# Unparalleled service Unparalleled support

## Are you in safe hands?

Bruker was the first analytical instrument manufacturer to offer a comprehensive service agreement covering all the costs of maintenance and repair. Today all Bruker customers in the UK can benefit from fully comprehensive maintenance cover across all products, an offer still unmatched in the industry.

Global hardware, electronics and software development teams provide customers with unparalleled help throughout the buying cycle, from evaluation, through the warranty period and for the lifetime of the instrument.

- ✓ Expert help with system configuration and site planning
- ✓ Professional, fully project-managed installation
- ✓ Dedicated helpdesk for service and applications support
- ✓ Totally integrated service and applications resource
- ✓ Planned maintenance programmes tailored to individual needs
- ✓ GLP compliant and validation certification
- ✓ Comprehensive instrument relocation assistance packages
- ✓ Proven commitment to first class customer support

Bruker UK customers have access to:

- ✓ Highly-qualified, trained, skilled and well-equipped engineers based both centrally and regionally
- ✓ Extensive replacement stock and resources to effect repairs locally
- ✓ Applications and software support including remote diagnostics and free technical telephone advice
- ✓ Training & seminar provision which includes in-depth new user training, software familiarisation, instructional seminars on new techniques, users' meetings and product updates

## Only from Bruker
