

# INDEX OF AUTHORS, 1953.

## A.

- Abadir, B. J., Cook, J. W., and Gibson, D. T.**, synthesis of polymethylnaphthalenes, 8.
- Abell, R. D.**, halogen derivatives of phenyl styryl ketone. Part II. Bromo-chloro-derivatives. Two cases of "extra" isomers, 2807.
- $\alpha$ -benzylidenepropiophenone and its halogen derivatives, 2834.
- Abell, R. D., and Siddall, W.**, halogen derivatives of phenyl styryl ketone. Part I. Bromo- and chloro-derivatives, 2804.
- Acheson, R. M., and Robinson, M. J. T.**, the bromination of acridone, 232.
- Acheson, R. M., and Sansom, B. F.**, the alleged "carbazo-acridines," 1900.
- Addison, C. C., Hodge, N., and Lewis, J.**, the liquid dinitrogen tetroxide solvent system. Part XV. Thermal and conductivity measurements on nitromethane-liquid dinitrogen tetroxide mixtures, 2631.
- Addison, C. C., and Lewis, J.**, reactions of sodium carbonate and sodium hydroxide with dinitrogen tetroxide, 1319.
- the liquid dinitrogen tetroxide solvent system. Part XIII. Factors related to the mechanism of metal-dinitrogen tetroxide reactions; the dipolar nature of dinitrogen tetroxide in the liquid state. Part XIV. Reactions of sodium, calcium, and zinc oxides with dinitrogen tetroxide and its thermal dissociation products, 1869, 1874.
- Addison, C. C., and Litherland, D.**, the properties of freshly formed surfaces. Part XVIII. Dynamic surface potentials and the adsorption process: molecular orientation in soluble films of decyl alcohol. Part XIX. Dynamic surface potentials and the desorption process: the spreading of decyl alcohol films. Part XX. An examination of the use of dynamic surface potentials in the study of adsorption rates. Part XXI. The influence of chain length and structure on the surface potentials of aqueous solutions of alcohols, 1143, 1150, 1155, 1159.
- Addy, L. E., and Baker, J. W.**, reactions between trimethyl-ethylene and formaldehyde catalysed by stannic chloride, 4111.
- Aebi, A., Barton, D. H. R., and Lindsey, A. S.**, sesquiterpenoids. Part III. The stereochemistry of caryophyllene, 3124.
- Ahmad, R., and Weedon, B. C. L.**, studies in the polyene series. Part XLIX. Acetylenic alcohols from methoxy-acetone, and their conversion into unsaturated aldehydes, 2125.
- carotenoids and related compounds. Part I. Total synthesis of "all-trans"-methylbixin and of a diketone with the capsorubin chromophore. Part III. The synthesis of a bisnorocrotin, a pentaene degradation product of azafrin, and other polyenes. Part IV. A new synthesis of the capsorubin chromophore, 3286, 3299, 3815.
- Ainley, A. D., Curd, F. H. S., Hepworth, W., Murray, A. G., and Vasey, C. H.**, the synthesis of trypanocides. Part II. 4-Amino-6-(2-amino-1 : 6-dimethylpyrimidinium-4-amino)-1 : 2-dimethylquinolinium ("anticyde") salts and related compounds, 59.
- Akhnookh, Y.** See Tadros, W., 186.
- Albert, A., and Brown, D. J.**, pteridine studies. Part IV. 4 : 6- and 4 : 7-Dihydroxypteridine, 74.
- Albon, N., Bell, D. J., Blanchard, P. H., Gross, D., and Rundell, J. T.**, kestose: a trisaccharide formed from sucrose by yeast invertase, 24.
- Alford, E. J., and Schofield, K.**, cinnolines. Part XXX. The nature of the C<sub>3</sub>-position. The synthesis of 3-methyl-, 3-chloro-, and 3-bromo-cinnoline; also, of cinnoline and the Bz-nitrocinnolines. Part XXXI. The nature of the C<sub>3</sub>-position. Some experiments with 3-substituted cinnolines, 609, 1811.
- Allan, J. L. H., and Whiting, M. C.**, the preparation and properties of *cis*- and *trans*-pent-2-en-4-yne, 3314.
- Allen, F. L., and Suschitzky, H.**, heterocyclic fluorine compounds. Part I. Monofluoro-1 : 2 : 3 : 4-tetrahydrocarbazoles and monofluorocarbazoles, 3845.
- Ames, D. E., Bowman, R. E., and Grey, T. F.**, synthesis of some methyl-substituted 2 : 3 : 6-trihydroxypyridines, 3008.
- Andersen, F. A.** See Callomon, H. J., 3709.
- Anderson, D. G., Smith, J. C., and Ballings, R. J.**, the synthesis and the physical properties of alkyl-naphthalenes, 443.
- Anderson, J. S., and Johnson, K. D. B.**, the oxides of uranium. Part III. The system UO<sub>2</sub>-MgO-O, 1731.
- Andrews, K. J. M., Bergel, F., and Morrison, A. L.**, thia- and dithia-alkanebis(quaternary ammonium) salts as neuromuscular- and ganglion-blocking agents, 2998.
- Andrews, P., Ball, D. H., and Jones, J. K. N.**, the isolation of oligosaccharides from gums and mucilages. Part I, 4090.
- Andrews, P., Hough, L., and Jones, J. K. N.**, mannose-containing polysaccharides. Part III. The polysaccharides in the seeds of *Iris ochroleuca* and *I. sibirica*, 1186.
- Anet, E. F. L. J., Lythgoe, B., Silk, M. H., and Trippett, S.**, oenanthotoxin and cicutoxin. Isolation and structures, 309.
- Angyal, C. L., and Le Févre, R. J. W.**, 3-phenylisooxazol-5-one, 2181.
- Angyal, S. J., Barlin, G. B., and Wailes, P. C.**, the Sommelet reaction. Part V. *N*-Heteroaromatic aldehydes, 1740.
- Angyal, S. J., Macdonald, C. G., and Matheson, N. K.**, the structure of the di-*O*-isopropylidene derivatives of (-)-inositol and pinitol, 3321.
- Angyal, S. J., Penman, D. R., and Warwick, G. P.**, the Sommelet reaction. Part IV. The preparation of aliphatic aldehydes. Part VI. Methyleneamines. A proposed mechanism for the reaction, 1737, 1742.
- Archer, B. L., Hudson, R. F., and Wardill, J. E.**, the mechanism of hydrolysis of acid chlorides. Part IV. Salt effects, 888.
- Arcus, C. L., and Coombs, M. M.**, the mechanism of the Schmidt reaction with *o*-benzoylbenzoic acid, 3698.
- Arcus, C. L., and Greenwood, D. B.**, the Hofmann reaction with  $\alpha$ - and  $\beta$ -hydroxy-amides: reactions of the intermediate isocyanates, 1937.
- Arcus, C. L., and Mesley, R. J.**, the interaction of triphenyl-methanol, fluoren-9-ol, and diphenylmethanol with hydrazoic acid in the presence of sulphuric acid, 178.
- Armitage, J. B., Cannon, J. R., Johnson, A. W., Parker, L. F. J., Smith, E. L., Stafford, W. H., and Todd, A. R.**, chemistry of the vitamin B<sub>12</sub> group. Part III. The course of hydrolytic degradations, 3849.
- Ashley, J. N., Davis, B. M., Nineham, A. W., and Slack, R.**, tetrazolium compounds. Part I. Tetrazolium compounds containing substituted phenyl and heterocyclic rings, 3881.
- Ashurst, K. G., and Higginson, W. C. E.**, the kinetics of the reaction between thallium(III) and iron(II) in aqueous perchloric acid, 3044.
- Asperger, S., Murati, I., and Cupahin, O.**, kinetics of the reaction of potassium ferrocyanide and nitrosobenzene: the catalytic action of mercuric ions and ultra-violet light, 1041.
- Aspinall, G. O., Hirst, E. L., Moody, R. W., and Percival, E. G. V.**, the hemicelluloses of esparto grass (*Stipa tenacissima*, L.). The arabinose-rich fraction, 1631.
- Aspinall, G. O., Hirst, E. L., Percival, E. G. V., and Telfer, R. G. J.**, studies on fructosans. Part IV. A fructosan from *Dactylis glomerata*, 337.
- Aspinall, G. O., Hirst, E. L., Percival, E. G. V., and Williamson, I. R.**, the mannans of ivory nut (*Phytelphas macrocarpa*). Part I. The methylation of mannan A and mannan B, 3184.
- Astill, B. D., and Roberts, J. C.**, studies in mycological chemistry. Part I. Flaviolin, 2(or 3) : 5 : 7-trihydroxy-1 : 4-naphthaquinone, a metabolic product of *Aspergillus citricus* (Wehmer) Mosseray, 3302.
- Atkinson, B., and Trenwith, A. B.**, the thermal decomposition of tetrafluoroethylene, 2082.

- Atkinson, R. O., Poppelsdorf, F., and Williams, G.**, a new synthesis of cystine and lanthionine, 580.
- Augood, D. R., Cadogan, J. I. G., Hey, D. H., and Williams, G. H.**, homolytic aromatic substitution. Part IV. Partial rate factors for the phenylation of fluorobenzene, bromobenzene, and iodobenzene, 3412.
- Augood, D. R., Hey, D. H., and Williams, G. H.**, homolytic aromatic substitution. Part III. Ratio of isomerides formed in the phenylation of chlorobenzene. Competitive experiments on the phenylation of *p*-dichlorobenzene and 1:3:5-trichlorobenzene. Partial rate factors for chlorobenzene, 44.
- Aynsley, E. E.**, the preparation and properties of tellurium dichloride, 3016.
- Aynsley, E. E., and Hetherington, G.**, new pyridine complexes of tellurium tetrafluoride, 2802.
- Aynsley, E. E., Nichols, R., and Robinson, P. L.**, reactions of iodine pentafluoride with inorganic substances. Iodine oxytrifluoride and iodyl fluoride, 623.
- Ayrey, G., Barnard, D., and Moore, C. G.**, the use of radioactive sulphur [<sup>35</sup>S] in a study of the oxidation of cyclohexyl methyl sulphide with *tert*-butyl hydroperoxide, 3179.
- Aziz, G.** See **Tadros, W.**, 186.
- B.**
- Bacon, J. S. D., and Bell, D. J.**, a new trisaccharide produced from sucrose by mould invertase, 2528.
- Baddley, G., Makar, S. M., and Ivinson, M. G.**, interaction of  $\beta$ -aroylacrylic acids and aluminium chloride, 3969.
- Baddley, G., and Pickles, W.**, transfer of hydride ion, 3726.
- Baddley, G., Taylor, H. T., and Pickles, W.**, preparation of cyclopentenones from the products of interaction of acid chlorides and olefins, 124.
- Baddley, G., and Williamson, R.**, preparation and isomerisation of aromatic ketones and keto-acids, 2120.
- Baddley, G., Wrench, E., and Williamson, R.**, reaction of indane and tetralin with excess of acetylating agent, 2110.
- Baddley, J., Buchanan, J. G., and Thain, E. M.**, the polysaccharide of *Penicillium italicum* Sopp, 1944.
- Baddley, J., Cantoni, G. L., and Jamieson, G. A.**, structural observations on "active methionine," 2662.
- Baddley, J., and Thain, E. M.**, coenzyme A. Part VII. Pantetheine-2' and -2':4' phosphates and a new method for the synthesis of cyclic phosphates. Part VIII. The synthesis of pantetheine-4' phosphate (*Acetobacter* stimulatory factor), a degradation product of the coenzyme, 903, 1610.
- Bader, H., and Downer, J. D.**, 2-thymyloxymethylglyoxalines and related compounds as potential antihistamines, 1636. 1:3:7:8-Tetramethylxanthine, 1641.
- Badger, G. M., and Buttery, R. G.**, aromatic azo-compounds. Part IV. Absorption spectra of azo- and azoxy-compounds, 2156.
- Badger, G. M., Buttery, R. G., and Lewis, G. E.**, aromatic azo-compounds. Part I. Oxidation of *cis*- and *trans*-azobenzene, 2143.
- Badger, G. M., and Lewis, G. E.**, aromatic azo-compounds. Part II. Oxidation of substituted azobenzenes. Part III. Oxidation of azonaphthalenes and phenylazonaphthalenes, 2147, 2151.
- Badger, G. M., and Pettit, R.**, polynuclear heterocyclic systems. Part VII. Syntheses using the Elbs reaction, 2774.
- Baer, S., and Stein, G.**, the decomposition of hydrogen peroxide by ceric salts. Part I. The action of ceric sulphate, 3176.
- Bafna, S. L., and Gold, V.**, the hydrolysis of acetic anhydride. Part II. Catalysis by pyridine, 1406.
- Bailey, A. S., Polgar, N., and Robinson, Sir R.**, experiments on the synthesis of mycolipenic acid. Part I, 3031.
- Bailey, J. M.** See **Peat, S.**, 1422, and **Whelan, W. J.**, 1293.
- Bak, B.** See **Callomon, H. J.**, 3709.
- Baker, J. W.** See **Addy, L. E.**, 4111.
- Baker, W., Bondy, H. F., Gumb, J., and Miles, D.**, 3:4-, 3:5-, and 3:6-dimethylcatechol, 1615.
- Baker, W., Chadderton, J., Harborne, J. B., and Ollis, W. D.**, a new synthesis of isoflavones. Part I, 1852.
- Baker, W., Godsell, J. A., McOmie, J. F. W., and Ulbricht, T. L. V.**, structure and configuration of the two solid dimerides of isosafrole, 4058.
- Baker, W., Harborne, J. B., and Ollis, W. D.**, a new synthesis of isoflavones. Part II. 5:7:2'-Trihydroxyisoflavone, 1860.
- Baker, W., and Howes, C. S.**, stereochemistry of arylidene-cyanoacetic acids and arylarylideneacetone nitriles, 119.
- Baker, W., McOmie, J. F. W., and Miles, D.**, synthesis of aurantiogliocladin, 820.
- Baker, W., Warburton, W. K., and Breddy, L. J.**, a two-step preparation of azulene from naphthalene or tetralin, 4149.
- Balfe, M. P., Doughty, M., and Kenyon, J.**, displacements of anionoid substituents in phthalic anhydrides by pyridine and  $\beta$ -picoline, 2470.
- Ball, D. H.** See **Andrews, P.**, 4090.
- Ball, G. T.** See **Maxted, E. B.**, 1509, 3153.
- Banks, A. A., Davies, A., and Rudge, A. J.**, the determination of the surface tension and viscosity of liquid chlorine trifluoride, 732.
- Banus, J.**, perfluoroalkyl compounds of nitrogen. Part I. Perfluoroalkyl-nitroso- and nitro-compounds, 3755.
- Barany, H. C., and Pianka, M.**, effect of alkyl substitution on absorption spectra, 2217.
- Barker, A., and Barker, C. C.**, 3:6-disubstituted fluorenes. Part I. The attempted introduction of a 6:6'-methylene bridge directly into 3:3'-diaminodiphenyl and some of its derivatives, 2034.
- Barker, C. C.**, the dehydration and racemisation of *N*-acyl-L-aspartic acids by acetic anhydride, 453.
- Barker, C. C., and Casson, F. D.**, the preparation and deamination of 4:4'-diamino-3:3'-dinitrodiphenyl, 4184.
- Barker, C. C.** See also **Barker, A.**, 2034.
- Barker, S. A., Bebbington, A., and Bourne, E. J.**, the mode of action of the Q-enzyme of *Polytomella coeca*, 4051.
- Barker, S. A., Bourne, E. J., and Stacey, M.**, studies of *Aspergillus niger*. Part I. The structure of the polyglucosan synthesised by *Aspergillus niger* 152, 3084.
- Barker, S. A., and Carrington, T. R.**, studies of *Aspergillus niger*. Part II. Transglycosidation by *Aspergillus niger*, 3588.
- Barlin, G. B.** See **Angyal, S. J.**, 1740.
- Barnard, D.** See **Ayrey, G.**, 3179.
- Barnden, R. L., Evans, R. M., Hamlet, J. C., Hems, B. A., Jansen, A. B. A., Trevett, M. E., and Webb, G. B.**, some preparative uses of benzylpenicillinic ethoxyformic anhydride, 3733.
- Barnes, C. S., and Barton, D. H. R.**, triterpenoids. Part XI. Some stereospecific reactions in the lanostadienol (lanosterol) series, 1419.
- Barnes, C. S., Barton, D. H. R., Cole, A. R. H., Fawcett, J. S., and Thomas, B. R.**, triterpenoids. Part IX. The constitution of lanostadienol (lanosterol), 571.
- Barnes, C. S., Barton, D. H. R., Fawcett, J. S., and Thomas, B. R.**, triterpenoids. Part X. The stereochemistry of lanostadienol (lanosterol), 576.
- Barnes, J. H., Cookson, R. C., Dickson, G. T., Elks, J., and Poole, V. D.**, the synthesis of thyroxine and related substances. Part XIII. Some further analogues of thyroxine, 1448.
- Barnes, J. H., Elks, J., Stephens, F. F., and Waller, G. J.**, the synthesis of thyroxine and related substances. Part XII. The preparation of some simple analogues of thyroxine, 764.
- Barrer, R. M., Baynham, J. W., and McCallum, N.**, hydrothermal chemistry of silicates. Part V. Compounds structurally related to analcite, 4035.
- Barrer, R. M., and Hinds, L.**, ion-exchange in crystals of analcite and leucite, 1879.
- Barrer, R. M., Hinds, L., and White, E. A.**, the hydrothermal chemistry of silicates. Part III. Reactions of analcite and leucite, 1466.
- Barrer, R. M., and McCallum, N.**, hydrothermal chemistry of silicates. Part IV. Rubidium and caesium aluminosilicates, 4029.
- Barrett, P. A., Curd, F. H. S., and Hepworth, W.**, the synthesis of trypanocides. Part I. Some pyrimidylaminoquinoline derivatives, 50.
- Barrott, J., Denton, I. N., and Lamberton, A. H.**, nitramines and nitramides. Part IV. The acid-catalysed decomposition of primary nitramines, 1998.
- Barry, P. J., and James, A. M.**, some physical investigations of the behaviour of bacterial surfaces. Part II. The variation of the electrophoretic mobility of *Aerobacter aerogenes* with the age of the culture and the nature of the culture medium 1264.

- Barry, V. C., and Mitchell, P. W. D., properties of periodate-oxidised polysaccharides. Part I. The preparation of polymeric substances containing nitrogen from oxidised starches. Part II. The structure of some nitrogen-containing polymers, 3610, 3631.  
the condensation of glyoxal and isonicotinoylhydrazine (isoniazid), 3723.
- Barton, D. H. R., and Bruun, T., some observations on the constitution of usnic acid, 603.
- Barton, D. H. R., and de Mayo, P., triterpenoids. Part XIII. Phyllanthol, the first hexacarbo-cyclic triterpenoid. Part XIV. The constitution of quinovic acid, 2178, 3111.
- Barton, D. H. R., and Eastham, J. F., steroidal alkaloids. Part I. The functional groups of cevine, 424.
- Barton, D. H. R., Head, A. J., and Williams, R. J., stereospecificity in thermal elimination reactions. Part III. The pyrolysis of (-)-menthyl benzoate, 1715.
- Barton, D. H. R., and Thomas, B. R., triterpenoids. Part XII. The lanosterol analogue of vitamin D<sub>3</sub>, 1842.
- Barton, D. H. R. See also Aebi, A., 3124, and Barnes, C. S., 571, 576, 1419.
- Bate-Smith, E. C., and Swain, T., the isolation of 2':4':4'-trihydroxychalkone from yellow varieties of *Dahlia variabilis*, 2185.
- Bates, G. R. See Davison, W. H. T., 2607.
- Battersby, A. R., Openshaw, H. T., and Wood, H. C. S., the synthesis of emetine and related compounds. Part II. Synthesis of (±)-rubremetinium bromide, 2463.
- Baughan, E. C. See Wiles, L. A., 933.
- Baxter, J. N., and Cymerman-Craig, J., the chemotherapy of tuberculosis. Part IV. Some *N*-substituted nicotinamides and nicotinamides, 1490.  
the preparation of 1-*p*-diphenylethyleneimine, 1940.
- Baxter, J. N., Cymerman-Craig, J., and Gilbert, W. S., hydrophilic derivatives of 4-aminodiphenyl, 2400.
- Baynham, J. W. See Barrer, R. M., 4035.
- Beale, R. N., and Roe, E. M. F., ultra-violet absorption spectra of *trans*- and *cis*-stilbenes and their derivatives. Part I. *trans*- and *cis*-stilbenes, 2755.
- Beaton, J. M., Johnson, J. D., McKean, L. C., and Spring, F. S., triterpene resins and related acids. Part XXVII. Oleana-9(11):13(18)-dienol and oleana-9(11):18-dienol. The conversion of β-amyrin into germanicol, 3660.
- Bebington, A. See Barker, S. A., 4051.
