1930.

PRINTED IN GREAT BRITAIN BY
RICHARD CLAY & SONS, LIMITED,
BUNGAY, SUFFOLK.

CONTENTS.

PAPERS COMMUNICATED TO THE CHEMICAL SOCIETY

	PAGE
I.—Stereoisomerism of Disulphoxides and Related Substances. Part V. The Dioxides of 3 : 5-Dimethylthiolbenzoic Acid. By ERNEST VERE BELL and GEORGE MACDONALD BENNETT	1
II.—Pellitorine, the Pungent Principle of <i>Anacyclus pyrethrum</i> . By JOHN MASSON GULLAND and GERALD UERN HOPTON	6
III.—1 : 3-Dithiolan. By DAVID T. GIBSON	12
IV.—The Influence of Substituents on the Benzoin Reaction. By HERBERT HENRY HODGSON and WOLF ROSENBERG	14
V.— <i>dl</i> - β -Phenylisopropylamine and Related Compounds. By DONALD HOLROYDE HEY	18
VI.—Natural Glucosides. Part I. The Constitution of Phloridzin. By FRANCIS RABAN JOHNSON and ALEXANDER ROBERTSON	21
VII.—The Nitration of Aromatic Thiocyanates. By FREDERICK CHALLENGER, CONSTANCE HIGGINBOTTOM, and ALFRED HUNTINGTON	26
VIII.—The Parachor of Chlorine Dioxide. By GEOFFREY HERBERT CHEESMAN	35
IX.—The Chlorination of Anilides. Part VI. The Rates of <i>N</i> -Chlorination of Acetanilides and Acetobenzylamides and the Effects of Substituents upon Side-chain Reactivity. By GWYN WILLIAMS	37
X.—The Dehydration of Copper Sulphate Pentahydrate. By WILLIAM E. GARNER and M. G. TANNER	47
XI.—Low-temperature Oxidation. Part II. The Ignition of Some Hydrocarbons in Oxygen. By JOHN STANLEY LEWIS	58
XII.—The Hydrides of Boron. By BERTRAM DILLON STEELE and JAMES EDWARD MILLS	74
XIII.—Acid and Salt Effects in Catalysed Reactions. Part XXIII. The Catalytic Activity of Acid Salts with Reference to the Catalytic Effects produced by Potassium Hydrogen Oxalate in the Acetone-Iodine Reaction. By HARRY MEDFORTH DAWSON and JESSE EYRE SMITH	79

XIV.—The Routine Preparation of Conductivity Water. Part II. By JOHN M. STUART and FRANK WORMWELL	85
XV.—The Interaction of Butyl Chloral Hydrate and 2 : 4-Dihalogen-substituted Phenylhydrazines. By FREDERICK DANIEL CHATTAWAY and HARRY IRVING	87
XVI.—The Formation of Glyoxalosazones by the Interaction of Dichloroacetaldehyde and Aryl Hydrazines. By FREDERICK DANIEL CHATTAWAY and LARKIN HUNDLEY FARINHOLT	94
XVII.—2-Thiol-4(5)- β -aminoethylglyoxaline (2-Thiolhistamine). By FRANK LEE PYMAN.	98
XVIII.—Comparison of Some Physical Constants of Thiocyanate, Azide, and Nitrite Solutions. By P. GÜNTHER and W. PERSCHKE	100
XIX.—The Inhibition of Chemical Reactions. Part III. The Inhibition by Sulphur of the Atmospheric Oxidation of Benzaldehyde. By KENNETH CLAUDE BAILEY	104
XX.—The Conversion of <i>N</i> -Chloroacetanilide into <i>p</i> -Chloroacetanilide by Hydrogen and Chlorine Ions. By JOSEPH WATKIN BELTON	116
XXI.—The Unsaturation and Tautomeric Mobility of Heterocyclic Compounds. Part I. Benzthiazole and Dihydrobenzthiazole Derivatives. By ROBERT FERGUS HUNTER	125
XXII.—Nitration of 2'- and 4'-Nitro-1-phenylpiperidines. By RAYMOND JAMES WOOD LE FÈVRE	147
XXIII.—Sugar Carbonates. Part IV. The Dicarbonates of Glucose, Fructose, Mannose, Galactose, and Arabinose. By WALTER NORMAN HAWORTH and CHARLES RAYMOND PORTER	151
XXIV.—The Action of Bromine upon the <i>p</i> -Tolylhydrazones of Benzaldehyde and of the Nitrobenzaldehydes. By FREDERICK DANIEL CHATTAWAY and ARTHUR B. ADAMSON	157
Second Liversidge Lecture. Delivered before the Chemical Society on December 12th, 1929. By HERBERT FREUNDLICH	164
NOTES.—An Apparatus for the Determination of Solubility. By ALAN N. CAMPBELL	179
2'-Nitro-2- and -4-aminodiphenyl Sulphides and 4'-Nitro-2- and -4-aminodiphenyl Sulphides. By HERBERT HENRY HODGSON and WOLF ROSENBERG	180
The Solubility of Sodium Thiocyanate in Alcohol. By JAMES RIDDICK PARTINGTON	181

An Improved Receiver for Vacuum Distillation. By GEORGE ARMAND ROBERT KON	182
Preparation of 4- and 6-Hydroxy-3-nitrophenylarsinic Acids. By ISIDORE ELKANAH BALABAN	183
Anserine. By FRANK LEE PYMAN	183
The Mechanism of Cyanoacetamide and Cyanoacetic Ester Condensations. By CHRISTOPHER KELK INGOLD	184
XXV.—The Influence of Hydrogen and of Water Vapour on the Ignition of Carbon Monoxide. By ARTHUR SMITH- ELLS, HENRY WHITAKER, and THEODORA HOLMES	185
XXVI.—The Effect of Hydrogen-ion Concentration on the Electrode Potential of Iron. By A. L. MCAULAY and G. L. WHITE	194
XXVII.—The Pyrophosphate Method for the Determination of Magnesium. By STANKO STANKOV MIHOLIĆ	200
XXVIII.—The Absorption Spectra of Diphenyl and Some Derivatives. By THOMAS C. C. ADAM and ALFRED RUSSELL	202
XXIX.—Studies in Keto-lactol Tautomerism. Part IV. Chemistry of 5-Acetyl-1:1:2-trimethylcyclopentane-2- carboxylic Acid. Observations on the Constitutions of the Acid Esters of Camphoric Acid, and a Synthesis of Homoepicamphor. By MUHAMMAD QUDRAT-I-KHUDA	206
XXX.—The <i>cis-trans</i> Ethenoid Transformation. By GEORGE ROGER CLEMO and STANLEY BROWN GRAHAM	213
XXXI.—The Methylation of the Oximes of Benzil. Part II. The Monomethyl Ethers of the Benzildioximes. By OSCAR L. BRADY and MORRIS MARCUS MUERS	216
XXXII.—The Isomerism of the Oximes. Part XXXVII. Allyl- <i>p</i> -nitrobenzaldoximes, <i>O</i> - and <i>N</i> -Allylhydroxyl- amines, and Sulphime <i>S</i> -Ethers. By OSCAR L. BRADY and FRANK HERBERT PEAKIN	226
XXXIII.—The Parachor and Chemical Constitution. Part XIV. Tellurium Compounds. By FRANCIS HERWARD BURSTALL and SAMUEL SUGDEN	229
XXXIV.—The Photochemical Interaction of Acetaldehyde and Oxygen. By EDMUND JOHN BOWEN and EDMUND LAGESEN TIETZ	234
XXXV.—Extinction of Methane Flames by Water Vapour. By HUBERT FRANK COWARD and JOHN JEBSON GLEADALL	243
XXXVI.—Mobile Anion Tautomerism. Part IV. The Stability of Some α - and γ -Alkylallyl Alcohols and their Esters. 2:4-Dimethylcinnamyl Alcohol. By HAROLD BURTON	248

	PAGE
XXXVII.—Some Trinitroethylbenzenes. By JAMES NELSON EDMUND DAY	252
XXXVIII.—The Reactions of Malonic Esters with Form- aldehyde. Part I. By KENNETH NORMAN WELCH	257
XXXIX.—Colloidal Phenoxides. Part II. Some Phen- anthraxanthenes. By WILSON BAKER	261
XL.—An Investigation into the Formation of 4(5) Amino- glyoxalines. Part I. By ISIDORE ELKANAH BALABAN	268
XLI.—Internal Equilibrium in Sulphur. Part II. Amor- phous Sulphur (S_n) as a Gel, and the Tyndall Effect in Liquid Sulphur. By DALZIEL LLEWELLYN HAMMICK and MICHAEL ZVEGINTZOV	273
XLII.—Nitrous Acid as a Nitrating Agent. Part I. The Nitration of Dimethyl- <i>p</i> -toluidine. By HERBERT HENRY HODGSON and ARNOLD KERSHAW	277
XLIII.—The Variation of Phenol Coefficients in Homologous Series of Phenols. By CHARLES EDWARD COULTHARD, JOSEPH MARSHALL, and FRANK LEE PYMAN	280
XLIV.—Reduction Products of the Hydroxyanthraquinones. Part XI. By EDWIN JOHN CROSS and ARTHUR GEORGE PERKIN	292
XLV.—The Development of Colour by Photochemical Change in Concentrated Solutions of Ammonium Thiocyanate. By B. S. SHARMA	308
XLVI.—Hydroxyamino-acids. By WILLIAM JOHN NOBBS BURCH	310
XLVII.—Lichen Acids. Part I. Derivatives of β -Orcinol. By ALEXANDER ROBERTSON and RICHARD JOHN STEPHEN- SON	313
NOTES.—The Interaction of Sodamide and Alkyl Iodides with Acetophenone and its Homologues. By ALFRED RUSSELL The Structure of the Isomeric Methyl Ferrocyanides. By S. GLASSTONE	320 321
XLVIII.—The Catalytic Hydrogenation of Different Types of Unsaturated Compounds. Part V. The Hydrogenation of Cyclic Ethylenic Derivatives and of their Mixtures. By SERGUEY V. LEBEDEV and MICHAÏL PLATONOV	321
XLIX.—On Active Nitrogen. Part VII. Further Studies upon the Decay of the Nitrogen After-glow. By ERIC JOHN BAXTER WILLEY	336
L.—A New Interpretation of the Isomerism amongst Co- ordination Compounds of Platinum. By FREDERICK GEORGE ANGELL, HARRY DUGALD KEITH DREW, and WILLIAM WARDLAW	349

LI.—The Partial Esterification of Polyhydric Alcohols. Part X. The Discovery of the First True β -Glyceride, and the Untrustworthiness of the Supposed Structures of Certain Diglycerides. By ARTHUR FAIRBOURNE	369
LII.—Strychnine and Brucine. Part IX. Preparation of Some Isomerides of Dinitrostrychol and Trinitrostrychol. By JULIUS NICHOLSON ASHLEY, (the late) WILLIAM HENRY PERKIN, jun., and ROBERT ROBINSON	382
LIII.—The Reaction between Cupric Chloride and Hydrazine Sulphate. By THOMAS IREDALE and CATHERINE ELEANOR MALLEN	395
LIV.—Nitration of Phenyl Substituents of Heterocyclic Nuclei. By ROBERT FORSYTH and FRANK LEE PYMAN	397
LV.—The Constitution of Cryptal. By ARTHUR RAMON PENFOLD and JOHN LIONEL SIMONSEN	403
LVI.—Derivatives of 3-Keto-2 : 3-dihydrothionaphthen 1 : 1-Dioxide. By AARON COHEN and SAMUEL SMILES	406
LVII.—The Interaction of Ethyl <i>l</i> -Mandelate and Thionyl Chloride in the Presence of Pyridine. The Mechanism of the Replacement of Hydroxyl by Chlorine by Means of Thionyl Chloride. By JOSEPH KENYON, ALFRED GEORGE LIPSCOMB, and HENRY PHILLIPS	415
LVIII.—Synthesis of Alkyl Naphthalenes. Part I. 5-, 6-, and 7-Ethyl-1-methylnaphthalenes. By JOHN HARVEY, ISIDOR MORRIS HEILBRON, and DONALD GRAHAM WILKINSON	423
LIX.—The Nature of the Alternating Effect in Carbon Chains. Part XXXII. The Directive Influence of ψ -Basic Systems in Aromatic Substitution. Nitration of Benzylidene- <i>m</i> -nitroaniline. By JOHN WILLIAM BAKER and CHRISTOPHER KELK INGOLD	431
LX.—Primary and Associated Results of Replacement of Hydrogen directly attached to 4-Co-ordinated Carbon. By WESLEY COCKER, ARTHUR LAPWORTH, and ARTHUR WALTON	440
LXI.—Substituted Diaryl Ethers. Part III. A New Synthesis of Substituted Xanthhydrols. By JOSEPH REILLY and PETER J. DRUMM	455
LXII.—Photomicrographic Methods applied to Two-component Salt Mixtures. By WALTER MATTHEW MADGIN	458
LXIII.—The Interaction between Alkyl Grignard Reagents and Antimony Trichloride. By WILFRED JAMES CECIL DYKE, WALTER CULE DAVIES, and WILLIAM JACOB JONES	463

	PAGE
LXIV.—Syntheses by Means of Magnesium Amyl Halides. By WALTER CULE DAVIES, ROBERT SINCLAIR DIXON, and WILLIAM JACOB JONES	468
LXV.—The Reduction of Triphenylhalogenomethanes. By JAMES CLIFFORD THOMAS, SYDNEY THOMAS BOWDEN, and WILLIAM JACOB JONES	473
LXVI.—The Passivity of Metals. Part IV. The Influence of Acids in Passivity and Corrosion. By ULICK R. EVANS .	478
LXVII.— <i>N</i> -Acylpyrazolones as Acylating Agents. By JOTI SARUP AGGARWAL and JNANENDRA NATH RAY	492
LXVIII.—The Vapour Density of Zirconium Tetrachloride. By JOHN ALBERT NEWTON FRIEND, ALBERT THOMAS WILLIAM COLLEY, and RICHARD SIDNEY HAYES	494
LXIX.—3-Halogeno-6-nitro- and -6-amino-dimethylanilines. By HERBERT HENRY HODGSON and ARNOLD KERSHAW .	497
LXX.— γ -Phenyl- α -methylpropyldimethylarsine, β -Benzyl- butyldimethylarsine, and Some Related Compounds. By ALBERT BREWIN and EUSTACE EBENEZER TURNER	502
LXXI.—The Reactivity of Halogen Atoms in Compounds of the Pyridine Series. Part I. The Halides of 2-Stilbazole. By JOHN WALTER BLOOD and BRIAN DUNCAN SHAW	504
LXXII.—Digoxin, a New Digitalis Glucoside. By SYDNEY SMITH	508
LXXIII.—Properties of Conjugated Compounds. Part VIII. Addition of Bromine to $\alpha\delta$ -, $\alpha\gamma$ -, and $\beta\gamma$ -Dimethylbuta- dienes. By ERNEST HAROLD FARMER, CYRIL DUNN LAW- RENCE, and WILLIAM DALLAS SCOTT	510
LXXIV.—Properties of Conjugated Compounds. Part IX. The Formation of Bimolecular Reduction Products of Butadiene Acids. By CHARLES MILLS CAWLEY, JOHN TREVOR EVANS, and ERNEST HAROLD FARMER	522
LXXV.—The Electrical Conductivities of Solutions of Tetra- ethylammonium Iodide in Benzonitrile. By AUSTIN RAYMOND MARTIN	530
LXXVI.—Investigations on the Bivalency of Carbon. Part III. Some Experiments on Xanthhydrol, Dixanthhydrol Ether, and Xanthhydrol Chloride. By FREDERIC GORONWY KNY-JONES and ALLAN MILES WARD	535
LXXVII.—The Apparent Hydration of Ions. Part IV. The Densities and Viscosities of Saturated Solutions of Silver Nitrate in Nitric Acid. By JOHN WILLIAM INGHAM	542
LXXVIII.—Experiments on the Constitution of the Aloins. Part II. By CHARLES STANLEY GIBSON and JOHN LIONEL SIMONSEN	553

LXXIX.—The Action of Nitric Acid on Some Metals. By ERNEST SYDNEY HEDGES	561
LXXX.—The Measurement of the Dielectric Constants of Organic Liquids. By ALFRED OWENS BALL	570
LXXXI.—The Photolysis of Aqueous Hydrogen Peroxide Solutions. Part I. Experimental Methods. By ARTHUR JOHN ALLMAND and DERRICK WILLIAM GRAHAM STYLE	596
LXXXII.—The Photolysis of Aqueous Hydrogen Peroxide Solutions. Part II. Experimental Results. By ARTHUR JOHN ALLMAND and DERRICK WILLIAM GRAHAM STYLE	606
LXXXIII.—The Angles of Floating Lenses. By CHARLES GEORGE LYONS	623
LXXXIV.—The Determination of the Dissociation Pressures of Hydrated Salts by a Dynamical Method. Part III. By JAMES RIDDICK PARTINGTON and REGINALD JOSEPH WINTERTON	635
LXXXV.—The Ternary System Zinc Oxide—Zinc Chloride—Water. By HAROLD CECIL HOLLAND	643
LXXXVI.—Crystalline α -Methylmannofuranoside (γ -Methylmannoside). Part I. By WALTER NORMAN HAWORTH and CHARLES RAYMOND PORTER	649
LXXXVII.—Crystalline α -Methylmannofuranoside (γ -Methylmannoside). Part II. By WALTER NORMAN HAWORTH, EDMUND LANGLEY HIRST, and JOHN IVOR WEBB	651
LXXXVIII.—Derivatives of Lyxofuranose. By HAROLD GRAHAM BOTT, EDMUND LANGLEY HIRST, and JAMES ANDREW BUCHAN SMITH	658
LXXXIX.—Trypanocidal Action and Chemical Constitution. Part IX. Aromatic Acids containing an Amide Group. By GEORGE ALECK CROCKER GOUGH and HAROLD KING	669
XC.—The Heats of Association of Acetic and Heptoic Acids in the Vapour State. By TEMPE M. FENTON and WILLIAM EDWARD GARNER	694
XCI.—A Simple Method for the Preparation of Maleic Anhydride. By FREDERICK ALFRED MASON	700
XCII.—Further Degradative Experiments in the Morphine Group. By ROBERT SIDNEY CAHN	702
XCIII.—Influence of Poles and Polar Linkings on the Course pursued by Elimination Reactions. Part VII. A Generalised Form of the Olefinic Degradation of Sulphones. By GEOFFREY WILLIAM FENTON and CHRISTOPHER KELK INGOLD	705

XCIV.—Influence of Poles and Polar Linkings on the Course pursued by Elimination Reactions. Part VIII. The Methylenic and Paraffinic Degradations of Sulphones. By CHRISTOPHER KELK INGOLD and JOE ARTHUR JESSOP	708
XCv.—Influence of Poles and Polar Linkings on the Course pursued by Elimination Reactions. Part IX. Isolation of a Substance believed to contain a Semipolar Double Linking with Participating Carbon. By CHRISTOPHER KELK INGOLD and JOE ARTHUR JESSOP	713
XCVI.—The Occurrence of Iron Pentacarbonyl in Coal Gas stored under Pressure for 30 Years. By JOHN ALBERT NEWTON FRIEND and REECE HENRY VALLANCE	718
XCvII.—The Reaction between Acid Chlorides and Nitrosylsulphuric Acid. By WILLIAM JAMES DEVERALL and HARRY WILLIAM WEBB	720
XCvIII.—Studies in Polymorphism. Part I. A Preliminary Investigation of the Polymorphism of <i>o</i> -Nitroaniline. By JOHN FREDERICK JAMES DIPPY and NORMAN HOLT HARTSHORNE	725
XCIX.—The "Uniform Movement" of Flame in Mixtures of Ethylene, Propylene, or Butylene with Air. By (MISS) ELIZABETH HELEN MACLEOD GEORGEON and FRANCIS JOHN HARTWELL	733
C.—Aromatic Stibinic Acids containing Phenyl and Quinoly Radicals. By GILBERT T. MORGAN and JAMES WILFRED COOK	737
CI.—A Synthesis of Certain Higher Aliphatic Compounds. Part III. A Variation of the Keto-acid Synthesis, constituting an Improved Method for the Extension of Normal Carbon Chains. By (MRS.) GERTRUDE MAUD ROBINSON	745
CII.—The Constitution of Carthamin. Part I. By (MISS) CHIKA KURODA	752
CIII.—The Constitution of Carthamin. Part II. β -Carthaminidin Pentamethyl Ether and its Synthesis. By (MISS) CHIKA KURODA	765
CIV.—Syntheses of Cyclic Compounds. Part VI. 3- and 4-Methylcyclohexanones. By ARTHUR ISRAEL VOGEL and MARIAM P. OOMMEN	768
CV.—The Chemistry of the Three-carbon System. Part XXIV. The Regeneration of Esters from their Sodio-derivatives. By WILFRED EYNON HUGH and GEORGE ARMAND ROBERT KON	775

CVI.—The Properties of the Chlorides of Sulphur. Part III. Dielectric Constants. By THOMAS MARTIN LOWRY and GILBERT JESSOP	782
CVII.—A Synthesis of Pyrylium Salts of Anthocyanidin Type. Part XIX. A Synthesis of Delphinidin Chloride not involving a Demethylation Process, and Syntheses of Hirsutidin Chloride and of Delphinidin Chloride 3'-Methyl Ether, possibly identical with Petunidin Chloride. By WILLIAM BRADLEY, ROBERT ROBINSON, and GEROLD SCHWARZENBACH	793
CVIII.—Anthoxanthins. Part XI. A Synthesis of Diosmetin and of Luteolin 3-Methyl Ether. By ALBERT LOVECY, ROBERT ROBINSON, and SHIGEHICO SUGASAWA	817
CIX.—Anthoxanthins. Part XII. Transition from a Flavylum Salt to a Flavone, illustrated by a New Synthesis of Scutellarein Tetramethyl Ether. By ROBERT ROBINSON and GEROLD SCHWARZENBACH	822
CX.—Strychnine and Brucine. Part X. The Degradation of Dinitrostrycholcarboxylic Acid: its Recognition as a Derivative of Quinoline and the Consequent Modifications of the Constitutional Formulæ for the Strychnos Bases proposed in Part VII. By KOTTIAZATH NARAYANA MENON, (the late) WILLIAM HENRY PERKIN, jun., and ROBERT ROBINSON	830
CXI.—Intramolecular Rearrangement in the Isomeric Tetrachloro-derivatives of <i>p</i> -Tolylydrazones. By FREDERICK DANIEL CHATTAWAY and ARTHUR B. ADAMSON	843
ANNUAL GENERAL MEETING	851
PRESIDENTIAL ADDRESS	872
OBITUARY NOTICES	888
CXII.—The Isomerism of the Butylideneacetones. By EUSTACE NEVILL ECCOTT and REGINALD PATRICK LINSTED	905
CXIII.—The Action of Benzenediazonium Chloride on β -Nitroethyl Alcohol and its Derivatives. By EDWARD CHARLES SNELL JONES and JAMES KENNER	919
CXIV.—The Scission of Diaryl Ethers and Related Compounds by Means of Piperidine. Part III. The Nitration of 2:4-Dibromo-2':4'-dinitrodiphenyl Ether and of 2:4-Dibromophenyl <i>p</i> -Toluenesulphonate and Benzoate. The Chlorination and Bromination of <i>m</i> -Nitrophenol. By ROSALIND VENETIA HENLEY and EUSTACE EBENEZER TURNER	928

CXV.—The Unsaturation and Tautomeric Mobility of Heterocyclic Compounds. Part II. α - and $\beta\beta$ -Naphthathiazoles. By ROBERT FERGUS HUNTER and JOHN WILLIAM THOMAS JONES	941
CXVI.—The Calculation of Activity Coefficients from Solubility Measurements: Thallous Chloride. By HERBERT EDWARD BLAYDEN and CECIL WHITFIELD DAVIES	949
CXVII.— <i>iso</i> - β -Naphthol Sulphide. By LEONARD ARTHUR WARREN and SAMUEL SMILES	956
CXVIII.—The Nitrosation of Phenols. Part VIII. Resorcinol Monoethyl Ether. By HERBERT HENRY HODGSON and HUBERT CLAY	963
CXIX.—The Nitrosation of Phenols. Part IX. Further Study of the Nitrosation of <i>m</i> -Bromophenol. By HERBERT HENRY HODGSON and ARNOLD KERSHAW	967
CXX.—Symmetrical Triad Prototropic Systems. Part VI. The Effect of Substitution on Tautomeric Mobility and Equilibrium in the $\alpha\gamma$ -Diphenylpropene System. By CHARLES WILLIAM SHOPPEE	968
CXXI.— <i>Cannabis Indica</i> Resin. Part I. The Constitution of Nitrocannabinolactone (Oxycannabin). By ROBERT SIDNEY CAHN	986
CXXII.—The Preparation of Secondary Alkylarylamines and their Purification. By WILFRED JOHN HICKINBOTTOM	992
CXXIII.—Attempts to prepare Cyanine Dyes from Quaternary Salts of 2-Methylacenaphthpyridine and of 5-Methylacridine. By FRANCES MARY HAMER	995
CXXIV.—Tetrachloriodides of the Alkaloids. By FREDERICK DANIEL CHATTAWAY and GEORGE DAVID PARKES	1003
CXXV.—The Properties of the Chlorides of Sulphur. Part IV. Density and Surface Tension, with an Appendix on the Parachors of Mixtures. By THOMAS MARTIN LOWRY and GILBERT JESSOP	1005
CXXVI.—2-Arylcoumaranones. By WILSON BAKER	1015
CXXVII.—Organic Derivatives of Silicon. Part XLII. <i>cyclo</i> Hexyl Derivatives of Silicane and Silicoethane. By KEITH WILLIAM PALMER and FREDERIC STANLEY KIPPING	1020
CXXVIII.—Organic Derivatives of Silicon. Part XLIII. The Formation of Tri- and Tetra-phenylsilicane by the Action of Sodium on Triphenylsilyl Chloride. By FREDERIC STANLEY KIPPING and JOHN FRANCIS SHORT	1029

CXXIX.—The Mechanism of, and Constitutional Factors controlling, the Hydrolysis of Carboxylic Esters. Part I. The Constitutional Significance of Hydrolytic Stability Maxima. By CHRISTOPHER KELK INGOLD	1032
CXXX.—The Mechanism of, and Constitutional Factors controlling, the Hydrolysis of Carboxylic Esters. Part II. Hydrolytic Stability Maxima of some Glyceric Esters. By CONSTANCE MARY GROOCCOCK, CHRISTOPHER KELK INGOLD, and ARTHUR JACKSON	1039
CXXXI.—The Anomalous Fifth Carbon Atom in <i>n</i> -Fatty Nitriles. By ROBERT AVERY FULTON and WILLIAM BELL LEE	1057
CXXXII.—The Addition of Halogens to Unsaturated Acids and Esters. Part III. The Velocity of Bromine-addition. By NORMAN WILLIAM HANSON and DAVID MATTHEW WILLIAMS	1059
CXXXIII.—The Behaviour of Hydrogen Chloride in Different Solvents. By W. F. KENRICK WYNNE-JONES	1064
CXXXIV.—Investigations in the Diphenyl Series. Part IX. Further Experiments with Sulphonamides. By FRANK BELL	1071
CXXXV.—Oxidation of <i>p</i> -Aminophenyltrimethylammonium Methosulphate and Some Quaternary Ammonium Derivatives. By AHMAD ZAKI	1078
CXXXVI.—The Action of Fuming Nitric Acid on the 4-Halogeno-2 : 6-dibromo-phenols and -anisoles. Anomalous Behaviour of Fluorine Derivatives. By HERBERT HENRY HODGSON and JOSEPH NIXON	1085
CXXXVII.—Polycyclic Aromatic Hydrocarbons. Part I. 1- and 2-Phenylanthracenes and Derivatives of 1 : 2-Benzanthracene. By JAMES WILFRED COOK	1087
CXXXVIII.—The Dismutation of Some Disulphides. By ERNEST WILSON MCCLELLAND and LEONARD ARTHUR WARREN	1095
CXXXIX.—The Production of Fog in the Neutralisation of Alkali with Hydrogen Halides. Part II. The Significance of the Presence of Ammonia. By RICHARD WALTER ALDIS and JAMES CHARLES PHILIP	1103
CXL.—The Constitution of Santonin. Part II. The Synthesis of Racemic <i>desmotropo</i> Santonin. By GEORGE ROGER CLEMO, ROBERT DOWNS HAWORTH, and ERIC WALTON	1110

CXLI.—The Scission of Diaryl Ethers and Related Compounds by Means of Piperidine. Part IV. Elimination of Halogen Atoms and Scission Reactions during Substitution Processes. By DOROTHY LILLIAN FOX and EUSTACE EBENEZER TURNER	1115
CXLII.—10-Chloro-5 : 10-dihydrophenarsazine and its Derivatives. Part XII. Further Experiments in the Investigation of the 1- and 3-Methyl Derivatives. By CHARLES STANLEY GIBSON and JOHN DOBNEY ANDREW JOHNSON	1124
CXLIII.— <i>ortho</i> - and <i>meta</i> -Derivatives of Simple Alkyl Phenyl Ketones. By LESLIE ALDERMAN ELSON, CHARLES STANLEY GIBSON, and JOHN DOBNEY ANDREW JOHNSON	1128
CXLIV.—The Synthesis of Glucosides. Part IV. Alizarin Glucoside. By ALEXANDER ROBERTSON	1136
CXLV.—The Octammines, with Special Reference to Tin. By ARTHUR JAMES COOPER and WILLIAM WARDLAW	1141
CXLVI.—On Active Nitrogen. Part VIII. (i) The Influence of Photogens and of Surfaces upon Glow Phenomena in Nitrogen. (ii) The Effects of Addition of Other Gases to Luminous Nitrogen. By ERIC JOHN BAXTER WILLEY	1146
CXLVII.—Orientation Effects in the Diphenyl Series. Part VIII. The Nitration of 4 : 4'-Difluorodiphenyl. By RAYMOND JAMES WOOD LE FÈVRE and EUSTACE EBENEZER TURNER	1158
CXLVIII.—Studies in "Strainless" Rings. Part II. The Effect of the <i>trans</i> -Decalin Nucleus on the Carbon Tetrahedral Angle. By KESHAVIAH ASWATH NARAIN RAO	1162
CXLIX.—The Essential Oil of <i>Backhousia angustifolia</i> . Part II. The Isolation of Naturally Occurring β -Diketones: Angustione and Dehydroangustione. By CHARLES STANLEY GIBSON, ARTHUR RAMON PENFOLD, and JOHN LIONEL SIMONSEN	1184
CL.—The Effect of Gas Pressure on the Colour of Halogen Vapours. By ALEXANDER SHEARER and ROBERT WRIGHT	1201
CLI.—The Bromination of 2-Nitro- and 2-Acetamido-diphenyl Ether. By HAMILTON MCCOMBIE, WILLIAM GEORGE MACMILLAN, and HAROLD ARCHIBALD SCARBOROUGH	1202
CLII.—Quinoline Compounds containing Arsenic. Part I. Synthesis of 6-Methoxyquinoline Derivatives of Aminophenylarsinic Acids. By ROBERT HENRY SLATER	1209

CLIII.—Some Derivatives of <i>m</i> -Xylene. By ERNEST G. BOYCE, WILLIAM P. RANKINE, and ALEXANDER ROBERTSON	1216
CLIV.—The Formation of Phenoxazines. By OSCAR L. BRADY and CECIL WALLER	1218
CLV.—The Preparation of Diphenyl Ethers. By (Miss) ROSALIND VENETIA HENLEY	1222
CLVI.—The Preparation of Compounds analogous in Structure to Sulphinic Acids but containing <i>p</i> -Toluenesulphonimido-groups in Place of Oxygen Atoms. Phenyl- and Methyl- <i>p</i> -toluenesulphonimidodisulphine- <i>p</i> -toluenesulphonylimines. By SIDNEY GEORGE CLARKE, JOSEPH KENYON, and HENRY PHILLIPS	1225
CLVII.—Nor- <i>dl</i> -ephedrine and Nor- <i>dl-ψ</i> -ephedrine. By DONALD HOLROYDE HEY	1232
CLVIII.—The Constitution of Sinactine (1-Tetrahydroepi-berberine). By KAKUJI GOTO and ZENJIRO KITASATO	1234
CLIX.—Studies of Electrolytic Polarisation. Part IX. Complex Cyanides: (c) Zinc, Cadmium, and Mercury. By SAMUEL GLASSTONE	1237
CLX.—The Acetates of Ruthenium. By (the late) ALFRED WILLIAM MOND	1247
CLXI.—Physicochemical Studies of Complex Acids. Part I. Tungstic Acid. By HUBERT THOMAS STANLEY BRITTON and WILLIAM LESLIE GERMAN	1249
CLXII.—Physicochemical Studies of Complex Acids. Part II. Vanadic Acid. By HUBERT THOMAS STANLEY BRITTON and ROBERT ANTHONY ROBINSON	1261
NOTES.—The Supposed Mandeloidinitrile. By WILSON BAKER and RANDAL GEORGE ARTHUR NEW	1274
Syntheses of 1-Methylantraquinones. By ARTHUR FAIRBOURNE and GRAHAM EDWARD FOSTER	1275
CLXIII.—A Revision of the Atomic Weight of Tantalum. Determination of the Ratios TaBr ₅ :5Ag:5AgBr and TaCl ₅ :5Ag:5AgCl. By KOLAR RAMAKRISHNAIYER KRISHNASWAMI	1277
CLXIV.—4-Sulpho-3-hydroxybenzoic Acid. By MADHAVLAL SUKHLAL SHAH	1293
CLXV.—The Action of Substituted Aromatic Amines on Camphoric Anhydride. Hydroxy-, Methoxy-, and Ethoxy-camphoranilic Acids and Camphoromethoxy- and -ethoxy-phenylimides. By MAHAN SINGH and RAM SINGH	1301

	PAGE
CLXVI.—The Validity of the Interference Method for the Measurement of the Specific Area of a Copper Surface. By FREDERICK JAMES WILKINS	1304
CLXVII.—The Lower Trialkyl Orthophosphates. Part I. By DAVID PHILIP EVANS, WALTER CULE DAVIES, and WILLIAM JACOB JONES	1310
CLXVIII.—Studies in the Reactivity of Aromatic Hydroxyl Groups. Part I. By HAROLD LLEWELYN BASSETT	1313
CLXIX.—The Critical Solution Temperature of the System Methyl Alcohol- <i>cyclo</i> Hexane as a Means of detecting and estimating Water in Methyl Alcohol. By DAVID CHARLES JONES and SIMON AMSTELL	1316
CLXX.—The System <i>cyclo</i> Hexanol and Water. By NEVIL VINCENT SIDGWICK and LESLIE ERNEST SUTTON	1323
CLXXI.—Dehydro-2-naphtholsulphone. By LEONARD ARTHUR WARREN and SAMUEL SMILES	1327
CLXXII.—The Solubilities of Nitrophenols in Aqueous Ethyl-alcoholic Solutions. By JAMES COOPER DUFF and EDWIN JOHN BILLS	1331
CLXXIII.—Glucosides. Part III. The Abnormal Replacement of Halogen in Glucosyl Halides: The Formation of β -Glucosides from β -Glucosyl Chlorides. By WILFRED JOHN HICKINBOTTOM.	1338
CLXXIV.—The Synthesis of <i>meso</i> -Alkyl and <i>meso</i> -Aryl Anthracene Derivatives. Part VII. By EDWARD DE BARRY BARNETT and NORMAN FREDERICK GOODWAY	1348
CLXXV.—The Space Configuration of the Trithioacetaldehydes. By FREDERICK DANIEL CHATTAWAY and EDWIN GEOFFREY KELLETT	1352
CLXXVI.—Attempts to find New Antimalarials. Part V. Some Piperidino- and Piperazino-derivatives of Quinoline. By WILLIAM OGILVIE KERMAK and JAMES FERGUS SMITH	1356
CLXXVII.—The Passivity of Metals. Part V. The Potential-Time Curves of Some Iron Alloys. By L. C. BANNISTER and ULICK R. EVANS	1361
CLXXVIII.—The Mechanism of, and Constitutional Factors controlling, the Hydrolysis of Carboxylic Esters. Part III. The Calculation of Molecular Dimensions from Hydrolytic Stability Maxima. By CHRISTOPHER KELK INGOLD	1375
CLXXIX.—Conversion of Hydroaromatic into Aromatic Compounds. Part IV. The Influence of the Nitro-group in Nitrophenyldihydroresorcinols. By LEONARD ERIC HINKEL and JOHN FREDERICK JAMES DIPPY	1387

CLXXX.—The Alkaloids of Ergot. Part I. By SYDNEY SMITH and GEOFFREY MILLWARD TIMMIS	1390
CLXXXI.—The Development of a Novel Form of Isomerism in the Sugar Series. Part II. The Third Variety of Tetra-acetyl Methylmannoside. By HAROLD GRAHAM BOTT, WALTER NORMAN HAWORTH, and EDMUND LANGLEY HIRST	1395
CLXXXII.—The Conversion of 1:2:3:4-Tetra-acetyl β - <i>d</i> -Glucose into 2:3:4:6-Tetra-acetyl β -Methylglucoside. By WALTER NORMAN HAWORTH, EDMUND LANGLEY HIRST, and ETHEL GERTRUDE TEECE	1405
CLXXXIII.—The Hydrolysis of Diacetyl- <i>o</i> -diamines. By MONTAGUE ALEXANDRA PHILLIPS	1409
CLXXXIV.—The Sulphonation of <i>m</i> -Chlorophenol and Some New Halogenophenols. By HERBERT HENRY HODGSON and ARNOLD KERSHAW	1419
CLXXXV.—A General (Exact) Equation to the Potentiometric-titration Curve. By BERNARD CAVANAGH	1425
CLXXXVI.—Colloidal Platinum. Part VII. The Effect of Electrolytes upon the Cataphoretic Velocity of Platinum Particles, and its Bearing on Stability. By STUART W. PENNYCUICK	1447
CLXXXVII.—A Simple Electrically Controlled Thermostat. By JOHN ARNOLD CRANSTON	1458
CLXXXVIII.—The Constitution of Some Organic Derivatives of Thallium. By NEVIL VINCENT SIDGWICK and LESLIE ERNEST SUTTON	1461
CLXXXIX.—The Polysulphides of the Alkali Metals. Part I. Sodium (i). By THOMAS GIBSON PEARSON and PERCY LUCOCK ROBINSON	1473
CXC.—Heterocyclic Systems Containing Selenium. Part III. <i>cyclo</i> Selenopropane. By GILBERT T. MORGAN and FRANCIS HEREWARD BURSTALL	1497
CXCI.—Pyrolysis of Diazoamino- <i>p</i> -toluene. By GILBERT T. MORGAN and LESLIE PERCY WALLS	1502
NOTES.—The Mechanism of Cyanoacetamide and Cyanoacetic Ester Condensations. A Reply. By JOGENDRA CHANDRA BARDHAN	1509
The Preparation of Anhydrous Oxalic Acid. By ERIC IAN JOHNSON and JAMES RIDDICK PARTINGTON	1510
CXCII.—A New Isomerism of Halogenohydroxybenzoyltoluic Acids. Part II. 2-(5'-Chloro-2'-hydroxybenzoyl)-5(4?)-methylbenzoic Acid. By MOSUKE HAYASHI	1513

CXCIII.—A New Isomerism of Halogenohydroxybenzoyl- toluic Acids. Part III. 2-(3'-Chloro-4'-hydroxy- benzoyl)-3(or 6)-methylbenzoic Acid. By MOSUKE HAYASHI	1520
CXCIV.—A New Isomerism of Halogenohydroxybenzoyl- toluic Acids. Part IV. 2-(4'-Chloro-2'-hydroxy- benzoyl)-3(or 6)-methylbenzoic Acid and 2-(2'-Chloro- 4'-hydroxybenzoyl)-3(or 6)-methylbenzoic Acid. By MOSUKE HAYASHI	1524
CXCV.—The Application of a New Type of Triode Valve to the Determination of Hydrogen-ion Concentration with Glass Electrodes. By GEOFFREY B. HARRISON	1528
CXCVI.—Complex Formation amongst the Nitrates. Part II. The Ternary System Phenol-Silver Nitrate-Water. By CHARLES REYNOLDS BAILEY	1534
CXCVII.—On the Dielectric Strengths of Some Explosive Mixtures containing Carbonic Oxide. By BERNARD WILLIAM BRADFORD and GEORGE INGLE FINCH	1540
CXCVIII.—The Influence of a Soluble Fluoride on the Corrosion of Iron. By ARTHUR WILLIAM CHAPMAN	1546
CXCIX.—The Solubility of Silver Chloride, Silver Bromide, and Silver Iodide and the Normal Potentials of Chlorine, Bromine, and Iodine in Methyl Alcohol and Ethyl Alcohol. By FREDERICK KARL VICTOR KOCH	1551
CC.—The Rearrangement of the Alkylanilines. Part II. The Course of the Rearrangement in Presence of Metallic Salts. By WILFRED JOHN HICKINBOTTOM and (in part) ALLAN COLEY WAINE	1558
CCI.—The Rearrangement of the Alkylanilines. Part III. The Formation of <i>p</i> -Aminoisobutylbenzene and of <i>p</i> -Amino- <i>tert.</i> -butylbenzene from <i>iso</i> Butylaniline. By WILFRED JOHN HICKINBOTTOM and GRAHAM HOLMES PRESTON	1566
CCII.—Application of Thallium Compounds in Organic Chemistry. Part V. Thallous Ethoxide and Dimethyl- thallium Ethoxide. By ROBERT CHARLES MENZIES	1571
CCIII.—Adsorption by Silicic Acid Gel in the System <i>n</i> -Butyl Alcohol-Benzene. By DAVID CHARLES JONES and LIONEL OUTRIDGE	1574
CCIV.—Investigations on the Reactivity of Halogens in Various Types of Naphthalene Derivatives. Part II. By JOHN BALDWIN SHOESMITH and ALEXANDER MACKIE	1584
CCV.—The Dissociation Constants of Quinine, Cinchonine, and Cinchonidine. By EDMUND BRYDGES RUDHALL PRIDEAUX and FRANCIS THOMAS WINFIELD	1587

	PAGE
CCVI.—The Structures of the Octahydrocarbazoles. By SYDNEY GLENN PRESTON PLANT	1595
CCVII.—The Co-ordination Compounds of Oximes. By OSCAR L. BRADY and MORRIS MARCUS MUERS	1599
CCVIII.—Investigations of the Olefinic Acids. Part II. Preliminary Observations on the Occurrence of Spontaneous Tautomeric Change at Temperatures near the Boiling Point. By REGINALD PATRICK LINSTEAD	1603
CCIX.—Properties of Conjugated Compounds. Part X. Variability in the Mode of Ester Addition to Butadiene Esters and Ketones. By ERNEST HAROLD FARMER and THAKORBHAI NARANJI MEHTA	1610
CCX.—The Purification of Some Sensitive Ketones. By GEORGE ARMAND ROBERT KON	1616
CCXI.—On the Spatial Configuration of the Single Valencies of Allene. By CHRISTOPHER KELK INGOLD and CHARLES WILLIAM SHOPPEE	1619
CCXII.—10-Chloro-5:10-dihydrophenarsazine and its Derivatives. Part XIII. Absorption Spectra. By CHARLES STANLEY GIBSON, EDWARD STANLEY HISCOCKS, JOHN DOBNEY ANDREW JOHNSON, and JOHN LLOYD JONES	1622
CCXIII.—The Solubility of Neodymium Sulphate in Water and in Sulphuric Acid Solutions at Various Temperatures. A New Hydrate. By JOHN ALBERT NEWTON FRIEND	1633
CCXIV.—Studies in Complex Salts. Part III. The Effect of Alkyl Substitution on the Stability of the Dimalonato-cupriate Ion. By HARRY LISTER RILEY	1642
CCXV.—The Vapour Pressure of Nickel Carbonyl. By JOHN STUART ANDERSON	1653
CCXVI.—The Action of Aqueous Hydrofluoric Acid on Silica. By WILLIAM GEORGE PALMER	1656
CCXVII.—The Electrical Conductivity of Butyric Acid-Water Mixtures. By JOHN GRINDLEY and CHARLES R. BURY	1665
CCXVIII.—Stereoisomerism of Disulphoxides and Related Substances. Part VI. Co-ordination Compounds of Some Disulphides and Diamines. By G. MACDONALD BENNETT, A. NEVILLE MOSSES, and F. SYDNEY STATHAM	1668
CCXIX.—The Optical Instability of Tervalent Carbonium Kations. The Transformation of <i>l</i> -Phenylmethylcarbinyll <i>dl</i> - <i>p</i> -Toluenesulphinate into Optically Inactive <i>p</i> -Tolyl- α -phenylethylsulphone. By JOSEPH KENYON and HENRY PHILLIPS	1676

	PAGE
CCXX.—3-Acetamido-4-hydroxyphenylstibinic Acid. By ISIDORE ELKANAH BALABAN	1685
CCXXI.—The Solubilities of the Octahydrates of the Rare-earth Sulphates. By KENNETH S. JACKSON and GÜNTHER RIENÄCKER	1687
CCXXII.—The Reaction between Aminophenylarsinic Acids and Carbon Disulphide. By JOHN GARWOOD EVERETT	1691
CCXXIII.—Syntheses of Glucosides. Part V. Two New Syntheses of Rubiadin and Syntheses of 1-O-Methylrubiadin and of Rubiadin Glucoside. By ELFED THOMAS JONES and ALEXANDER ROBERTSON	1699
NOTES.—Tetrabromodimethylquinoxaline. By GEORGE MACDONALD BENNETT and GERVAISE HEWITSON WILLIS	1709
Compounds of Arsenious Chloride and Pyridine. By CHARLES STANLEY GIBSON, JOHN DOBNEY ANDREW JOHNSON, and (the late) DUDLEY CLOETE VINING	1710
CCXXIV.—Electrical Conductivity of Solutions in Phenol. By RICHARD MALCOLM DOLBY and PHILIP WILFRED ROBERTSON	1711
CCXXV.—The Nature of the Alternating Effect in Carbon Chains. Part XXXIII. The Nitration of some Aromatic Sulphonium and Selenonium Salts. By JOHN WILLIAM BAKER and WILLIAM GEORGE MOFFITT	1722
CCXXVI.—The Reaction of Bromine with Aliphatic Acids. Part IV. Succinic Acid. By EDWARD DAVID HUGHES and HERBERT BEN WATSON	1733
CCXXVII.— β -Naphtha-1-thioquinone and Dehydro-2-naphthol 1-Disulphide. By HERBERT AUBREY STEVENSON and SAMUEL SMILES	1740
CCXXVIII.—The Constitution of Complex Metallic Salts. By FREDERICK GEORGE MANN	1745
CCXXIX.—Studies in the Naphthalene Series. Part I. The Methylation of α -Naphthylamine. By BASKER GOKHLÉ and FREDERICK ALFRED MASON	1757
CCXXX.—The Optical Resolution of 2 : 4-Dinitro-2'-methyl-diphenyl-6-carboxylic Acid. By (MISS) MARY STEPHEN LESSLIE and EUSTACE EBENEZER TURNER	1758
CCXXXI.—The Orienting Influence of Free and Bound Ionic Charges on Attached Simple or Conjugated Unsaturated Systems. Part V. Nitration of Benzyl-diethylsulphonium Picrate. By ALFRED POLLARD and ROBERT ROBINSON	1765
CCXXXII.—Strychnine and Brucine. Part XI. Note on Dihydrobrucine and Some Derivatives. By OSMAN ACHMATOWICZ, REGINALD CLIFFORD FAWCETT, (the late) WILLIAM HENRY PERKIN, jun., and ROBERT ROBINSON	1769

CCXXXIII.—The Passivity of Metals. Part VI. A Comparison between the Penetrating Powers of Anions. By SIDNEY CHARLES BRITTON and ULICK RICHARDSON EVANS	1773
CCXXXIV.—A Phase-rule Study of the Cobalt Chloride Colour Change. By HENRY BASSETT and (in part) HERBERT HARRY CROUCHER	1784
CCXXXV.—The Mechanism of Thermal Decomposition of the Normal Olefins. By RICHARD VERNON WHEELER and WILLIAM LAURENCE WOOD.	1819
CCXXXVI.—The Asymmetric Photochemical Decomposition of Humulene Nitrosite by Circularly Polarised Light. By STOTHERD MITCHELL	1829
CCXXXVII.—Studies on Hydrogen Cyanide. Part II. The Compounds formed by the Action of the Hydrogen Halides on Hydrogen Cyanide. By LEONARD ERIC HINKEL and RICHARD TREVOR DUNN	1834
CCXXXVIII.—Stereoisomerism in Polycyclic Systems. Part VII. The Reduction of 7 : 8 : 9 : 10-Tetrahydroheptaquinoline. By SYDNEY GLENN PRESTON PLANT and REGINALD JOHN ROSSER	1840
CCXXXIX.—The Constitution of Phenolphthalein. Part II. The Fading of Phenolphthalein in Alkaline Solution. By HAKON LUND	1844
CCXL.—The Scission of Diaryl Ethers and Related Compounds by Means of Piperidine. Part V. The Nitration of Methyl-, Dimethyl-, and Polyhalogeno-derivatives of Diphenyl Ether. By (MISS) DOROTHY LILIAN FOX and EUSTACE EBENEZER TURNER	1853
CCXLI.—Studies in Aromatic Substitution. Part II. The Action of Fuming Nitric Acid on the 4-Fluoro-2 : 6-dihalogeno-phenols and -anisoles. By HERBERT HENRY HODGSON and JOSEPH NIXON	1868
CCXLII.—Studies in Aromatic Substitution. Part III. The Action of Fuming Nitric Acid on the 3-Fluoro-2 : 4 : 6-trihalogeno-phenols and -anisoles. By HERBERT HENRY HODGSON and JOSEPH NIXON	1870
CCXLIII.—The Action of Nitrous Acid on Resorcinol Diethyl Ether. By HERBERT HENRY HODGSON and HUBERT CLAY	1872
CCXLIV.—Structure of the <i>iso</i> Cyanides and Other Compounds of Bivalent Carbon. By DALZIEL LL. HAMMICK, RANDAL C. A. NEW, NEVIL V. SIDGWICK, and LESLIE E. SUTTON	1876

CCXLV.—Optical Activity and the Polarity of Substituent Groups. Part XIV. Influence of Substituent Poles and Dipoles on the Rotatory Power of l-Menthyl Acetate. By H. GORDON RULE, R. H. THOMPSON, and (in part) A. ROBERTSON	1887
CCXLVI.—Optical Activity and the Polarity of Substituent Groups. Part XV. Phenyl-substituted Esters and Ethers of l-Menthol and β -Octyl Alcohol. By H. GORDON RULE and JAMES BAIN	1894
CCXLVII.—Solubility of Magnesium Neodymium Nitrate in Water, Nitric Acid, and Magnesium Nitrate Solutions. By JOHN ALBERT NEWTON FRIEND	1903
CCXLVIII.—The Treatment of Cedrene with Mercuric Acetate. By JAMES BELL	1908
CCXLIX.—The Arsinic Acids of <i>p</i> -Aminophenol. By MONTAGUE ALEXANDRA PHILLIPS	1910
CCL.—Syntheses by Means of Magnesium Amyl Halides. Part II. The Reduction of Benzophenone. By WALTER CULE DAVIES, ROBERT SINCLAIR DIXON, and WILLIAM JACOB JONES	1916
CCLI.—Organic Antimonial Compounds. Part II. By WILFRED JAMES CECIL DYKE and WILLIAM JACOB JONES	1921
CCLII.—The Equilibrium between Acetone and Salts. By W. R. G. BELL, C. B. ROWLANDS, I. J. BAMFORD, W. G. THOMAS, and W. J. JONES	1927
CCLIII.—Anthracene-1-carboxylic and -1:5-dicarboxylic Acids and their Derivatives. By EDWARD AUTY COULSON	1931
Theodore William Richards Memorial Lecture. By SIR HAROLD HARTLEY, M.C., C.B.E., F.R.S.	1937
CCLIV.—The Nitrosation of Phenols. Part X. Further Study of the Nitrosation of <i>m</i> -Iodophenol. By HERBERT HENRY HODGSON and ARNOLD KERSHAW	1969
CCLV.—The Chemistry of the Caryophyllene Series. Part III. Clovene Alcohol and α -Caryophyllene Alcohol. By JAMES BELL and GEORGE GERALD HENDERSON	1971
CCLVI.—The Conditions determining the Thermodynamic Stability of Cyanohydrins of Carbonyl Compounds. Part II. Dissociation Constants of some Cyanohydrins derived from Methyl Alkyl and Phenyl Alkyl Ketones. By ARTHUR LAPWORTH and RICHARD HELMUTH FRED MANSKE	1976

CCLVII.—The Migration of Acyl Groups in <i>o</i> -Aminophenols. By FRANK BELL	1981
CCLVIII.—The Structure of the Tungstic Acids. By ARTHUR MILNES MORLEY	1987
CCLIX.—Syntheses in the Indole Series. Part IV. De- rivatives of 2:3-Benz- γ -carboline. By WILLIAM OGILVY KERMACK and JAMES FERGUS SMITH	1999
CCLX.—The Ternary System Carbamide–Ammonium Nitrate–Sodium Nitrate. By WILLIAM JOHN HOWELLS	2010
CCLXI.—The Walden Inversion. Part III. By HANS NICOLAI KELLERMANN RÖRDAM	2017
CCLXII.—The Parachor of Co-ordinated Hydrogen in the Ortho-substituted Phenols. By NEVIL V. SIDGWICK and NOEL S. BAYLISS	2027
NOTES.—Methylfurfuraldehyde Oxide as a By-product in the Preparation of Hydroxymethylfurfuraldehyde. By J. P. C. CHANDRASENA	2035
The Action of Freshly Precipitated Mercuric Oxide on a Suspension of 3:5-Dinitrotoluene in Aqueous Sodium Hydroxide. A Novel Preparation of 3:5-Dinitro- <i>p</i> - cresol. By H. H. HODGSON and E. W. SMITH	2035
CCLXIII.—The Catalytic Action of Hydrogen on the Carbon Monoxide Flame. By W. E. GARNER and D. A. HALL	2037
CCLXIV.—Aromatic Arsenic Compounds containing Sulphur Groups attached to the Nucleus. Part I. Sulphonic Acids and their Derivatives. By HARRY JAMES BARBER	2047
CCLXV.—A Simple Electrochemical Method for the Simul- taneous Determination of the Constitution and Equi- librium Constant of Complex Ions in Solution. Applica- tion to Complex Silver Ions. By FREDERICK KARL VICTOR KOCH	2053
CCLXVI.—Investigations of the Olefinic Acids. Part III. Homologues of Teraconic, Terebic, and Pyroterebic Acids. Further Evidence of the Effect of Two γ -Alkyl Groups on Three-carbon Tautomerism. By REGINALD PATRICK LINSTEAD and JASON THOMAS WILLIAM MANN	2064
CCLXVII.—The Photochemical Reaction between Oxygen and Hydrogen Chloride. By ARTHUR JOHN ALLMAND and REGINALD GEORGE FRANKLIN	2073
CCLXVIII.—Heats of Adsorption and Isotherms in the System Platinum–Hydrogen. By EDWARD BRADFORD MAXTED	2093

CCLXIX.—The Behaviour of Molybdenum Pentachloride in Organic Solvents. By WILLIAM WARDLAW and HARRY WILLIAM WEBB	2100
CCLXX.—Degradation of Quaternary Ammonium Salts. Part II. By THOMAS STEVENS STEVENS	2107
CCLXXI.—Degradation of Quaternary Ammonium Salts. Part III. By THOMAS STEVENS STEVENS, WILLIAM WHITELAW SNEDDEN, ERIC THOMAS STILLER, and THOMAS THOMSON	2119
CCLXXII.—Conductivity Measurements of the Comparative Rates of Hydrolysis of Lactones Derived from Simple Sugars. By SYDNEY RAYMOND CARTER, WALTER NORMAN HAWORTH, and ROBERT ANTHONY ROBINSON	2125
CCLXXIII.—The Synthesis of <i>iso</i> Indenoquinolines. Part I. By GEORGE ROGER CLEMO and HERBERT JOHN JOHNSON	2133
CCLXXIV.—The Titrimetric Determination of Primary Arsinic Acids. By HAROLD KING and GEORGE VICTOR RUTTERFORD	2138
CCLXXV.—Investigations on the Bivalency of Carbon. Part IV. Halogen Displacements from <i>s</i> -Tetra-bromo- and -chloro-ethane and Tri-bromo- and -chloro-ethylene. By ALLAN MILES WARD	2143
CCLXXVI.—Syntheses of Cyclic Compounds. Part VII. The Stereoisomeric $\beta\gamma$ -Diphenyladipic Acids. By MARIAM P. OOMMEN and ARTHUR ISRAEL VOGEL	2148
CCLXXVII.—Physicochemical Studies of Complex Acids. Part III. Molybdic Acid. By HUBERT THOMAS STANLEY BRITTON and WILLIAM LESLIE GERMAN	2154
CCLXXVIII.—The Methylation of Phenols by Methyl Sulphate. A Suggested Mechanism. By HERBERT HENRY HODGSON and JOSEPH NIXON	2166
CCLXXIX.—The Dinitration of Monosulphonated <i>m</i> -Chlorophenol and the Sulphonation and Subsequent Further Nitration of 3-Chloro-2- and -6-nitro-phenols. By HERBERT HENRY HODGSON and ARNOLD KERSHAW	2169
CCLXXX.—Studies of the Boron-Carbon Linkage. Part I. The Oxidation and Nitration of Phenylboric Acid. By ARTHUR DONALD AINLEY and FREDERICK CHALLENGER	2171
CCLXXXI.—Acid and Salt Effects in Catalysed Reactions. Part XXIV. A Study of the Catalytic Effects produced by Acetic Acid and Acetate Buffers under Conditions of Effectively Constant Ionic Environment. By HARRY MEDFORTH DAWSON and ERIC SPIVEY	2180

CCLXXXII.—The Unsaturation and Tautomeric Mobility of Heterocyclic Compounds. Part III. The Effect of Substituents on the Mobility of the Aminobenzthiazole System and on the Bromination of <i>s</i> -Diarylthiocarbamides. The Ultra-violet Absorption of Mobile and of Static Semicyclic Amidines of the Benzthiazole Group. By ROBERT FERGUS HUNTER and JOHN WILLIAM THOMAS JONES	2190
NOTES.—Note on the Drying of Gas Streams. By LOUIS LEIGHTON BIRCUMSHAW	2213
Action of Monochlorodimethyl Ether on Magnesium Benzyl Chloride. By ARTHUR CECIL BOTTOMLEY, ARTHUR LAPWORTH, and ARTHUR WALTON	2215
CCLXXXIII.—The Chemistry of the Three-Carbon System. Part XXV. The Effect of the Methyl Group on the Tautomerism of Acids and Ketones of the <i>cyclo</i> Pentane and <i>cyclo</i> Hexane Series. By GEORGE ARMAND ROBERT KON and RAM SIMHA THAKUR	2217
CCLXXXIV.—Direct Meta-substitution in the Toluene Nucleus. By JOHN BALDWIN SHOESMITH and JOHN FINNIE MCGECHEN	2231
CCLXXXV.—Comparison of the Directive Powers of Elements having Consecutive Atomic Numbers. Part II. The Mononitrations of 2-Phenylquinoline and its Methosulphate. By RAYMOND JAMES WOOD LE FÈVRE and FAQIR CHAND MATHUR	2236
CCLXXXVI.—Low-temperature Oxidation. Part III. The Lag in Ignition of Some Hydrocarbons. By JOHN STANLEY LEWIS	2241
CCLXXXVII.—Hydrochloric Acid Solutions of Iodine Monochloride. By FREDERICK ARTHUR PHILBRICK	2254
CCLXXXVIII.—The Preparation of the Optically Active Phenylmethylcarbinols. By ARMAND JOSEPH HENRI HOUSSA and JOSEPH KENYON	2260
CCLXXXIX.—The Partial Specific Volume of Potassium <i>n</i> -Octoate in Aqueous Solution. By DAVID GWYNNE DAVIES and CHARLES R. BURY	2263
CCXC.—Investigations in the Diphenylene Oxide Series. Part II. By NICHOLAS MICHAEL CULLINANE	2267
CCXCI.—Benzoic Esters and Electronic Affinities of Radicals. Part II. The Halogenoalkyl Benzoates. By AHMAD ZAKI	2269

CCXCII.—Bromine Chloride ; the Action of Mixtures of Chlorine and Bromine on Aliphatic Diazo-Compounds. By THOMAS WESTON JOHNS TAYLOR and LANCELOT ALBERT FORSCEY	2272
CCXCIII.—Polynitroarylnitroamines. Part I. 2 : 4 : 6-Trinitrophenylnitroamine. By WILLIAM WENALUF JONES and FRANCIS GEORGE WILLSON	2277
CCXCIV.—Mercuration of Some Polyhydroxybenzaldehydes and their Monomethyl Ethers. By THOMAS ANDERSON HENRY and THOMAS MARVEL SHARP	2279
CCXCV.—The Isomeric Monohydroxyphenylalanines. Part II. Some Halogen-substitution Products and their Reactions. By WILLIAM PARKER DICKINSON and PHILIP GUY MARSHALL	2289
CCXCVI.—The Reaction between Keto-anils and Grignard Reagents and the Tautomerism of Aliphatic Keto-anils. By WALLACE FRANK SHORT and JOHN STEPHEN WATT	2293
CCXCVII.—Tertiary Arylalkylphosphines. Part I. By IVOR KENNETH JACKSON, WALTER CULE DAVIES, and WILLIAM J. JONES	2298
CCXCVIII.—The Configurations of the Benzilmonoximes. By THOMAS WESTON JOHNS TAYLOR and (MISS) MARCIA SARAH MARKS	2302
CCXCIX.—Researches on Ammines. Part IV. Cuprammine Salts of Monobasic Acids. By HERBERT JOSEPH SEYMOUR KING	2307
CCC.—Optical Activity and the Polarity of Substituent Groups. Part XVI. Application of the Thorpe-Ingold Valency-deflexion Hypothesis to Optically Active Compounds. By H. GORDON RULE and JOHN HARROWER	2319
CCCI.—Physicochemical Studies of Complex Acids. Part IV. The Vanadates of Silver. By HUBERT THOMAS STANLEY BRITTON and ROBERT ANTHONY ROBINSON	2328
CCCII.—Colour Reactions of Thioglyoxalines (Thioliminazoles) with Sodium Diazobenzene- <i>p</i> -sulphonate. By GEORGE HUNTER	2343
CCCIII.—Derivatives of 4-Methyl-, 4 : 6-, 4 : 7-, and 4 : 8-Dimethyl-2-hydroxyquinolines. By ISIDORE ELKANAH BALABAN	2346
CCCIV.—Phthalazines. Part II. By JOTI SARUP AGGARWAL, ISHWAR DAS KHERA, and JNANENDRA NATH RÂY	2354
CCCV.—1 : 3 : 4-Triazoles. By KASHMIRI LAL BHAGAT and JNANENDRA NATH RÂY	2357

CCCVI.—A New Orientation Rule and the Anomaly of the Nitroso-group. By DALZIEL LEWELLYN HAMMICK and WALTER S. ILLINGWORTH	2358
CCCVII.—The Influence of the Sulphur Atom on the Reactivity of Adjacent Atoms or Groups. Part IV. Direct Polar Effects. By G. MACDONALD BENNETT and A. NEVILLE MOSSES	2364
CCCVIII.—Germanium. Part VIII. The Sulphides of Germanium. By WILLIAM PUGH	2369
CCCLIX.—A New Synthesis of Creatine and Alacreatine. By HAROLD KING	2374
CCCX.—The Optically Active Diphenylhydroxyethylamines and <i>iso</i> Hydrobenzoins. Part III. Optically Active Diphenylethylene Oxides. By JOHN READ and (MISS) ISHBEL GRACE MACNAUGHTON CAMPBELL	2377
CCCXI.—The Solubility of Silver Iodide in Solutions of Alkali Iodide in Acetone. By FREDERICK KARL VICTOR KOCH	2385
CCCXII.—The Action of Fuming Sulphuric Acid on Hexane, <i>cyclo</i> Hexane, and Some of their Derivatives. By GEORGE NORMAN BURKHARDT	2387
NOTES.—The Reducing Action of a Grignard Reagent. By HAROLD BURTON	2400
The Action of Hydrobromic Acid on Certain Arsinic Acids. By MONTAGUE ALEXANDRA PHILLIPS	2400
The Action of Ferric Chloride on <i>o</i> -, <i>m</i> -, and <i>p</i> -Toluidine. By WILLIAM HAMILTON PATTERSON	2401
CCCXIII.—Trypanocidal Activity and Chemical Constitution. Part II. New Sulphur Derivatives of Aromatic Organic Arsenicals (<i>cont.</i>). Derivatives of 2-Thiolbenzimidazole-5-arsinic Acid. By JOHN GARWOOD EVERETT	2402
CCCXIV.—Comments on the Paper by Fenton and Garner entitled "The Heats of Association of Acetic and Heptoic Acids in the Vapour State." By HANS DOHSE and MANFRED DUNKEL	2409
CCCXV.—The Calculation of Activity Coefficients from Solubility Measurements. Part II. Thallous Iodate. By CECIL WHITFIELD DAVIES	2410
CCCXVI.—The Calculation of Activity Coefficients from Solubility Measurements. Part III. The Unsymmetrical Valence Type Effect. By CECIL WHITFIELD DAVIES	2421

	PAGE
CCCXVII.—The Interaction between Alkyl Grignard Reagents and Arsenic Trichloride. By WILFRED JAMES CECIL DYKE and WILLIAM JACOB JONES	2426
CCCXVIII.—Researches in the Menthone Series. Part VII. The Condensation of Menthylamines with <i>d</i> - and <i>l</i> -Oxymethylenecamphor. By JOHN READ and (MISS) CATHERINE CASSELS STEELE	2430
CCCXIX.—Natural Glucosides. Part II. The Constitution of Æsculin. By FRANK S. H. HEAD and ALEXANDER ROBERTSON	2434
CCCXX.—Stereoisomerism in Substituted 1 : 2 : 3 : 4-Tetrahydroquinolines. Part II. By SYDNEY GLENN PRESTON PLANT and REGINALD JOHN ROSSER	2444
CCCXXI.—4-Alkyl Derivatives of 1-Phenylcyclohexane-3 : 5-dione. By IBRAHIM HILMI EL-SAID MATTAR, JOHN JAMES HUNTER HASTINGS, and THOMAS KENNEDY WALKER	2455
CCCXXII.—Dynamic Isomerism involving Mobile Hydrocarbon Radicals. Part II. The Intramolecular Character of the Amidine Rearrangement. By ARTHUR WILLIAM CHAPMAN	2458
CCCXXIII.—Dynamic Isomerism involving Mobile Hydrocarbon Radicals. Part III. Some Effects of Substitution on the Velocity of Interchange and Position of Equilibrium of Isomeric Triarylbenzenylamidines. By ARTHUR WILLIAM CHAPMAN and CHARLES HARDY PERROTT	2462
CCCXXIV.—The Ionisation Constants of Some Chloro- and Nitro-anilines by the Partition Method. By GWYN WILLIAMS and FREDERICK GEORGE SOPER	2469
CCCXXV.—Metallic Hydroxy-acid Complexes. Part V. Neutral α -Cupritartrates. By ELSTIE EVELYN WARK and IAN WILLIAM WARK	2474
CCCXXVI.—Digitalis Glucosides. Part II. Digoxigenin, the Aglucone of Digoxin. By SYDNEY SMITH	2478
CCCXXVII.—The Structure of <i>iso</i> Anethole. By GEORGE DAVID GOODALL and ROBERT DOWNS HAWORTH	2482
CCCXXVIII.—The Mobility of the Perchlorate Ion in Methyl Alcohol. By E. D. COPLEY and SIR HAROLD HARTLEY	2488
CCCXXIX.—The Conductivity of Some Uni-univalent Salts in Ethyl Alcohol. By E. D. COPLEY, D. M. MURRAY-RUST, and SIR HAROLD HARTLEY	2492

CCCXXX.—The Reduction of Substituted <i>p</i> -Benzoquinones by Sulphur Dioxide alone and in the Presence of Alkali. By JOHN WALLIS DODGSON	2498
CCCXXXI.—A General Method for the Preparation of Thiocyanine Dyes. Some Simple Thiocarbocyanines. By NELLIE IVY FISHER and FRANCES MARY HAMER	2502
CCCXXXII.—Stereochemical Influences on Aromatic Substitution. Substitution Derivatives of 5-Hydroxyhydrindene. By WILLIAM HOBSON MILLS and IVOR GRAY NIXON	2510
CCCXXXIII.—Syntheses with $\beta\beta'$ -Dichlorodiethyl Ether. Part I. Derivatives of Tetrahydropyran. By CHARLES STANLEY GIBSON and JOHN DOBNEY ANDREW JOHNSON	2525
CCCXXXIV.—The Organic Compounds of Gold. Part I. Diethylgold Bromide and Some Derivatives. By CHARLES STANLEY GIBSON and JOHN LIONEL SIMONSEN	2531
CCCXXXV.—Synthesis of Alkyl Naphthalenes. Part II. 1 : 3 : 5- and 1 : 3 : 8-Trimethylnaphthalenes. By ISIDOR MORRIS HEILBRON and DONALD GRAHAM WILKINSON	2537
CCCXXXVI.—The Unsaponifiable Matter from the Oils of Elasmobranch Fish. Part VII. The Synthesis of α -Glyceryl Ethers and its Bearing on the Structure of Batyl, Selachyl, and Chimyl Alcohols. By GOMER GLYNNE DAVIES, ISIDOR MORRIS HEILBRON, and WILLIAM MORGAN OWENS	2542
CCCXXXVII.—Unsaponifiable Matter from the Oils of Elasmobranch Fish. Part VIII. The Structure of the Naphthalene Hydrocarbon derived from Squalene. By ISIDOR MORRIS HEILBRON and DONALD GRAHAM WILKINSON	2546
CCCXXXVIII.—The Constitution of Double Sulphonium Mercuric Iodides. The Optically Active Mercuri-tri- and -tetra-iodides and Cadmi-tetra- and -penta-iodides derived from <i>l</i> -Phenacylmethylethylsulphonium Iodide. By MICHAEL PHILIP BALFE, JOSEPH KENYON, and HENRY PHILLIPS	2554
CCCXXXIX.—The Parachor and Chemical Constitution. Part XV. The Constitution of Sulphonium and Ammonium Mercuri-iodides (Iodomercuriates). By HAROLD JOHN CAVELL and SAMUEL SUGDEN	2572
CCCXL.—The Constitution of Santonin. Part III. Proof of the Positions of the Methyl Groups. By GEORGE ROGER CLEMO and ROBERT DOWNS HAWORTH	2579
CCCXLI.—The Potential of the Iridi-Iridochloride Electrode. By HENRY TERREY and HERBERT CHARLES BAKER	2583

CCCXLII.—Synthesis of <i>l</i> -2-Thiolhistidine. By JULIUS NICHOLSON ASHLEY and CHARLES ROBERT HARRINGTON .	2586
CCCXLIII.—The Interaction of Ammonium Sulphite with Certain Polybromoparaffins. By WILLIAM JACKSON POPE and FREDERIC BARRY KIPPING	2591
CCCXLIV.—Researches on Residual Affinity and Co-ordination. Part XXXII. Complex Salts of Bivalent Silver. By GILBERT T. MORGAN and FRANCIS HEREWARD BURSTALL	2594
CCCXLV.—Bis- <i>p</i> -phenetyl Telluride and its Derivatives. By GILBERT T. MORGAN and FRANCIS HEREWARD BURSTALL	2599
CCCXLVI.—Degradations in the Sugar Group. By VENANCIO DEULOFEU	2602
CCCXLVII.—Catalytic Decomposition of Some Gaseous Ethers. By PAUL ALFRED KLAUS CLUSIUS	2607
CCCXLVIII.—The Structure of Carbohydrates and their Optical Rotatory Power. Part I. General Introduction. By WALTER NORMAN HAWORTH and EDMUND LANGLEY HIRST	2615
CCCXLIX.—The Structure of Carbohydrates and their Optical Rotatory Power. Part II. 4-Glucosido- α -mannose and its Derivatives. By WALTER NORMAN HAWORTH, EDMUND LANGLEY HIRST, HARVEY RICHARD LYLE STREIGHT, HARRY A. THOMAS, and JOHN IVOR WEBB	2636
CCCL.—The Structure of Carbohydrates and their Optical Rotatory Power. Part III. 4-Galactosido- α -mannose and its Derivatives. By WALTER NORMAN HAWORTH, EDMUND LANGLEY HIRST, (MISS) MILLICENT MARY THEODOSIA PLANT, and REGINALD JOHN WILLIAM REYNOLDS	2644
CCCLI.—The Structure of Carbohydrates and their Optical Rotatory Power. Part IV. Derivatives of α - and β -Methylmannopyranoside. By HAROLD GRAHAM BOTT, WALTER NORMAN HAWORTH, and EDMUND LANGLEY HIRST [with ROBERT STUART TIPSON]	2653
CCCLII.—The Structure of Carbohydrates and their Optical Rotatory Power. Part V. The Optical Rotatory Powers of Methylated Lactones derived from the Simple Sugars. By WALTER NORMAN HAWORTH, EDMUND LANGLEY HIRST, and JAMES ANDREW BUCHAN SMITH	2659
CCCLIII.—Studies in the Sterol Group. Part X. The Relationship of the Fully Saturated Derivatives of Ergosterol and Sitosterol. By FRANK STUART SPRING	2664

CCCLIV.—Triazole Compounds. Part III. The Alkylation of Nitro-1 : 2 : 3-benzotriazoles. By OSCAR L. BRADY and CEDRIC V. REYNOLDS	2667
CCCLV.—The Optically Active Diphenylhydroxyethylamines and <i>iso</i> Hydrobenzoin. Part IV. Di- <i>p</i> -methoxyphenylhydroxyethylamine and Di-3 : 4-methylenedioxyphenylhydroxyethylamine. By JOHN READ and (MISS) ISHBEL GRACE MACNAUGHTON CAMPBELL	2674
CCCLVI.—The Optically Active Diphenylhydroxyethylamines and <i>iso</i> Hydrobenzoin. Part V. β -Hydroxy- β -phenylethylamine and Some Derivatives. By JOHN READ and (MISS) ISHBEL GRACE MACNAUGHTON CAMPBELL	2682
CCCLVII.—The Amino-1-methylbenzoxazoles and their Conversion into the Arsinic Acids of <i>o</i> -Aminophenol. By MONTAGUE ALEXANDRA PHILLIPS	2685
CCCLVIII.—The Formation of Aromatic Thiosulphonic Acids from Disulphides. By ERNEST WILSON McCLELLAND and LEONARD ARTHUR WARREN	2690
CCCLIX.—The Photochemical Union of Hydrogen and Chlorine. Part I. The Effect of Light Intensity. By ARTHUR JOHN ALLMAND and EDWARD BEESLEY	2693
CCCLX.—The Photochemical Union of Hydrogen and Chlorine. Part II. The Effect of Wave-length. Measurements with Filtered Light. By ARTHUR JOHN ALLMAND and EDWARD BEESLEY	2709
CCCLXI.—The Stability of Magnesium <i>r</i> -Mandelate. By ALEXANDER FINDLAY and ALAN NEWTON CAMPBELL	2721
CCCLXII.—Aromatic Arsenic Compounds containing Sulphur Groups attached to the Nucleus. Part II. Thiocyanato- and Disulphido-groups. By HARRY JAMES BARBER	2725
CCCLXIII.—Syntheses of Glucosides. Part VI. The Preparation of β -Glucosides of Phenols. By ALEXANDER ROBERTSON and ROY BASIL WATERS	2729
CCCLXIV.—The Vapour Pressure of Chlorine Monoxide. By CHARLES FREDERICK GOODEVE	2733
CCCLXV.—The Action of Halogens on Ethyldi-iodostibine. Antimony Bromodi-iodide. By ROBERT EDWARD DAVID CLARK	2737
CCCLXVI.— ω -Cyano- ω -arylideneacetanilides and the Conversion of their <i>o</i> -Nitro-derivatives into Quinoline Derivatives. By MOHAMMAD ISHAQ and JĀNANENDRA NATH RĀY	2739

	PAGE
CCCLXVII.—The Hydrolysis of Acetamide. By THOMAS WESTON JOHNS TAYLOR	2741
CCCLXVIII.—Nitrogen Tri-iodide. By HERBERT WILLIAM CREMER and DONALD RUSSELL DUNCAN	2750
CCCLXIX.—The Synthesis of Diisopropylmalonic Acid and Some Related Compounds, with Observations on the Polar Character of the <i>iso</i> Propyl Radical. By FREDERICK C. B. MARSHALL	2754
CCCLXX.—Researches in the Menthone Series. Part VIII. Further Characterisation of the Optically Active Menthylamines. By JOHN READ and RALPH ALEXANDER STOREY	2761
CCCLXXI.—Piperitone. Part XI. Syntheses of Optically Inactive and Active Piperitylamines, Piperitols, and α -Phellandrenes. By JOHN READ and RALPH ALEXANDER STOREY	2770
NOTES.—The Latent Heats of Evaporation of Nitromethane and Benzonitrile. By JAMES CHARLES PHILIP and SIDNEY CHARLES WATERTON	2783
The Decomposition of Benzenediazonium Sulphate by Aliphatic Alcohols. By HERBERT HENRY HODGSON and ARNOLD KERSHAW	2784
A New Complex Hydrocarbon of the Probable Formula $C_{16}H_{14}$. By CHARLES STANLEY GIBSON and JOHN DOBNEY ANDREW JOHNSON	2785
Preparation of Anhydrous Stannous Chloride. By HENRY STEPHEN	2786
A Labile Compound of Benzeneazo- β -naphthol and β -Naphthol. By HERBERT HENRY HODGSON and WOLF ROSENBERG	2787
The Preparation of Benzamide. By C. H. KAO and SHAO-YUAN MA	2788
3-Chloro- <i>o</i> -toluic Acid and its Conversion into 3-Chloro- α -hydroxyphthalide. By LEOPOLD FERDINAND LEVY and HENRY STEPHEN	2788
OBITUARY NOTICE	2789
