

INDEX OF AUTHORS, 1949.

A.

Acheson, G. G., and West, T. F., application of the diene synthesis to terpenoid compounds. Part III. Reaction between β -phellandrene and β -naphthol, 812.

Acheson, R. M. See **King, F. E.**

Adams, A., and Hey, D. H., the nitration of 4-hydroxyquinoline, 255.
arylamino-(dialkylaminoalkylamino)-derivatives of quin-
aldine and lepidine, 3185.

Adams, W. J., Hey, D. H., Mamalis, P., and Parker, R. E., some phenyl-pyridines and -quinolines, 3181.

Adamson, D. W., aminoalkyl tertiary carbinols and derived products. Part I. 3-Amino-1:1-diphenylpropan-1-ols, S 144.

Addison, C. C., and Elliott, T. A., the properties of freshly-formed surfaces. Part X. A new contracting liquid-jet technique for the study of soluble films at small surface ages, 2789.

Addison, C. C., and Hutchinson, S. K., the properties of freshly-formed surfaces. Part XI. Factors influencing surface activity and adsorption rates in aqueous decyl alcohol solutions. Part XII. An experimental study of the desorption process with particular reference to aqueous decyl alcohol solutions. Part XIII. The compressibility of soluble films of decyl and other alcohols, 3387, 3395, 3404.

Addison, C. C., and Thompson, R., the liquid dinitrogen tetroxide solvent system. Part I. General introduction. Part II. Liquid and solid solutions of nitrosyl chloride in dinitrogen tetroxide, S 211, 218.

Ainley, A. D., Curd, F. H. S., and Rose, F. L., synthetic antimalarials. Part XXXIII. An alternative route to N^1 -aryl- N^2 -alkyldiguanides and related compounds: the condensation of guanidines and cyanamides, 98.

Alberman, K. B., and Anderson, J. S., the oxides of uranium, S 303.

Albert, A., and Royer, R., acridine syntheses and reactions. Part V. A new dehalogenation of 5-chloroacridine and its derivatives, 1148.

Alexander, K. M., and Fairbrother, F., the halides of columbium (niobium) and tantalum. Part I. The vapour pressures of columbium (niobium) and tantalum pentachlorides and pentabromides. Part II. The vapour pressure of tantalum pentaiodide, 2472; S 223.

Allan, D., and Loudon, J. D., a novel synthesis of some quinoline derivatives, 821.

Allan, J. E. See **Robertson, P. W.**

Allan, M. L. See **Bremner, J. G. M.**

Allison, J. A. C., and Mann, F. G., the constitution of complex metallic salts. Part XIV. The action of trialkyl-phosphines and -arsines on the tetrahalides of tin and uranium, 2915.

Anand, N. See **Andrews, K. J. M.**

Anderson, G. de W., and Bell, F., the migration of acyl groups in *o*-aminophenols. Part III., 2668.

Anderson, J. D. C., Le Févre, R. J. W., and Wilson, I. R., dipole moment and spectrographic data for certain diazophenols and diazonaphthols, 2082.

Anderson, J. S., and D'Eye, R. W. M., the lower valency states of thorium, S 244.

Anderson, J. S., and Saddington, K., the use of radioactive isotopes in the study of the diffusion of ions in solution, S 381.

Anderson, J. S. See also **Alberman, K. B.**

Anderson, W. C., obituary notice of, 259.

Andrew, G. See **Irving, H.**

Andrews, K. J. M., Anand, N., Todd, A. R., and Topham, A., experiments on the synthesis of purine nucleosides. Part XXVI. 9-D-Glucopyranosidoisoguanine, 2490.

Andrews, K. J. M., Kenner, G. W., and Todd, A. R., experiments on the synthesis of purine nucleosides. Part XXIV. 9-D-Galactosido-2-methylthioadenines, 2302.

Angyal, S. J., Morris, P. J., Rassack, R. C., and Waterer, J. A., the Sommelet reaction. Part II. The *ortho*-effect, 2704.

Angyal, S. J., Morris, P. J., Rassack, R. C., Waterer, J. A., and Wilson, J. G., new toluene-*p*-sulphonamides, 2722.

Angyal, S. J., and Rassack, R. C., the Sommelet reaction. Part I. The course of the reaction, 2700.

Arcus, C. L., the polymerisation of methacrylamide and the alkaline hydrolysis of the polymer, 2732.

Arcus, C. L., Campbell, Alastair, and Kenyon, J., the reaction of bromine with silver (+)- α -phenylpropionate; an electrophilic bimolecular substitution, 1510.

Arden, T. V., the formation of complex ions in uranyl sulphate solutions, S 299.

Arden, T. V., Burstall, F. H., and Linstead, R. P., a new method for the detection and determination of uranium, S 311.

Arrol, W. J., and Glascock, R., the microsynthesis of some ^{14}C labelled organic compounds, S 335.

Arthur, J. R., and Bowring, J. R., the combustion of carbon: inhibition of secondary reactions by volatile reagents added to the oxidizing gas, S 1.

Asher, K. R. S. See **Glaser, A.**

Ashworth, R. de B., Crowther, A. F., Curd, F. H. S., Hendry, J. A., Richardson, D. N., and Rose, F. L., synthetic antimalarials. Part XXXVII. Some N^4 -*p*-Chlorophenyl- $N^2:N^4:N^6$ -trialkyldiguanides and other related miscellaneous diguanide types, 475.

Ashworth, R. de B. See also **Curd, F. H. S.**

Atkinson, R. O., and Scott, P. A. A., a synthesis of DL-valine from ethyl acetamidomalonic, 1040.

Attenburrow, J., Elks, J., Hems, B. A., and Speyer, K. N., analgesics. Part II. The synthesis of amidone and some of its analogues, 510.

Audley, A., and Goss, F. R., the dipole moments of trinitromethane derivatives, S 228.

Avison, A. W. D., Morrison, A. L., and Parkes, M. W., tetrahydrodibenzopyran derivatives isomeric with tetrahydrocannabinols, 952.

Awad, W. I. See **Moubasher, R., and Schönberg, A.**

B.

Baddar, F. G., the electronic interpretation of the Strecker degradation, S 163.

Baddar, F. G., Hilal, O. M. M., and Sugden, S., the determination of magnetic susceptibility by the Gouy method, 132.

Baddar, F. G., and Mikhail, H., the magnetic susceptibility of certain organic compounds. Part II. The constitution of picric acid, naphthalene, and naphthalene picrate, 2927.

Baddeley, G., the acylation of naphthalene by the Friedel-Crafts reaction, S 99.
the alkylation of acetophenone and phenyl cyanide by the Friedel-Crafts reaction, S 229.

Baddley, J., Clark, V. M., Michalski, J. J., and Todd, A. R., studies of phosphorylation. Part V. The reaction of tertiary bases with esters of phosphorous, phosphoric, and pyrophosphoric acids; a new method of selective debenzoylation, 815.

Baddley, J., Michelson, A. M., and Todd, A. R., nucleotides. Part II. A synthesis of adenosine triphosphate, 582.

Bader, H., Cross, L. C., Heilbron, Sir I., and Jones, E. R. H., researches on acetylenic compounds. Part XVIII. The addition of thioacetic acid to acetylenic hydrocarbons. The conversion of monosubstituted acetylenes into aldehydes and 1:2-dithiols, 619.

Badger, G. M., the relative reactivity of aromatic double bonds, 456.
an interpretation of some elimination reactions in disubstituted dihydro-derivatives of aromatic compounds, 2497.

- Badger, G. M., Campbell, J. E., and Cook, J. W.**, polycyclic aromatic hydrocarbons. Part XXXIV. Cyclisation of $\alpha\beta$ -diphenylglutaric anhydride, 1084.
- Badger, G. M., Carruthers, W., and Cook, J. W.**, polycyclic aromatic hydrocarbons. Part XXXV. Isomerisation in the perinaphthene series, 1768.
- isomerisation reactions. Part II., 2044.
