SUBSCRIPTION INFORMATION: MATHEMATICS OF COMPUTATION is published quarterly, with issues numbered serially since Volume 1, Number 1. Subscription prices for Volumes 50 and 51 (1988) are \$181.00 list; \$145.00 institutional member; \$118.00 member of CBMS organizations; \$109.00 individual AMS member. A late charge of 10% of the subscription price will be imposed upon orders received from nonmember institutions and organizations after January 1 of the subscription year. Subscribers outside the United States and India must pay a postage surcharge of \$8.00; subscribers in India must pay a postage surcharge of \$18.00. Combination paper and microfiche subscription prices are \$241.00 list; \$193.00 institutional member. Microfiche of each issue will be mailed the fastest way before the issue is mailed by the printer.

BACK NUMBER INFORMATION: Back number prices *per volume* are for Volumes 1-21, \$82.00 list, \$66.00 member; for Volumes 22-33, \$124.00 list, \$99.00 institutional member; for Volumes 34-43, \$82.00 list, \$64.00 institutional member; Volumes 44-45, \$113.00 list, \$90.00 institutional member; Volumes 46-47, \$127.00 list, \$102.00 institutional member; Volumes 48-49, \$135.00 list, \$108.00 institutional member. Back volumes may be purchased on microfilm or microfiche from University Microfilms International, 300 North Zeeb Road, Ann Arbor, MI 48106.

UNPUBLISHED MATHEMATICAL TABLES: The editorial office of the journal maintains a repository of Unpublished Mathematical Tables (UMT). When a table is deposited in the UMT repository a brief summary of its contents is published in the section *Reviews and Descriptions of Tables and Books*. Upon request, the chairman of the editorial committee will supply copies of any table for a nominal cost per page. All tables and correspondence concerning the UMT should be sent to Walter Gautschi, Chairman, Editorial Committee, Mathematics of Computation, Department of Computer Sciences, Purdue University, West Lafayette, IN 47907.

Orders for subscriptions and publications of the American Mathematical Society should be addressed to the AMS, P.O. Box 1571, Annex Station, Providence, RI 02901-9930. *All orders must be accompanied by payment.* Other correspondence should be addressed to P.O. Box 6248, Providence, RI 02940.

MATHEMATICS OF COMPUTATION is published quarterly by the American Mathematical Society, 201 Charles Street, Providence, RI 02940. Second-class postage is paid at Providence, Rhode Island, and additional mailing offices. Postmaster: Send address changes to Mathematics of Computation, American Mathematical Society, P.O. Box 6248, Providence, RI 02940.

The paper used in this journal is acid-free and falls within the guidelines

MATHEMATICS OF COMPUTATION

TABLE OF CONTENTS

April 1988

Kenneth Eriksson and Claes Johnson , An Adaptive Finite Element Method for Linear Elliptic Problems	361
Sunil Kumar , Superconvergence of a Collocation-Type Method for Simple Turning Points of Hammerstein Equations	385
Andrew R. Conn, Nicholas I. M. Gould, and Philippe L. Toint , Testing a Class of Methods for Solving Minimization Problems with Simple Bounds on the Variables	399
D. Bini and V. Pan , Efficient Algorithms for the Evaluation of the Eigenvalues of (Block) Banded Toeplitz Matrices	431
James W. Demmel , The Probability That A Numerical Analysis Problem Is Difficult	449
F. W. J. Olver , Error Bounds for Linear Recurrence Relations	481
Jean-François Loiseau, Jean-Pierre Codaccioni, and Régis Cáböz , Hyperelliptic Integrals and Multiple Hypergeometric Series	501
Henry L. Gray and Nien fan Zhang , On a New Definition of the Fractional Difference	513
Shu Tezuka , On Optimal GFSR Pseudorandom Number Generators	531
Emma Lehmer , Connection Between Gaussian Periods and Cyclic Units ...	535
René Schoof and Lawrence C. Washington , Quintic Polynomials and Real Cyclotomic Fields with Large Class Numbers	543
Harvey Cohn and Jesse Deutsch , An Explicit Modular Equation in Two Variables for $\mathbf{Q}(\sqrt{3})$	557
Johannes Buchmann and H. C. Williams , On the Infrastructure of the Principal Ideal Class of an Algebraic Number Field of Unit Rank One	569
Pascual Llorente and Jordi Quer , On Totally Real Cubic Fields with Discriminant $D < 10^7$	581
Francis Buekenhout and Sarah Rees , The Subgroup Structure of the Mathieu Group M_{12}	595
E. Seah and D. R. Stinson , On the Enumeration of One-Factorizations of Complete Graphs Containing Prescribed Automorphism Groups	607
A. J. Stephens and H. C. Williams , Some Computational Results on a Problem Concerning Powerful Numbers	619
S. Battiato and W. Borho , Are There Odd Amicable Numbers Not Divisible by Three?	633

Reviews and Descriptions of Tables and Books	639
Oden and Carey 13 , Chavent and Jaffre 14 , Reinhardt 15 , Elschner 16 , Čížek 17 , Abramowitz and Stegun, Editors 18 , Bauer and Eidel 19a, b, c , Fibonacci (Sigler) 20 , van der Burgh and Mattheij, Editors 21 , Collatz, Meinardus and Nürnberger, Editors 22 , Keast and Fairweather, Editors 23 , Jamieson, Gannon and Douglass, Editors 24 , Deuffhard and Engquist, Editors 25	
Table Errata	653
Bateman Manuscript Project 610 , Oberhettinger and Badii 611 , Fibonacci 612	
Corrigenda	655
Rabinowitz, Dueck and Williams	
Author Index	659

Information for Contributors

Authors are encouraged to prepare articles electronically with the $\mathcal{A}_{\text{MS}}\text{-T}_{\text{E}}\text{X}$ software package in the AMS pre-print style and to provide the article in this electronic form for typesetting. While this procedure may not reduce the interval between submission and publication of an article, generally much more accurate copy will be returned for proofreading. Production time for manuscripts prepared with other systems, even $\text{T}_{\text{E}}\text{X}$ itself without $\mathcal{A}_{\text{MS}}\text{-T}_{\text{E}}\text{X}$, currently prevents cost-effective use of the existing electronic form. Before sending an $\mathcal{A}_{\text{MS}}\text{-T}_{\text{E}}\text{X}$ manuscript for typesetting, contact the AMS Composition department for details.

Manuscripts prepared by some means other than $\mathcal{A}_{\text{MS}}\text{-T}_{\text{E}}\text{X}$ should be doubled-spaced and produced in the format used by the journal. For journal abbreviations, see the latest *Mathematical Reviews* volume index. An author should submit the original and two copies of the manuscript and retain one copy. The author may suggest an appropriate editor for his paper. It is recommended that the author acquaint himself with the pertinent material contained in "A Manual for Authors of Mathematical Papers," which is available from the American Mathematical Society. All contributions intended for publication and all books for review should be addressed to Walter Gautschi, Chairman, Editorial Committee, Mathematics of Computation, Department of Computer Sciences, Purdue University, West Lafayette, Indiana 47907. The date received, which is published with the final version of an accepted paper, is the date received in the office of the Chairman of the Editorial Committee, and it is the responsibility of the author to submit manuscripts directly to this office.

Each article submitted for publication must be accompanied by a brief and reasonably self-contained abstract, and by 1980 *Mathematics Subject Classification* (1985 *Revision*) numbers. If a list of key words and phrases is included, it will be printed as a footnote on the first page. A list of the classification numbers may be found in the 1984 Subject Index to *Mathematical Reviews*. Authors are also encouraged to supply electronic addresses when available. These will be printed after the postal address at the end of each article.

Copying and Reprinting

Individual readers of this publication, and nonprofit libraries acting for them, are permitted to make fair use of the material, such as to copy an article for use in teaching or research. Permission is granted to quote brief passages from this publication in reviews provided the customary acknowledgement of the source is given.

Republication, systematic copying, or multiple reproduction of any material in this publication (including abstracts) is permitted only under license from the American Mathematical Society. Requests for such permission should be addressed to the Executive Director, American Mathematical Society, P.O. Box 6248, Providence, Rhode Island 02940.

The appearance of the code on the first page of an article in this journal indicates the copyright owner's consent for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law, provided that the fee of \$1.00 plus \$.25 per page for each copy be paid directly to Copyright Clearance Center, Inc., 21 Congress Street, Salem, Massachusetts 01970. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotion purposes, for creating new collective works, or for resale.
