

## CORRIGENDA

VINCENT P. GUTSCHICK & OLIVER G. LUDWIG, "Table of exact integrals of products of two associated Legendre functions," *Math. Comp.*, v. 23, 1969, p. 210, RMT 5.

The parenthetical word "rational" in the second line of this review should be deleted, inasmuch as when  $m_1 + m_2$  is *odd* the corresponding integrals have values equal to irrational numbers that are rational multiples of  $\pi$ . These rational coefficients are tabulated, as well as the rational values of the integrals, corresponding to  $m_1 + m_2$  *even*.

OLIVER G. LUDWIG

C. H. YANG, "On designs of maximal  $(+1, -1)$ -matrices of order  $n \equiv 2 \pmod{4}$ ," *Math. Comp.*, v. 22, 1968, pp. 174-180.

On p. 174, in line 14 from the bottom,

$$\text{for } a_{ij} = b_{ij} = \frac{n}{2}, \text{ read } a_{ii} = b_{ii} = \frac{n}{2}.$$

On p. 180, in line 2 and line 4,

*for*  $\dots$ , *read*  $\therefore$ ;

in line 5,

*for*  $U(US^{j-1})^T$ , *read*  $U(US^{j-i})^T$ .
