

JOURNAL

OF

THE CHEMICAL SOCIETY.

Committee of Publication :

Chairman : N. V. SIDGWICK, O.B.E., Sc.D., F.R.S.

M. P. APPLEBEY, M.A., B.Sc.	J. KENYON, D.Sc.
H. BASSETT, D.Sc., Ph.D.	H. KING, D.Sc.
G. M. BENNETT, M.A., Ph.D.	T. S. MOORE, M.A., B.Sc.
H. V. A. BRISCOE, D.Sc.	K. J. P. ORTON, M.A., Ph.D., F.R.S.
F. G. DONNAN, C.B.E., LL.D., F.R.S.	J. C. PHILIP, O.B.E., D.Sc., F.R.S.
J. J. FOX, O.B.E., D.Sc.	T. S. PRICE, O.B.E., D.Sc., F.R.S.
C. S. GIBSON, O.B.E., M.A.	F. L. PYMAN, D.Sc., F.R.S.
R. W. GRAY, O.B.E., Ph.D., F.R.S.	E. K. RIDEAL, M.A., Ph.D., D.Sc.
A. J. GREENAWAY, F.I.C.	R. ROBINSON, D.Sc., F.R.S.
T. A. HENRY, D.Sc.	J. L. SIMONSEN, D.Sc.
J. T. HEWITT, D.Sc., F.R.S.	S. SMILES, O.B.E., D.Sc., F.R.S.
C. N. HINSHELWOOD, M.A., F.R.S.	S. SUGDEN, D.Sc.
C. K. INGOLD, D.Sc., F.R.S.	J. F. THORPE, C.B.E., D.Sc., F.R.S.

Editor :

CLARENCE SMITH, D.Sc.

Assistant Editor :

A. D. MITCHELL, D.Sc.

Indexer :

MARGARET LE PLA, B.Sc.

1929. Part I., pp. 1-1385.

LONDON: THE CHEMICAL SOCIETY.

1929.

PRINTED IN GREAT BRITAIN BY
RICHARD CLAY & SONS, LIMITED,
BUNGAY, SUFFOLK.

CONTENTS.

PAPERS COMMUNICATED TO THE CHEMICAL SOCIETY.

	PAGE
I.—The Thermal Decomposition of Ammonia, with Particular Reference to the Existence of Active and Inactive Phases of Ammonia. By WILLIAM ARTHUR STRINGFELLOW.	1
II.—Influence of Poles and Polar Linkings on Tautomerism in the Simple Three-carbon System. Part I. Experiments illustrating Prototropy and Anionotropy in Trialkylpropenylammonium Derivatives. By CHRISTOPHER KELK INGOLD and EUGENE ROTHSTEIN	8
III.—Stereoisomerism of Disulphoxides and Related Substances. Part IV. Di- and Tri-sulphoxides of Trimethylene Trisulphide. By ERNEST VERE BELL and GEORGE MACDONALD BENNETT	15
IV.—The Synthesis of <i>meso</i> -Alkyl and <i>meso</i> -Aryl Anthracene Derivatives. Part V. By EDWARD DE BARRY BARNETT and NORMAN FREDERICK GOODWAY	20
V.—Researches in the Menthone Series. Part VI. The Crystallisation of Menthylamines with Optically Active Acids. By JOHN READ, CATHERINE CASSELS STEELE, and PETER GEORGE CARTER	23
VI.—Tertiary Phosphines containing the <i>n</i> -Butyl Radical. By WALTER CULE DAVIES and WILLIAM JACOB JONES	33
VII.—The Iodometric Estimation of Iron. By (the late) EGERTON CHARLES GREY	35
VIII.— <i>N</i> -Substituted Derivatives of Piperazine and Ethylenediamine. Part I. The Preparation of <i>N</i> -Monosubstituted Derivatives. By TOM SIDNEY MOORE, MARY BOYLE, and VERA M. THORN	39
IX.—The Infra-red Emission Spectra of Flames in Nitrous Oxide. By CHARLES REYNOLDS BAILEY and KUN-HOU LIH	51
X.—Carbon Sulphidoselenide. By HENRY VINCENT AIRD BRISCOE, JOHN BUTTERY PEEL, and PERCY LUCOCK ROBINSON	56
XI.—The Reaction between Ferric Sulphate Solution and Cuprous Sulphide. By LAWRENCE WHITBY	60

	PAGE
XII.—Anthoxanthins. Part VIII. A Synthesis of Morin and of 5 : 7 : 2' : 4'-Tetrahydroxyflavone. By ROBERT ROBINSON and KRISHNASAMI VENKATARAMAN	61
XIII.—Anthoxanthins. Part IX. Syringetin. By TOM HEAP and ROBERT ROBINSON	67
XIV.—Anthoxanthins. Part X. The Synthesis of Gossypetin and of Quercetagetin. By WILSON BAKER, RYUZABURO NODZU, and ROBERT ROBINSON	74
XV.—The Electrical Behaviour of Surfaces of Corroding Iron. By A. L. MCAULAY and S. H. BASTOW	85
XVI.—The Passivity of Metals. Part II. The Breakdown of the Protective Film and the Origin of Corrosion Currents. By ULICK R. EVANS	92
XVII.—The Mechanism of Corrosion. By ULICK R. EVANS	111
XVIII.—The Partial Esterification of Polyhydric Alcohols. Part VII. The Unreliability of Proofs of the Structure of Disubstituted Glycerols. By ARTHUR FAIRBOURNE and GEOFFREY WILSON COWDREY	129
XIX.—Studies in the Phenylsuccinic Acid Series. Part IX. The Resolution of <i>r</i> -Diphenylsuccin- α - and - β -naphthylamic Acids into their Optical Antipodes. By HENRY WREN and EDWARD WRIGHT	136
XX.—Studies in the Phenylsuccinic Acid Series. Part X. Racemisation Phenomena observed during the Action of Water and Bases on the Optically Active Diphenylsuccinic Anhydrides. By HENRY WREN and EDWARD WRIGHT	138
XXI.—Nitroarylsulphuric Acids and their Reduction Products. By GEORGE NORMAN BURKHARDT and HAROLD WOOD	141
XXII.—Synthetical Experiments in the <i>iso</i> Flavone Group. Part IV. A Synthesis of 2-Methylirigenol. By WILSON BAKER and ROBERT ROBINSON	152
XXIII.—Molecular Structure in Solution. Part IV. The Densities, Viscosities, and Electrical Conductivities of Aqueous Solutions of Cobalt Chloride and Hydrochloric Acid at Different Temperatures. By OWEN RHYS HOWELL	162
XXIV.—Properties of Conjugated Compounds. Part VI. The Dibromination Products of Cyclic Butadienes. By ERNEST HAROLD FARMER and WILLIAM DALLAS SCOTT	172
XXV.—Reduction Products of the Hydroxyanthraquinones. Part X. By RICHARD WALTER HARDACRE and ARTHUR GEORGE PERKIN	180

XXVI.—A Synthesis of <i>iso</i> Opianic Acid. By SATYENDRA NATH CHAKRAVARTI and WILLIAM HENRY PERKIN, jun.	193
XXVII.—Synthesis of 3 : 10-Dimethoxytetrahydroprotoberberine. By SATYENDRA NATH CHAKRAVARTI and WILLIAM HENRY PERKIN, jun.	196
XXVIII.—Studies in Keto-lactol Tautomerism. Part I. Ring-chain Tautomerism in α -Carboxy- γ -acetyl- $\beta\beta$ -dimethylbutyric Acid and a Synthesis of γ -Acetyl- $\beta\beta$ -dimethylbutyric Acid. By MUHAMMAD QUDRAT-I-KHUDA	201
XXIX.—A Synthesis of <i>iso</i> Naphthathioxin. By AARON COHEN and SAMUEL SMILES	209
NOTES.—The Formation of Liesegang Rings as a Periodic Coagulation Phenomenon. By JACK REGINALD IRONS HEPBURN	213
A Steam Drying Oven with Detachable Base. By HENRY J. S. SAND.	214
Preparation of Quinaldiny Chloride and Ethyl Quinaldinyl-acetoacetate. By DALZIEL LLEWELLYN HAMMICK and WILLIAM P. DICKINSON	214
Revised Table of Atomic Weights for 1929	216
XXX.—The Catalytic Hydrogenation of Different Types of Unsaturated Compounds. Part IV. The Hydrogenation of Conjugated Systems: Piperic Acid. By SERGUEY V. LEBEDEV and ANASTASIA O. YAKUBCHIK	220
XXXI.—The Degradation of <i>l</i> -Arabinose. By VENANCIO DEULOFEU and RAÚL J. SELVA	225
XXXII.—On Active Nitrogen. Part V (<i>Amended</i>). The Decay of the Nitrogen After-glow. By ERIC JOHN BAXTER WILLEY	228
XXXIII.—Colour and Constitution. Part IV. The Absorption Spectra of Nitrophenylhydrazones in Alcohol and in Alcoholic Potassium Hydroxide. By HERBERT HENRY HODGSON and KENNETH ERNEST COOPER	231
XXXIV.—An X-Ray Examination of some Salts of the Fatty Acids. By STEPHEN HARVEY PIPER	234
XXXV.—The Influence of the Polarity of the Solvent on the Velocity of a Reaction. By ROBERT NAPIER KERR.	239
XXXVI.—The Preparation of Some Metallic Chromates. By SAMUEL HENRY CLIFFORD BRIGGS	242
XXXVII.—The Inflammation of Mixtures of the Olefins and Air in a Closed Spherical Vessel. By GEORGE BARTON MAXWELL and RICHARD VERNON WHEELER	245

	PAGE
XXXVIII.—2-Substituted Derivatives of <i>p</i> -Cresol. By MAURICE COPISAROW	251
XXXIX.—The Chlorination of Phthalic Acid in Alkaline Solution. By ERNEST EDWARD AYLING	253
XL.—The Structure of Organic Molecular Compounds. By GEORGE MACDONALD BENNETT and GERVAASE HEWITSON WILLIS	256
XLI.—Some Derivatives of the Aliphatic Glycols. By GEORGE MACDONALD BENNETT and FREDERICK HEATH-COAT	268
XLII.—The Vapour Density and Pressure of Ammonium Iodide. By RONALD H. PURCELL and WILHELMUS DE LANGE	275
XLIII.—Esters of Phosphoric Acid. Part I. Phosphates of Cetyl Alcohol, Cholesterol, Chloroethyl Alcohol, and Ethylene Glycol. By ROBERT HENRY ADERS PLIMMER and WILLIAM JOHN NOBBS BURCH	279
XLIV.—Esters of Phosphoric Acid. Part II. The Action of Ethyl Metaphosphate on Alcohols, Ammonia, and Some Amino-compounds. By ROBERT HENRY ADERS PLIMMER and WILLIAM JOHN NOBBS BURCH	292
XLV.—The Preparation of α - and β -Methylglucoside. By THOMAS STEWART PATTERSON and JOHN ROBERTSON	300
XLVI.—The Electrolytic Reduction of the Imides of Cyclic Acids (Preliminary Note). By KOTTIAZATH NARAYANA MENON and JOHN LIONEL SIMONSEN	302
XLVII.—Indian Turpentine from <i>Pinus longifolia</i> , Roxb. Part V. The Oxidation of <i>d</i> - Δ^3 -Carene with Beckmann's Chromic Acid Mixture. By CHARLES STANLEY GIBSON and JOHN LIONEL SIMONSEN	305
XLVIII.—Nitrosylsulphuric Acid. Part II. By CYRIL W. HART JONES, WILLIAM JOHN PRICE, and HARRY WILLIAM WEBB	312
XLIX.—The Parachor and Chemical Constitution. Part X. Singlet Linkages in Chelated Co-ordination Compounds. By SAMUEL SUGDEN	316
L.—Hexa-aminobenzene. By BERNHARD FLÜRSCHHEIM and ERIC LEIGHTON HOLMES	330
LI.—The Quaternary System Lead Acetate-Lead Chloride-Acetic Acid-Water at 25°. By KARL SANDVED	337
LII.—The Conversion of Tetramethyl γ - and δ -Gluconolactones into the Corresponding Mannonolactones, and of the Trimethyl γ - and δ -Xylonolactones into the Corresponding Lyxonolactones. By WALTER NORMAN HAWORTH and CHARLES WILLIAM LONG	345

LIII.—Synthesis of 1-2 : 3 : 4 : 6-Tetramethyl δ -Gluconolactone and of 1-2 : 3 : 4 : 6-Tetramethyl δ -Mannonolactone from 1-2 : 3 : 5-Trimethyl Arabofuranose. By WALTER NORMAN HAWORTH and STANLEY PEAT	350
NOTES.—Some Derivatives of Tri- <i>p</i> -tolylsilicane. By ALFRED RAYMOND STEELE and FREDERIC STANLEY KIPPING	357
The Influence of Colloids on the Precipitation of Salts. By ROBERT DICKINSON	358
On the Individuality of Humulene. By A. CHASTON CHAPMAN	359
LIV.—Organic Derivatives of Silicon. Part XXXVIII. The Formation of Tri- and Tetra-phenylsilicane and Complex Synthetical Products from Octaphenylcyclosilicotetrane. By FREDERIC STANLEY KIPPING and ARTHUR GEORGE MURRAY	360
LV.—The Effect of Intensive Drying on Certain Physical Properties of Benzene. By HENRY VINCENT AIRD BRISCOE, JOHN BUTTERY PEEL, and PERCY LUCOCK ROBINSON	368
LVI.—The Mechanism of Thermal Decomposition of the Normal Paraffins. By ERNEST NOEL HAGUE and RICHARD VERNON WHEELER [with T. M. LOWRY]	378
LVII.—Acid and Salt Effects in Catalysed Reactions. Part XIX. The Catalytic Activity of Chloroacetic Acid in the Hydrolysis of Ethyl Acetate. By HARRY MEDFORTH DAWSON and WILLIAM LOWSON	393
LVIII.—Optical Activity and the Polarity of Substituent Groups. Part X. Influence of Ionisable Groups on the Rotatory Power of <i>l</i> -Menthyl Benzoate. By H. GORDON RULE and W. EOGHAN MACGILLIVRAY	401
LIX.—The Cobaltic Derivatives of $\beta\beta'\beta''$ -Triaminotriethylamine. By FREDERICK GEORGE MANN	409
LX.—Basic Chlorides and Addition Compounds from Metallic Chlorides and Hexamethylenetetramine. Exceptional Behaviour of Nickel Chloride. By JAMES COOPER DUFF and EDWIN JOHN BILLS	411
LXI.—The Decomposition of Methane. Part I. By CYRIL WILLIAM HART JONES	419
LXII.—The Nature of the Alternating Effect in Carbon Chains. Part XXX. The Nitration of Phenylbromocyanonitromethane, with Special Reference to an Alleged Example of Intramolecular <i>meta</i> -Rearrangement. By JOHN WILLIAM BAKER and CHRISTOPHER KELK INGOLD	423

- LXIII.—The Mobility of Symmetrical Triad (Prototropic) Systems. Part IV. Mobility in the Simple Three-carbon System terminated by Aryl Groups. By CHRISTOPHER KELK INGOLD and CHARLES WILLIAM SHOPPEE 447
- LXIV.—Mobile Anion Tautomerism. Part III. A Comparison of the Activation of Three-carbon Anionotropic Systems by Alkyl and by Aryl Groups. By HAROLD BURTON 455
- LXV.—Aminobenzthiazoles. Part XI. The Synthesis of 5 : 4'-Disubstituted 1-Anilinobenzthiazoles from Nuclear-substituted Thiocarbanilides. By GEORGE MALCOLM DYSON, ROBERT FERGUS HUNTER, and CHARLES SOYKA 458
- LXVI.—The Quinoxaline Synthesis: some Derivatives of 2 : 3-Dimethylquinoxaline. By STANLEY THOMAS HENDERSON 466
- LXVII.—The Influence of Substituents on the Reimer-Tiemann Reaction. By HERBERT HENRY HODGSON and THOMAS ALFRED JENKINSON 469
- LXVIII.—Diphenylaminearsinic Acids. Part I. Derivatives of Diphenylamine-4-arsinic Acid. By HARRY JAMES BARBER 471
- LXIX.—The Nitration of *m*-Acetamido-*tert*.-butylbenzene. By JOHN BALDWIN SHOESMITH and ALEXANDER MACKIE 476
- LXX.—The Action of Semicarbazide Hydrochloride and of 2 : 4-Dinitrophenylhydrazine Hydrochloride on Aldoximes and their Derivatives. By OSCAR L. BRADY and FRANK HERBERT PEAKIN 478
- LXXI.—Compounds of the Tryparsamide Type. Part I. Resolution of *N*-Phenylalanine-4-arsinic Acid and of its Amide. By CHARLES STANLEY GIBSON, JOHN DOBNEY ANDREW JOHNSON, and BARNETT LEVIN 479
- LXXII.—The Ternary System Mercuric Chloride-Mercuric Iodide-Water. By RUTH SUGDEN 488
- LXXIII.—Orientation Effects in the Diphenyl Series. Part VII. The Effect of Substituents in One Nucleus on the Ratio of Ortho : Para Nitration in the Other. The Nitration of 2- and 4-Nitro- and of 2 : 4- and 2 : 4'-Dinitro-diphenyl and of Diphenyl-4-carboxylic Acid. By HERBERT CHARLES GULL and EUSTACE EBENEZER TURNER 491
- LXXIV.—The Nitration of Phenylcyclohexane and of its *p*-Halogeno-derivatives. By HORACE ALFRED MAYES and EUSTACE EBENEZER TURNER 500

LXXXV.—The Nitration of 4-Chloro-4'-bromo-benzophenone and -diphenylsulphone, and the Attempted Nitration of 4-Chloro-4'-bromodiphenyl. By LESLIE GEORGE GROVES and EUSTACE EBENEZER TURNER	509
LXXXVI.—The Scission of Diaryl Ethers and Related Compounds by Means of Piperidine. Part II. The Nitration of 2 : 4 : 4'-Trichlorodiphenyl Ether, and of 2 : 4-Dichlorophenyl <i>p</i> -Toluenesulphonate and Benzoate. By LESLIE GEORGE GROVES, EUSTACE EBENEZER TURNER, and (in part) GLADYS IRENE SHARP	512
LXXXVII.—The Enzymic Synthesis of β -Hydroxyethyl Dihydrogen Phosphate. By HERBERT DAVENPORT KAY	524
LXXXVIII.—The Boric Acids. By LIONEL FELIX GILBERT and MIRIAM LEVI	527
LXXXIX.—Observations on the Chlorination Products of $\beta\beta'$ -Dichlorodiethyl Sulphide. Part II. By JOHN WILLIAM COLE PHILLIPS, JOHN STANLEY HERBERT DAVIES, and STANLEY AUGUSTUS MUMFORD	535
LXXX.—The Nitration of Benzylpyridines and the Oxidation of Benzylpiperidines. By FRANK BRYANS and FRANK LEE PYMAN	549
LXXXI.—The Rearrangement of Phenyl Benzyl Ethers. By WALLACE FRANK SHORT and MARTIN LOUIS STEWART	553
LXXXII.—Non-existence of Isomerism among the Dialkyltelluronium Dihalides. By HARRY DUGALD KEITH DREW	560
LXXXIII.—A New Method for Preparing Substituted Diphenylamines. By ARTHUR WILLIAM CHAPMAN	569
LXXXIV.—The Chemistry of the Three-carbon System. Part XX. <i>cyclo</i> Pentylideneacetone and <i>cyclo</i> Pentylidene-methyl Ethyl Ketone. By ALFRED HENRY DICKINS, WILFRED EYNON HUGH, and GEORGE ARMAND ROBERT KON	572
LXXXV.—The Solubility of Iodine in Solutions of Halides. By JOHN STANLEY CARTER and CHARLES RANDALL HOSKINS	580
NOTES.—Elimination of the Nitroso-group from Nitrosoamines. By WILLIAM GEORGE MACMILLAN and THOMAS HAROLD READE	585
The Preparation of <i>p</i> -Azoxyanisole and Derivatives. By WILLIAM DAVIES and RALPH ALEXANDER RODGER DOWN	586
The Action of Aromatic Acid Chlorides on Vinylidiacetone-amine. By JOHN GRAYMORE	587
Salicylaldehyde and its Methyl Ether. By MAURICE COPISAROW	588

LXXXVI.—The Alkalinity of Soap Solutions as measured by Indicators. By JAMES WILLIAM MCBAIN and KATHLEEN HAY	589
LXXXVII.—Constitutional Influences on the Conversion of Azonaphthols into their Azo-sulphites and their Bearing on the Structure of α - and β -Naphthol. By ALBERT THEODORE KING	601
LXXXVIII.—The Methylurethanes of the Isomeric α -Hydroxyphenylethyldimethylamines and their Miotic Activity. By EDGAR STEDMAN and ELLEN STEDMAN	609
LXXXIX.—Colloidal Platinum. Part V. The Coagulation by Electrolytes in Acid Solution. By STUART W. PENNYCUICK	618
XC.—Colloidal Platinum. Part VI. The Behaviour of Platinum Sols in Basic Solution. By STUART W. PENNYCUICK	623
XC1.—Studies in the Composition of Coal. Plant Entities as Oil-yielding Constituents. By RONALD HOLROYD and RICHARD VERNON WHEELER	633
XCII.—The Nitration of Phenylbenzylamine Derivatives. By JOSEPH REILLY, PETER J. DRUMM, and TIMOTHY V. CREEDON	641
XCIII.—The Action of <i>o</i> -Phenylenediamines upon Dihydroxytartaric Acid. By FREDERICK DANIEL CHATTAWAY and WILLIAM GERALD HUMPHREY	645
XCIV.—The Stability of Complex Metallic Salts. By FREDERICK GEORGE MANN	651
XCv.—Synthetical Experiments on the Aporphine Alkaloids. Part V. Laurotetanine. Syntheses of 2:3:6:7- and 3:4:6:7-Tetramethoxyaporphines. By ROBERT KENNETH CALLOW, JOHN MASSON GULLAND, and ROBERT DOWNS HAWORTH	658
XCVI.—Trypanocidal Activity and Chemical Constitution. Part I. New Sulphur Derivatives of Aromatic Organic Arsenicals. By JOHN GARWOOD EVERETT	670
XCvII.—The Densities of Butyric Acid-Water Mixtures. By JOHN GRINDLEY and CHARLES R. BURY	679
XCvIII.—Chromatocobaltiammines. Part II. The Dichromatotetramminecobaltiates and the Maximum Coordination Number of Cobalt. By SAMUEL HENRY CLIFFORD BRIGGS	685
XCIX.—Studies of Electrolytic Polarisation. Part VII. Complex Cyanides: (<i>a</i>) Silver. By SAMUEL GLASSTONE	690

C.—Studies of Electrolytic Polarisation. Part VIII. Complex Cyanides : (b) Copper. By SAMUEL GLASSTONE .	702
CI.—Studies in Keto-lactol Tautomerism. Part II. Influence of the <i>cyclo</i> Hexane Ring on the Tautomeric Character of <i>cyclo</i> Hexane-1-acetone-1-malonic Acid, a Comparison with <i>cyclo</i> Pentane-1-acetone-1-malonic Acid, and Synthesis of the Corresponding δ -Keto-monobasic Acids. By MUHAMMAD QUDRAT-I-KHUDA	713
CII.—Synthesis of Cyclic Compounds. Part V. The Catalytic and the Thermal Decomposition of some Normal Dibasic Acids. A Contribution to the Problem of the Ease of Formation of Simple Carbon Rings. By ARTHUR ISRAEL VOGEL	721
CIII.—Corrections in the Chemistry of Diphenyl Derivatives of the "Kaufler" Type, and the Formation of Dibenzodiazines. By RAYMOND JAMES WOOD LE FÈVRE	733
CIV.—Diethyl Ether. Part I. The Products of its Autoxidation. By HAROLD KING	738
CV.—Substituted Aromatic Aldehydes in Hantzsch's Pyridine Condensation. Part I. Methoxy-, Chloro-, and Hydroxy-benzaldehydes. By LEONARD ERIC HINKEL and WILLIAM REES MADEL	750
CVI.—The Determination of the Parachors of Substances in Solution. By DALZIEL LEWELLYN HAMMICK and LESLIE W. ANDREW	754
CVII.—Low-Temperature Oxidation of Hydrocarbons. Part I. The Pressure-Temperature Curves of Amylene-Oxygen Mixtures. By J. STANLEY LEWIS	759
CVIII.—10-Chloro-5 : 10-dihydrophenarsazine and its Derivatives. Part VII. The Synthesis of the 1-Methyl and 3-Methyl Homologues. By CHARLES STANLEY GIBSON and JOHN DOBNEY ANDREW JOHNSON.	767
CIX.—The Apparent Influence of an Electric Field on the Boiling Point of Benzene. By JOHN WILLIAM SMITH	788
CX.—Complex Oxalates of Quadrivalent Molybdenum. By HENRY MILLS SPITTLE and WILLIAM WARDLAW	792
CXI.—The Systems <i>n</i> -Butyl Alcohol-Water and <i>n</i> -Butyl Alcohol-Acetone-Water. By DAVID CHARLES JONES	799
NOTES.—9-Benzhydrylanthrone and <i>iso</i> Dianthranyl. By EDWARD DE BARRY BARNETT and NORMAN FREDERICK GOODWAY	813
Preparation of <i>o</i> -Nitroacetophenone. By WILLIAM OGILVY KERMAOK and JAMES FERGUS SMITH	814
The Stability of Diazonium Salts of the Triazole Series. By JOSEPH REILLY and DENIS MADDEN	815

	PAGE
ANNUAL GENERAL MEETING	817
PRESIDENTIAL ADDRESS	834
CXII.—The Polarity of the Halogens in Solutions of Pyridinium and Allied Dichloroiodides. By THOMAS HAROLD READE	853
CXIII.—Methoxy-derivatives of Thioxanthone. By KENNETH CHARLES ROBERTS and SAMUEL SMILES	863
CXIV.—The Unsaponifiable Matter from the Oils of Elasmobranch Fish. Part V. The Constitution of Squalene as deduced from its Degradation Products. By ISIDOR MORRIS HEILBRON, WILLIAM MORGAN OWENS, and IAN ALEXANDER SIMPSON	873
CXV.—The Unsaponifiable Matter from the Oils of Elasmobranch Fish. Part VI. The Constitution of Squalene as deduced from a Study of the Decahydrosqualenes. By ISIDOR MORRIS HEILBRON and ALBERT THOMPSON.	883
CXVI.—Synthesis of an Isomeride of Thyroxine, and of Related Compounds. By CHARLES ROBERT HARRINGTON and WILLIAM McCARTNEY	892
CXVII.—Properties of Conjugated Compounds. Part VII. The Additive Formation of <i>cyclo</i> Hexenes. By ERNEST HAROLD FARMER and FRANK LOUIS WARREN	897
CXVIII.—The Oxidation of <i>d</i> - Δ^4 -Carene with Beckmann's Chromic Acid Mixture. By CHARLES STANLEY GIBSON and JOHN LIONEL SIMONSEN	909
CXIX.—The Binary System Carbamide-Ammonium Nitrate. Molecular Association in each Component. By WILLIAM JOHN HOWELLS	910
CXX.—The Transformation of Phenylnitroamines into Nitroanilines. Part I. By ALAN EDWIN BRADFIELD and KENNEDY JOSEPH PREVITÉ ORTON	915
CXXI.—Studies in the Sterol Group. Part III. The Acetylation and Catalytic Hydrogenation of Ergosterol. By ISIDOR MORRIS HEILBRON and WILFRED ARCHIBALD SEXTON	921
CXXII.—Studies in the Sterol Group. Part IV. The Existence of Isomeric Ergosterols. By ISIDOR MORRIS HEILBRON, WILFRED ARCHIBALD SEXTON, and FRANK STUART SPRING	926
CXXIII.—The Intermolecular Condensation of Styryl Ketones. Part III. Further Examples of the Ready Formation of Bis-(Styryl Ketones). By ISIDOR MORRIS HEILBRON and FRANCIS IRVING	931

CXXIV.—Styrylpyrylium Salts. Part XI. The Determination of the Reactive Group in Ketones of the Type $\text{CH}_3\cdot\text{CO}\cdot\text{CH}_2\text{R}$ by Means of the Benzo- β -naphthaspiropyran Colour Change. By ISIDOR MORRIS HEILBRON and FRANCIS IRVING	936
CXXV.—Aminobenzthiazoles. Part XII. The Mobility of 1-Amino-3:5-dimethylbenzthiazole. A Case of Complete Reactivity in the Aminothiazole Form. By ROBERT FERGUS HUNTER and WILLIAM EMRYS PRIDE.	943
CXXVI.—The Isomerism of the Oximes. Part XXXIV. The Dissociation Constants of Isomeric Oximes and their Influence on the Production of the Isomerides in Alkaline Solution. By OSCAR L. BRADY and NAVNITLAL MOHANLAL CHOKSHI	946
CXXVII.—Compounds of Hydroxides of the Alkaline Earths with Sugars. By JOHN EDWIN MACKENZIE and JAMES PATTERSON QUIN	951
CXXVIII.—Strychnine and Brucine. Part VIII. The Action of Hydriodic Acid on Strychnidine. Dihydrostrychnidine (B) and Substances derived therefrom. By WILLIAM HENRY PERKIN, jun., and ROBERT ROBINSON	964
CXXIX.—The Introduction of the Triphenylmethyl Group into Phenols. Part II. By DOUGLAS VERNON NELMAR HARDY	1000
CXXX.—The Chemotherapy of some Bromine Derivatives of Phenylarsinic Acids and Arsenobenzenes. By ALAN HAYTHORNTHWAITHE	1011
CXXXI.—The Determination of Unsaturated and Aromatic Hydrocarbons in Light Oils and Motor Spirits. By ALEXANDER BERNARD MANNING	1014
CXXXII.—Some Derivatives of Arylthioarsinous Acids. By HARRY JAMES BARBER	1020
CXXXIII.—Thiolacetamide as a Reagent for identifying Arsinic Acids. By HARRY JAMES BARBER.	1024
CXXXIV.—The Dielectric Constant of Desiccated Oxygen. By HARRY LISTER RILEY	1026
CXXXV.—An Enquiry into the Cause of Periodic Phenomena in Electrolysis. By ERNEST SYDNEY HEDGES	1028
CXXXVI.—The Action of Potassium Cyanide on Chloroaldehydes. By FREDERICK DANIEL CHATTAWAY and HARRY IRVING	1038

CXXXVII.—The Reactions of the Halogens with Carbon Sulphidoselenide. By HENRY VINCENT AIRD BRISCOE, JOHN BUTTERY PEEL, and PERCY LUCCOCK ROBINSON.	1048
CXXXVIII.—The Reactions of Nitrosulphonyl Chlorides. Part I. The Reaction of Hydrazine Hydrate with <i>o</i> -Nitrosulphonyl Chlorides. By ARTHUR THURLBY DANN and WILLIAM DAVIES	1050
CXXXIX.—Molecular Volumes at Absolute Zero. Part III. Zero Volumes, Parachors, and Molecular Diameters. By SAMUEL SUGDEN	1055
CXL.—The Parachor and Chemical Constitution. Part XI. Arsenic and Selenium Compounds. By WILLIAM JAMES REGINALD HENLEY and SAMUEL SUGDEN	1058
CXLI.—The Thermal Decomposition of Methane. Part I. Decomposition in Silica Bulbs. By G. C. HOLLIDAY and H. C. EXELL	1066
CXLII.—The Constitution of Guareschi's Cyano-butadiene Acids. An Attempt to Synthesis β - <i>iso</i> Propylglutaconic Acid. By CHARLES STANLEY GIBSON and JOHN LIONEL SIMONSEN	1074
CXLIII.—10-Chloro-5:10-dihydrophenarsazine and its Derivatives. Part VIII. The Bromination of 10-Chloro-5:10-dihydrophenarsazine and Some of its Derivatives. By LESLIE ALDERMAN ELSON, CHARLES STANLEY GIBSON, and JOHN DOBNEY ANDREW JOHNSON	1080
CXLIV.—3:4-Methylenedioxyphenylarsinic Acid. By ISIDOR ELKANAH BALABAN	1088
CXLV.—Styrylpyrylium Salts. Part XII. <i>spiro</i> Pyrans derived from 9-Methyl- and 9-Ethyl-xanthylium Salts. By FRANCIS IRVING	1093
CXLVI.—Heterocyclic Systems containing Selenium. Part I. <i>cyclo</i> Selenobutane (Tetrahydroselenophen). By GILBERT T. MORGAN and FRANCIS HEREWARD BURSTALL	1096
CXLVII.—Interaction of Tellurium Tetrachloride and Dimethylaniline. By GILBERT T. MORGAN and HENRY BURGESS	1103
NOTES.—The Determination of Available Oxygen by the Bunsen Method. By THOMAS WALLACE PARKER and PERCY LUCCOCK ROBINSON	1106
An Improved Calcium Chloride Tube. By DOUGLAS VERNON NELMAR HARDY	1108
The Volatility and Structures of the Azides and Aliphatic Diazo-compounds. By NEVIL V. SIDGWICK	1108

The Preparation of Quinaldinic Acid. By THOMAS WESTON JOHNS TAYLOR	1110
The Viscosity of Ether at Low Temperatures. By EDM. VAN AUBEL	1111
CXLVIII.—The Existence of Liquid Racemates. By ALAN NEWTON CAMPBELL	1111
CXLIX.—Effect of the Addition of Hydrogen and Water on the Radiation emitted from the Carbon Monoxide Flame. By WILLIAM EDWARD GARNER and F. ROFFEY	1123
CL.—The Effect of Gases on the Electric Charges Developed by Heated Metals. By DONALD HUGH BANGHAM and DOUGLAS ROSTRON LEWIS	1140
CLI.—The Oxidation of Tungsten: Evidence for the Com- plexity of Tungstic Oxide, WO_3 . By JOHN STANLEY DUNN	1149
CLII.—The Partial Esterification of Polyhydric Alcohols. Part VIII. The Proposed Standards of Reference in Work on the Configuration of Glycerol Derivatives. By ARTHUR FAIRBOURNE	1151
CLIII.—The Influence of the Intensity of Illumination on the Velocity of the Photochemical Union of Bromine and Hydrogen. By MAX BODENSTEIN, WILHELM JOST, and GERHARD JUNG	1153
CLIV.—Photochemical Equilibrium in Nitrogen Peroxide. Part II. The Dependence of Quantum Efficiency on Wave-length. By RONALD G. W. NORRISH	1158
CLV.— <i>N</i> -Methyl Derivatives of 2-Phenylnaphthylene-1:3- diamine. By WILLIAM SIMPSON KENTISH	1169
CLVI.—Organic Derivatives of Silicon. Part XXXIX. The Action of Sodium on Phenoxychlorosilicanes. By REGINALD AUBREY THOMPSON and FREDERIC STANLEY KIPPING	1176
CLVII.—Organic Derivatives of Silicon. Part XL. At- tempts to prepare Unsaturated Compounds from Phenyl- silicon Trichloride. By FREDERIC STANLEY KIPPING, ARTHUR GEORGE MURRAY, and (in part) JOHN GWILLIAM MALTBY	1180
CLVIII.—Isatin Anils. Part I. The Isomerism of Isatin- 2-anil. By ROBERT KENNETH CALLOW and EDWARD HOPE	1191
CLIX.—The Mobility of Symmetrical Triad Prototropic Systems. Part V. A New Triad System (Methylene- azomethine). By CHRISTOPHER KELK INGOLD and CHARLES WILLIAM SHOPPEE	1199

CLX.—The Mechanism of Tautomeric Interchange and the Effect of Structure on Mobility and Equilibrium. Part IV. Further Evidence relating to the Mechanism of Acid Catalysis in the Mutarotation of Nitrogen Derivatives of Tetra-acetylglucose. By JOHN WILLIAM BAKER	1205
CLXI.—The Constitution of the Red Isomeride of Creatinine Picrate responsible for Jaffé's Colour Reaction. By WINSTON KENNAY ANSLOW and HAROLD KING	1210
CLXII.—Acid and Salt Effects in Catalysed Reactions. Part XX. The Ionisation of Acids in Salt Solutions. By HARRY MEDFORTH DAWSON and WILLIAM LOWSON	1217
CLXIII.—10-Chloro-5 : 10-dihydrophenarsazine and its Derivatives. Part IX. The Synthesis of Nitromethyl-diphenylamine-6'-arsinic Acids and their Conversion into Nitromethyl Derivatives of 10-Chloro-5 : 10-dihydrophenarsazine. Constitution of 10-Chloro-5 : 10-dihydrophenarsazine. By CHARLES STANLEY GIBSON and JOHN DOBNEY ANDREW JOHNSON	1229
CLXIV.—Tertiary Phosphines containing the Higher Alkyl Radicals. By WALTER CULE DAVIES, PERCY LEONARD PEARSE, and WILLIAM JACOB JONES	1262
CLXV.—Catalytic Influences in Three-Carbon Tautomerism. Part I. Sodium Alkyloxides. By GEORGE ARMAND ROBERT KON and REGINALD PATRICK LINSTEAD	1269
CLXVI.—The Walden Inversion. Part II. By HANS NICOLAI KELLERMANN RÖRDAM	1282
CLXVII.—The Parachor and Chemical Constitution. Part XII. Fused Metals and Salts. By SAMUEL SUGDEN and HENRY WILKINS	1291
CLXVIII.—The Parachor and Chemical Constitution. Part XIII. Some Compounds of Titanium and Tin. By FREDERICK BASIL GARNER and SAMUEL SUGDEN	1298
CLXIX.—The Effect of a Gas upon the Pressure of a Vapour. By LEONARD ALFRED SAYCE and HENRY VINCENT AIRD BRISCOE	1302
CLXX.—Studies in Complex Salts. Part II. The Preparation, Properties and Stability of Some Bisdicarboxylato Copper Salts. By HARRY LISTER RILEY	1307
CLXXI.—Nicotine Tetrachloriodide. By FREDERICK DANIEL CHATTAWAY and GEORGE DAVID PARKES	1314
CLXXII.—New Polynuclear Co-ordination Compounds of Cobalt. By EDMUND GEORGE VINCENT PERCIVAL and WILLIAM WARDLAW	1317

CLXXIII.—1-Methoxy-derivatives of Thioxanthone. By KENNETH CHARLES ROBERTS and SAMUEL SMILES	1322
CLXXIV.—Methylation of <i>dl</i> -Glyceraldehyde. By H. GORDON REEVES	1327
CLXXV.—The Constitution of Glucose-monoacetone, Glucose-diacetone, and of the Derived 3:5:6-Tri- methyl Glucose and 3-Monomethyl Glucose. By CAMERON GORDON ANDERSON, WILLIAM CHARLTON, and WALTER NORMAN HAWORTH	1329
CLXXVI.—The Constitution of α - and β -Fructose-diacetones. The Alleged Oxidative Degradation of the Derived Monomethyl and Tetramethyl Fructose. By CAMERON GORDON ANDERSON, WILLIAM CHARLTON, WALTER NORMAN HAWORTH, and VINCENT STANLEY NICHOLSON	1337
First Pedler Lecture. By WILLIAM HENRY PERKIN, Sc.D., LL.D., F.R.S.	1347
CLXXVII.—The Effect of Gases on the Colour of Iodine Vapour, and the Solvent Action of Various Vapours on Solid Iodine. By ROBERT WRIGHT and THOMAS MCGREGOR	1364
CLXXVIII.—The Chemistry of the Caryophyllene Series. Part II. Clovene and <i>iso</i> Clovene. By GEORGE GERALD HENDERSON, ROBERT OSBORNE ORR McCRONE, and JOHN MONTEATH ROBERTSON	1368
CLXXIX.—The Interaction of Bromine with Acetic Anhydride. Part V. Bromination and Chlorination compared (<i>continued</i>). Some Properties of Acetic Chloroacetic Anhydride. By HERBERT BEN WATSON and CECIL EDWARD GREGORY	1373
CLXXX.—The Properties of Nicotine and its Derivatives. Part I. Molecular Extinction Coefficients. By THOMAS MARTIN LOWRY and WILLIAM VIVIAN LLOYD	1376
NOTES.—Potassium Hexathionate. By JAMES RIDDICK PARTINGTON and ALBERT FRED TIPLER	1382
The Photobromination of Coumarin. By DAVID MATTHEW WILLIAMS	1383
A Micro-method for determining Semicarbazones and its Application to the Analysis of Ketones. By RALPH PERCIVAL HOBSON	1384
First Liversidge Lecture. (Delivered before the Chemical Society on November 29th, 1928.) Physical Chemistry in the Science of Biology. By FREDERICK GEORGE DONNAN	1387

CLXXXI.—The Migration of the Acyl Group in Partly Acylated Phenolic Compounds. Part II. Synthesis of Anthragallol 1:2- and 1:3-Dimethyl Ethers. By ARTHUR GEORGE PERKIN and CHARLES WILLIAM HERBERT STORY	1399
CLXXXII.—The Properties of the Chlorides of Sulphur. Part II. Molecular Extinction Coefficients. By THOMAS MARTIN LOWRY and GILBERT JESSOP	1421
CLXXXIII.—The Chemistry of the Three-carbon System. Part XXI. Some <i>cyclo</i> Heptane Compounds. By WILFRED EYNON HUGH, GEORGE ARMAND ROBERT KON, and THOMAS MITCHELL	1435
CLXXXIV.—Equilibrium between Alcohols and Salts. Part III. By GRAHAM CHARLES GIBSON, JOHN O'LEARY DRISCOLL, and WILLIAM JACOB JONES	1440
CLXXXV.—Synthetical Experiments on the Aporphine Alkaloids. Part VI. <i>iso</i> Thebaine. Attempted Syntheses of 3:4:5-Trimethoxyaporphine. By ROBERT KENNETH CALLOW, JOHN MASSON GULLAND, and ROBERT DOWNS HAWORTH	1444
CLXXXVI.—The Constitution of Linolic Acid. By ROBERT DOWNS HAWORTH	1456
CLXXXVII.—The Isomeric Trithioacetaldehydes. By ERNEST VERE BELL, GEORGE MACDONALD BENNETT, and FREDERICK GEORGE MANN	1462
CLXXXVIII.—2:4-Dinitrobenzaldehyde as a Reagent. By GEORGE MACDONALD BENNETT and WALTER LAWRENCE C. PRATT	1465
CLXXXIX.—Synthetical Experiments in the <i>iso</i> Flavone Group. Part V. A New General Method applicable to the Synthesis of Derivatives of 7-Hydroxy <i>iso</i> flavone. By WILSON BAKER, ALFRED POLLARD, and ROBERT ROBINSON	1468
CXC.—10-Chloro-5:10-dihydrophenarsazine and its Derivatives. Part X. The 1- and/or 3-Methyl Derivatives. The Condensation of Arsenious Chloride and Phenyl- <i>m</i> -tolylamine. By CHARLES STANLEY GIBSON and JOHN DOBNEY ANDREW JOHNSON	1473
CXCI.—The Dissociation Constants of Organic Acids. Part I. The Primary Dissociation Constants of Some Alkyl Malonic Acids. By ARTHUR ISRAEL VOGEL	1476
CXCII.—The Dissociation Constants of Organic Acids. Part II. The Primary Dissociation Constants of Some Cyclic 1:1-Dicarboxylic Acids. By ARTHUR ISRAEL VOGEL	1487

CXCIII.—The Isomeric Monohydroxyphenylalanines. Part I. A New Synthesis of the <i>o</i> - and <i>m</i> -Isomerides and a Comparison of their Properties with those of Tyrosine. By WILLIAM PARKER DICKINSON and PHILIP GUY MARSHALL	1495
CXCIV.—The Production of Kojic Acid from Pentoses by <i>Aspergillus oryzae</i> . By FREDERICK CHALLENGER, LOUIS KLEIN, and THOMAS KENNEDY WALKER	1498
CXCV.—Cobalt with a Covalency of Four: A New Series of Complex Compounds. By EDMUND GEORGE VINCENT PERCIVAL and WILLIAM WARDLAW	1505
CXCVI.—The Isomerism of Derivatives of 2-Phenylnaphthylene-1:3-diamine. By MARY STEPHEN LESSLIE and EUSTACE EBENEZER TURNER	1512
CXCVII.—The Photolysis of Potassium Ferrioxalate Solutions. Part I. Experimental. By ARTHUR JOHN ALLMAND and WALTER WESTON WEBB	1518
CXCVIII.—The Photolysis of Potassium Ferrioxalate Solutions. Part II. Discussion. By ARTHUR JOHN ALLMAND and WALTER WESTON WEBB	1531
CXCIX.—Germanium. Part IV. The Solubility of Germanium Dioxide in Acids and Alkalis. By WILLIAM PUGH	1537
CC.—Investigations on the Bivalency of Carbon. Part II. The Displacement of Chlorine from Desyl Chloride. Benzoin Diethylacetal. By ALLAN MILES WARD	1541
CCI.—The Nitrosation of Phenols. Part VI. Further Study of the Nitrosation of <i>m</i> -Chlorophenol. By HERBERT HENRY HODGSON and ARNOLD KERSHAW	1553
CCII.—On the Connexion between Absorbed Energy and Velocity in Photochemical Reactions of the $I^{0.5}$ Type. By ARTHUR JOHN ALLMAND	1557
CCIII.—The Action of Phosphoric Oxide on β -Anilinobutyral. By FREDERICK ALFRED MASON	1560
CCIV.—The Influence of Ethyl Ether and of Dimethylpyrone on the Availability of Hydrogen Chloride in Alcoholic Solution. By VIVIAN ERNEST SAUNDERS MITCHELL and JAMES RIDDICK PARTINGTON	1562
CCV.—The Reactions of a Mixture of Ethyl Ether, Acetyl Bromide, and Naphthol. By HAROLD LLEWELYN BASSETT and KATHERINE FRIEDA TAYLOR	1568

CCVI.—Substitution in Resorcinol Derivatives. Part II. Bromo-derivatives of β -Resorcyraldehyde and their Orientation. By (the late) MYSORE GURU SRINIVASA RAO, COLLURAYANA SRIKANTIA, and MYSORE SESA IYENGAR	1578
CCVII.—The Formation and Stability of the 2-Thio-1:2-dihydrobenzisothiazoles. By ERNEST WILSON MCCLELLAND, LEONARD ARTHUR WARREN, and JANE HENRIETTA JACKSON	1582
CCVIII.—The Formation of Thionaphthindole. By ERNEST WILSON MCCLELLAND	1588
CCIX.—Some Substances derived from the Anhydrocatechin Tetramethyl Ethers. By WILSON BAKER	1593
CCX.—Photochemical Equilibrium in Nitrogen Peroxide. Part III. A Comparison of the Thermal, Photochemical, and Electrical Decompositions, and a General Theory of the Change. By RONALD G. W. NORRISH	1604
CCXI.—Photochemical Equilibrium in Nitrogen Peroxide. Part IV. The Relation between Fluorescence and Photochemical Action. By RONALD G. W. NORRISH	1611
NOTES.—Substances of the Phenarsazine Type containing the Acenaphthene Nucleus. By CHARLES STANLEY GIBSON and JOHN DOBNEY ANDREW JOHNSON	1621
The Reaction between Magnesium Phenyl Bromide and Phenyl Glycide. By D. R. BOYD and G. J. C. VINEALL	1622
CCXII.—The Production of Pinacols in the Reaction between a Carboxylic Ester and a Grignard Reagent. By HAROLD H. HATT	1623
CCXIII.—The Reimer-Tiemann Reaction with <i>m</i> -Fluorophenol and the Nitration of 4-Fluoro-2-hydroxy- and 2-Fluoro-4-hydroxy-benzaldehydes. By HERBERT HENRY HODGSON and JOSEPH NIXON	1632
CCXIV.—The Influence of Substituents on the Reimer-Tiemann Reaction. Part II. By HERBERT HENRY HODGSON and THOMAS ALFRED JENKINSON	1639
CCXV.—Dyes derived from Cinchomeric Acid. By JAMUNA DATT TEWARI	1642
CCXVI.—The Formation of <i>l</i> -Malic Acid from Fumaric Acid by <i>Aspergillus niger</i> . By FREDERICK CHALLENGER and LOUIS KLEIN	1644
CCXVII.—The Photochemical Oxidation of Ethyl Alcohol by Potassium Dichromate. Part II. By EDMUND JOHN BOWEN and EDWIN THOMAS YARNOLD	1648

CCXVIII.—Amylases of the Cereal Grains—Oats. By JULIAN LEVETT BAKER and HENRY FRANCIS EVERARD HULTON	1655
CCXIX.—Manipulation in Intensive Drying. By HERBERT BRERETON BAKER	1661
CCXX.—Notes on Intensive Drying of Gaseous Media. By WILLIAM A. BONE	1664
CCXXI.—Synthetical Experiments on the Aporphine Alkaloids. Part VII. Attempted Syntheses of <i>apo</i> -Morphine Dimethyl Ether. By JOHN MASSON GULLAND, ROBERT DOWNS HAWORTH, CYRIL JOSEPH VIRDEN, and (in part) ROBERT KENNETH CALLOW.	1666
CCXXII.—Glucosides. Part II. The Preparation of α -Glucosides from β -Glucosyl Chlorides. By WILFRED JOHN HICKINBOTTOM	1676
CCXXIII.—Cadmium and Beryllium Peroxides. By THOMAS R. PERKINS.	1687
CCXXIV.—Electrometric Titration Curves of Dibasic Acids. Part III. Substituted Malonic Acids. By RICHARD GANE and CHRISTOPHER KELK INGOLD	1691
CCXXV.—The Relative Configurations of <i>d</i> - β -Octanol and its Dextrorotatory Halides. The Interconversion of the Optically Active β -Octanols by a New Method. By ARMAND JOSEPH HENRI HOUSSA, JOSEPH KENYON, and HENRY PHILLIPS	1700
CCXXVI.—The Decomposition of Carbon Monoxide in the Silent Electric Discharge. Part III. By ROBERT WINSTANLEY LUNT and LEONARD SIDNEY MUMFORD	1711
CCXXVII.—The Adsorption of Fumaric and Maleic Acids by Pure Charcoals. By HAROLD JOHN PHELPS	1724
CCXXVIII.—The Combination of Hydrogen and Oxygen on the Surface of Platinum. By REGINALD PAUL DONNELLY and CYRIL NORMAN HINSHELWOOD	1727
CCXXIX.—The Light Emission from the Phosphorescent Flames of Ether, Acetaldehyde, Propaldehyde, and Hexane. By HARRY JULIUS EMELÉUS	1733
CCXXX.—Polysaccharides. Part IV. The Constitution of Xylan. By HORACE ARTHUR HAMPTON, WALTER NORMAN HAWORTH, and EDMUND LANGLEY HIRST	1739
CCXXXI.—The Synthesis of <i>meso</i> -Alkyl and <i>meso</i> -Aryl Anthracene Derivatives. Part VI. By EDWARD DE BARRY BARNETT and NORMAN FREDERICK GOODWAY	1754

	PAGE
CCXXXII.—Synthesis of Some Phenyl Styryl Ketones and Related Compounds. By NICHOLAS MICHAEL CULLINANE and DAVID PHILPOTT	1761
CCXXXIII.—The Interaction of Carbon Tetrabromide with Sulphur and Selenium. By HENRY VINCENT AIRD BRISCOE, JOHN BUTTERY PEEL, and JOHN RICHARD ROWLANDS	1766
CCXXXIV.—The Action of Phosphorus Pentachloride on Ethyl Tartrate. By THOMAS STEWART PATTERSON and ALEXANDER ROBERTUS TODD	1768
CCXXXV.—The Properties of Nicotine and its Derivatives. Part II. Optical Rotatory Power and Rotatory Dispersion. By THOMAS MARTIN LOWRY and WILLIAM VIVIAN LLOYD.	1771
CCXXXVI.—Anhydro-compounds derived from 2-Nitro-3:4-dimethoxyphenylacetonitrile and Certain <i>pseudo</i> -Bases. By JOHN MASSON GULLAND and CYRIL JOSEPH VIRDEN	1791
CCXXXVII.—The Unimolecular Decomposition of Some Ethers in the Gaseous State. By JOHN VERNON STUART GLASS and CYRIL NORMAN HINSHELWOOD	1804
CCXXXVIII.—Homogeneous Catalysis of a Gaseous Reaction. Kinetics of the Catalytic Decomposition of <i>iso</i> Propyl Ether. By JOHN VERNON STUART GLASS and CYRIL NORMAN HINSHELWOOD	1815
CCXXXIX.—Synthesis of Glucosides. Part II. The Preparation of Some Galactosides. By ALEXANDER ROBERTSON	1820
CCXL.—The Slow Oxidation of Phosphorus. Part I. The Inhibition of the Glow of Phosphorus by Phosphorous Oxide. By CHRISTINA CRUICKSHANK MILLER	1823
CCXLI.—The Slow Oxidation of Phosphorus. Part II. The Oxidation Products of Phosphorus and Phosphorous Oxide. By CHRISTINA CRUICKSHANK MILLER	1829
NOTES.—The Phosphorescent Flame of Arsenic. By HARRY JULIUS EMELÉUS	1846
Periodic Structures from Interacting Gases. By ERNEST SYDNEY HEDGES	1848
CCXLII.—Alternation in the Heats of Crystallisation of the Normal Monobasic Fatty Acids. Part IV. By WILLIAM EDWARD GARNER and A. M. KING	1849
CCXLIII.—Stereoisomerism in Substituted 1:2:3:4-Tetrahydroquinolines. Part I. By SYDNEY GLENN PRESTON PLANT and REGINALD JOHN ROSSER	1861

CCXLIV.—Replacement of Halogen in <i>ortho</i> Bromobenzoic Acid. By WILLIAM ROBERT HARDY HURTLEY . . .	1870
CCXLV.—The Effect of the Cohesion of the Medium on Reaction Velocity. The Velocity of Interaction of <i>N</i> -Chloroacetanilide and Hydrobromic Acid in Aqueous Solutions. By MINNIE RICHARDSON and FREDERICK GEORGE SOPER	1873
CCXLVI.—Acid and Salt Effects in Catalysed Reactions. Part XXI. The Catalytic Effects associated with Oxalic Acid in the First and Second Stages of Dissociation. By HARRY MEDFORTH DAWSON, CHARLES RANDALL HOSKINS, and JESSE EYRE SMITH	1884
CCXLVII.—The Polarimetric Study of Intramolecular Rearrangement in Inactive Substances. Part VII. By THOMAS STEWART PATTERSON and GEORGE THOMSON	1895
CCXLVIII.—Some Reactions of <i>mm'</i> -Dinitrobenzil. By ALFRED ARCHIBALD BOON and HUGH BRYAN NISBET	1901
CCXLIX.—The Equilibrium $\text{CO}_2 + \text{C} \rightleftharpoons 2\text{CO}$. By F. J. DENT and JOHN WILLIAM COBB	1903
CCL.—Studies in Keto-lactol Tautomerism. Part III. Influence of Bulky Substituents on the Tautomerism of α -Carboxy- γ -acetyl- β -methyl- β -ethyl-butyrac and - $\beta\beta$ -diethylbutyrac Acids. By MUHAMMAD QUDRAT-I-KHUDA	1913
CCLI.—Experiments on the Oxidation of Phosphorus Vapour. By EDMUND JOHN BOWEN and ALEXANDER CORRY CAVELL	1920
CCLII.—Phenoxyethylaniline and Related Compounds. Part I. By DAVID HENRY PEACOCK, MANDAL BHATTACHARYA, and B. LAKSHMAN RAO	1926
CCLIII.—The Lupin Alkaloids. Part II. By GEORGE ROGER CLEMO and RICHARD RAPER	1927
CCLIV.—Phthalazines. Part I. By JOTI SARUP AGGARWAL, NAND LAL DARBARI, and JÑANENDRA NATH RÂY	1941
CCLV.—The Reaction of Bromine with Aliphatic Acids. Part III. α - and γ -Ketonic Acids. By EDWARD DAVID HUGHES and HERBERT BEN WATSON	1945
CCLVI.—Studies in "Strainless" Rings. Part I. β -Substituted Stereoisomeric Decalins (Decahydronaphthalenes). By KESHAVIAH ASWATH NARAIN RAO	1954
CCLVII.—Derivatives of Tetrahydrocarbazole. Part VIII. Formation and Reactions of Nitric Acid Addition Products. By SYDNEY GLENN PRESTON PLANT and KENNETH HENRY RUTHERFORD	1970

CCLVIII.—Stereoisomerism in Polycyclic Systems. Part VI. By BERTIE KENNEDY BLOUNT, WILLIAM HENRY PERKIN, jun., and SYDNEY GLENN PRESTON PLANT	1975
CCLIX.—The Mechanism of the Degradation of Fatty Acids by Mould Fungi. Part III. By HOWARD BRAITHWAITE STENT, VIRA SUBRAMANIAM, and THOMAS KENNEDY WALKER	1987
CCLX.—Germanium. Part V. The Hydrolysis of Sodium Germanate and the Dissociation Constants of Germanic Acid. By WILLIAM PUGH	1994
CCLXI.—The Reaction between Ferric Oxide and Hydrogen Sulphide at Temperatures between 120° and 830°. By LEONARD ALFRED SAYCE	2002
CCLXII.—The Electrolytic Dissociation of some Metal Malonates. By HARRY LISTER RILEY and NELLIE IVY FISHER	2006
CCLXIII.—Bases containing Two <i>iso</i> Quinoline Rings. By REGINALD CHILD and FRANK LEE PYMAN	2010
CCLXIV.—The Modes of Addition to Conjugated Unsaturated Systems. Part II. The Reduction of Conjugated Unsaturated Acids by Metals dissolving in Aqueous Media. By HAROLD BURTON and CHRISTOPHER KELK INGOLD	2022
CCLXV.—A Volumetric Method for determining Silver in the Presence of Halides and Cyanides. By HARRY BAINES	2037
CCLXVI.—The Influence of Solvents and other Factors on the Rotation and the Rotation-Dispersion of Optically Active Compounds. Part XXVII. Derivatives of Lactic Acid. By T. S. PATTERSON and ALEXANDER LAWSON	2042
CCLXVII.—The Action of Nitrous Acid on Amino-compounds. Part III. Dimethylamine, <i>n</i> -Propylamine, and Glycine Ethyl Ester. By THOMAS WESTON JOHNS TAYLOR and LESLIE SLATER PRICE	2052
CCLXVIII.—The Apparent Hydration of Ions. Part III. The Densities and Viscosities of Saturated Solutions of Ammonium Chloride in Hydrochloric Acid. By JOHN WILLIAM INGHAM	2059
CCLXIX.—Piperitone. Part IX. Some Oxidation Reactions of Piperitone. By JOHN READ, ANDREW JAMES WATTERS, GEORGE JAMES ROBERTSON, and REGINALD SLATER HUGHESDON	2068

CCLXX.—Studies of Valency. Part XIII. Further Experiments on the Molecular Structure of the Quadrivalent Derivatives of Tellurium. By THOMAS MARTIN LOWRY and FRANK LATHE GILBERT	2076
CCLXXI.—The Micro-estimation of Selenium and Tellurium in Organic Compounds. By HARRY DUGALD KEITH DREW and CHARLES RAYMOND PORTER	2091
CCLXXII.—The Transference of Water and its Dependence on Concentration in the Electrolysis of Sodium Chloride Solutions. By MILLICENT TAYLOR and EDWARD WILLIAM SAWYER	2095
CCLXXIII.—Halogen Substitution Products of 4-Aminobenzophenone. By WILLIAM ALEXANDER WATERS	2106
CCLXXIV.—The Evaluation and Interpretation of Parachors. By STANLEY AUGUSTUS MUMFORD and JOHN WILLIAM COLE PHILLIPS	2112
CCLXXV.—Dynamic Isomerism involving Mobile Hydrocarbon Radicals. Part I. The Triarylbenzenylamidines. By ARTHUR WILLIAM CHAPMAN	2133
CCLXXVI.—The Chemistry of the Three-carbon System. Part XXII. The Preparation and Interconversion of Isomeric Unsaturated Nitriles. By ARUPILLAI KANDIAH and REGINALD PATRICK LINSTED	2139
CCLXXVII.—Investigations of the Lower Olefinic Acids. Part I. <i>n</i> -Hexenoic Acids. By EUSTACE NEVILL ECCOTT and REGINALD PATRICK LINSTED	2153
CCLXXVIII.—Piperitone. Part X. The Synthesis of Certain Menthadienes, Menthenes, and Menthanols. By JOHN READ and ANDREW JAMES WATTERS	2165
CCLXXIX.—On the Modifications of Galactose. By CLAUS NISSEN RIBBER, JOSEF MINSAS, and RALPH TAMBS LYCHE	2173
CCLXXX.—The Rates of Saponification of Various Commercial Oils, Fats, and Waxes and Pure Triglycerides by Aqueous Alkali. By JAMES WILLIAM MCBAIN, CECIL WALTER HUMPHREYS, and YASOTA KAWAKAMI	2185
CCLXXXI.—Heterocyclic Systems containing Selenium. Part II. <i>cyclo</i> Selenopentane. By GILBERT T. MORGAN and FRANCIS HERWARD BURSTALL	2197
CCLXXXII.—Synthesis of Anthracene Homologues. Part I. 2:6- and 2:7-Dimethylantracenes. By GILBERT T. MORGAN and EDWARD AUTY COULSON	2203

CCLXXXIII.—Interactions of Basic Tellurium Chloride and the Cresols. By GILBERT T. MORGAN and HENRY BURGESS	2214
CCLXXXIV.—Synthetical Experiments in the Chromone Group. Part I. A New Synthesis of 7 : 8-Dihydroxy-2-methylchromone and 7 : 8-Dihydroxyflavone. By KRISHNASAMI VENKATARAMAN	2219
CCLXXXV.—The Chemistry of 1 : 3-Dicarbonyl Compounds. Part I. The Mechanism of the Cyanoacetamide and Cyanoacetic Ester Condensations. By JOGENDRA CHANDRA BARDHAN	2223
CCLXXXVI.—The Partial Esterification of Polyhydric Alcohols. Part IX. The Discovery of the First True β -Ether of Glycerol. By ARTHUR FAIRBOURNE	2232
CCLXXXVII.—The Constitution of the Glycerophosphates. By DOUGLAS WILLIAM HILL and FRANK LEE PYMAN	2236
CCLXXXVIII.—Synthesis of Glucosides. Part III. Synthesis of Glucosides of Hydroxyxanthenes. By ALEXANDER ROBERTSON and ROY BASIL WATERS	2239
CCLXXXIX.—Studies in the Sterol Group. Part V. The Constitution of Cholesterilene. By ATUL CHANDRA BOSE and WILLIAM DORAN	2244
CCXC.—Studies in the Sterol Group. Part VI. Dihydroergosterol and the Formation of Isomerides. By ISIDOR MORRIS HEILBRON, FRANK JOHNSTONE, and FRANK STUART SPRING	2248
CCXCI.—Studies in the Sterol Group. Part VII. Preliminary Note on the Isolation of Zymosterol. By ISIDOR MORRIS HEILBRON and WILFRED ARCHIBALD SEXTON	2255
CCXCII.—The Nature of the Alternating Effect in Carbon Chains. Part XXXI. The Directive Influence of ψ -Acid Systems in Aromatic Substitution. Nitration of ψ -Acidic Phenylnitromethanes and their Salts. By JOHN WILLIAM BAKER	2257
CCXCIII.—The Reduction of Nitro-compounds in Pyridine Solution. By OSCAR L. BRADY, JAMES N. E. DAY, and CEDRIC V. REYNOLDS	2264
CCXCIV.—The Isomerism of the Oximes. Part XXXV. The Amidoximes. By OSCAR L. BRADY and FRANK HERBERT PEAKIN	2267
CCXCV.—The Isomerism of the Oximes. Part XXXVI. The Methylation of Aldoximes and Ketoximes. By OSCAR L. BRADY and NAVNITLAL MOHANLAL CHOKSHI	2271

CCXCVI.—Optical Activity and the Polarity of Substituent Groups. Part XI. <i>sec.</i> - β -Octyl Esters of Benzoic Acids containing Basic and Acidic Substituents. By H. GORDON RULE, JOHN BRAMWELL MILES, and (in part) W. EOGHAN MACGILLIVRAY	2274
CCXCVII.—The Solubility of Sodium Thiocyanate in Water and in Organic Solvents. By OWEN LEWIS HUGHES and THOMAS HOBSON MEAD	2282
CCXCVIII.—The Effect of Proteins on the Coagulation of Bentonite Suspensions by Electrolytes. By BHUPENDRA NATH GHOSH	2285
CCXCIX.—The Action of Sodium Hydroxide on Stannic Oxide Sol. Part I. By BHUPENDRA NATH GHOSH	2290
CCC.—The Action of Sodium Hydroxide on Stannic Oxide Sol. Part II. By BHUPENDRA NATH GHOSH	2298
CCCI.—The Optically Active Diphenylhydroxyethylamines and <i>iso</i> Hydrobenzoin. Part II. By JOHN READ, ISHBEL GRACE MACNAUGHTON CAMPBELL, and THOMAS VIPOND BARKER	2305
CCCII.—A Study of the Vapour-pressure Diminution of Rubber Jellies. By PAUL STAMBERGER	2318
CCCIII.—The Solubility of Sodium Ferrocyanide in Water between 0° and 104°. By JOHN ALBERT NEWTON FRIEND, JOHN EDWIN TOWNLEY, and REECE HENRY VALLANCE	2326
CCCIV.—The Hydrates of Lithium Sulphate and their Solubility in Water between -16° and +103°. By JOHN ALBERT NEWTON FRIEND	2330
CCCV.—Nitration of Halogenophenylarsinic Acids. By HARRY JAMES BARBER	2333
CCCVI.—Influence of Poles and Polar Linkings on the Course pursued by Elimination Reactions. Part IV. Further Experiments on the Olefinic Degradation of Sulphones. By GEOFFREY WILLIAM FENTON and CHRISTOPHER KELK INGOLD	2338
CCCVII.—Influence of Poles and Polar Linkings on the Course pursued by Elimination Reactions. Part V. The Mechanism of Thermal Decomposition of Quaternary Phosphonium Hydroxides. By GEOFFREY WILLIAM FENTON and CHRISTOPHER KELK INGOLD	2342
CCCVIII.—Influence of Poles and Polar Linkings on the Course pursued by Elimination Reactions. Part VI. 1:1-Elimination in the Degradation of Quaternary Ammonium Hydroxides. By CHRISTOPHER KELK INGOLD and JOE ARTHUR JESSOP	2357

CCCIX.—Substitution Products of 4-Nitro- and 4-Acetamido-diphenyl Ether. By HAROLD ARCHIBALD SCARBOROUGH	2361
CCCX.—The Constitution of Santonin. Part I. The Synthesis of <i>dl</i> -Santonous Acid. By GEORGE ROGER CLEMO, ROBERT DOWNS HAWORTH, and ERIC WALTON	2368
CCCXI.—The Order of Fractionation of Rare-earth Bromates, and a Search for Illinium. By JOSEPH KENNETH MARSH	2387
CCCXII.—The Electrolytic Deposition of Molybdenum at a Mercury Cathode. By JACK LISGAR MERRILL and ALEXANDER SMITH RUSSELL	2389
CCCXIII.—The Electrolytic Deposition of Tungsten at a Mercury Cathode. By KENNETH SHELLEY JACKSON, ALEXANDER SMITH RUSSELL, and JACK LISGAR MERRILL	2394
CCCXIV.—The Order of Removal of Metals from Amalgams. By ALEXANDER SMITH RUSSELL	2398
CCCXV.—Tesla-luminescence Spectra. Part VI. Some Phenolic Compounds and their Ethers. By JAMES CAMERON MACMASTER, ALFRED RUSSELL, and ALFRED WALTER STEWART	2401
CCCXVI.—Tesla-luminescence Spectra. Part VII. Some Aromatic Aldehydes. By ALFRED RUSSELL and ALFRED WALTER STEWART	2407
CCCXVII.—The Formation of Triphenylmethylphosphinic Acid from Triphenylmethoxyphosphorus Dichloride. Part II. The Mechanism of the Reaction. By HAROLD H. HATT	2412
NOTES.—The Decomposition of Carbon Monoxide in the Silent Electric Discharge. By ERWIN OTT	2422
Application of Semicarbazones to the Determination of Ketones. By STIG VEIBEL	2423
The Direct Dibromination of <i>m</i> -Bromophenol. By HERBERT HENRY HODGSON and JOSEPH NIXON	2424
Some Phenanthrene Derivatives. By ROBERT KENNETH CALLOW and JOHN MASSON GULLAND	2424
CCCXVIII.—The Mean Life of the Catalyst postulated in the Photochemical Union of Chlorine and Hydrogen. By DAVID LEONARD CHAPMAN and PHILIP POWELL GRIGG	2426
CCCXIX.—Tesla-luminescence Spectra. Part VIII. Some Halogen-substituted Derivatives of Benzene. By ALFRED RUSSELL and ALFRED WALTER STEWART	2432
CCCXX.—The Fluorescence Spectra of the Vapours of Fluorobenzene and <i>p</i> -Fluorotoluene. By MARY W. MONYPENY and ALFRED RUSSELL	2436

CCCXXI.—The Combination of Hydrogen and Oxygen on the Surface of Nickel. By REGINALD PAUL DONNELLY	2438
CCCXXII.—Plant Cuticles. Part I (cont.). Modern Plant Cuticles. By VERNON HOWES LEGG and RICHARD VERNON WHEELER	2444
CCCXXIII.—Plant Cuticles. Part II. Fossil Plant Cuticles. By VERNON HOWES LEGG and RICHARD VERNON WHEELER	2449
CCCXXIV.—Formation of <i>l</i> -Threose. By VENANCIO DEULOFEU.	2458
CCCXXV.—The Dinitration of <i>m</i> -Dichlorobenzene. By ARTHUR THURLBY DANN.	2460
CCCXXVI.—The Synthesis of Glycine. By WINSTON KENNAY ANSLOW and HAROLD KING	2463
CCCXXVII.—The Structure of Normal Monosaccharides. Part VI. 2:3:4-Trimethyl Rhamnonolactone. By JOHN AVERY and EDMUND LANGLEY HIRST	2466
CCCXXVIII.—The Development of a Novel Form of Stereoisomerism in the Sugar Series. Part I. The Third Variety of Triacetyl Methylrhamnoside. By WALTER NORMAN HAWORTH, EDMUND LANGLEY HIRST, and ERNEST JOHN MILLER	2469
CCCXXIX.—Polysaccharides. Part V. Glycogen. By WALTER NORMAN HAWORTH, EDMUND LANGLEY HIRST, and JOHN IVOR WEBB	2479
CCCXXX.—The Mechanism of the Degradation of Fatty Acids by Mould Fungi. Part IV. By VIRA SUBRAMANIAM, HOWARD BRAITHWAITE STENT, and THOMAS KENNEDY WALKER	2485
CCCXXXI.—Derivatives of Dihydropentindole. Part II. By SYDNEY GLENN PRESTON PLANT	2493
CCCXXXII.—The Chemistry of the Three-carbon System. Part XXIII. The Influence of Substituent Groups on the Tautomeric Change. By REGINALD PATRICK LINSTED	2498
CCCXXXIII.—Some Reactions of <i>d</i> - β -Octyl Chlorocarbonate of Interest from the Standpoint of the Walden Inversion. By ARMAND JOSEPH HENRI HOUSSA and HENRY PHILLIPS	2510
CCCXXXIV.—Optical Activity and the Polarity of Substituent Groups. Part XII. The Direct Space Effects of Meta and Ortho-para Directive Substituents. <i>l</i> -Menthyl Esters of Substituent Naphthoic Acids. By H. GORDON RULE, JOHN SPENCE, and EGON BRETSCHER	2516

CCCXXXV.—Optical Activity and the Polarity of Substituent Groups. Part XIII. Note on the Direct Space Effect in <i>d</i> -Amyl Derivatives. By H. GORDON RULE	2524
CCCXXXVI.—Scattering of Light by Stannic Oxide Sols. By BHUPENDRA NATH GHOSH	2526
CCCXXXVII.—Acid and Salt Effects in Catalysed Reactions. Part XXII. The Influence of Inert Salts on the Secondary Dissociation of Dibasic Acids. By HARRY MEDFORTH DAWSON and JESSE EYRE SMITH	2530
CCCXXXVIII.—Germanium. Part VI. An Improved Method of extracting Germanium from Germinite. By WILLIAM PUGH	2540
CCCXXXIX.—The Solubility of Certain Anilides in Water-Acetic Acid Mixtures. By ALAN EDWIN BRADFIELD and ALBERT FFOULKES WILLIAMS	2542
CCCXL.—Organic Derivatives of Silicon. Part XLI. Octa- <i>p</i> -tolylsilicotetrane, Octa- <i>p</i> -tolylcyclosilicotetrane, and Other Products from Di- <i>p</i> -tolylsilicon Dichloride. By ALFRED RAYMOND STEELE and FREDERIC STANLEY KIPPING	2545
CCCXLI.—Synthesis of Anthracene Homologues. Part II. 2 : 3 : 6-Trimethylantracene. By GILBERT T. MORGAN and EDWARD AUTY COULSON	2551
CCCXLII.—The Condensation of Fluorene with Acetone. Part I. The Action of Magnesium 9-Fluorenyl Bromide on (a) Acetone, (b) Diacetone Alcohol. The Question of Two Forms of 9- <i>iso</i> Propylidene-fluorene. By PETER MAITLAND and STANLEY HORWOOD TUCKER	2559
CCCXLIII.—The Influence of the Sulphur Atom on the Reactivity of Adjacent Atoms or Groups. Part III. δ - and ϵ -Chloro-sulphides. By GEORGE MACDONALD BENNETT, FREDERICK HEATHCOAT, and ARTHUR NEVILLE MOSSES	2567
CCCXLIV.—The Action of Sulphur Monochloride on Antimony Pentachloride. By JAMES RIDDICK PARTINGTON	2573
CCCXLV.—Arsenic Trichloride and Sulphur Chloride. By JAMES RIDDICK PARTINGTON	2577
CCCXLVI.—Complex Bromides of Quinquevalent Molybdenum. By FREDERICK GEORGE ANGELL, ROBERT GILBERT JAMES, and WILLIAM WARDLAW	2578
CCCXLVII.—Mercury Compounds of Thiophen and Selenophen. By HENRY VINCENT AIRD BRISCOE, JOHN BUTTERY PEEL, and GEORGE WATSON YOUNG	2589

CCCXLVIII.—Researches on Ammines. Part III. Derivatives of Cupric Nitrite. By HERBERT JOSEPH SEYMOUR KING	2593
CCCXLIX.—Cyanine Dyes from Quaternary Salts of Methyl- α - and - β -naphthathiazoles. By FRANCIS MARY HAMER	2598
CCCL.—The Nitration of 3-Hydroxy-1:4-benzisooxazine and its 7- and 8-Acetamido-derivatives. By ISIDORE ELKANAH BALABAN	2607
CCCLI.—The Nitration of Benzyl Derivatives of Certain Phosphorus, Arsenic, and Antimony Compounds. By FREDERICK CHALLENGER and ARNOLD THORNTON PETERS	2610
CCCLII.—The Formation and Stability of the 2- <i>o</i> -Thiophenyl-4:5-dihydroglyoxalines. By ERNEST WILSON McCLELLAND and LEONARD ARTHUR WARREN	2621
CCCLIII.—Polynuclear Cobalt Complexes containing Cobalt in the Anion. By EDMUND GEORGE VINCENT PERCIVAL and WILLIAM WARDLAW	2628
CCCLIV.—Chemical Kinetics of the System $\text{Ag}_2\text{CO}_3 \rightleftharpoons \text{Ag}_2\text{O} + \text{CO}_2$. By WILFRED DEVONSHIRE SPENCER and BRYAN TOPLEY	2633
CCCLV.—The Passivity of Metals. Part III. The Quantity and Distribution of the Superficial Oxide. By ULICK R. EVANS and JOHN STOCKDALE	2651
NOTES.—Two Apparent Cases of Liquid Crystal Formation. By ALAN EDWIN BRADFIELD and BRYNMOR JONES	2660
6(or) 8-Nitro-1-phenylphthalazine: A Correction. By JÑANENDRA NATH RÂY	2661
CCCLVI.—The Combustion of Charcoal in Oxygen, Nitric Oxide, and Nitrous Oxide. Part I. The Adsorption of Oxygen. By MADHAVLAL SUKHLAL SHAH	2661
CCCLVII.—The Combustion of Charcoal in Oxygen, Nitric Oxide, and Nitrous Oxide. Part II. The Effect of Temperature. By MADHAVLAL SUKHLAL SHAH	2676
CCCLVIII.—The Electrokinetic Potential and its Relation to the Rate of Coagulation of Colloids. Part I. By BHUPENDRA NATH GHOSH	2693
CCCLIX.—The Action of Hydrogen Fluoride on Compounds of Selenium and Tellurium. Part III. Solubilities of Tellurium Dioxide and Oxyfluorides. By EDMUND BRYDGES RUDHALL PRIDEAUX and JOHN O'NEIL MILLOTT	2703

CCCLX.—Dimorphism in the Aliphatic Dicarboxylic Acid Series (Azelaic Acid). By WILLIAM AUGUSTUS CASPARI	2709
CCCLXI.—The Influence of Intensive Drying on Inner Equilibria. Part V. By ANDREAS SMITS, EMANUEL SWART, and PIETER BRUIN	2712
CCCLXII.—Necessary Procedures for the Exact Determination of Vapour Tensions. By ANDREAS SMITS and EMANUEL SWART	2724
CCCLXIII.—Studies of a Bredig Silver Hydrosol. By RUPERT JETHRO BEST and ALWYN BIRCHMORE COX	2727
CCCLXIV.—The Oxidation of α -Terpinene with Benzoylhydroperoxide. By LESLIE ALDERMAN ELSON, CHARLES STANLEY GIBSON, and JOHN LIONEL SIMONSEN	2732
CCCLXV.—Monohalogenomononitrotoluenes. Arsenical Compounds derived from 3-Bromo-4-nitrotoluene. By LESLIE ALDERMAN ELSON, CHARLES STANLEY GIBSON, and JOHN DOBNEY ANDREW JOHNSON	2735
CCCLXVI.—10-Chloro-5:10-dihydrophenarsazine and its Derivatives. Part XI. Mono-, Di-, and Tri-methyl Derivatives. By CHARLES STANLEY GIBSON and JOHN DOBNEY ANDREW JOHNSON	2743
CCCLXVII.—Nor- <i>d</i> - ψ -ephedrine, a Convenient Base for the Resolution of externally compensated Acids. Resolution of <i>dl</i> -Benzenesulphonylalanine and of <i>dl-N</i> -Phenylalanineamide-4-arsinic Acid. By CHARLES STANLEY GIBSON and BARNETT LEVIN	2754
CCCLXVIII.—Compounds of the Tryparsamide Type. Part II. Resolution of <i>dl-N</i> -2-Methylphenylalanineamide-4-arsinic Acid. By CHARLES STANLEY GIBSON and BARNETT LEVIN	2759
CCCLXIX.—The Argentothiosulphuric Acids and their Derivatives. Part I. The Preparation of the Sodium Salts and the Isolation of Monoargentomonothiosulphuric Acid. By HARRY BAINES	2763
CCCLXX.—The Classification of the Sugars. Part II. By JOHN GWILLIAM MALTBY	2769
CCCLXXI.—The Orienting Influence of Oxonium Oxygen. The Nitration of 2-Phenylbenzopyrylium Perchlorate and Ferrichloride. By RAYMOND JAMES WOOD LE FÈVRE	2771
CCCLXXII.—The Nitrosation of Phenols. Part VII. Resorcinol Monomethyl Ether and <i>m</i> -Cresol. By HERBERT HENRY HODGSON and HUBERT CLAY	2775

CCCLXXIII.—The Formation of Periodic Structures by Salting-out and by Coagulation. By ERNEST SYDNEY HEDGES	2779
CCCLXXIV.—The Solubility of Potassium Selenate in Water between 0° and 100°. By JOHN ALBERT NEWTON FRIEND	2782
CCCLXXV.—The Nitration of β -Naphthylamine. By FRANK BELL	2784
CCCLXXVI.—The Interaction of Nitroamines with Sulphonyl Chlorides. By FRANK BELL	2787
CCCLXXVII.—The Solubilities of <i>o</i> - and <i>p</i> -Nitrophenols in Aqueous Methyl-alcoholic Solutions at 25° and 40°. Formation of β - <i>p</i> -Nitrophenol. By JAMES COOPER DUFF	2789
CCCLXXVIII.—Isolation of Crystalline α - and β -Ethylglucosides (γ -Ethylglucosides) and Other Crystalline Derivatives of Glucosfuranose. By WALTER NORMAN HAWORTH and CHARLES RAYMOND PORTER	2796
CCCLXXIX.—Studies in the Sterol Group. Part VIII. The Reactions of <i>iso</i> Ergosterol. By ISIDOR MORRIS HEILBRON and FRANK STUART SPRING	2807
CCCLXXX.—The Halogenation of Phenolic Ethers and Anilides. Part I. The Bromination of Ethers in 50% Acetic Acid. By ALAN EDWIN BRADFIELD, BRYNOR JONES, and KENNEDY JOSEPH PREVITÉ ORTON	2810
CCCLXXXI.—The Estimation of Nicotine. By FREDERICK DANIEL CHATTAWAY and GEORGE DAVID PARKES	2817
CCCLXXXII.—The Formation of 1-Substituted Benzimidazoles. By MONTAGUE ALEXANDRA PHILLIPS	2820
CCCLXXXIII.—Studies in the Penthian Series. Part II. Penthian-4-one. By GEORGE MACDONALD BENNETT and WILLIAM BERTRAM WADDINGTON	2829
CCCLXXXIV.—Studies in the Penthian Series. Part III. Stereoisomeric Derivatives of Some Penthianols. By GEORGE MACDONALD BENNETT and WILLIAM BERTRAM WADDINGTON	2832
CCCLXXXV.—Investigations on the Dependence of Rotatory Power on Chemical Constitution. Part XXXIV. Borotartaric Acid. By STANLEY GROVE BURGESS and HAROLD HUNTER	2838
CCCLXXXVI.—The Rotatory Dispersion of Organic Compounds. Part XVIII. Potassium Borotartrate. By THOMAS MARTIN LOWRY	2853

CCCLXXXVII.—The Rotatory Dispersion of Organic Compounds. Part XIX. The Validity of Drude's Equation. By THOMAS MARTIN LOWRY	2858
CCCLXXXVIII.—The Formation of <i>N</i> -Nitrosoamines from Tertiary Amines. Part I. The Conversion of Derivatives of Dimethylaniline by Nitrous Acid into the Corresponding Nitrosoamines and Monomethylanilines. By WILLIAM GEORGE MACMILLAN and THOMAS HAROLD READE	2863
CCCLXXXIX.—Studies of Valency. Part XIV. An Optically Active Telluronium Salt: Phenyl- <i>p</i> -tolylmethyltelluronium Iodide. By THOMAS MARTIN LOWRY and FRANK LATHE GILBERT	2867
CCCXC.—The Influence of Solvents and of Other Factors on the Rotation of Optically Active Compounds. Part XXVIII. The Rotation Dispersion of Mannitol and Some of its Derivatives. Note on Rotation Dispersion Curves. By THOMAS STEWART PATTERSON and ALEXANDER ROBERTUS TODD	2876
CCCXCI.—The Stereoisomeric 2 : 3 : 5 : 6-Tetramethylpiperazines. Part I. By FREDERIC BARRY KIPPING.	2889
CCCXCII.—Colloidal Phenoxides. Part I. The Relation between Constitution and Colloidal Properties in Benzoyl-pyrones. By WILSON BAKER and FRANCES MAY EASTWOOD	2897
CCCXCIII.—Compounds of the Thioparaldehyde Type Derived from Chloral. By FREDERICK DANIEL CHATTAWAY and EDWIN GEOFFREY KELLETT	2908
CCCXCIV.—Halogenation of Anisole Derivatives. By HERBERT HENRY HODGSON and ARNOLD KERSHAW	2917
CCCXCV.—6 : 7-Dimethoxyisatin, 5 : 6-Methylenedioxyisatin, and the Nuclear Degradation of 3 : 4-Methylenedioxyquinoline. By JOHN MASSON GULLAND, ROBERT ROBINSON, JAMES SCOTT, and SIDNEY THORNLEY	2924
CCCXCVI.—Harmine and Harmaline. Part X. The Synthesis of 7- and 8-Methoxyketotetrahydro- β -carboline and the Constitution of Acetylharmaline. By HERBERT S. BOYD BARRETT, (the late) WILLIAM HENRY PERKIN, jun., and ROBERT ROBINSON	2942
CCCXCVII.—Attempts to find New Anti-malarials. Introduction by GEORGE BARGER and ROBERT ROBINSON. Part I. Some Pyrroloquinoline Derivatives. By (MRS.) GERTRUDE MAUD ROBINSON	2947

CCCXCVIII.—Attempts to find New Anti-malarials. Part II. Aminoalkylquinolinium Salts and Some Related Substances. By TIRUVENTAKA RAJENDRA SESHADRI .	2952
CCCXCIX.—Attempts to find New Anti-malarials. Part III. Some Substituted Aminoalkylaminoquinolines. By ALFRED WILLIAM BALDWIN	2959
CCCC.—Attempts to find New Anti-malarials. Part IV. β -Benziminazolylethylamine and β -5(or 6)-Ethoxybenziminazolylethylamine. By BIBHUCHARAN CHATTERJEE	2965
OBITUARY NOTICES	2969
