in the continental U.S. and Canada and (401) 455-4000  
worldwide for the current subscription rates on all of these  
important translation journals!*

**\*DISCOUNTS AVAILABLE NOW!**

Try the *St. Petersburg Mathematical Journal* for one year and save 20% off the list price of \$848. Enjoy discounts of 30% off the list price by subscribing to 1 other Russian translation journal, 40% off by subscribing to 2 other Russian translation journals, and 50% off by subscribing to 3 others. This offer valid through December 31, 1992.

1992 Mathematical Sciences

# Professional Directory

The *Mathematical Sciences Professional Directory* is a handy reference to a wide variety of organizations of interest to the mathematical community. Updated annually, the *Directory* lists:

- officers, committee members and key staff of over 30 organizations including the AMS, MAA, SIAM, the American Statistical Association, the Institute of Mathematical Statistics, the Association for Computing Machinery, the National Council of Teachers of Mathematics, the National Academy of Sciences, and the American Association for the Advancement of Science
- addresses and telephone numbers of key staff
- mathematical sciences personnel of federal funding agencies
- departments of mathematical sciences in colleges and universities across the United States and Canada
- department chairs
- mathematical units of nonacademic organizations.

1991 *Mathematics Subject Classification*: 00  
ISBN 0-8218-0173-2, 227 pages (softcover), 1992  
List price \$40, Institutional member \$32  
Your ordering code is PRODIR/92MC

All prices subject to change. Free shipment by surface; for air delivery, please add \$6.50 per title. *Prepayment required.* **Order from:** American Mathematical Society, P. O. Box 1571, Annex Station, Providence, RI 02901-1571, or call toll free 800-321-4AMS (321-4267) in the continental U.S. and Canada to charge with VISA or MasterCard. Canada residents, please add 7% GST.

# VIDEOTAPES

## American Mathematical Society

The American Mathematical Society has an expanding collection of videotaped lectures that help to preserve a portrait of today's distinguished mathematicians while capturing the interest and enthusiasm of the speakers as they present material in their fields of expertise. You will find these expository lectures useful in courses, seminars, and general assemblies for students with an upper-level mathematics background. These inexpensive videotapes are also perfect for your school library. All videotapes belong to one of these exciting series:

AMS-MAA Joint  
Lecture Series

Selected Lectures

Progress  
in Mathematics

Science Television  
Productions

ICM Series

**For your FREE videotape brochure  
call AMS Customer Services  
at 800-321-4AMS (321-4267)  
in the continental U. S. and Canada  
and 401-455-4000 elsewhere.**

All videotapes are NTSC format on half-inch VHS videotape and are approximately 1 hour long. Videotapes in the *Progress in Mathematics* series are approximately 90 minutes long.

SYVERT P. NØRSETT, Division of Numerical Mathematics, The University of Trondheim and The Norwegian Institute of Technology, Alfred Getz vei 1, N-7034 Trondheim-NTH, Norway

HUGH C. WILLIAMS, Department of Computer Science, University of Manitoba, Winnipeg, Manitoba, Canada R3T 2N2

JOHN W. WRENCH, JR., 102 Mt. Olivet Boulevard, Frederick, MD 21701

## Editorial Information

As of May 6, 1992, the backlog for this journal was approximately 3 issues. This estimate is the result of dividing the number of manuscripts for this journal in the Providence office that have not yet gone to the printer on the above date by the average number of articles per issue over the previous twelve months.

A Copyright Transfer Agreement is required before a paper will be published in this journal. By submitting a paper to this journal, authors certify that the manuscript has not been submitted to nor is it under consideration for publication by another journal, conference proceedings, or similar publication.

## Information for Authors

The first page must consist of a *descriptive title*, followed by an *abstract* that summarizes the article in language suitable for workers in the general field (algebra, analysis, etc.). The *descriptive title* should be short, but informative; useless or vague phrases such as “some remarks about” or “concerning” should be avoided. The *abstract* must be brief and reasonably self-contained. Included with the footnotes to the paper, there should be the 1991 *Mathematics Subject Classification* representing the primary and secondary subjects of the article. This may be followed by a list of *key words and phrases* describing the subject matter of the article and taken from it. A list of the numbers may be found in the annual index of *Mathematical Reviews*, published with the December issue starting in 1990, as well as from the electronic service e-MATH [telnet e-MATH.ams.com (or telnet 130.44.1.100)]. Login and password are e-math]. For journal abbreviations used in bibliographies, see the list of serials in the latest *Mathematical Reviews* annual index. When the manuscript is submitted, authors should supply the editor with electronic addresses if available. These will be printed after the postal address at the end of each article.

**Electronically-prepared manuscripts.** The AMS encourages submission of electronically-prepared manuscripts in  $\mathcal{A}_{\mathcal{M}}\mathcal{S}\text{-}\mathcal{T}\mathcal{E}\mathcal{X}$  or  $\mathcal{A}_{\mathcal{M}}\mathcal{S}\text{-}\mathcal{L}\mathcal{T}\mathcal{E}\mathcal{X}$  because properly prepared electronic manuscripts save the author proofreading time and move more quickly through the production process. To this end, the Society has prepared “preprint” style files, specifically the amspt style of  $\mathcal{A}_{\mathcal{M}}\mathcal{S}\text{-}\mathcal{T}\mathcal{E}\mathcal{X}$  and the amsart style of  $\mathcal{A}_{\mathcal{M}}\mathcal{S}\text{-}\mathcal{L}\mathcal{T}\mathcal{E}\mathcal{X}$ , which will simplify the work of authors and of the production staff. Those authors who make use of these style files from the beginning of the writing process will further reduce their own effort.

*Guidelines for Preparing Electronic Manuscripts* provide additional assistance and are available for use with either  $\mathcal{A}_{\mathcal{M}}\mathcal{S}\text{-}\mathcal{T}\mathcal{E}\mathcal{X}$  or  $\mathcal{A}_{\mathcal{M}}\mathcal{S}\text{-}\mathcal{L}\mathcal{T}\mathcal{E}\mathcal{X}$ . Authors with FTP access may obtain these *Guidelines* from the Society’s Internet node e-MATH.ams.com (130.44.1.100). For those without FTP access they can be obtained free of charge from the e-mail address guide-elec@math.ams.com (Internet) or from the Publications Department, P. O. Box 6248, Providence, RI 02940-6248. When requesting *Guidelines* please specify which version you want.

Electronic manuscripts should be sent to the Providence office only after the paper has been accepted for publication. Please send electronically prepared manuscript files via e-mail to pub-submit@math.ams.com (Internet) or on diskettes to the Publications Department address listed above. When

submitting electronic manuscripts please be sure to include a message indicating in which publication the paper has been accepted.

An author should submit the original and two copies of the manuscript and retain one copy. The author may suggest an appropriate editor for his paper. All contributions intended for publication and all books for review should be addressed to Walter Gautschi, Chairman, Editorial Committee, Mathematics of Computation, Department of Computer Sciences, Purdue University, West Lafayette, Indiana 47907. The date received, which is published with the final version of an accepted paper, is the date received in the office of the Chairman of the Editorial Committee, and it is the responsibility of the author to submit manuscripts directly to this office. At the time of submission, authors should indicate if the paper has been prepared using  $\text{\LaTeX}$  or  $\text{\TeX}$ . The *Manual for Authors of Mathematical Papers* should be consulted for symbols and style conventions. The *Manual* may be obtained free of charge from the e-mail address [cust-serv@math.ams.com](mailto:cust-serv@math.ams.com) or from AMS, Customer Services Department, P. O. Box 6248, Providence, RI 02940-6248.

Any inquiries concerning a paper that has been accepted for publication should be sent directly to the Editorial Department, American Mathematical Society, P. O. Box 6248, Providence, RI 02940-6248.
