

CORRIGENDUM

SIDNEY KRAVITZ & JOSEPH S. MADACHY, *Divisors of Mersenne Numbers*,
Math. Comp., v. 19, 1965, p. 686, UMT 113.

The displayed table in this review should read

0	1	2	3	4
4921	2004	357	46	2

We have reproduced the main table in a different, more easily duplicated format. We list separately the 2004 primes, the 357 primes, etc., referred to above. A copy is deposited in the same UMT 113 file.
