

# INDEX OF AUTHORS' NAMES, 1928.

## A.

- Abbott, (Miss) Aileen E., George A. R. Kon, and Ralph D. Satchell**, the chemistry of the three-carbon system. Part XIX. The homomesitones, 2514.
- Ahuja, Ram S.** See **Mahan Singh**.
- Allam, P. S.** See **Oscar L. Brady**.
- Anderson, Leonard, and Douglas W. Hill**, a further case of the spontaneous resolution of externally compensated mixtures, 993.
- Angel, Thomas H.** See **Joseph E. Coates**.
- Ark, Harry**, an investigation of the oxidation of certain aliphatic and aromatic carbon compounds by means of the dichromate reaction, 46.
- Ashley, Julius N., and Robert Robinson**, 3:4:5:6-tetrahydro-4-carboline, 1376.
- Ashworth, Frank, and George N. Burkhardt**, effects induced by the phenyl group. Part I. The addition of polar reagents to styrene and the behaviour of the halogenated ethylbenzenes, 1791.
- Austin, Percy C.**, the rotatory dispersion of derivatives of tartaric acid. Part III. Diacetyltartaric acid and its esters, 1825.  
the rotatory dispersion of derivatives of tartaric acid. Part IV. Propyl and butyl tartrates, 1831.
- Ayling, Ernest E.** See **Leonard E. Hinkel**.
- B.**
- Backer, Hilmar J., and Hindrik W. Mook**, resolution of racemic chloro-bromoacetic acid, 2125.
- Bagster, Lancelot S.**, the reaction between nitrous acid and hydrogen sulphide, 2631.
- Bailey, Kenneth C.**, the inhibition of esterification by pyridine, 1204.  
the inhibition of chemical reactions. Part II. The mechanism of the inhibition of esterification by alkaline substances, 3256.
- Baker, Herbert B.**, presidential address, 1051.
- Baker, John W.**, the mechanism of tautomeric interchange and the effect of structure on mobility and equilibrium. Part II. Ring-chain tautomerism in its relation to the mutarotation of the sugars, 1583.  
the mechanism of tautomeric interchange and the effect of structure on mobility and equilibrium. Part III. The function of alkaline and acid catalysts in the mutarotation of some derivatives of tetramethyl glucose, 1979.
- Baker, John W., Kenneth E. Cooper, and Christopher K. Ingold**, the nature of the alternating effect in carbon chains. Part XXIV. The directive action in aromatic substitution of certain groups containing triple linkings, 426.
- Baker, Leslie C.**, preparation of 4-bromophthalic acid, 2829.
- Baker, Leslie C.** See also **Oscar L. Brady**.
- Baker, Wilson**, the constitution of irigenin and iridin. Part I., 1022.
- Baker, Wilson, and Robert Robinson**, synthetic experiments in the isoflavone group. Part III. A synthesis of genistein, 3115.
- Balaban, Isidore E.**, a new synthesis of 4-amino-3-hydroxyphenylarsinic acid, 809.  
heterocyclic compounds containing arsenic. Part III. Some derivatives of 4-amino-3-hydroxyphenylarsinic acid, 3066.
- Bannister, Leonard C.**, surface oxidation of aluminium, tungsten, and molybdenum, 3163.
- Barber, Harry J., and Samuel Smiles**, cyclic disulphides derived from diphenyl, 1141.
- Bardhan, Jogendra C.**, experiments on the synthesis of certain  $\gamma$ -ketonic acids closely allied to Balbiano's acid. Part I. Synthesis of  $\alpha$ -methylcyclopentane-1:1-diacetic acid, of the lactone of  $\alpha$ -hydroxy- $\alpha$ -methylcyclopentane-1:1-diacetic acid, and of 1-acetylcyclopentane-1-acetic acid, 2591.

- Bardhan, Jogendra C.**, experiments on the synthesis of certain  $\gamma$ -ketonic acids closely allied to Balbiano's acid. Part II. Synthesis of  $\alpha\beta$ - and  $\alpha\beta$ -trimethyl-levulinic acids, of the lactone of  $\alpha$ -hydroxy- $\alpha\beta$ -trimethylglutaric acid, and of  $\gamma$ -keto- $\alpha\beta$ -trimethylpropane -  $\alpha\gamma$  - dicarboxylic acid (Balbiano's acid), 2604.
- Barger, George**, and **Robert Silberschmidt**, the constitution of laurotetanine, 2919.
- Barnes, Ronald S.** See **Louis Hunter**.
- Barnett, Edward de B.**, and **James W. Cook**, the synthesis of *meso*-alkyl and *meso*-aryl anthracene derivatives. Part III., 566.
- Barnett, Edward de B.**, **James W. Cook**, and **Thomas E. Ellison**, the absorption spectra of anthracene derivatives. Part I., 885.
- Barnett, Edward de B.**, and **John L. Wiltshire**, the synthesis of *meso*-alkyl and *meso*-aryl anthracene derivatives. Part IV., 1822.
- Barr, G.**, a gas circulating pump, 3293.
- Bayliss, Noel S.** See **E. A. Goode**.
- Bell, Ernest V.**, and **George M. Bennett**, stereoisomerism of disulphoxides and related substances. Part II. Derivatives of 1:4-dithian, 86.  
stereoisomerism of disulphoxides and related substances. Part III. Some pairs of aromatic disulphoxides, 3189.
- Bell, Frank**, 2:4:7-trinitrofluorenone, 1990.  
investigations in the diphenyl series. Part VIII. Derivatives of 2-amino- and 4-amino-diphenyl, 2770.  
preparation of diethylaminoethanol esters of diphenyl-2-carboxylic acid and derivatives, 3247.
- Bell, Frank**, and **Thomas A. Henry**, by-products of the Gattermann aldehyde reaction, 2215.
- Bell, James**, the hydrolysis of guanidine carbonate, 2074.
- Bennett, George M.**, and **William G. Philip**, the influence of structure on the solubilities of ethers. Part I. Aliphatic ethers, 1930.  
the influence of structure on the solubilities of ethers. Part II. Some cyclic ethers, 1937.
- Bennett, George M.**, and **Gervase H. Willis**, steric hindrance in reactions of substituted quinoxalines, 1960.  
dibenzyl ether as a cryoscopic solvent, 2305.
- Bennett, George M.** See also **Ernest V. Bell**.
- Berry, Arthur J.**, and **Thomas M. Lowry** [with (*Mrs.*) **Rose R. Goldstein**, and **Frank L. Gilbert**], studies of valency. Part IX. Molecular structure of thallium salts; (a) thallium triiodide; (b) alkyl derivatives, 1748.
- Best, R. J.** See **Stuart W. Pennycuik**.
- Betts, Harold F.** See **David C. Jones**.
- Betts, Raymond L.**, and **Sydney G. P. Plant**, derivatives of  $\psi$ -indoxylspirocyclohexane, 2070.
- Bevan, (Miss) Lilian C.** See **Leonard E. Hinkel**.
- Bhattacharya, Ramakanta, Shankar R. Saletore**, and **John L. Simonsen**, a synthesis of behenic acid, 2678.
- Blakey, William**, and **Harold A. Scarborough**, the nitration and bromination of 4-methylbenzophenone, 2489.
- Bonnell, David G. R.** See **Ellis Lloyd**.
- Bowden, Sydney T.**, and **William J. Jones**, the photodecomposition of triphenylmethyl, 1149.
- Boyd, David R.**, and **Douglas V. N. Hardy**, the introduction of the triphenylmethyl group into phenols, 630.
- Boyd, David R.**, and **Donald E. Ladhams**, the reaction between diaryloxyisopropyl alcohols and phosphorus oxychloride in the presence of pyridine, 215.  
the action of magnesium phenyl bromide on methyl *o*-cyanobenzoate; 1:3-diphenyldihydroisindole, 2089.
- Bradfield, Alan E.**, the chlorination of anilides. Part II. The decomposition of *N*-chloroacetanilide by heat, 351.
- Bradfield, Alan E.**, and **Brynmor Jones**, the chlorination of anilides. Parts IV. and V. The significance of velocity measurements in relation to the problem of benzene substitution, 1006, 3073.
- Bradfield, Alan E.**, **Kennedy J. P. Orton**, and **Idris C. Roberts**, chloroamines as halogenating agents; iodination by a chloroamine and an iodide, 782.
- Bradley, William**, and **Robert Robinson**, the interaction of benzoyl chloride and diazomethane together with a discussion of the reactions of the diazenes, 1310.  
a synthesis of pyrylium salts of anthocyanidin type. Part XVIII. A synthesis of malvidin chloride, 1541.
- Bradley, William**, and **Gerald Schwarzenbach**, the acylation of diazomethane; the effects of variations in the conditions on the extent of formation of chloroacetophenone from benzoyl chloride, 2904.

- Brady, Oscar L., Leslie C. Baker, Richard F. Goldstein, and Samuel Harris**, the isomerism of the oximes. Part XXXIII. The oximes of opianic acid and of phthalic anhydride, 529.
- Brady, Oscar L., James N. E. Day, and P. S. Allam**, some dinitroethylbenzenes, 978.
- Brady, Oscar L., and Brian E. M. Miller**, the nitration of benzaldoxime and some of its derivatives, 337.
- Brady, Oscar L., and Cedric V. Reynolds**, triazole compounds. Part II. Methylation of some 1-hydroxy-1:2:3-benzotriazoles, 193.
- Bretscher, Egon, H. Gordon Rule, and John Spence**, optical activity and the polarity of substituent groups. Part IX. Menthyl esters of methoxynaphthoic and of diphenyl-2-carboxylic acids, 1493.
- Brewin, Albert, and Eustace E. Turner**, the comparative reactivities of some chloro-, bromo-, and iodo-nitrobenzenes, 332.  
the mechanism of activation of halogen atoms by a nitro-group present in the same aromatic nucleus, 334.
- Briers, Frank, and David L. Chapman**, the influence of the intensity of illumination on the velocity of the photochemical union of bromine and hydrogen, and the determination of the mean life of a postulated catalyst, 1802.
- Briggs, Lindsay H., and Wallace F. Short**, the chemistry of aromadendrene. Part I., 2524.  
the oxidation of dipinene, 3118.
- Briscoe, Edward F., and Sydney G. P. Plant**, carbazole-1-carboxylic acid, 1990.
- Briscoe, Henry V. A., and John B. Peel**, the preparation and properties of selenophen and certain halogen derivatives of selenophen, 1741.
- Briscoe, Henry V. A., John B. Peel, and Percy L. Robinson**, an improved method of preparing selenophen, 2628.  
the production of thiophen by the interaction of acetylene and carbon disulphide, 2857.
- Briscoe, Henry V. A.** See also *Walter M. Madgin*.
- Brown, Conrad B.** See *Ellis Lloyd*.
- Brown, Ernest, and David L. Chapman**, the Budde effect with a mixture of bromine vapour and air, 560.
- Brown, Horace T.**, obituary notice of, 1061.
- Brunner, Ernst.** See *Friedrich Fichter*.
- Brunner, Max, and Eric K. Rideal**, the oxidation of *n*-hexane, 1162, 2824.
- Buchanan, Charles.** See *Thomas S Patterson*.
- Bucknall, William R., and William Wardlaw**, cobalt allylamines: a supposed co-ordination number of eight for cobalt, 2648.  
attempted resolution of triethylenediamine nickel chloride, 2739.
- Burgess, Henry.** See *Thomas M. Lowry, and Gilbert T. Morgan*.
- Burkhardt, George N.** See *Frank Ashworth*.
- Burns, James, Hamilton McCombie, and Harold A. Scarborough**, some substitution products of azobenzene, 2928.
- Burrows, George J., and Ian W. Wark**, the co-ordination valency of aluminium in its salicylato-derivatives, 222.
- Burstall, Francis H.** See *Gilbert T. Morgan*.
- Burton, Harold**, mobile-anion tautomerism. Part II. A complementary study of the mechanism of anionotropic change, with special reference to the fate of the mobile anion, 1650.
- Burton, Harold, and Christopher K. Ingold**, mobile-anion tautomerism. Part I. A preliminary study of the conditions of activation of the three-carbon system, and a discussion of the results in relation to the modes of addition to conjugated systems, 904.

## C.

- Calvet, Fernando.** See *Frederick D. Chattaway*.
- Campbell, Alan N.**, density and electrostriction of dilute manganese salt solutions, 653.
- Campbell, Alan N.** See also *Alexander Findlay*.
- Campbell, Colin, and Arthur C. Finch**, striated photographic records of explosion waves. Part II. An explanation of the striæ, 2094.
- Carter, John S.**, polyiodide equilibrium in aqueous and salt solutions, 2227.
- Carter, John S., and Richard K. Hardy**, the salting-out effect; influence of electrolytes on the solubility of *m*-cresol in water, 127.
- Carter, Sydney R., and Norman J. L. Megson**, a phase rule investigation of cupric bromide in aqueous and hydrobromic acid solutions, 2954.
- Caspari, William A.**, crystallography of the aliphatic dicarboxylic acids, 3235.

- Castell, Reginald A. S.** See *Gilbert T. Morgan*.
- Cavanagh, Bernard**, differential potentiometric titration. Part I. Simple method (Method I), 843.  
differential potentiometric titration. Part II. Refined methods (Methods II and III), 855.
- Caven, Robert M.**, and *William Johnston*, equilibrium in the systems  $\text{ZnSO}_4\text{-Na}_2\text{SO}_4\text{-H}_2\text{O}$  at 0° and 25°;  $\text{MnSO}_4\text{-Na}_2\text{SO}_4\text{-H}_2\text{O}$  at 0°, 25°, and 35°; and  $\text{CoSO}_4\text{-K}_2\text{SO}_4\text{-H}_2\text{O}$  at 25°, 2506.
- Challenger, Frederick**, and *Arnold T. Peters*, the nitration of aromatic thiocyanates and selenocyanates, 1364.
- Chapman, A. Chaston**, the chemical individuality of humulene, 785.  
the higher-boiling constituents of the essential oil of hops, 1303.
- Chapman, Arthur W.**, the thermal decomposition of thiobenzanilide, 1894.
- Chapman, David L.**, and *Philip P. Grigg*, the rate of photochemical combination of chlorine and hydrogen in glass capillary tubes, 3233.
- Chapman, David L.** See also *Frank Briers*, and *Ernest Brown*.
- Chattaway, Frederick D.**, and *Fernando Calvet*, the condensation of chloral with substituted phenols, 1088.  
the condensation of chloral with anisic acid, with *p*-nitroanisole, and with 2:6-dichloroquinol, 2913.
- Chattaway, Frederick D.**, and *Edward A. Coulson*, the mononitrobenzils and the heteronuclear dinitrobenzils, 1080.  
the preparation of 4:4'-dinitrobenzil, 1361.
- Chattaway, Frederick D.**, and *Francis G. Daldy*, the interaction of chloral and 2:4:6-trihalogen-substituted phenylhydrazines, 2756.
- Chattaway, Frederick D.**, and *William G. Humphrey*, imide ring closure in derivatives of diketosuccinic acid phenylosazone, 1094.
- Chattaway, Frederick D.**, and *Edwin G. Kellett*, polymerides of aliphatic chloroaldehydes, 2709.
- Chattaway, Frederick D.**, and *Alexander A. Morris*, the condensation of dichloroacetaldehyde with phenols, 3241.
- Chirnoaga, Eugen**, a chemical method for preparing carbon hydrosol, 298.
- Chivers, John C. A.**, and *Samuel Smiles*, derivatives of 1:3-dithiolan and of 1:3-dithian, 697.
- Chrisman, Albert E.** See *Charles E. Wood*.
- Clark, Leslie M.**, the methylene bases from 1-methylbenzthiazole and 1-methylbenzselazolemethiodides; with a note on the preparation of 1-substituted benzthiazoles, 2313.  
the reduction of selenious acid, 2388.
- Clemo, George R.**, and (*Miss*) *Grace C. Leitch*, the lupin alkaloids. Part I., 1811.
- Clemo, George R.**, and *James M. Smith*, studies in the nitration of substituted tertiary aromatic amines, 2414.  
the reduction of *p*-dimethylamino-benzaldehyde, and the preparation of *p*-dimethylaminobenzyl alcohol, 2423.
- Clemo, George R.**, and *Robert Spence*, the catalytic production of polynuclear compounds. Part I., 2811.
- Clemo, George R.**, and *Eric Walton*, some properties and reactions of  $\beta$ -chloroethyl,  $\beta$ -cyanoethyl, and  $\beta$ -carbethoxyethyl toluene-*p*-sulphonates, including an extension of the Friedel-Crafts reaction, 723.
- Clemo, George R.**, and *Kenneth N. Welch*, attempts to synthesise norpinic acid, 2621.
- Clemo, George R.** See also *Kenneth N. Welch*.
- Coates, Joseph E.**, *Leonard E. Hinkel*, and *Thomas H. Angel*, studies on hydrogen cyanide. Part I. Mercuric methyl cyanide and the alleged isomerides of hydrogen cyanide, 540.
- Colles, William M.**, and *Charles S. Gibson*, the resolution of externally compensated *p*-nitrobenzoylalanine, 99.
- Cook, James W.**, a cyclic semipinacolin, 58.  
transannular anionotropic migrations, 2798.
- Cook, James W.** See also *Edward de B. Barnett*.
- Cooper, Kenneth E.** See *John W. Baker*.
- Coppock, Philip D.**, *Vira Subramaniam*, and *Thomas K. Walker*, the mechanism of the degradation of fatty acids by mould fungi. Part II., 1422.
- Coppock, Philip D.** See also *Thomas K. Walker*.
- Coulson, Edward A.** See *Frederick D. Chattaway*.
- Cousen, Arnold**, and *William E. S. Turner*, the density of boric oxide glass and the atomic weight of boron, 2654.

Cousins, *Wilfrid R.* See *Dalziel L. Hammick*.  
 Cox, *Charles B.* See *Edmund B. R. Pridaux*.  
 Creighton, *Ellon B.* See *Thomas S. Stevens*.  
 Cutcliffe, *Eric F.* See *Robert C. Menzies*.

## D.

- Daldy, Francis G.** See *Frederick D. Chattaway*.  
**Dann, Arthur T., Alf Howard, and William Davies,** the alkaline hydrolysis of  $\omega$ -bromo- and  $\omega$ -chloro-nitrostyrenes, 605.  
**Davies, Herbert, and William Davies,** the bromination of *m*-methoxycinnamic acid, 602.  
**Davies, William, and Harry G. Poole,** the action of phosphorus pentachloride on homophthalic acid, 1616.  
**Davies, William, and (Miss) Edna S. Wood,** the comparative effects of the nitro-, carboxyl, and sulphonic acid groups on the hydrolysis of aryl halides, 1122.  
**Davies, William.** See also *Arthur T. Dann, and Herbert Davies*.  
**Dawson, Harry M.,** the hydrogen-ion concentration of aqueous iodine solutions, 259.  
**Dawson, Harry M., George V. Hall, and Arthur Key,** acid and salt effects in catalysed reactions. Part XVII. The variation of the catalytic activity of an acid with its concentration, and the determination of ionisation constants, 2844.  
**Dawson, Harry M., and Arthur Key,** acid and salt effects in catalysed reactions. Part XII. The water catenary ( $H^+ - H_2O - OH^-$ ) in the iodination of acetone, 543.  
 acid and salt effects in catalysed reactions. Part XIII. Inert salt effects in the catalytic action of acids, 1239.  
 acid and salt effects in catalysed reactions. Part XIV. The influence of inert salts on the catalytic catenary for acetic acid-acetate mixtures, 1248.  
 acid and salt effects in catalysed reactions. Part XVI. Catalytic effects in the iodination of mesityl oxide, 2154.  
**Dawson, Harry M., and William Lowson,** acid and salt effects in catalysed reactions. Part XV. The catalytic activity of hydrochloric acid in the hydrolysis of ethyl acetate, 2146.  
 acid and salt effects in catalysed reactions. Part XVIII. The dynamics of autocatalysed ester hydrolysis, 3218.  
**Day, James N. E.** See *Oscar L. Brady*.  
**Deulofeu, Venancio,** allyl hexoate and octoate, 528.  
**Dewar, (Sir) James,** obituary notice of, 1066.  
**Diamond, Hugh.** See *Henry Terrey*.  
**Dickins, Alfred H., Wilfred E. Hugh, and George A. R. Kon,** the chemistry of the three-carbon system. Part XVII. cyclohexylideneacetone and cyclohexylideneethyl ethyl ketone, 1630.  
**Dickinson, Robert, Isidor M. Heilbron, and (Miss) Florence O'Brien,** styrylpyrylium salts. Part X. Anhydro-pyrylium bases and spiro-pyrans derived from dibenzyl ketone, 2077.  
**Doak, Brian W., and John Packer,** metallic derivatives of hydroxy-esters. Part I. Copper and nickel derivatives of methyl salicylate, 2763.  
**Drew, Harry D. K.,** cyclic organo-metallic compounds. Part IV. Tellurylium compounds, 506.  
 cyclic organo-metallic compounds. Part V. Phenoxselenine and phenoxthionine from phenoxtellurine; selenylium and thionylium compounds, 511.  
**Drew, Harry D. K., and Walter N. Haworth,** polysaccharides. Part III. The molecular complexity of inulin, 2690.  
**Drumm, Peter J.** See *Joseph Reilly*.  
**Dunnicliff, Horace B., Harnam D. Suri, and Kishen L. Malhotra,** the action of bromine on strontium oxide and its hydrates, 3106.  
**Dunsby, Arthur N.** See *Edward B. Maxted*.  
**Dutt, Pavitra K.** See *Arthur Key*.

## E.

**Earl, John C., Frank C. Ellsworth, Edward C. S. Jones, and James Kenner,** a contribution to the chemistry of nitroso-compounds, 2697.  
**Eaton, Frederick J., and Stuart Pexton,** the determination of volatile matter in coke, 1215.

- Eaton, Monroe.** See *James W. McBain.*
- Edge, Vernon.** See *Hubert J. P. Venn.*
- Edwards, Owen K., Wilson R. Gaythwaite, Joseph Kenyon, and Henry Phillips,** the quadrivalency of selenium. Part III. The instability of the compounds of quadrivalent selenium derived from phenyl methyl and phenyl ethyl selenides and phenyl- and *p*-tolyl-selenoglycollic acids, 2293.
- Elliott, Kenneth A. C.** See *William H. Mills.*
- Ellis, Oliver C. de C., and Richard V. Wheeler,** explosions in closed cylinders. Part III. The manner of movement of flame, 3215.
- Ellison, Thomas E.** See *Edward de B. Barnett.*
- Ellsworth, Frank C.** See *John C. Earle.*
- Emeléus, Harry J.,** the phosphorescent combustion of sulphur, 1942.
- Emeléus, Harry J., and Robert H. Purcell,** the origin of the spectrum of the glow of phosphorus, 623.
- Etridge, Joseph J., and Samuel Sugden,** the parachor and chemical constitution. Part IX. Boron compounds, 989.
- Evans, John T., and Ernest H. Farmer,** properties of conjugated compounds. Part V. The hydrogenation of certain extended heterogeneous systems, 1644.
- F.**
- Fairbourne, Arthur, and Harold R. Fawson,** the oxidation of nitrophenylcyanacetates. Part II., 1077.
- Fairbrother, Fred, and Frank Wormwell,** the electrokinetic potential between the solid and liquid states of a single substance, 1991.
- Farmer, Ernest H., Cyril D. Lawrence, and Jocelyn F. Thorpe,** properties of conjugated compounds. Part IV. The formation of isomeric additive dibromides from butadiene, 729.
- Farmer, Ernest H.** See also *John T. Evans.*
- Fawcett, Reginald C., William H. Perkin, jun., and Robert Robinson,** strychnine and brucine. Part VII. The constitution of the alkaloids discussed in relation to the hypothesis that dinitrostrychol is an isoquinoline derivative, 3082.
- Fawson, Harold R.** See *Arthur Fairbourne.*
- Fenton, Geoffrey W., and Christopher K. Ingold,** influence of poles and polar linkings on the course pursued by elimination reactions. Part III. A decomposition of dialkylsulphones, 3127.  
an attempt to prepare  $\psi$ -isoindole, 3295.
- Fichter, Friedrich, and Ernst Brunner,** the action of fluorine upon aqueous solutions of chromium and manganese salts, 1862.
- Finch, Arthur C.** See *Colin Campbell.*
- Findlay, Alexander, and Alan N. Campbell,** the influence of constitution on the stability of racemates, 1768.
- Flürscheim, Bernhard,** the effect of the spatial position of substituent groups on acidic strength, 3039.
- Flürscheim, Bernhard, and Eric L. Holmes,** the laws of aromatic substitution. Part VI. A quantitative method for the rapid determination of isomeric nitro-derivatives of laterally substituted toluenes, 448.  
the laws of aromatic substitution. Part VII. The constitution and substitution of phenylmethylmethane and some of its derivatives, 453.  
the laws of aromatic substitution. Parts VIII. and IX., 1607, 2230.  
pentanitroaniline, 3041.
- Fowler, A.,** spectra and atoms, 764.
- Fox, John M. C.** See *Robert C. Menzies.*
- Francis, Wilfred, and Richard V. Wheeler,** studies in the composition of coal; the rational analysis of coal, 2967.
- Franklin, Mervin C., and Wallace F. Short,** the acetoacetic ester condensation, 591.
- Freiman, Adolph, and Samuel Sugden,** the parachor and chemical constitution. Part VII. Further examples of semipolar double bonds, 263.
- Friend, John A. N.,** experiments on transmutation, 1321.
- Friend, John A. N., and Donald W. Pounder,** lithium sulphite and some derivatives, 2245.
- Friend, John A. N., and Eric G. K. Pritchett,** stability of ferrous sulphate solutions and their use in standardising permanganate, 3227.
- Friend, John A. N., and Albert A. Round,** neodymium selenate. 1820.
- Friend, John A. N., and William N. Smirles,** the solubility of potassium ferricyanide in water between 0° and 100°, 2242.

## G.

- Gane, Richard, and Christopher K. Ingold**, electrometric titration curves of dibasic acids. Part I. Normal acids, 1594.  
electrometric titration curves of dibasic acids. Part II.  $\beta$ -Substituted glutaric acids, 2267.
- Garner, William E., and C. H. Johnson**, the effect of catalysts on the speed of flame, infra-red emission, and ionisation during the combustion of carbon monoxide and oxygen, 280.
- Garner, William E., and Henry F. Gilbe**, the ionisation of aromatic nitro-compounds in liquid ammonia. Part II., 2889.
- Gaythwaite, Wilson R., Joseph Kenyon, and Henry Phillips**, the quadrivalency of selenium. Part I. 4-Carboxydiphenyl and *p*-carboxyphenyl methyl selenoxides, 2280.  
the quadrivalency of selenium. Part II. The simple halogen derivatives and the dihydroxide of 4-acetamidodiphenyl selenide, 2287.
- Gaythwaite, Wilson R.** See also *Owen K. Edwards*.
- Gerrard, William, and Joseph Kenyon**, investigations on the dependence of rotatory power on chemical constitution. Part XXXII. The resolution of phenylbenzylcarbinol, 2564.
- Ghosh, Bhupendra N.**, the adsorption of hydrogen ions and its effect on the swelling and electrical charge of gelatin, 711.  
the interaction of acids and neutral salts with stannic oxide and its relation to electrical charge, 3027.
- Gibson, Charles S., and John D. A. Johnson**, some analogous organic compounds of phosphorus and arsenic, 92.  
diphenylamine-*p*-arsinic acid, 1286.  
*N,N'*-diphenyl-*o*-phenylenediamine, 1988.  
10-chloro-5:10-dihydrophenarsazine and its derivatives. Part VI. Compounds containing two nitrogen and two arsenic atoms in six- and five-membered systems, 2204.  
the nitration of *o*-bromoacetanilide, 3092.
- Gibson, Charles S., William S. Kentish, and John L. Simonsen**, *N*-methyl derivatives of 2-phenylnaphthylene-1:3-diamine, 2131.
- Gibson, Charles S., and Ernest Matthews**, lead subacetate solution ("Goulard's extract") and its reaction with phenols, 596.
- Gibson, Charles S., John H. Nutland, and John L. Simonsen**, the stereochemistry of reduced quinoxalines. Part III. The resolution of externally compensated  $\alpha$ - and  $\beta$ -2:3:7-trimethyl-1:2:3:4-tetrahydroquinoxalines, 108.
- Gibson, Charles S., and John L. Simonsen**, derivatives of 2-phenyl-6-methyl-4-pyrone; the non-resolution of 2-phenyl-6-methyl-4-pyrone *d*- $\alpha$ -bromocamphor- $\pi$ -sulphonate, 2307.
- Gibson, Charles S.** See also *William M. Colles*.
- Gibson, David T.**, a reaction of caryophyllene, 750.
- Gilbert, Frank L., and Thomas M. Lowry**, studies of valency. Part X. Electrometric titration of Vernon's  $\alpha$ - and  $\beta$ -dimethyltelluronium bases, 1997.  
studies of valency. Part XI. Molecular conductivities and extinction coefficients of derivatives of cyclo-telluropentane, 2658.  
studies of valency. Part XII. Isomeric derivatives of diethyl telluride, 3179.
- Gilbert, Frank L.** See also *Arthur J. Berry, and Thomas M. Lowry*.
- Gilbe, Henry F.** See *William E. Garner*.
- Goddard, Archibald E., and Victor E. Yarsley**, researches on antimony. Part II. Derivatives of tri-*p*-tolylstibine, 719.
- Goggs, A. B.**, an investigation on the ceria-thoria catalysts, 2667.
- Goldberg, Alan A., and Reginald P. Linstead**, the chemistry of the three-carbon system. Part XVIII.
