## Catalysis Science & Technology

A multidisciplinary journal focusing on all fundamental science and technological aspects of catalysis.

Containing a mix of fundamental applied, experimental and computational work, *Catalysis Science & Technology* brings together homogeneous, heterogeneous and bio-catalysis research. The journal will provide a home to communications, full papers, perspectives and mini-reviews and is relevant to academic and industrial scientists.

*Catalysis Science & Technology* is led by a dynamic editorial team of active researchers in the field, including co-Editors-in-Chief Piet van Leeuwen (Institute of Chemical Research of Catalonia, Spain) and Cynthia Friend (Harvard University, USA) and Associate Editors Paul Chirik (Cornell University, USA), Noritaka Mizuno (University of Tokyo, Japan) and Paul Kamer (University of St Andrews, UK). With an international presence, the journal is well placed to publish the best research from authors spanning the catalysis community.

Work published in *Catalysis Science & Technology* will benefit from wide exposure, with free online access to all content published during 2011 and 2012 giving maximum visibility to your research.
