ROYAL SOCIETY OF CHEMISTRY

**Officers and Council of the Dalton Division  
1985-86**

*President*

Professor P. M. Maitlis

*Vice Presidents*

Professor D. C. Bradley	Dr. B. F. G. Johnson
Professor J. D. Donaldson	Professor D. W. A. Sharp
Professor C. D. Garner	Professor K. Wade

*Ordinary Members*

Professor R. J. H. Clark	Dr. S. M. Nelson
Dr. P. Day	Dr. J. S. Ogden
Dr. M. Green	Dr. T. A. Stephenson
Dr. B. T. Heaton	Professor A. E. Underhill
Dr. P. Moore	Dr. R. Whyman

*Honorary Secretary/Treasurer*

Professor J. A. McCleverty

**Information for Authors**

Full details of how to submit material for publication in *Dalton Transactions* are given in Instructions for Authors (*J. Chem. Soc., Dalton Trans.*, 1985, Issue 1).

The subject matter of the journal embraces all aspects of the chemistry of inorganic and organometallic compounds, including bioinorganic and solid-state inorganic chemistry. A contribution may be submitted in the form of a Paper, a Note, or a Letter. All contributions are judged on the criteria of (i) originality and quality of scientific content and (ii) appropriateness of the length to content of new science.

Notes are intended for the description of essentially complete pieces of work which are not of the length to justify a full paper (*i.e.* not more than about eight pages of typescript, including Figures, Tables, *etc.*). However, full experimental details are required.

Letters are a medium for the expression of scientific opinions and views normally concerning material published in the Society's journals; they should not normally occupy more than two pages of typescript. Where a letter is polemical in nature, and if it is accepted, a reply will be solicited from other parties implicated, for publication alongside the original letter.

Manuscripts (three copies typed in double spacing) should be addressed to:

The Manager, Journals,  
Royal Society of Chemistry,  
Burlington House,  
Piccadilly,  
LONDON W1V 0BN

Particular attention should be paid to the use of standard methods of literature citation, including the journal abbreviations defined in Chemical Abstracts Service Source Index. Wherever possible, the nomenclature employed should follow IUPAC recommendations, and units and symbols should be those associated with SI.

All queries relating to the presentation and submission of papers, and any correspondence regarding accepted papers and proofs, should be directed to the Editor, *Dalton Transactions* (address as above). Members of the Dalton Editorial Board (who may be contacted directly or *via* the Editorial Office) would welcome comments, suggestions, and advice on general policy matters concerning *Dalton Transactions*.

Fifty reprints of each published contribution are supplied free of charge, and further copies can be purchased.
