Model Shelly d'Inferno

Shelly d'Inferno is a tattooed model, performer, fashion designer, make-up artist and photographer. She has been involved in the alternative scene since many years back, and has graced the covers of several international magazines such as Bizarre Magazine, Skin Deep, Tattoo Italia and Advanced Photographer.

During early teens she experimented with photoshooting and discovered her passion for modeling, photography and styling, which she took on as a career after moving to London.

Alongside the already mentioned trades Shelly also designs and runs her own clothing company Inferal Clothing (previously Heavenly Inferno), that focuses on recycling used material for new creations. Having made clothes for a hobby since 15 years old, she also has a 3 year degree in fashion design. Inferal Clothing creates anything from punkrock streetwear, custom made stage-wear and creative costumes.

In 2013 Shelly was part of founding a new fire-group called Pyrohex and took on yet another profession as a fire performer. She practices the arts of poi, fire eating/breathing/body burning, double staffs, sai blades and angle grinding. Pyrohex have already performed at UK and France's biggest metal festivals Download and Hellfest, along with many other events and venues.

As a woman of many trades Shelly tends to be drawn towards many creative and versatile styles, which we can see by not only viewing her modeling portfolio, but her own photography and makeup looks. Quoting her own words Shelly explains she could never be stuck in one genre and that she knows herself as a bit of a shape-shifting wild-child who sees beauty in a lot of things.

Kristy von Kashyyyk Tattoomodel

(Germany)

Can you tell us a little about you?

My name is Chris, i'm 26 years old. I live in Passau, Lower Bavaria in Germany. I work in my mainjob with kids and parents. By the way i'm modeling. I love Metal music, especially Ghost, Six Feet Under and Milking the Goatmachine. I'm a total Star Wars Geek I have to collect everything with Star Wars on it. I'm living the vegan way for 5 years now. I am mom of two cats.

If you could change anything about yourself, what would it be?

If i could change anything about myself, i would change my self-criticism.

How did you start modeling?

I started modeling by a shooting with my boyfriend one year ago. Shooting photos was so fun to me, that i decided to do this more and more. At first i was very uncertain about what i'm doing. But with the next shootings i've learned so many about posing and my body.

What do you think of the work as a model?

Working as a model is a quite hard job. It's a very frivolous work where you always have to fight for your work.

What are your personal qualities which distinguish you from others?

I'm working hard for the things i love and i would do everything to get it.

What is your beauty regimen?

Always be yourself. You are beautiful the way you are.

What are your plans for the future?

I don't have any exact plans. I just want to do the things i love.

8 What are some of your favorite experiences so far?

My favourite experiences are meeting people who are reading your soul while looking into your eyes. I'm a very social person and this is just amazing.

Do you have any advice for those who want to start modeling?

The first advice is to love what you do. When it's fun to you to model, you will see it on every picture. The second advice is, just ask other models to introduce you! You always have to learn more and more in this scene and nobody will ever be perfect.

What do you think of the magazine?

I think the magazine is really interesting. Showing different personalities and different ways of beauty in the world is really important to creating prejudices from the world

Model Estelle Nowack (Germany)

Can you tell us a little about you?

I'm Estelle and I'm 23 years old. Just an alternative German girl with a French name that started modeling and loves art. I love to express myself through it and I love to have many projects open at any time, so I also study and work at a customer service center.

If you could change anything about yourself, what would it be?

Mhmm I don't think, that I would change anything about myself. I learned to love who I am.

How did you start modeling?

In 2014 I registered at a page for modeling and had 6 shootings. A few more the following year, some of them for a label campaign and a start up firm. Last year I had a lot more shootings and loved the modeling so much. I worked with such passionate artists, visited nice places and went to great meet-ups and parties. It was one of the best years in my life! A lot of the people I met are not only photographers or models to me anymore, they're friends.

What do you think of the work as a model?

It's a job, that you need a lot of passion and creativity for. It's also a very tough and time consuming one, if you make a living of it. The Business is hard but if you love what you do and stay creative and true to yourself, you don't find interesting jobs, they find you.

What is your beauty regimen?

I did a lot of sports in the past (triathlon for the most time) and I think I have good genes ;) at the moment I don't have much time for it though. When I'm not on set or in front of a camera I don't use make-up at all. My work free time, is also make-up free and I think my skin is very grateful for this.

What are your personal qualities which distinguish you from others?

I am a really passionate person that feels extremely connected to things and people I spend a lot of time with. Sometimes it's like my heart is too close to everything. But this also makes me able to love things even more. It is almost like the dark days that are behind me, gave me my best ideas and made me the creative person I am today.

Photographer: Pollography

What are your plans for the future?

I love to make art and would love to have a job in a creative area. Also, I would like to continue modeling in the future, because it's a way to express my feelings, that I just need in my life.

What are some of your favorite experiences so far?

In the past I had some hard times but through them, I learned to appreciate what I have. As I said before, 2016 was just one of the best years, that I've ever had, with great experiences and memories. There is also a road trip through Croatia I did once, that was absolutely amazing and always comes to mind, when someone asks me about the best times I had so far. To sum it up, I try to do what I want to do and don't wait for the right time. I just live my life in the moment and enjoy every second of it.

Do you have any advice for those who want to start modeling?

First, this is a difficult question to answer. Everyone is different and also there are so many ways to start in this business. I think it's important to start with a good photographer, because good pictures are the real basis of everything in modeling. If you don't know someone, consider hiring someone with a lot of experience, that not only takes good photos of you but also has some advice. Also, please first think about what you want to do and what you want to express with these first pictures. Get in contact with several people and just find someone who fits your personality and needs.

What do you think of the magazine?

I think this magazine is such a great thing! I love the idea so much and also thought about a concept like this before. Also, I find new talented models and photographer every time I read it.

Thank you so much!

Tattoo Model Marielle Lundin (Sweden)

Can you tell us a little about you?

Im Marielle Lundin, 26y old from Sweden.

so who am I.. I'm a car crazy lady, spending most of my time at work (which i love) and with my family, aaand obviously around cars.

If you could change anything about yourself, what would it be?

If i could change anything i would LOVE to have very cold green eyes, that would be so awesome.

How did you start modeling?

I won a tattoo contest for girls, like 2 years ago, and some photos start to spread and the model in me was born.

What do you think of the work as a model?

I dont really have modeling as a daily work but I think the model business is very fun, but underestimated, it's a very hard work and long days.

but it's all worth it, you meet so much fun and sweet personalities.

What is your beauty regimen?

Beauty for me is when you can se confidence in a person.

so if heavy make-up is your thing go for it, every day! or if you wanna look like you fall into a large bucket of ink and that makes you feel like yourself, then you have found your beauty.

What are your personal qualities which distinguish you from others?

That's a very hard question, but a wanna believe that i'm a fast learner and that i have easy to adapt myself to the way a photographer wants to work on a shoot.

I would love to say my tattoos as well but to be all inkedup is no biggie anymore.

What are your plans for the future?

To be completely honest i need to say that I am exactly where I want to be in life. I hope that my race car will be done soon, and i'm going to study further in the economy, so yeah well thats my future :)

What are some of your favorite experiences so far?

I was in a music video a while ago, and that was a new and different experience for sure.

What do you think of the magazine?

I think it's great, a lot of inspiration for both experienced and beginners. So it's very fun To get the opportunity to be featured in the magazine so I hopefully can inspire others as well.

Do you have any advice for those who want to start modeling?

Always say when girls ask me that question, contact a photographer you like and ask if you can take some pictures. Make sure that you get your name (link) with the pic, and continue so, eventually photographers will find you so you can more easily book photo shoots in the future.

there is a place in the model business for all kinds of models, so it dosent matter if you are a size 0, plus size, short, inked up or what ever you are, there is a place for you, you just need to find it.
