Lipids as Effectors

Chi-Tang Ho S159

Review

Dietary lipids and their oxidized products in Alzheimer's disease

Laura Corsinovi, Fiorella Biasi, Giuseppe Poli, Gabriella Leonarduzzi and Gianluca Isaia S161

Research Article

Long-term adaptation of global transcription and metabolism in the liver of high-fat diet-fed C57BL/6J mice

Gyeong-Min Do, Hea Young Oh, Eun-Young Kwon, Yun-young Cho, Su-kyung Shin, Hae-Jin Park, Seon-Min Jeon, Eunjung Kim, Cheol-Goo Hur, Tae-Sun Park, Mi-Kyung Sung, Robin A. McGregor and Myung-Sook Choi. S173

 Supporting information see www.mnf-journal.com

Research Article

A high-fat diet reduces ceramide synthesis by decreasing adiponectin levels and decreases lipid content by modulating HMG-CoA reductase and CPT-1 mRNA expression in the skin

Takumi Yamane, Kazuo Kobayashi-Hattori and Yuichi Oishi. S186

Research Article

Regular endurance exercise improves the diminished hepatic carnitine status in mice fed a high-fat diet

Robert Ringseis, Frank-Christoph Mooren, Janine Keller, Aline Couturier, Gaiping Wen, Frank Hirche, Gabriele I. Stangl, Klaus Eder and Karsten Krüger S193

Research Article

Ginger phytochemicals mitigate the obesogenic effects of a high-fat diet in mice: A proteomic and biomarker network analysis

John H. Beattie, Fergus Nicol, Margaret-Jane Gordon, Martin D. Reid, Louise Cantlay, Graham W. Horgan, In-Sook Kwun, Ji-Yun Ahn and Tae-Youl Ha. S203

Research Article

Hypocholesterolemic and hypoglycemic effects of enzymatically modified carbohydrates from rice in high-fat-fed C57BL/6J mice

Muhammad J. H. Bhuiyan, Ha Viet Do, Saehun Mun, Hee-jin Jun, Ji Hae Lee, Yong-Ro Kim and Sung-Joon Lee S214

 Supporting information see www.mnf-journal.com

Research Article

Coenzyme Q10 suppresses oxLDL-induced endothelial oxidative injuries by the modulation of LOX-1-mediated ROS generation via the AMPK/PKC/NADPH oxidase signaling pathway

Kun-Ling Tsai, Li-Hsin Chen, Shih-Hwa Chiou, Guang-Yuh Chiou, Yu-Chih Chen, Hsiang-Yun Chou, Liang-Kung Chen, Hsiao-Yun Chen, Tsan-Hung Chiu, Chiou-Sheng Tsai, Hsiu-Chung Ou and Chung-Lan Kao . . . S227

 Supporting information see www.mnf-journal.com

Research Article

Comparison of the impact of *trans* fatty acids from ruminant and industrial sources on surrogate markers of cholesterol homeostasis in healthy men

Marie-Ève Labonté, Patrick Couture, Paul Paquin, Yvan Chouinard, Simone Lemieux and Benoît Lamarche . . . S241

Research Article

Conjugated linoleic acid protects against gliadin-induced depletion of intestinal defenses

Paolo Bergamo, Marta Gogliettino, Gianna Palmieri, Ennio Cocca, Francesco Maurano, Rosita Stefanile, Marco Balestrieri, Giuseppe Mazzarella, Chella David and Mauro Rossi . . . S248

 Supporting information see www.mnf-journal.com

Research Article

Vitamin C modulates the interaction between adipocytes and macrophages

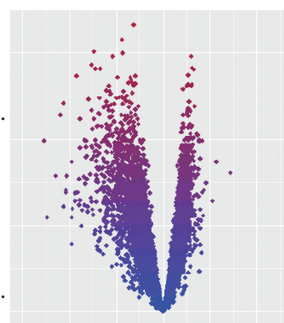

Diego F. Garcia-Diaz, Javier Campion, Pablo Quintero, Fermin I. Milagro, Maria J. Moreno-Aliaga and José. A. Martinez . . . S257

Research Article

Soy food supplementation, dietary fat reduction and peripheral blood gene expression in postmenopausal women – A randomized, controlled trial

Jun Wang, Kimberly Siegmund, Chiu-Cheng Tseng, Amy S. Lee and Anna H. Wu . . . S264

 Supporting information see www.mnf-journal.com

Research Article

Release of lipophilic molecules during in vitro digestion of soy protein-stabilized emulsions

Amir Malaki Nik, Milena Corredig and Amanda J. Wright . . . S278

Food & Function

Rye bran alkylresorcinols suppress adipocyte lipolysis and hormone-sensitive lipase activity

Ulrika Andersson, Estera S. Dey, Cecilia Holm and Eva Degerman . . . S290

 Supporting information see www.mnf-journal.com

Research Article

Stimulation of erythrocyte phospholipid scrambling by enniatin A

Kashif Jilani, Syed M. Qadri, Elisabeth Lang, Christine Zelenak, Anand Rotte, Diwakar Bobbala and Florian Lang . . . S294

Research Article

Phytosterols can impair vitamin D intestinal absorption in vitro and in mice

Auréli Goncalves, Béatrice Gleize, Romain Bott, Marion Nowicki, Marie-Josèphe Amiot, Denis Lairon, Patrick Borel and Emmanuelle Reboul . . . S303

Research Article

Extrusion cooking with glucose supplementation of fumonisin-contaminated corn grits protects against nephrotoxicity and disrupted sphingolipid metabolism in rats

Kenneth A. Voss, Ronald T. Riley, Lauren S. Jackson, Joseph E. Jablonski, Andreia Bianchini, Lloyd B. Bullerman, Milford A. Hanna and Dojin Ryu . . . S312
