ROYAL SOCIETY OF CHEMISTRY

## Officers and Council of the Perkin Division

1987-88

### President

Professor A. R. Battersby

### Vice Presidents

Professor A. G. Davies                      Dr. A. M. Roe  
Professor C. H. Hassall                    Dr. P. G. Sammes

### Ordinary Members

Dr. G. M. Blackburn                      Professor B. T. Golding  
Professor J. G. Buchanan                Professor J. MacMillan  
Dr. N. S. Crossley                        Professor G. Pattenden  
Dr. P. Cullis                                Dr. B. J. Price  
Dr. S. G. Davies

### Honorary Secretary/Treasurer

Dr. J. S. Davies

## Information for Authors

Full details of how to submit material for publication in *Perkin Transactions 1* and *2* are given in Instructions for Authors (*J. Chem. Soc., Perkin Trans. 1* or *2*, 1987, Issue 1).

The subject matter of *Perkin Transactions 1* embraces all aspects of organic and bio-organic chemistry. These include synthetic organic chemistry of all types, organometallic chemistry, chemistry and biosynthesis of natural products, the relationship between molecular structure and biological activity, the chemistry of polymers and biological macromolecules, and medicinal and agricultural chemistry where there is originality in the science.

*Perkin Transactions 2* deals with the physicochemical aspects of organic, organometallic and bio-organic chemistry including kinetic, mechanistic, structural, spectroscopic, and theoretical studies. Such topics include structure-activity relationships and physical aspects of biological processes and of the study of polymers and biological macromolecules.

All contributions are judged on the criteria of (i) originality and quality of scientific content and (ii) appropriateness of the length to the content of new science. Short papers are acceptable provided that they constitute full reports of completed pieces of work and are not fragments of more extensive studies.

Manuscripts (three copies typed in double spacing) should be addressed to:

The Manager, Journals,  
Royal Society of Chemistry,  
Burlington House,  
Piccadilly,  
LONDON W1V 0BN

Particular attention should be paid to the use of standard methods of literature citation, including the journal abbreviations defined in Chemical Abstracts Service Source Index. Wherever possible, the nomenclature employed should follow IUPAC recommendations, and units and symbols should be those associated with SI.

All queries relating to the presentation and submission of papers, and any correspondence regarding accepted papers and proofs, should be directed to the Editor, *Perkin Transactions 1* or *2* (address as above). Members of the Perkin Editorial Board (who may be contacted directly or *via* the Editorial Office) would welcome comments, suggestions, and advice on general policy matters concerning *Perkin Transactions*.

Fifty reprints of each published contribution are supplied free of charge, and further copies can be purchased.
