**International directory of mycorrhizologists,
6th edition 1996**

Prepared by Valentin Furlan

Contents

Preface	280
List of countries with respective numbers of mycorrhizologists	281
List of code numbers of the fields of research on mycorrhizae	282
List of mycorrhizologists in alphabetic order (with complete addresses and individual information)	283-359
List of mycorrhizologists by field of research	360-394
List of mycorrhizologists by country	395-402

Preface

The first edition of the International Directory of Mycorrhizologists was distributed on the occasion of the 5th NACOM, which took place at Laval University, Quebec City, in 1981. It was the beginning of a new era in the mycorrhiza research world. Since then, an updated edition has been prepared and distributed to participants at each NACOM.

A few months ago, Dr. Dieter Czeschlik, life sciences editor at Springer, offered to assume future publication and distribution of the directory. This initiative is being realized with the First International Conference on Mycorrhizae (ICOM), held at Berkeley, California, on 4–9 August 1996. It is very gratifying to see that Springer will continue to respond to mycorrhizologists' communication needs. In the foreword of the

4th edition (1990), Dr. James M. Trappe wrote: "Science remains a very human endeavor. Electronics provide great tools for communication, but the tools are useless until we know *how* and *where* to contact our colleagues". The International Directory of Mycorrhizologists is an indispensable tool and will remain available as long as mycorrhiza research is conducted.

Springer and I plan to cooperate to meet any needs that may arise in the updating of this directory for future editions.

I express my gratitude to Mrs. Cacilla Tremblay, Mrs. Pauline Lauzon, and Mrs. Nicole Dubé for their help in the preparation of the directory.
