

## Additions and Corrections

### Metallaborane Reaction Chemistry. Part 1. Two Interesting Closed Cluster Compounds from the Reaction of Acetylene with an Open *nido*-6-Iridadecaborane (1993, 2335)

Jonathan Bould, Paul Brint, John D. Kennedy and Mark Thornton-Pett

Page 2336. Fig. 1. The structure shown for  $[2,2,2-(\text{PH}_3)_2(\text{Ph}_2\text{P-ortho-C}_6\text{H}_4)\text{-closo-2-IrB}_9\text{H}_7\text{-10-(PPh}_3\text{)-1}]$  **4** is incorrect. The correct structure is shown below.

Page 2340. Right-hand column, lines 6 and 7, '*isocloso* structure type **II**' should read '*closo* structure type **VII**'.
