

JOURNAL: INDEX OF AUTHORS, 1960

A

- Abel, E. W.** The alkylthiotrimethylsilanes: preparations and some properties, 4406.
- Abel, E. W., Singh, A., and Wilkinson, G.** Some π -cyclopentadienyl-molybdenum and -tungsten carbonyls, 1321.
- Abraham, M. H.** Organometallic compounds. Part I. The autoxidation of dialkylzincs, 4130.
- Acheson, R. M., Adcock, B., Glover, G. M., and Sutton, L. E.** The bromination and nitration of acridine 10-oxide, 3367.
- Acheson, R. M., Booth, D. A., Brettle, R., and Harris, A. M.** The synthesis of some acylglycines and related oxazolones, 3457.
- Acheson, R. M., and Poulter, P. W.** Addition reactions of heterocyclic compounds. Part V. Some pyrazoles and methyl acetylenedicarboxylate, 2138.
- Acheson, R. M., and Taylor, G. A.** Addition reactions of heterocyclic compounds. Part IV. Dimethyl acetylenedicarboxylate and some pyridines. Part VI. The hydrolysis of tetramethyl 4*H*-quinolizine-1,2,3,4-tetracarboxylate to indolizines, 1691, 4600.
- Adams, A., and Smith, T. D.** The formation and photochemical oxidation of uranium(IV) citrate complexes, 4846.
- Adams, D. M., Chatt, J., and Shaw, B. L.** The infrared spectra of some alkylplatinum complexes, and the influence of various ligands on the Pt-C bond strength, 2047.
- Adams, E. P., Ayad, K. N., Doyle, F. P., Holland, D. O., Hunter, W. H., Nayler, J. H. C., and Queen, A.** Antituberculous sulphur compounds. Part III. Substituted propylene sulphides, 2665.
- Adams, E. P., Doyle, F. P., Hatt, D. L., Holland, D. O., Hunter, W. H., Mansford, K. R. L., Nayler, J. H. C., and Queen, A.** Antituberculous sulphur compounds. Part I. New mercapto-derivatives of alkanols, sulphides, and hydroxy-sulphides, 2649.
- Adams, E. P., Doyle, F. P., Hunter, W. H., and Nayler, J. H. C.** Antituberculous sulphur compounds. Part IV. Some dimercaptopropyl esters and related dithiuronium bromides, 2674.
- Adcock, B.** See **Acheson, R. M.**, 3367.
- Addison, C. C., and Gatehouse, B. M.** The infrared spectra of anhydrous transition-metal nitrates, 613.
- Addison, C. C., and Hathaway, B. J.** Thermal stability and solution properties of copper nitrate-dinitrogen tetroxide, 1468.
- Addison, C. C., Hathaway, B. J., Logan, N., and Walker, A.** Solution properties of anhydrous copper nitrate in ethyl acetate, methyl cyanide, and nitromethane, 4308.
- Addison, C. C., and Smith, B. C.** The viscosity of dinitrogen tetroxide and its binary mixtures with organic solvents, 1783.
- Adler, T. K., and Albert, A.** Diazaindenes ("azaindoles"). Part I. Ionization constants and spectra, 1794.
- Ahlers, W. C.** See **De Maine, P. A. D.**, 211.
- Ahmad, A. S.** See **Elkasefi, M. A.-F.**, 2272.
- Ahmed, A. K. S., and Wilkins, R. G.** Factors influencing the rates of dissociation of metal complexes. Part II. The dissociation of complexes of nickel with various diamines. Part III. The dissociation of bis(ethylenediamine)- and tris(ethylenediamine)-nickel complexes and of the racemic 2,3-diaminobutane analogues, 2895, 2901.
- Ahmed, H., and Campbell, N.** The Reformatsky reaction on the tetralones and indanones, 4115.
- Ahmed, S. R., and Hall, D. M.** Steric effects in 2,2'-bridged biphenyls with a heterocyclic bridging ring. Part III. The ultraviolet absorption spectra of some dihydrodibenzazepinium compounds, 4165.
- Ainscough, J. B., and Caldin, E. F.** The kinetics from room temperature to about -100° of the reactions between certain acids and the anion of 2,4,6-trinitrotoluene, in ethanol, 2407.
- Aitkin, I. M., and Reid, D. H.** Conjugated cyclic hydrocarbons and their heterocyclic analogues. Part III. The addition of benzyne and 1-bromoacenaphthylene to indeno[2,1-*a*]perinaphthene, 663.
- Akhtar, S.** See **Maxted, E. B.**, 1995.
- Akisanaya, A., Bevan, C. W. L., Hirst, J., Halsall, T. G., and Taylor, D. A. H.** West African timbers. Part III. Petroleum extracts from the genus *Entandrophragma*, 3827.
- Albert, A.** Ionization constants of heterocyclic substances. Part IV. The effect of a tautomerizable α -substituent on the ionization of a second substituent, 1020.
- Naphthyridines: ionization constants and spectra of four parent substances, 1790.
- Purine-8-carboxylic acid, 4705.
- Albert, A., and Reich, F.** Pteridine studies. Part XI. The decomposition of 2-hydroxypteridine by alkali, 1370.
- Albert, A., and Spinner, E.** The vibration spectra and structures of the hydroxypyridines and hydroxypyrimidines in aqueous solution, 1221.
- Albert, A.** See also **Adler, T. K.**, 1794.
- Allen, F. L., Jewell, R. E., and Suschitzky, H.** Fluorine-substituted *N*-alkylanilines and *N*-alkyl-*N*-phenylhydrazines, 5259.
- Allen, G., Ellington, P. S., and Meakins, G. D.** The carbonyl doublet in the infrared spectrum of cyclopentanone, 1909.
- Allen, J. F., and Chapman, N. B.** Di-*N*-substituted 2-halogenoethylamines. Part III. *N*-2-(or 3 or 4)-Chlorobenzyl-*N*-ethyl derivatives: synthesis, reactivity, and pharmacology, 1482.
- Allen, K. W.** The systems water-chlorine-calcium chloride and water-chlorine-barium chloride, 3162.
- Allen, M. J.** A comparative study of hydrolysis rates of some indole alkaloids, 4904.
- Allen, M. J., Siragusa, J. A., and Pierson, W.** The preparation of mixed pinacols by cathodic reduction, and a study of some of their chemical reactivities, 1045.
- Allison, W. R., and Newbold, G. T.** A novel isomerization of a homophthalic acid derivative, 2512.
- Allport, D. C., and Bu'Lock, J. D.** Biosynthetic pathways in *Daldinia concentrica*, 654.
- Ames, D. E.** Synthesis of 1-(1-methylpyrrolid-3-yl)-1,1-diphenylbutan-2-one, 2780.
- Preparation of some potential schistosomicidal agents, 3163.
- Amin, E. S.** The wax of the silk-worm ecdysis skin. Part I. The fatty acids, 1410.
- Characterisation of amino-acids as *p-p'*-nitrophenylazobenzoyl derivatives, 1953.
- Anbar, M., Halmann, M., and Pinchas, S.** The infrared absorption of ^{18}O -labelled salts. Part I. Silver nitrate and potassium nitrate, 1242.
- Anderson, D. M. W., Campbell, N., Craig, J. T., and Crombie, D. A.** The preparation and properties of β -9-fluorenylidenepropionic acid, 781.
- Anderson, J. M., Campbell, A. D., Emerson, G. W., and Murray, J.** Methylperylene. Part II. Synthesis of 2,8- and 3,9-dimethylperylene, 410.
- Andon, R. J. L., Biddiscombe, D. P., Cox, J. D., Handley, R., Harrop, D., Herington, E. F. G., and Martin, J. F.** Thermodynamic properties of organic oxygen compounds. Part I. Preparation and physical properties of pure phenol, cresols, and xylenols, 5246.

- Andrews, K. J. M., and Atherton, F. R.** Phosphates formed from dialkyl phosphites and 2-methyl-1,4-naphthoquinone, 4682.
- Angus, H. J. F., Blair, J. M., and Bryce-Smith, D.** Liquid-phase photolysis. Part III. Isomerisation of benzene and some benzene derivatives to fulvenes, 2003.
- Angus, H. J. F., and Bryce-Smith, D.** Synthesis of fulvene by Thiele's method, 1409.
- Liquid-phase photolysis. Part IV. A stable adduct of benzene and maleic anhydride, 4791.
- Ansell, M. F., and Ducker, J. W.** Reduced cyclic compounds. Part XI. The preparation of *trans*-deca-5,9-dienoic acid and its cyclisation to Δ^9 -octal-1-one, 5219.
- Appel, H. H., Connolly, J. D., Overton, K. H., and Bond, R. P. M.** Sesquiterpenoids. Part II. The constitution and stereochemistry of drimenin, isodrimenin, and confertifolin, 4685.
- Applegarth, D. A., and Buchanan, J. G.** The paper chromatography of triphenylmethyl ethers of carbohydrate derivatives, 4706.
- Archibald, A. R., Hirst, E. L., Manners, D. J., and Ryley, J. F.** Studies on the metabolism of the protozoa. Part VIII. The molecular structure of a starch-type polysaccharide from *Chilomonas paramecium*, 556.
- Arcus, C. L., and Barrett, G. C.** Reactions of organic azides. Part IX. Ring-expansions leading to 2-phenyl-(*iso*)-quinolono- and -(*iso*)quinolino-(4',3'-4,5)thiazole and (*iso*)quinolono-(3',4'-2,3)thiophen. Attempted rearrangements of fluorenone hydrazone, 2098.
- Arcus, C. L., Cort, L. A., Howard, T. J., and Loc, L. B.** Olefinic additions with asymmetric reactants. Part V. The asymmetric hydrogenation of (-)-3-methyl-4-phenylbut-3-en-2-ol and of (+)- α -pinene, 1195.
- Arigoni, D., Barton, D. H. R., Bernasconi, R., Djerassi, C., Mills, J. S., and Wolf, R. E.** The constitutions of dammarenic and nycanthic acid, 1900.
- Armarego, W. L. F.** The synthesis of two dinaphthothiophens, 433.
- Aroney, M., and Le Fèvre, R. J. W.** Molecular polarisability. The conformations of various *N*-substituted anilines, piperidines, and piperazines, 2161.
- Molecular polarisability. Conformations of certain arylamines, hydrazines, etc., 3600.
- Aroney, M., Le Fèvre, R. J. W., and Chang, S.-S.** Molecular polarisability: the molar Kerr constants of mono- and di-methoxy-, -acetoxy-, and -ethoxycarbonyl-benzenes, 3173.
- Aroney, M., Le Fèvre, R. J. W., and Parkins, G. M.** Molecular polarisability. The molar Kerr constants and dipole moments of six polyethylene glycols as solutes in benzene, 2890.
- Aroney, M., Le Fèvre, R. J. W., and Somasundaram, K. M.** Molecular polarisability. The molar Kerr constant of ferrocene, 1812.
- Arthur, H. R., and Lee, C. M.** An examination of the Rutaceae of Hong Kong. Part V. A new coumarin, avicennin, from the bark of *Zanthoxylum avicennae*, 4654.
- Arthur, H. R., and Tam, S. W.** Mattheucin (a new flavanoid glycoside) and other constituents of the Ericaceae of Hong Kong, 3197.
- Asher, R. C., and Gregg, S. J.** The production of active solids by thermal decomposition. Part XII. The calcination of hydrous titania, 5057.
- Ashley, J. N., Berg, S. S., and MacDonald, R. D.** The search for chemotherapeutic amidines. Part XVI. Amidino-anilino-1,3,5-triazines and related compounds, 4525.
- Ašperger, S., Murati, I., and Pavlović, D.** Kinetics and mechanism of the decomposition of complex cyanides of iron(II) and molybdenum(IV), 730.
- Aspinall, G. O., and Cairncross, I. M.** The constitution of a xylan from Cocksfoot grass (*Dactylis glomerata*), 3877.
- The catalytic oxidation of rye-flour arabinoxylan, 3998.
- Aspinall, G. O., Cairncross, I. M., Sturgeon, R. J., and Wilkie, K. C. B.** A trisaccharide from the enzymic degradation of two arabinoxylans, 3881.
- Aspinall, G. O., Johnston, M. J., and Stephen, A. M.** Plant gums of the genus *Khaya*. Part II. The major part of *Khaya senegalensis* gum, 4918.
- Aspinall, G. O., and Nicolson, A.** The catalytic oxidation of European larch ϵ -galactan, 2503.
- Atherton, F. R.** See **Andrews, K. J. M.**, 4682.
- Aubrey, D. W., Lappert, M. F., and Pyszora, H.** Infrared spectra of open-chain boron-nitrogen compounds, 5239.
- Ayad, K. N.** See **Adams, E. P.**, 2665.
- Ayerst, G. G., and Schofield, K.** *cis*- and *trans*-3,4-Cycloheptanopiperidine and related compounds, 3445.
- Aylett, B. J., and Ellis, I. A.** The preparation of iodosilanes from phenylchlorosilanes, 3415.
- Ayoub, S.** See **El-Abbady, A. M.**, 2556.

B

- Backhurst, J. D.** Bromination of *t*-butylbenzene, 1958.
- Bacon, R. G. R., and Doggart, J. R.** Oxidation by persulphate. Part II. Oxidation effects with a methyl group and some substituted methyl groups on a benzene nucleus, 1332.
- Bacon, R. G. R., and Guy, R. G.** Thiocyanogen chloride. Part III. Preparation of solutions in acetic acid and their application in the thiocyanation of aryl ethers and anilides, 318.
- Bacon, R. G. R., and Irwin, R. S.** Thiocyanogen trichloride. Part II. Derived dichlorothiocyanato-compounds, particularly from alcohols and amines, and their decomposition products, 5079.
- Bacon, R. G. R., and Munro, D. J.** Oxidation by persulphate. Part III. Silver-catalysed oxidation of the six dimethylphenols and of 2,4,6-trimethylphenol, 1339.
- Baddar, F. G., and Sherif, S.** β -Aroylpropionic acids. Part XV. The preparation and lactonisation of β -aroyl- α - and β -arylpropionic acids, 2309.
- Baddar, F. G.** See also **El-Abbady, A. M.**, 2556, 3420.
- Baddeley, G., Heaton, B. G., and Rasburn, J. W.** The interaction of decalin and Friedel-Crafts acetylating agent. Part II, 4713.
- Baddeley, G. V., Halsall, T. G., and Jones, E. R. H.** The chemistry of triterpenes and related compounds. Part XXXVII. The stereochemistry of the D/E ring junction of hydroxyhopanone, 1715.
- Badger, G. M., and Bradbury, R. B.** The alkaloids of *Kreysigia multiflora* Reichb. Part I. Isolation, 445.
- Badger, G. M., Jackson, G. D. F., and Sasse, W. H. F.** Synthetic applications of activated metal catalysts. Part XI. A comparative study of the toxic effects of pyridine and 2,2'-bipyridyl on some Raney catalysts, 4438.
- Badger, G. M., and Kimber, R. W. L.** The formation of aromatic hydrocarbons at high temperatures. Part VI. The pyrolysis of tetralin. Part VII. The pyrolysis of indene, 266, 2746.
- Badger, G. M., Kowanko, N., and Sasse, W. H. F.** Synthetic applications of activated metal catalysts. Part IX. A comparison of the desulphurising abilities of some transition metals. Part X. The desulphurisation of thionaphtheno[3,2-*b*]thionaphthen, 1658, 2969.
- Badger, G. M., Lewis, G. E., and Napier, I. M.** The formation of aromatic hydrocarbons at high temperatures. Part VIII. The pyrolysis of acetylene, 2825.
- Badger, G. M., and Spotswood, T. M.** The formation of aromatic hydrocarbons at high temperatures. Part IX. The pyrolysis of toluene, ethylbenzene, propylbenzene, and butylbenzene. Part XI. The pyrolysis of buta-1,3-diene and of buta-1,3-diene with pyrene, 4420, 4431.
- Baggett, N., Barker, S. A., Foster, A. B., Moore, R. H., and Whiffen, D. H.** Infrared spectra of carbohydrates. Part VIII. Hydroxyfurans and hydrofuranols, 4565.
- Baggett, N., Brimacombe, J. S., Foster, A. B., Stacey, M., and Whiffen, D. H.** Aspects of stereochemistry. Part IV. Configuration and some reactions of the 1,3-*O*-benzylidene-glycerols (5-hydroxy-2-phenyl-1,3-dioxans), 2574.
- Baggett, N., Foster, A. B., Haines, A. H., and Stacey, M.** Some alkyl-*p*-phenylazobenzoates and ferrocenecarboxylates, 3528.
- Bailey, A. S.** An improvement in the preparation of benzotrifuroxan; further examples of complex-formation by this reagent, 4710.
