARTHUR C. BOTTOMLEY and ROBERT ROBINSON	2785
CCCLXXII.—A New Synthesis of Hydrastic Acid. By THOMAS STEVENS STEVENS and MARY CARRICK ROBERTSON	2790
CCCLXXIII.—The Action of Tolyhydrazines upon Dihydroxytartaric Acid. By FREDERICK DANIEL CHATTAWAY and WILLIAM GERALD HUMPHREY	2793
CCCLXXIV.—A General Method for the Preparation of Carbocyanine Dyes. By FRANCES MARY HAMER	2796
CCCLXXV.—Quaternary Salts in the Benzselazole Series. By LESLIE MARSHALL CLARK	2805
CCCLXXVI.—The Constitution of the Disaccharides. Part XVI. Cellobiose. By WALTER NORMAN HAWORTH, CHARLES WILLIAM LONG, and JOHN HERBERT GEOFFREY PLANT	2809
CCCLXXVII.—Substituted Diaryl Ethers. Part II. The Friedel-Crafts Reaction applied to Di- <i>p</i> -tolyl Ether. By JOSEPH REILLY and PETER J. DRUMM	2814
CCCLXXVIII.—The Action of Alkalis on Clay. By HENRY BOWEN OAKLEY	2819
CCCLXXIX.—On Active Nitrogen. Part IV. The Independence of the Afterglow and the Chemical Properties of Active Nitrogen. By ERIC JOHN BAXTER WILLEY.	2831
CCCLXXX.—Molecular Structure in Solution. Part III. The Electrical Conductivities of Aqueous Solutions of Cobalt Chloride and Hydrochloric Acid, with a Note on the Prediction of Crystal Structure. By OWEN RHYS HOWELL	2843
CCCLXXXI.—The Interaction of Chloral and Arylhydrazines. By FREDERICK DANIEL CHATTAWAY and RANDLE BENNETT	2850
CCCLXXXII.—The Halogenation of <i>p</i> -Hydroxydiphenylamine. Part II. By ALAN EDWIN BRADFIELD, LESLIE HUGH NORMAN COOPER, and KENNEDY JOSEPH PREVITÉ ORTON	2854
CCCLXXXIII.—Substitution Products of 4-Hydroxybenzophenone and of its Methyl Ether. By WILLIAM BLAKEY, WALTER IDRIS JONES, and HAROLD ARCHIBALD SCARBOROUGH	2865

	PAGE
CCCLXXXIV.—The Temperature Effects of Mixing Non-aqueous Liquids. By WALTER MATTHEW MADGIN, JOHN BUTTERY PEEL, and HENRY VINCENT AIRD BRISCOE	2873
CCCLXXXV.—The Parachor and Chemical Constitution. Part VI. Some Cases of Supposed Ring-chain Tautomerism. By FREDERICK BASIL GARNER and SAMUEL SUGDEN	2877
CCCLXXXVI.—The Chemical Nature of Precipitated Basic Cupric Carbonate. By JACK REGINALD IRONS HEPBURN	2883
NOTES.—A Simple Form of Automatic Syphon. By DOUGLAS CREESE HARRISON	2896
The Preparation of Triacetoneamine Hydrate. By FRANCIS FRANCIS	2897
7-Hydroxy-3-phenylcoumarin. By WILSON BAKER	2898
A Double Compound of Chromic and Hydrogen Chlorides. By JAMES RIDDICK PARTINGTON and SIDNEY KEENLYSIDE TWEEDY	2899
The Viscosities of Chromic Anhydride Solutions. By JAMES RIDDICK PARTINGTON and SIDNEY KEENLYSIDE TWEEDY	2900
Equilibrium in the System $\text{CuSO}_4\text{-Na}_2\text{SO}_4\text{-H}_2\text{O}$ at 0° , 25° , and 37.5° . A Correction. By ROBERT MARTIN CAVEN and WILLIAM JOHNSTON	2902
Change of Properties of Substances on Drying. By HERBERT BRERETON BAKER	2902
The Dimorphism of 2-Chloroaceto- <i>p</i> -toluidide. By MAURICE SCHOFIELD	2903
CCCLXXXVII.—The Complex Salts of Nickel with Various Aliphatic Diamines. By FREDERICK GEORGE MANN	2904
CCCLXXXVIII.—The Nature of the Alternating Effect in Carbon Chains. Part XXII. An Attempt further to define the Probable Mechanism of Orientation in Aromatic Substitution. By CHRISTOPHER KELK INGOLD and FLORENCE RUTH SHAW	2918
CCCLXXXIX.—Melting Points of the Substituted Amides of Dibasic Acids. By CUTHBERT RICHMOND BARNICOAT	2926
CCCXC.—Aromatic Thionyl and Chlorothionyl Derivatives. Part III. Some Reactions of Thionylalazarin. By ALBERT GREEN	2930
CCCXCI.—The Isomerism of the Oximes. Part XXXII. Sulphates. By OSCAR L. BRADY and ALAN D. WHITEHEAD	2933

	PAGE
CCCXCII.—Properties of Conjugated Compounds. Part III. The Bearing of Hexatriene Chemistry on the Reactive Form of Conjugated Hydrocarbons. By ERNEST HAROLD FARMER, BANARSI DAS LAROLA, THEODORE MACLEAN SWITZ, and JOCELYN FIELD THORPE	2937
CCCXCIII.—The Reactions between Oxygen and Coal. By WILFRID FRANCIS and RICHARD VERNON WHEELER .	2958
CCCXCIV.—The Ternary Systems Copper Acetate–Acetic Acid–Water and Lead Acetate–Acetic Acid–Water at 25°. By KARL SANDVED	2967
CCCXCV.—The Determination of Total Carbon and Carbon Dioxide in Small Quantities of Soil Solutions. By COLIN FALCONER FLINT	2975
CCCXCVI.—The Critical Temperatures of Boron Trichloride and Silicon Tetrachloride. By THOMAS WALLACE PARKER and PERCY LUCCOCK ROBINSON	2977
CCCXCVII.—The Complex Cyanides of Molybdenum. By WILLIAM RALPH BUCKNALL and WILLIAM WARDLAW	2981
CCCXCVIII.—Equilibrium Diagram of the System Thallium–Phosphorus. By QASIM ALI MANSURI	2993
CCCXCIX.—An Auto-poisoning Phenomenon shown by Catalytically Active Copper at Moderate Temperatures. By FREDERICK HURN CONSTABLE	2995
CCCC.—Substitution Products of 3-Nitro- and 3-Amino-diphenyl. By WILLIAM BLAKEY and HAROLD ARCHIBALD SCARBOROUGH	3000
CCCCI.—Derivatives of Methyl 2:2-Dimethylcyclopentan-3-one-1-carboxylate. By CHARLES STANLEY GIBSON, KELVOI VENKATAKRISHNA HARIHARAN, and JOHN LIONEL SIMONSEN	3009
CCCCII.—The Colouring Matters of Carajura. By ERNEST CHAPMAN, ARTHUR GEORGE PERKIN, and ROBERT ROBINSON	3015
CCCCIII.—The Reimer–Tiemann Reaction with <i>m</i> -Bromo- and <i>m</i> -Iodo-phenol. By HERBERT HENRY HODGSON and THOMAS ALFRED JENKINSON	3041
CCCCIV.—The Mechanism of the Formation of Citric and Oxalic Acids from Sugars by <i>Aspergillus Niger</i> . Part II. By THOMAS KENNEDY WALKER, VIRA SUBRAMANIAM, and FREDERICK CHALLENGER	3044
CCCCV.—The Influence of Alkalis on the Coagulation of Silica and Clay Suspensions by Alkali Chlorides. By HENRY BOWEN OAKLEY	3054

	PAGE
CCCCVI.—The Interaction of Bromine with Acetic Anhydride. Part III. Arrest of the Reaction. A Comparison with the Bromination of Acetone. By HERBERT BEN WATSON	3065
CCCCVII.—Trypanocidal Action and Chemical Constitution. Part VII. <i>s</i> -Carbamides and Arylamides of Naphthylamine-di- and -tri-sulphonic Acids with Some Observations on the Mesomorphic State. By ISIDORE ELKANAH BALABAN and HAROLD KING	3068
CCCCVIII.—Investigations on the Reactivity of Halogens in Various Types of Naphthalene Derivatives. Part I. By JOHN BALDWIN SHOESMITH and HANNES RUBLI	3098
CCCCIX.—Investigation of the Constitution of Glycerides in Natural Fats. A Preliminary Outline of Two New Methods. By THOMAS PERCY HILDITCH and COLIN HENRY LEA	3106
CCCCX.—The Heat of Adsorption of Oxygen on Charcoal. By ANGUS FITZCHARLES HENDERSON WARD and ERIC KEIGHTLEY RIDEAL	3117
CCCCXI.—The Condensation of Glyoxalines with Formaldehyde. By ROBERT GRINDLEY and FRANK LEE PYMAN	3128
CCCCXII.—The Oxide-ring Structure of Normal and γ -Derivatives of Mannose. Preparation and Oxidation of Derivatives of γ -Mannonolactone and δ -Mannonolactone, with an Addendum on the Formulation of Normal and γ -Sugars as Derivatives of Pyran and Furan and the Suggestion of a New Nomenclature. By EDWARD HAGUE GOODYEAR and WALTER NORMAN HAWORTH	3136
CCCCXIII.—The Constitution of the Disaccharides. Part XVII. Maltose and Melibiose. By WALTER NORMAN HAWORTH, JOHN VAUGHAN LOACH, and CHARLES WILLIAM LONG	3146
CCCCXIV.—Ionisation and Chemical Change during Slow Combustion. By JAMES ALLAN JAMIESON BENNETT and ERNEST WALTER JOHN MARDLES	3155
NOTES.—Pregl's Universal Filling applied to Macro-combustions. By WILLIAM DAVIES	3161
The Electroendosmosis of Aqueous Solutions through Glass Diaphragms. By HORACE CHARLES HEPBURN	3163
The Use of Hydrogen Peroxide for Iodine and Other Substitutions in Aromatic Compounds. By JAMES ERNEST MARSH	3164
OBITUARY NOTICES	3165
