
Additions and corrections

Structural properties of cyclic peptides containing *cis*- or *trans*-2-aminocyclohexane carboxylic acid

Ulf Strijowski and Norbert Sewald

Org. Biomol. Chem., 2004, **2**, 1105–1109 (DOI: 10.1039/b312432k)

The authors regret the following errors:

In Table 1 and the legends of Fig. 2 and 3 there are errors in the peptide sequences. The corrected Table 1 is shown here:

Table 1 Synthesized peptides

No.	Sequence
P1	c-(-Asp-Ser-cACHC-Leu-Asn-)
P2	c-(-Asp-Ser-tACHC-Leu-Asn-)
P3	c-(-Ile-Asp-Ser-cACHC-Leu-Asn-)
P4	c-(-Ile-Asp-Ser-tACHC-Leu-Asn-)

Controlled intracellular localization and enhanced antisense effect of oligonucleotides by chemical conjugation

Takanori Kubo, Zhivko Zhelev, Bakalova Rumiana, Hideki Ohba, Keiko Doi and Masayuki Fujii

Org. Biomol. Chem., 2005, **3**, 3257–3259 (DOI: 10.1039/b507691a)

The authors wish to point out that in the author listing the third author's name should be **Rumiana Bakalova**, not Bakalova Rumiana.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.

Additions and corrections can be viewed online by accessing the original article to which they apply.
