S. D. Hudson,* A. J. Lovinger, M. A. Gomez, J. Lorente, C. Marco, and J. G. Fatou: Relationship between Mesophase and Semicrystalline Morphology in Smectic Liquid Crystalline Polymers. Volume 27, Number 12, June 6, 1994, p 3357.

Through a mixup of two different versions of our manuscript, not all revisions were included in the published version. Accordingly, all references to 00/ after p 3359 and in Figure 1 should be multiplied by 2. We thank Prof. P. Geil for having brought this to our attention.
