Editorial

The Maillard reaction in food and medicine: Current status and future aspects

Veronika Somoza 1485

Research Article

Assessment of heat treatment of dairy products by MALDI-TOF-MS

Jasmin Meltretter, Inès Birlouez-Aragon, Cord-Michael Becker and Monika Pischetsrieder

1487

Research Article

Hollow fibre-supported liquid membrane extraction and LC-MS/MS detection for the analysis of heterocyclic amines in urine samples

Rosa Busquets, Jan Åke Jönsson, Henrik Frandsen, Lluís Puignou, Maria Teresa Galceran and Kerstin Skog

1496

Research Article

Impact of various food ingredients on the retention of furan in foods

Fien Van Lancker, An Adams, Agnieszka Owczarek, Bruno De Meulenaer and Norbert De Kimpe 1505

Research Article

Conversion of 3-aminopropionamide and 3-alkylaminopropionamides into acrylamide in model systems

Rosario Zamora, Rosa M. Delgado and Francisco J. Hidalgo 1512

Research Article

Investigation of acrylamide formation on bakery products using a crust-like model

Özge Ç. Açar and Vural Gökmen 1521

Research Article

Effect of low-temperature long-time pre-treatment of wheat on acrylamide concentration in short dough biscuits

Monica Anese, Barbara Quarta, Martina Foschia and Renzo Bortolomeazzi 1526

Research Article

Effect of L-asparaginase on acrylamide mitigation in a fried-dough pastry model

Kristína Kukurová, Francisco J. Morales, Alena Bednáriková and Zuzana Ciesarová

1532

Research Article

Effect of sulforaphane on glutathione-adduct formation and on glutathione_S-transferase-dependent detoxification of acrylamide in Caco-2 cells

Rita Pernice, Johanna Hauder, Peter Koehler, Paola Vitaglione, Vincenzo Fogliano and Veronika Somoza

1540

Research Article

Intake of Maillard reaction products reduces iron bioavailability in male adolescents

Marta Mesías García, Isabel Seiquer, Cristina Delgado-Andrade, Gabriel Galdó and M. Pilar Navarro

1551

Regular

Research Article

Four selenoproteins, protein biosynthesis, and Wnt signalling are particularly sensitive to limited selenium intake in mouse colon

Anna Kipp, Antje Banning, Evert M. van Schothorst, Catherine Méplan, Lutz Schomburg, Chris Evelo, Susan Coort, Stan Gaj, Jaap Keijer, John Hesketh and Regina Brigelius-Flohé

1561

 Supporting information see www.mnf-journal.com

Research Article

Anticancer actions of natural and synthetic vitamin E forms: RRR- α -tocopherol blocks the anticancer actions of γ -tocopherol

Weiping Yu, Li Jia, Sook-Kyung Park, Jing Li, Archana Gopalan, Marla Simmons-Menchaca, Bob G. Sanders and Kimberly Kline

1573

Research Article

Naringin inhibits matrix metalloproteinase-9 expression and AKT phosphorylation in tumor necrosis factor- α -induced vascular smooth muscle cells

Eo-Jin Lee, Dong-Il Kim, Wun-Jae Kim and Sung-Kwon Moon

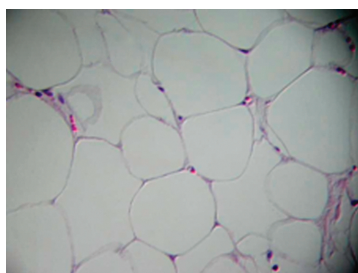

1582

Research Article

Individual and combined action of pancreatic lipase and pancreatic lipase-related proteins 1 and 2 on native versus homogenized milk fat globules

Amélie Berton, Corinne Sebban-Kreuzer, Stéphanie Rouvellac, Christelle Lopez and Isabelle Crenon

1592

Research Article

Anti-obese property of fucoxanthin is partly mediated by altering lipid-regulating enzymes and uncoupling proteins of visceral adipose tissue in mice

Myoung-Nam Woo, Seon-Min Jeon, Young Chul Shin, Mi-Kyung Lee, Mi Ae Kang and Myung-Sook Choi

1603
