SUBSCRIPTION INFORMATION: MATHEMATICS OF COMPUTATION is published quarterly, with issues numbered serially since Volume 1, Number 1. Subscription prices for Volumes 52 and 53 (1989) are \$183.00 list; \$146.00 institutional member; \$119.00 member of CBMS organizations; \$110.00 individual AMS member. A late charge of 10% of the subscription price will be imposed upon orders received from nonmember institutions and organizations after January 1 of the subscription year. Subscribers outside the United States and India must pay a postage surcharge of \$8.00; subscribers in India must pay a postage surcharge of \$18.00. Combination paper and microfiche subscription prices are \$243.00 list; \$195.00 institutional member. Microfiche of each issue will be mailed the fastest way before the issue is mailed by the printer.

BACK NUMBER INFORMATION: Back number prices *per volume* are for Volumes 1–21, \$82.00 list, \$66.00 member; for Volumes 22–33, \$124.00 list, \$99.00 institutional member; for Volumes 34–43, \$82.00 list, \$64.00 institutional member; Volumes 44–45, \$113.00 list, \$90.00 institutional member; Volumes 46–47, \$127.00 list, \$102.00 institutional member; Volumes 48–49, \$135.00 list, \$108.00 institutional member; Volumes 50–51, \$136.00 list, \$109.00 institutional member. Back volumes may be purchased on microfilm or microfiche from University Microfilms International, 300 North Zeeb Road, Ann Arbor, MI 48106.

UNPUBLISHED MATHEMATICAL TABLES: The editorial office of the journal maintains a repository of Unpublished Mathematical Tables (UMT). When a table is deposited in the UMT repository a brief summary of its contents is published in the section *Reviews and Descriptions of Tables and Books*. Upon request, the chairman of the editorial committee will supply copies of any table for a nominal cost per page. All tables and correspondence concerning the UMT should be sent to Walter Gautschi, Chairman, Editorial Committee, Mathematics of Computation, Department of Computer Sciences, Purdue University, West Lafayette, IN 47907.

Orders for subscriptions and publications of the American Mathematical Society should be addressed to the AMS, P.O. Box 1571, Annex Station, Providence, RI 02901-1571. *All orders must be accompanied by payment.* Other correspondence should be addressed to P.O. Box 6248, Providence, RI 02940.

MATHEMATICS OF COMPUTATION is published quarterly by the American Mathematical Society, 201 Charles Street, Providence, RI 02940. Second-class postage is paid at Providence, Rhode Island, and additional mailing offices. Postmaster: Send address changes to Mathematics of Computation, American Mathematical Society, P.O. Box 6248, Providence, RI 02940.

The paper used in this journal is acid-free and falls within the guidelines established to ensure permanence and durability. ∞

MATHEMATICS OF COMPUTATION

TABLE OF CONTENTS

April 1989

A. K. Aziz and Peter Monk , Continuous Finite Elements in Space and Time for the Heat Equation	255
I. Babuška and J. E. Osborn , Finite Element-Galerkin Approximation of the Eigenvalues and Eigenvectors of Selfadjoint Problems	275
Laurence A. Bales and Vassilios A. Dougalis , Cosine Methods for Nonlinear Second-Order Hyperbolic Equations	299
Alvin Bayliss, Yanyan Li, and Cathleen S. Morawetz , Scattering by a Potential Using Hyperbolic Methods	321
James H. Bramble, Joseph E. Pasciak, Peter H. Sammon, and Vidar Thomée , Incomplete Iterations in Multistep Backward Difference Methods for Parabolic Problems with Smooth and Nonsmooth Data	339
G. L. Browning and H.-O. Kreiss , Comparison of Numerical Methods for the Calculation of Two-Dimensional Turbulence	369
Wei Cai, David Gottlieb, and Chi-Wang Shu , Essentially Nonoscillatory Spectral Fourier Methods for Shock Wave Calculations	389
Bernardo Cockburn and Chi-Wang Shu , TVB Runge-Kutta Local Projection Discontinuous Galerkin Finite Element Method for Conservation Laws II: General Framework	411
Michel Crouzeix and Richard S. Falk , Nonconforming Finite Elements for the Stokes Problem	437
Vincenza Del Prete , Quadratic Convergence of Vortex Methods	457
Randall L. Dougherty, Alan Edelman, and James M. Hyman , Nonnegativity-, Monotonicity-, or Convexity-Preserving Cubic and Quintic Hermite Interpolation	471
Jim Douglas, Jr. and Junping Wang , An Absolutely Stabilized Finite Element Method for the Stokes Problem	495
Björn Engquist, Per Lötstedt, and Björn Sjögreen , Nonlinear Filters for Efficient Shock Computation	509
P. R. Garabedian , Design of a Large Helical System for Magnetic Fusion Experiments	539
Alex Gelman and Werner C. Rheinboldt , On the Computation of Finite Invariant Sets of Mappings	545
David Isaacson and Eli L. Isaacson , Comment on Calderón's Paper: "On an Inverse Boundary Value Problem"	553
Stephen L. Keeling , Galerkin/Runge-Kutta Discretizations for Parabolic Equations with Time-Dependent Coefficients	561
Marco Mosché Mostrel , On Some Numerical Schemes for Transonic Flow Problems	587
Elbridge Gerry Puckett , Convergence of a Random Particle Method to Solutions of the Kolmogorov Equation $u_t = \nu u_{xx} + u(1 - u)$	615

Stephen Roberts , Convergence of a Random Walk Method for the Burgers Equation	647
Blair Swartz , The Second-Order Sharpening of Blurred Smooth Borders ...	675
Reviews and Descriptions of Tables and Books	715
Ciarlet 9 , Greengard 10 , Gladwell 11 , Kowalik and Kitzmiller, Editors 12	
Author Index	719
Supplement to “Cosine Methods for Nonlinear Second-Order Hyperbolic Equations” by Laurence A. Bales and Vassilios A. Dougalis	S15
Supplement to “The Second-Order Sharpening of Blurred Smooth Borders” by Blair Swartz	S35

Information for Contributors

Authors are encouraged to prepare articles electronically with the \LaTeX software package in the AMS pre-print style and to provide the article in this electronic form for typesetting. While this procedure may not reduce the interval between submission and publication of an article, generally much more accurate copy will be returned for proofreading. Production time for manuscripts prepared with other systems, even \TeX itself without \LaTeX , currently prevents cost-effective use of the existing electronic form. Before sending an \LaTeX manuscript for typesetting, contact the AMS Composition department for details.

Manuscripts prepared by some means other than \LaTeX should be doubled-spaced and produced in the format used by the journal. For journal abbreviations, see the latest *Mathematical Reviews* volume index. An author should submit the original and two copies of the manuscript and retain one copy. The author may suggest an appropriate editor for his paper. It is recommended that the author acquaint himself with the pertinent material contained in “A Manual for Authors of Mathematical Papers,” which is available from the American Mathematical Society. All contributions intended for publication and all books for review should be addressed to Walter Gautschi, Chairman, Editorial Committee, Mathematics of Computation, Department of Computer Sciences, Purdue University, West Lafayette, Indiana 47907. The date received, which is published with the final version of an accepted paper, is the date received in the office of the Chairman of the Editorial Committee, and it is the responsibility of the author to submit manuscripts directly to this office.

Each article submitted for publication must be accompanied by a brief and reasonably self-contained abstract, and by 1980 *Mathematics Subject Classification* (1985 *Revision*) numbers. If a list of key words and phrases is included, it will be printed as a footnote on the first page. A list of the classification numbers may be found in the 1984 Subject Index to *Mathematical Reviews*. Authors are also encouraged to supply electronic addresses when available. These will be printed after the postal address at the end of each article.

Copying and Reprinting

Individual readers of this publication, and nonprofit libraries acting for them, are permitted to make fair use of the material, such as to copy an article for use in teaching or research. Permission is granted to quote brief passages from this publication in reviews provided the customary acknowledgement of the source is given.

Republication, systematic copying, or multiple reproduction of any material in this publication (including abstracts) is permitted only under license from the American Mathematical Society. Requests for such permission should be addressed to the Executive Director, American Mathematical Society, P.O. Box 6248, Providence, Rhode Island 02940.

The appearance of the code on the first page of an article in this journal indicates the copyright owner's consent for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law, provided that the fee of \$1.00 plus \$.25 per page for each copy be paid directly to Copyright Clearance Center, Inc., 21 Congress Street, Salem, Massachusetts 01970. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotion purposes, for creating new collective works, or for resale.
