

INDEX OF AUTHORS, 1973

A

- Abraham, Michael H.** Thermodynamic parameters for ionisation and dissociation of alkyl halides in water and nonaqueous solvents. Comments on the ion-pair mechanism of nucleophilic substitution, 1893.
- Abraham, Michael H., and Dorrell, Francis J.** Substitution at saturated carbon. Part XV. The effect of *t*-butyl alcohol-methanol mixtures on the free energy of reactants and transition states in the substitution of tetraethyltin by mercury(II) salts, 444.
- Abraham, Michael H., and Grellier, Priscilla L.** Substitution at saturated carbon. Part XVI. Steric effects in the S_E2 reaction, 1132.
- Abraham, R. J., and Rossetti, Z. L.** Rotational isomerism. Part XV. The solvent dependence of the conformational equilibria in *trans*-1,2- and *trans*-1,4-dihalogenocyclohexanes, 582.
- Abraham, Raymond J., and Wileman, David F.** The solvent dependence of fluorine chemical shifts. Part II. Anisotropic and polar solvents, 1521.
- Abraham, Roy J., Wileman, David F., and Bedford, Geoffrey R.** The solvent dependence of fluorine chemical shifts. Part I, 1027.
- Adams, Christopher H. M., Cawley, David J., and Mackenzie, Kenneth.** Sequential Wagner-Meerwein rearrangements of polychlorinated complex cations derived from monodechloroisodrin and monodechloraldrin, and the 1H nuclear magnetic resonance spectra of polychloropolycyclic ketones and dechloraldrin derivatives, 909.
- Agrawal, Mahesh C., and Mushran, S. P.** Mechanism of oxidation of aldoses by chloramine T, 762.
- Ahmed, Mahmood, Davies, A. Keith, Phillips, Glyn O., and Richards, John T.** Photochemistry of methoxyanthraquinones, 1386.
- Aiyar, Lakshmi.** See **Kundu, K. K.**, 143, 146.
- Akiyama, Hiromichi, Tachikawa, Mamoru, Furuya, Toshio, and Ouchi, Ken-ichi.** Hindered internal rotation in [^{15}N]trifluoroacetamide, 771.
- Albert, Adrien, and Taguchi, Hiroyasu.** Ultraviolet spectral correlation between the cation of an amino-*N*-heteroaromatic compound and the neutral species of the corresponding oxo-analogue, 1101.
- Alberti, Angelo.** See **Pedulli, Gian Franco**, 1816.
- Alder, Roger W., and Anderson, J. Edgar.** *peri*-Interactions in naphthalene derivatives. Low temperature nuclear magnetic resonance study of 1,8-bisdimethylamino- and 1-benzylmethylamino-8-dimethylaminonaphthalene, 2086.
- Allen, David M.** See **Owen, Eryl D.**, 95.
- Allen, David W., Grayson, Stephen J., Harness, Ian, Hutley, Barrie G., and Mowat, Ian W.** The chemistry of heteroarylphosphorus compounds. Part V. The alkaline hydrolysis of 2-furyldiphenyl-(2-thienyl)phosphonium bromide, and some mixed heteroarylmethylphosphonium salts. Relative stabilities of the forming carbanions, 1912.
- Allen, David W., Hutley, Barrie G., and Rich, Terence C.** The chemistry of heteroarylphosphorus compounds. Part IV. The effect of substituents at phosphorus on the fate of phosphobetaines in protic solvents. Studies of the mechanism of the Wittig reaction, 820.
- Allen, Frank H., Isaacs, Neil W., Kennard, Olga, and Motherwell, William D. S.** Crystal and molecular structure of abieslactone, (23*R*)-3 α -methoxy-5 α ,9 β -lanosta-7,24-diene-26,23-lactone, 498.
- Allinger, Norman L.** See **Finder, Cary J.**, 1929.
- Alwair, Khaled, and Grimshaw, James.** Electrochemical reactions. Part XIV. Carbon-halogen bond fragmentation in the radical anions from 4-(chlorostyryl)pyridines. Factors which determine the rate of such fragmentations. Part XV. Factors which determine the rate of carbon-halogen bond fragmentation in radical anions illustrated by some halogenated derivatives of quinoline, quinoxaline, and phenazine, 1150, 1811.
- Ambady, Gopal.** See **Kartha, Gopinath**, 2042.
- Anderson, J. Edgar, and Pearson, Harry.** Barriers to rotation and conformer populations of two substituted butanes, 960.
- Anderson, J. Edgar.** See also **Alder, Roger W.**, 2086.
- Andreetti, Giovanni Dario, Bocelli, Gabriele, and Sgarabotto, Paolo.** Crystal and molecular structures of two thio-pyranilydenedihydropyridine SS-dioxides, 1189.
- Andrich, O. D.** See **Yunes, R. A.**, 696.
- Anker, Adriaan P.** See **Tangerman, Albert**, 458.
- Ansell, Gerald B.** Tetrazole studies. Part II. Crystal structure of 5-bromotetrazole, 2036.
- Armstrong, Robert S., Aroney, Manuel J., Duffin, Roy K., Stootman, Heather J., and Le Fèvre, Raymond J. W.** Solute-benzene interactions; a nuclear magnetic resonance spectral, dipole moment, and Kerr effect study, 1272.
- Solute-hexafluorobenzene interactions: a nuclear magnetic resonance spectral, dipole moment, and Kerr effect study, 1362.
- Aroney, Manuel J., Calderbank, Kingsley E., and Stootman, Heather J.** Molecular polarisability. The conformations of some cyclopropyl ketones, 1365.
- Molecular polarisability. A conformational study of some substituted arylcyclopropanes, 2060.
- Aroney, Manuel J.** See also **Armstrong, Robert S.**, 1272, 1362.
- Arotzky, Judah, Darby, A. Carl, and Hamilton, John B. A.** Iodination and iodo-compounds. Part IV. The effect of substituents and solvent composition on the rate of aromatic iodination by means of the tri-iodine cation, 595.
- Arshadi, Mohammed R., and Shabrang, M.** Heats of combustion and formation of 4-phenyl-1,2,3-selenadiazole and dibenzyl diselenide, 1732.
- Ashton, David S., Singh, H., Tedder, John M., Walton, J. C., and Watt, E. A.** Free-radical substitution in aliphatic compounds. Part XXVII. Chlorination and bromination of 1-cyanobutane and cyanocyclobutane, 125.

- Ashton**, David S., **Tedder**, John M., **Walker**, Marjorie D., and **Walton**, John C. Free-radical substitution in aliphatic compounds. Part XXVIII. The gas-phase bromination of halogenocyclohexanes and halogenocyclopentanes in a fast flow reactor, 1346.
