

An electronic archive containing approximately 195,000 articles and 1.2 million pages of ground-breaking chemical science papers published from 1841-1996.

# RSC Journals Archive

RSC Ads-24110430

## It offers:

- Rapid location of articles via full-text searching
- Reference linking in articles published after 1990
- A range of purchase options and pricing to suit individual requirements and budgets
- The flexibility of accessing archive information from your desktop
- A secure, cost-effective solution for the storage and retrieval of research journals
- Coverage from prestigious journals such as ChemComm, The Analyst, Dalton Transactions, Organic & Biomolecular Chemistry and the Journal of Materials Chemistry

*'It is very exciting to be able to search the full-text of approximately 195,000 papers (from 1841-1996)...The RSC is to be commended for providing both electronic access and full-text searching of this significant historical literature.'*

*Dana L. Roth, Caltech, USA*

your new weekly

# MATERIALS RESEARCH BREAKTHROUGH!

Journal of Materials  
Chemistry is the FIRST  
WEEKLY journal in the  
field - bringing you the  
latest research, faster!

*Journal of Materials Chemistry...*  
the only place to keep up-to-date, every week!
