

INDEX OF AUTHORS' NAMES, 1931.

A.

- Adair, Allan.** See *Frederick D. Chattaway*.
- Adamson, Arthur B.** See *Frederick D. Chattaway*.
- Ahluwalia, Gurcharan S., Muhammad A. Haq, and Jñanendra N. Rây,** the condensation of aromatic aldehydes with malonanilic acid and its derivatives, 2059.
- Ahluwalia, Gurcharan S., Kartar S. Narang, and Jñanendra N. Rây,** experiments on the synthesis of isoquinoline derivatives. Part I., 2057.
- Alexander, James R., and Hamilton McCombie,** the reactions of divinyl sulphide, sulphoxide, and sulphone, 1913.
- Allmand, Arthur J., and John W. T. Spinks,** the action of light on mixtures of ozone and chlorine. Part I. Experimental; results with low ozone concentrations, 1652.
- Allmand, Arthur J., and Kenneth W. Young,** the photolysis of potassium ferrioxalate solutions. Part III., 3079.
- Alty, S.** See *J. C. Swallow*.
- Amphlett, Edward G.,** obituary notice of, 1024.
- Anderson, John A., and Arthur G. Perkin,** the yellow colouring matter of Khapli wheat, *Triticum dicoccum*, 2624.
- Angel, Thomas H.** See *Leonard E. Hinkel*.
- Applebey, Malcolm P., and Herbert M. Powell,** the polymorphism of lead monoxide, 2821.
- Armit, James W., and Thomas J. Nolan,** derivatives of kojic acid, 3023.
- Atkinson, Robert W.,** obituary notice of, 1024.
- Attree, Gordon F., and Arthur G. Perkin,** reduction products of the hydroxy-anthraquinones. Part XII., 144.
- Ayling, Ernest E.** See *Leonard E. Hinkel*.

B.

- Backeberg, Otto G.,** the constitution of the bases formed by the action of phosphoryl chloride on acetanilide and on phenacetin, 2814.

- Badhwar, Ishwar C., Wilson Baker, Bala K. Menon, and Krishnasami Venkataraman,** the condensation of *a*-formylphenylacetone nitriles with phenols. Part I., 1541.
- Bailey, Kenneth C., and (Miss) Violet H. French,** the inhibition of chemical reactions. Part IV. The site of anti-oxygenic action; the oxidation of sodium sulphite and benzaldehyde, 420.
- Baker, Charles J.,** obituary notice of, 1024.
- Baker, John W.,** the salt-forming characteristics of doubly- and singly-linked elements of the oxygen group. Part I. The carbonyl group in benzaldehyde and acetophenone, 307.
synthesis of substances analogous to bile acid degradation products. Part I. Preliminary investigation of methods of attachment of carboxylated side chains to the cyclopentane nucleus, 1546.
reactions of *ω*-substituted acetophenone derivatives. Part I. *ω*-Halogeno-derivatives of *ωm*- and *ωp*-dinitroacetophenone, 2416.
- Baker, John W., and William G. Moffitt,** the salt-forming characteristics of doubly- and singly-linked elements of the oxygen group. Part II. Nitration of benzaldehyde and acetophenone in sulphuric acid solution, 314.
- Baker, Wilson,** cyclic esters of sulphuric acid. Part I. The reactions of methylene sulphate, 1765.
- Baker, Wilson, and Hilary A. Smith,** derivatives of 1:2:3:4-tetrahydroxybenzene. Part I., 2542.
- Baker, Wilson.** See also *Ishwar C. Badhwar*.
- Balaban, Isidore E.,** piperonal-6-arsonic acid, 885.
some benzyloxyphenylarsonic acids, 2473.
- Balkin, Mark.** See *Fred Fairbrother*.
- Bangham, Donald H., and Nazim Fakhoury,** the translational motion of molecules in the adsorbed phase on solids, 1324.

- Banks, William H.**, the calculation of degrees of dissociation of weak electrolytes, 3341.
- Barber, Harry J.**, aromatic arsenic compounds containing sulphur groups attached to the nucleus. Part III. 3:3'-Diamino-4:4'-dithiolarsenobenzene, the thiol analogue of salvarsan, 2556.
- Barker, Thomas V.**, obituary notice of, 3344.
- Barkworth, Edmund D. P.** See *Nevil V. Sidgwick*.
- Barnes, Edward**, the action of nitric oxide on alkaline hydroxides, 2605.
- Barnett, Edward de B.**, the action of Grignard solutions on the 10-methoxyanthrones, 3340.
- Barnett, (Miss) Mary M.** See *H. Gordon Rule*.
- Barton, Robert**, obituary notice of, 1025.
- Bassett, Henry**, and *William L. Bedwell*, the system cobalt chloride-zinc chloride, 2479.
- Bassett, Henry**, and *Reginald G. Durrant*, colloidal sulphur, 2919.
- Bassett, Harold L.**, studies in the reactivity of aromatic hydroxyl groups. Part II., 2516.
- Bastow, Stewart H.**, adsorption of nitrogen by condensed atomic platinum, 1950.
- Bastow, Stewart H.** See also *Frederick J. Wilkins*.
- Bedwell, William L.** See *Henry Bassett*.
- Bell, Frank**, the interaction of sulphonates and sulphonamides with piperidine, 609.
- 5-bromo- and 5':4'-dibromo-3-nitro-4-acetamidodiphenyls, 2227.
- investigations in the diphenyl series. Part X. The bromination of 4-*p*-toluenesulphonamidodiphenyl, 2338.
- the interaction of nitroaminophenols with sulphonyl chlorides, 2343.
- the migration of acyl groups in *o*-aminophenols. Part II., 2962.
- Bell, Hugh C.**, obituary notice of, 1025.
- Bell, Ronald P.**, the electrical energy of dipole molecules in solution, and the solubilities of ammonia, hydrogen chloride, and hydrogen sulphide in various solvents, 1371.
- Bennett, G. Macdonald**, and *A. Neville Mosses*, derivatives of the aliphatic glycols. Part III., 1697.
- the influence of the sulphur atom on the reactivity of adjacent atoms or groups. Part V. Comparative reactivities of a series of nine homologous ω -hydroxy-sulphides, 2956.
- Bennett, G. Macdonald**, and *F. Sydney Statham*, stereoisomerism of disulphoxides and related substances. Part VII. Some further pairs of isomeric dioxides. Part VIII. Isomeric tetrabromides of a disulphide, 1684, 1690.
- Bennett, G. Macdonald**, and *W. Bertram Waddington*, studies in the penthian series. Part IV. The four stereoisomeric oxides of benzamido-benzpenthene, 1692.
- Berry, Edward E.**, obituary notice of, 1033.
- Bhagwat, Vinayak K.**, *Douglas K. Moore*, and *Frank L. Pyman*, the mechanism of the oxidation of laudanosine, 443.
- Bhattacharya, Ramkanta**, and *Thomas P. Hilditch*, the distribution of saturated and unsaturated higher fatty acids in mixed synthetic glycol esters, 901.
- Bhullar, Amar S.**, and *Krishnasami Venkataraman*, synthetical experiments in the chromone group. Part II. 1:4-*a*-Naphthapyrones, 1165.
- Bickerdike, William E.**, obituary notice of, 1026.
- Bills, Edwin J.** See *James C. Duff*.
- Black, Raphael, Herbert Shaw**, and *Thomas K. Walker*, syntheses of antiseptic derivatives of indan-1:3-dione. Part I. Interaction of malonyl chloride and of alkylmalonyl chlorides with the methyl ethers of resorcinol and β -naphthol, 272.
- Blackburn, John C.** See *Frederic S. Kipping*.
- Blair, Ethelbert W.**, obituary notice of, 3348.
- Bleloch, William.** See *Henry Stephen*.
- Bloom, Jack**, and *Christopher K. Ingold*, the modes of addition to conjugated unsaturated systems. Part IV. Additions of pseudo-acids, 2765.
- Blount, Bertie K.**, the alleged existence of triphenyldialkylpentaphosphines, 1891.
- Blount, Bertie K.**, and *Robert Robinson*, strychnine and brucine. Part XIII. Dihydroindolylpropionic and dihydroindolylbutyric acids, 3158.
- Bone, William A.**, fifty years' experimental research upon the influence of steam on the combustion of carbonic oxide, 338.
- Borns, Henry**, obituary notice of, 1033.
- Bose, Prafulla K.**, and *Dines C. Sen*, benzquinazocolines, 2840.

- Bowden, Sydney T.**, polyphenyls. Part I. The symmetrical diphenyldiphenyls, 1111.
- Bowen, Edmund J., Thomas A. Peacocke, and Edgar R. Wellburn**, the photochemical oxidation of alcohols by potassium dichromate. Part III., 1866.
- Boxer, Stanley E., and Reginald P. Linstead**, investigations of the olefinic acids. Part V. The influence of bases on the condensation of aldehydes and malonic acid, and a note on the Knoevenagel reaction, 740.
- Bradfield, Alan E., and Brynmor Jones**, the halogenation of phenolic ethers and anilides. Part II. Additional velocity measurements in 99% acetic acid, 2903.
- Bradfield, Alan E., William O. Jones, and Frank Spencer**, the halogenation of phenolic ethers and anilides. Part III. The "phase and steric" factor, 2907.
- Brady, Oscar L.**, the co-ordination compounds of oximes. Part II. Nickel and cobalt compounds of *o*-hydroxybenzaldoxime, 105.
the use of 2:4-dinitrophenylhydrazine as a reagent for carbonyl compounds, 756.
- Brady, Oscar L., and (Miss) Margaret D. Porter**, the oxidation of *N*-methylhydroxylamine by iodine, 1604.
- Brady, Oscar L., and Cedric V. Reynolds**, triazole compounds. Part IV. The constitution of the methyl-1:2:3-benzotriazole *N*-oxides and the action of methyl sulphate on nitro-1-hydroxy-1:2:3-benzotriazoles, 1273.
- Brewer, Frederick M.**, co-ordinated compounds of the alkali metals. Part III., 361.
- Briggs, Dennis B., Harold Saenger, and William Wardlaw**, the attempted isolation of copper benzaldehyde, 2552.
- Briggs, Lindsay H., and Robert Robinson**, strychnine and brucine. Part XIV. Oxidation of hexahydrostrychnine, 3160.
- Briscoe, Henry V. A., Percy L. Robinson, and Alfred J. Rudge**, the perchlorates of copper, nickel, and cobalt, and the amines of these compounds, 2211.
a new oxide of rhenium; rhenium pentoxide, 3087.
potassium rheni-iodide, 3218.
- Briscoe, Henry V. A., Percy L. Robinson, and Eric M. Stoddart**, the reduction of potassium per-rhenate, 666.
- Briscoe, Henry V. A., Percy L. Robinson, and Eric M. Stoddart**, the sulphides and selenides of rhenium, 1439.
rhenium tetrachloride and the rhenichlorides, 2263.
the alleged thallos thioper-rhenate, 2976.
- Britton, Hubert T. S., and Eric N. Dodd**, the use of the tungsten electrode in potentiometric titrations and p_H measurements, 829.
physico-chemical studies of complex formation involving weak acids. Part I. The hydrolysis of complex cyanides, 2332.
- Britton, Hubert T. S., and William L. German**, physico-chemical studies of complex acids. Part V. The precipitation of tungstates. Part VI. The precipitation of molybdates, 709, 1429.
- Britton, Hubert T. S., and Fleetwood H. Meek**, physico-chemical studies of complex formation involving weak acids. Part II. The constitution of acetates in solution, 2831.
- Britton, Hubert T. S., and Robert A. Robinson**, the use of the antimony-antimonous oxide electrode in the determination of the concentration of hydrogen ions and in potentiometric titrations; the Pridaux-Ward universal buffer mixture, 458.
universal buffer solutions and the dissociation constant of veronal, 1456.
- Britton, Hubert T. S.** See also *Robert A. Robinson*.
- Browne, Donald W., and George M. Dyson**, the inhibitory effect of substituents in chemical reactions. Part II. The reactivity of the isothiocyano-group in substituted arylthiocarbimides, 3285.
- Browne, Thomas E. W.** See *Frederick D. Chattaway*.
- Bryant, Stephen A., and George R. Clemo**, the synthesis of *n*-propyl *n*-amyl ketone by Karrer and co-workers, 2080.
- Bryant, Stephen A., and Sydney G. P. Plant**, the action of nitric acid on polycyclic indole derivatives. Part IX., 93.
- Buchan, Samuel, and Hamilton McCombie**, the chlorination of iodophenols. Part III. The chlorination of *o*-iodophenol, 137.
- Bull, H. I., M. H. Hall, and William E. Garner**, the reaction between carbon and oxygen at low pressures and room temperature, 837.

- Burstall, Francis H.** See *Gilbert T. Morgan*.
- Burton, Harold**, mobile anion tautomerism. Part VI. The activation of the three-carbon anionotropic system by polynuclear aryl groups, 759.
- C.**
- Cahn, Robert S.**, *Cannabis indica* resin. Part II., 630.
dealkylation of phenolic ethers by pyridine and piperidine, 1121.
- Cahn, Robert S.**, **Arthur R. Penfold**, and **John L. Simonsen**, 1-4-isopropyl- Δ^2 cyclohexen-1-one, 1366.
dehydrogeranic acid, 3134.
- Cahn, Robert S.**, **Charles S. Gibson**, **Arthur R. Penfold**, and **John L. Simonsen** [with **Owen J. Evans** and **Frederick G. Soper**], the essential oil of *Backhousia angustifolia*. Part III. The constitutions of angustione and dehydroangustione, 286.
- Callow, Robert K.**, **John M. Gulland**, and **Cyril J. Virden**, physiologically active constituents of the yew *Taxus baccata*. Part I. Taxine, 2138.
- Canter, Frederick W.**, **Frank H. Curd**, and **Alexander Robertson**, hydroxycarbonyl compounds. Part II. The benzylation of ketones derived from phloroglucinol. Part III. The preparation of coumarins and 1:4-benzopyrones from phloroglucinol and resorcinol, 1245, 1255.
- Canter, Frederick W.**, **Alfred R. Martin**, and **Alexander Robertson**, hydroxycarbonyl compounds. Part IV. The preparation of coumarins and 1:4-benzopyrones from pyrogallol, 1877.
- Canter, Frederick W.**, and **Alexander Robertson**, the conversion of 7-hydroxy-3:4-dimethylcoumarin into 2:4-dimethoxy- $\alpha\beta$ -dimethylcinnamic acid, 1875.
- Cartwright, (Miss) Margery M.**, and **Sydney G.P. Plant**, stereoisomerism in polycyclic systems. Part VIII., 1898.
- Challenger, Frederick**, **Louis Klein**, and **Thomas K. Walker**, the formation of kojic acid from sugars by *Aspergillus oryzae*, 16.
- Challenger, Frederick**, and **(Miss) Bertha Parker**, a method for the preparation of some new organo-thallium halides, 1462.
- Challinor, Sydney W.**, **Walter N. Haworth**, and **Edmund L. Hirst**, the compound uronic acids; structure of the aldobionic acid from gum arabic, 258.
- Chapman, James**, and **Forsyth J. Wilson**, the action of amines on 2-substituted semicarbazones, 507.
- Charlton, William**, **Walter N. Haworth**, and **Reginald W. Herbert**, the structure of 2:3:4-trimethyl glucose, 2855.
- Chattaway, Frederick D.**, acetylation in aqueous alkaline solutions, 2495.
- Chattaway, Frederick D.**, and **Arthur B. Adamson**, the action of bromine upon *o*-tolylhydrazones and *o*-nitrophenylhydrazones, 2787.
the action of bromine and of chlorine upon 2:4-dinitrobenzaldehyde-phenyl- and *p*-tolylhydrazones, 2792.
- Chattaway, Frederick D.**, and **Thomas F. W. Browne**, the interaction of halogen-substituted *p*-tolylhydrazines with chloral, 1088.
- Chattaway, Frederick D.**, **Thomas Deighton**, and **Allan Adair**, the action of chlorine upon chloro-substituted hydrazones, 1925.
- Chattaway, Frederick D.**, and **Larkin H. Farinholt**, the condensation of dichloroacetaldehyde with *p*-hydroxybenzoic acid, 1737.
the condensation of dichloroacetaldehyde with anisic acid and with *p*-nitroanisole, 1828.
- Chattaway, Frederick D.**, and **Harry Irving**, the condensation of butyl chloral hydrate with aryl hydrazines, 751.
the 4-hydroxy-1-aryl-5-methylpyrazoles, 786.
2:4:6-trichlorophenylhydrazine, 1740.
1:3-benzodioxin, 2492.
- Child, Reginald**, and **Frank L. Pyman**, 1- ω -halogenoalkylisoquinolines and their derivatives, 36.
- Clarke, Frank W.**, obituary notice of, 3348.
- Clay, Hubert**. See **Herbert H. Hodgson**.
- Clemo, George R.**, **Joseph G. Cockburn**, and **Robert Spence**, the catalytic production of polynuclear compounds. Part II., 1265.
- Clemo, George R.**, **John Ormston**, and **George R. Ramage**, ring closure studies in the piperidine series, 3185.
- Clemo, George R.**, and **George R. Ramage**, new derivatives of pyrrole. Part I. The synthesis of 3-keto-4:5-dihydrodi-(1:2)-pyrrole and of 8-keto-5:6:7:8-tetrahydropyrrocoline, 49.
the lupin alkaloids. Part IV. The synthesis of octahydropyridocoline, 437.

- Clemo, George R., George R. Ramage,** and **Richard Raper**, the lupin alkaloids. Part V., 3190.
- Clemo, George R., Richard Raper,** and **Charles R. S. Tenniswood**, the lupin alkaloids. Part III., 429.
- Clemo, George R., and Charles R. S. Tenniswood**, alkyl derivatives of ethyl malonate and ethyl cyanoacetate, 2549.
- Clemo, George R.** See also **Stephen A. Bryant**.
- Coates, Joseph E., and Norman H. Hartshorne**, studies on hydrogen cyanide. Part III. The freezing points of hydrogen cyanide-water mixtures, 657.
- Cockburn, Charles T.**, obituary notice of, 1026.
- Cockburn, Joseph G.** See **George R. Clemo**.
- Cocker, Wesley, and Arthur Lapworth**, experiments on the synthetic preparation and isolation of some of the simpler amino-acids, 1391.
a preparation of sarcosine, 1894.
- Cocker, Wesley, Arthur Lapworth,** and **Arnold T. Peters**, some reactions of ortho-derivatives of aldehydes and ketones, 1382.
- Cockram, Charles, and Richard V. Wheeler**, studies in the composition of coal; the soluble constituents of coal and their degree of coalification, 854.
- Cohen, Aaron, Harold King,** and (*Miss*) **Winifred I. Strangeways**, trypanocidal action and chemical constitution. Part X. Arylthioarsinites. Part XI. Aromatic arsonic acids containing amide groups, 3043, 3236.
- Colles, William M., and Charles S. Gibson**, *N*-acyl derivatives of alanine; the resolution of externally compensated *m*-nitrobenzoylalanine, 279.
- Colles, William M.** See also **Charles S. Gibson**.
- Colley, Albert T. W.** See **John A. N. Friend**.
- Cook, James W.**, polycyclic aromatic hydrocarbons. Part II. The non-existence of 1:2:7:8-dibenzanthracene. Part III. Derivatives of 1:2:5:6-dibenzanthracene. Part VI. Condensed derivatives of 1:2-benzanthracene. Part VI. 3:4-Benzphenanthrene and its quinone. Part VII. 5:6-cyclopenteno-1:2-benzanthracene, a cancer-producing hydrocarbon. Part VIII. The chemistry of 1:2:5:6-dibenzanthracene, 487, 489, 499, 2524, 2529, 3273.
- Cook, James W., and Robert A. E. Galley**, polycyclic aromatic hydrocarbons. Part V. Preliminary studies in the synthesis of chrysene homologues, 2012.
- Corrie, David**, obituary notice of, 1027.
- Coulson, Edward A.** See **Gilbert T. Morgan**.
- Courtman, Ernest O.**, obituary notice of, 1033.
- Cowan, John M.** See **Thomas S. Stevens**.
