

Cover: The first ‘International Conference on Polyolefin Characterization’ started in 2006 with the main objective of hosting a world class technical conference that fills the industrial and academic need to share information on and to improve the understanding of polyolefin characterization (cf. Macromol. Symp. 257). This 2nd ICPC took place in Valencia, Spain, in September 2008.

The cover was composed by the editor.
