JOURNAL OF THE CHEMICAL SOCIETY

Perkin Transactions II

A journal of physical organic chemistry

No. 7
July
1986

ROYAL SOCIETY OF CHEMISTRY

**Officers and Council of the Perkin Division
1986-87**

President

Dr. C. H. Hassall

Vice Presidents

Professor W. D. Ollis

Professor C. J. M. Stirling

Dr. A. M. Roe

Professor I. O. Sutherland

Ordinary Members

Professor J. G. Buchanan

Professor R. Grigg

Dr. J. S. Davies

Professor A. F. Hegarty

Dr. D. A. Evans

Professor G. Pattenden

Professor B. T. Golding

Dr. B. J. Price

Professor S. Trippett

Honorary Secretary/Treasurer

Professor P. G. Sammes

Chairman of the Publications & Information Board

Professor J. M. Ward

Chairman of Journals Committee

Professor P. M. Maitlis

Perkin Editorial Board

Professor I. O. Sutherland (Chairman)

Professor R. Baker

Dr. A. J. Kirby

Dr. G. M. Blackburn

Dr. S. M. Roberts

Dr. D. A. Whiting

Manager Journals

Dr. A. D. McNaught

Perkin I Transactions Editor

Dr. E. R. Smith

Perkin II Transactions Editor

Mr. H. MacGrillen

Assistant Editors

Dr. P. I. C. Berthier

Dr. S. R. Buxton

Dr. J. Whittaker

Editorial Office

The Royal Society of Chemistry, Burlington House, London, W1V 0BN

Telephone No. 01-734 9864

Information for Authors

Full details of how to submit material for publication in *Perkin Transactions 1* and *2* are given in Instructions for Authors (*J. Chem. Soc., Perkin Trans. 1* or *2*, 1986, Issue 1).

The subject matter of *Perkin Transactions 1* embraces all aspects of organic and bio-organic chemistry. These include synthetic organic chemistry of all types, organometallic chemistry, chemistry and biosynthesis of natural products, the relationship between molecular structure and biological activity, the chemistry of polymers and biological macromolecules, and medicinal and agricultural chemistry where there is originality in the science.

Perkin Transactions 2 deals with the physicochemical aspects of organic, organometallic and bio-organic chemistry including kinetic, mechanistic, structural, spectroscopic, and theoretical studies. Such topics include structure-activity relationships and physical aspects of biological processes and of the study of polymers and biological macromolecules.

All contributions are judged on the criteria of (i) originality and quality of scientific content and (ii) appropriateness of the length to the content of new science. Short papers are acceptable provided that they constitute full reports of completed pieces of work and are not fragments of more extensive studies.

Manuscripts (three copies typed in double spacing) should be addressed to:

The Manager, Journals,
Royal Society of Chemistry,
Burlington House,
Piccadilly,
LONDON W1V 0BN

Particular attention should be paid to the use of standard methods of literature citation, including the journal abbreviations defined in Chemical Abstracts Service Source Index. Wherever possible, the nomenclature employed should follow IUPAC recommendations, and units and symbols should be those associated with SI.

All queries relating to the presentation and submission of papers, and any correspondence regarding accepted papers and proofs, should be directed to the Editor, *Perkin Transactions 1* or *2* (address as above). Members of the Perkin Editorial Board (who may be contacted directly or *via* the Editorial Office) would welcome comments, suggestions, and advice on general policy matters concerning *Perkin Transactions*.

Fifty reprints of each published contribution are supplied free of charge, and further copies can be purchased.
